#	ARTICLE	IF	CITATIONS
1	Self-Determination Theory Applied to Health Contexts. <i>Perspectives on Psychological Science</i> , 2012, 7, 325-340.	5.2	1,309
2	Self-Determination Theory and Diminished Functioning. <i>Personality and Social Psychology Bulletin</i> , 2011, 37, 1459-1473.	1.9	720
3	A test of self-determination theory in school physical education. <i>British Journal of Educational Psychology</i> , 2005, 75, 411-433.	1.6	616
4	A self-determination approach to the understanding of motivation in physical education. <i>British Journal of Educational Psychology</i> , 2001, 71, 225-242.	1.6	599
5	A model of contextual motivation in physical education: Using constructs from self-determination and achievement goal theories to predict physical activity intentions.. <i>Journal of Educational Psychology</i> , 2003, 95, 97-110.	2.1	574
6	Psychological Need Thwarting in the Sport Context: Assessing the Darker Side of Athletic Experience. <i>Journal of Sport and Exercise Psychology</i> , 2011, 33, 75-102.	0.7	536
7	A Prospective Study of Participation in Optional School Physical Education Using a Self-Determination Theory Framework.. <i>Journal of Educational Psychology</i> , 2005, 97, 444-453.	2.1	476
8	A meta-analysis of self-determination theory-informed intervention studies in the health domain: effects on motivation, health behavior, physical, and psychological health. <i>Health Psychology Review</i> , 2021, 15, 214-244.	4.4	374
9	Organized Activities As Contexts of Development. , 0, , .		364
10	Dimensions of Coaching Behavior, Need Satisfaction, and the Psychological and Physical Welfare of Young Athletes. <i>Motivation and Emotion</i> , 2004, 28, 297-313.	0.8	342
11	A review of motivational climate in physical activity. <i>Journal of Sports Sciences</i> , 1999, 17, 643-665.	1.0	319
12	A Test of Self-Determination Theory in the Exercise Domain. <i>Journal of Applied Social Psychology</i> , 2006, 36, 2240-2265.	1.3	318
13	Autonomy support, basic need satisfaction and the optimal functioning of adult male and female sport participants: A test of basic needs theory. <i>Motivation and Emotion</i> , 2008, 32, 189-199.	0.8	304
14	The effect of an intervention to improve newly qualified teachers' interpersonal style, students motivation and psychological need satisfaction in sport-based physical education. <i>Contemporary Educational Psychology</i> , 2010, 35, 242-253.	1.6	296
15	Personal and Psychosocial Predictors of Doping Use in Physical Activity Settings: A Meta-Analysis. <i>Sports Medicine</i> , 2014, 44, 1603-1624.	3.1	294
16	The Controlling Interpersonal Style in a Coaching Context: Development and Initial Validation of a Psychometric Scale. <i>Journal of Sport and Exercise Psychology</i> , 2010, 32, 193-216.	0.7	291
17	The role of self-determined motivation in the understanding of exercise-related behaviours, cognitions and physical self-evaluations. <i>Journal of Sports Sciences</i> , 2006, 24, 393-404.	1.0	275
18	Self-determination theory applied to physical education: A systematic review and meta-analysis.. <i>Journal of Educational Psychology</i> , 2020, 112, 1444-1469.	2.1	271

#	ARTICLE	IF	CITATIONS
19	The Coach-Athlete Relationship Questionnaire (CART-Q): development and initial validation. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2004, 14, 245-257.	1.3	267
20	Students' Motivational Processes and Their Relationship to Teacher Ratings in School Physical Education. <i>Research Quarterly for Exercise and Sport</i> , 2006, 77, 100-110.	0.8	252
21	Relationships between changes in self-reported physical activity, sedentary behaviour and health during the coronavirus (COVID-19) pandemic in France and Switzerland. <i>Journal of Sports Sciences</i> , 2021, 39, 699-704.	1.0	241
22	Teacher motivational strategies and student self-determination in physical education.. <i>Journal of Educational Psychology</i> , 2007, 99, 747-760.	2.1	240
23	A classification of motivation and behavior change techniques used in self-determination theory-based interventions in health contexts.. <i>Motivation Science</i> , 2020, 6, 438-455.	1.2	239
24	Testing a self-determination theory-based teaching style intervention in the exercise domain. <i>European Journal of Social Psychology</i> , 2008, 38, 375-388.	1.5	238
25	Perceived coach-autonomy support, basic need satisfaction and the well- and ill-being of elite youth soccer players: A longitudinal investigation. <i>Psychology of Sport and Exercise</i> , 2012, 13, 51-59.	1.1	235
26	Predicting Students' Physical Activity and Health-Related Well-Being: A Prospective Cross-Domain Investigation of Motivation Across School Physical Education and Exercise Settings. <i>Journal of Sport and Exercise Psychology</i> , 2012, 34, 37-60.	0.7	229
27	A review of controlling motivational strategies from a self-determination theory perspective: implications for sports coaches. <i>International Review of Sport and Exercise Psychology</i> , 2009, 2, 215-233.	3.1	216
28	Motivational Predictors of Physical Education Students' Effort, Exercise Intentions, and Leisure-Time Physical Activity: A Multilevel Linear Growth Analysis. <i>Journal of Sport and Exercise Psychology</i> , 2010, 32, 99-120.	0.7	204
29	A Self-Determination Theory Approach to Understanding the Antecedents of Teachers' Motivational Strategies in Physical Education. <i>Journal of Sport and Exercise Psychology</i> , 2008, 30, 75-94.	0.7	194
30	Adherence and well-being in overweight and obese patients referred to an exercise on prescription scheme: A self-determination theory perspective. <i>Psychology of Sport and Exercise</i> , 2007, 8, 722-740.	1.1	187
31	Perceived Barriers, Facilitators and Benefits for Regular Physical Activity and Exercise in Patients with Rheumatoid Arthritis: A Review of the Literature. <i>Sports Medicine</i> , 2015, 45, 1401-1412.	3.1	173
32	Predicting the brighter and darker sides of interpersonal relationships: Does psychological need thwarting matter?. <i>Motivation and Emotion</i> , 2015, 39, 11-24.	0.8	171
33	Effects of a Sport Education Intervention on Students' Motivational Responses in Physical Education. <i>Journal of Teaching in Physical Education</i> , 2004, 23, 4-18.	0.9	170
34	Further Validation and Development of the Movement Imagery Questionnaire. <i>Journal of Sport and Exercise Psychology</i> , 2012, 34, 621-646.	0.7	162
35	A needs-supportive intervention to help PE teachers enhance students' prosocial behavior and diminish antisocial behavior. <i>Psychology of Sport and Exercise</i> , 2018, 35, 74-88.	1.1	156
36	Motivation in physical education classes. <i>Theory and Research in Education</i> , 2009, 7, 194-202.	0.4	155

#	ARTICLE	IF	CITATIONS
37	On passion and sports fans: A look at football. <i>Journal of Sports Sciences</i> , 2008, 26, 1279-1293.	1.0	149
38	Predicting young athletes' motivational indices as a function of their perceptions of the coach- and peer-created climate. <i>Psychology of Sport and Exercise</i> , 2006, 7, 215-233.	1.1	143
39	Antecedents of Perceived Coach Interpersonal Behaviors: The Coaching Environment and Coach Psychological Well- and Ill-Being. <i>Journal of Sport and Exercise Psychology</i> , 2012, 34, 481-502.	0.7	143
40	Motivational clusters in a sample of British physical education classes. <i>Psychology of Sport and Exercise</i> , 2002, 3, 177-194.	1.1	142
41	An Idiographic Analysis of Amotivation in Compulsory School Physical Education. <i>Journal of Sport and Exercise Psychology</i> , 2004, 26, 197-214.	0.7	136
42	Job pressure and ill-health in physical education teachers: The mediating role of psychological need thwarting. <i>Teaching and Teacher Education</i> , 2014, 37, 101-107.	1.6	131
43	Goal Striving, Goal Attainment, and Well-Being: Adapting and Testing the Self-Concordance Model in Sport. <i>Journal of Sport and Exercise Psychology</i> , 2007, 29, 763-782.	0.7	123
44	Beware of your teaching style: A school-year long investigation of controlling teaching and student motivational experiences. <i>Learning and Instruction</i> , 2018, 53, 50-63.	1.9	123
45	Empirical links between achievement goal theory and self-determination theory in sport. <i>Journal of Sports Sciences</i> , 2001, 19, 397-409.	1.0	122
46	Expanding autonomy psychological need states from two (satisfaction, frustration) to three (dissatisfaction): A classroom-based intervention study. <i>Journal of Educational Psychology</i> , 2019, 111, 685-702.	2.1	121
47	Predicting motivational regulations in physical education: the interplay between dispositional goal orientations, motivational climate and perceived competence. <i>Journal of Sports Sciences</i> , 2003, 21, 631-647.	1.0	115
48	Peer motivational climate in youth sport: a qualitative inquiry. <i>Psychology of Sport and Exercise</i> , 2005, 6, 497-516.	1.1	115
49	Understanding the coping process from a self-determination theory perspective. <i>British Journal of Health Psychology</i> , 2009, 14, 249-260.	1.9	115
50	Peer Motivational Climate in Youth Sport: Measurement Development and Validation. <i>Journal of Sport and Exercise Psychology</i> , 2005, 27, 432-455.	0.7	109
51	Unhealthy weight control behaviours in adolescent girls: a process model based on self-determination theory. <i>Psychology and Health</i> , 2010, 25, 535-550.	1.2	109
52	Students' Motivational Processes and Their Relationship to Teacher Ratings in School Physical Education: A Self-Determination Theory Approach. <i>Research Quarterly for Exercise and Sport</i> , 2006, 77, 100-110.	0.8	108
53	Effects of a standard provision versus an autonomy supportive exercise referral programme on physical activity, quality of life and well-being indicators: a cluster randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 10.	2.0	106
54	Initial validation of the coach-created Empowering and Disempowering Motivational Climate Questionnaire (EDMCQ-C). <i>Psychology of Sport and Exercise</i> , 2016, 22, 53-65.	1.1	106

#	ARTICLE	IF	CITATIONS
55	Dyadic interventions to promote physical activity and reduce sedentary behaviour: systematic review and meta-analysis. <i>Health Psychology Review</i> , 2019, 13, 91-109.	4.4	105
56	The effects of an experimental programme to support students'™ autonomy on the overt behaviours of physical education teachers. <i>European Journal of Psychology of Education</i> , 2008, 23, 239-253.	1.3	102
57	The social context as a determinant of teacher motivational strategies in physical education. <i>Psychology of Sport and Exercise</i> , 2009, 10, 235-243.	1.1	95
58	A longitudinal examination of coach and peer motivational climates in youth sport: Implications for moral attitudes, well-being, and behavioral investment.. <i>Developmental Psychology</i> , 2012, 48, 213-223.	1.2	95
59	Goal Striving, Coping, and Well-Being: A Prospective Investigation of the Self-Concordance Model in Sport. <i>Journal of Sport and Exercise Psychology</i> , 2011, 33, 124-145.	0.7	94
60	Affect and achievement goals in physical activity: a meta-analysis. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 1999, 9, 315-332.	1.3	92
61	Achievement Goals, Competition Appraisals, and the Psychological and Emotional Welfare of Sport Participants. <i>Journal of Sport and Exercise Psychology</i> , 2008, 30, 302-322.	0.7	92
62	Intentions to drop-out of youth soccer: A test of the basic needs theory among European youth from five countries. <i>International Journal of Sport and Exercise Psychology</i> , 2013, 11, 395-407.	1.1	92
63	Conceptualizing and testing a new tripartite measure of coach interpersonal behaviors. <i>Psychology of Sport and Exercise</i> , 2019, 44, 107-120.	1.1	90
64	Participation in Sport and Moral Functioning: Does Ego Orientation Mediate Their Relationship?. <i>Journal of Sport and Exercise Psychology</i> , 2003, 25, 501-518.	0.7	89
65	A Self-determination Theory Approach to the Study of Body Image Concerns, Self-presentation and Self-perceptions in a Sample of Aerobic Instructors. <i>Journal of Health Psychology</i> , 2007, 12, 301-315.	1.3	89
66	Basic Psychological Need Satisfaction, Stress-Related Appraisals, and Dancers'™ Cortisol and Anxiety Responses. <i>Journal of Sport and Exercise Psychology</i> , 2011, 33, 828-846.	0.7	86
67	Developmental trajectories of motivation in physical education: Course, demographic differences, and antecedents.. <i>Journal of Educational Psychology</i> , 2009, 101, 717-728.	2.1	84
68	The emergence of team resilience: A multilevel conceptual model of facilitating factors. <i>Journal of Occupational and Organizational Psychology</i> , 2018, 91, 729-768.	2.6	81
69	Contextual Influences on Moral Functioning of College Basketball Players. <i>Sport Psychologist</i> , 2002, 16, 347-367.	0.4	80
70	Mental Toughness in Sport: Motivational Antecedents and Associations With Performance and Psychological Health. <i>Journal of Sport and Exercise Psychology</i> , 2014, 36, 281-292.	0.7	80
71	The Role of Athlete Narcissism in Moderating the Relationship Between Coaches'™ Transformational Leader Behaviors and Athlete Motivation. <i>Journal of Sport and Exercise Psychology</i> , 2011, 33, 3-19.	0.7	78
72	In the beginning: Role of autonomy support on the motivation, mental health and intentions of participants entering an exercise referral scheme. <i>Psychology and Health</i> , 2011, 26, 729-749.	1.2	77

#	ARTICLE	IF	CITATIONS
73	The effects of training group exercise class instructors to adopt a motivationally adaptive communication style. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2017, 27, 1026-1034.	1.3	77
74	The relationship of coping and its perceived effectiveness to positive and negative affect in sport. <i>Personality and Individual Differences</i> , 1998, 24, 773-788.	1.6	75
75	Development of the Attitudes to Moral Decision-making in Youth Sport Questionnaire (AMDYSQ). <i>Psychology of Sport and Exercise</i> , 2007, 8, 369-392.	1.1	75
76	Relationships among Values, Achievement Orientations, and Attitudes in Youth Sport. <i>Journal of Sport and Exercise Psychology</i> , 2008, 30, 588-610.	0.7	72
77	Morality in Sport: A Self-Determination Theory Perspective. <i>Journal of Applied Sport Psychology</i> , 2009, 21, 365-380.	1.4	72
78	Effect of a Self-Determination Theory-Based Communication Skills Training Program on Physiotherapists' Psychological Support for Their Patients With Chronic Low Back Pain: A Randomized Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2015, 96, 809-816.	0.5	72
79	Measuring student motivation for physical education: Examining the psychometric properties of the Perceived Locus of Causality Questionnaire and the Situational Motivation Scale. <i>Psychology of Sport and Exercise</i> , 2011, 12, 284-292.	1.1	69
80	Self-determination theory interventions for health behavior change: Meta-analysis and meta-analytic structural equation modeling of randomized controlled trials.. <i>Journal of Consulting and Clinical Psychology</i> , 2020, 88, 726-737.	1.6	67
81	The Relationship between Competitive Anxiety, Achievement Goals, and Motivational Climates. <i>Research Quarterly for Exercise and Sport</i> , 1998, 69, 176-187.	0.8	66
82	The mediating role of coping strategies on the relationship between achievement motivation and affect in sport. <i>Anxiety, Stress and Coping</i> , 1999, 12, 299-327.	1.7	61
83	Achievement Goals, Competition Appraisals, and the Well- and Ill-Being of Elite Youth Soccer Players Over Two Competitive Seasons. <i>Journal of Sport and Exercise Psychology</i> , 2010, 32, 555-579.	0.7	61
84	When the Going Gets Tough: The "Why" of Goal Striving Matters. <i>Journal of Personality</i> , 2014, 82, 225-236.	1.8	60
85	Motivational climate, goal orientation, perceived sport ability, and enjoyment within Finnish junior ice hockey players. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2016, 26, 109-115.	1.3	60
86	Need-supportive professional development in elementary school physical education: Effects of a cluster-randomized control trial on teachers' motivating style and student physical activity.. <i>Sport, Exercise, and Performance Psychology</i> , 2018, 7, 218-234.	0.6	59
87	An internet-supported school physical activity intervention in low socioeconomic status communities: results from the Activity and Motivation in Physical Education (AMPED) cluster randomised controlled trial. <i>British Journal of Sports Medicine</i> , 2019, 53, 341-347.	3.1	57
88	Communication Skills Training for Practitioners to Increase Patient Adherence to Home-Based Rehabilitation for Chronic Low Back Pain: Results of a Cluster Randomized Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2017, 98, 1732-1743.e7.	0.5	56
89	Effects of perceived autonomy support from social agents on motivation and engagement of Chinese primary school students: Psychological need satisfaction as mediator. <i>Contemporary Educational Psychology</i> , 2019, 58, 323-330.	1.6	55
90	The basic psychological needs in exercise scale: Translation and evidence for cross-cultural validity. <i>International Journal of Sport and Exercise Psychology</i> , 2010, 8, 394-412.	1.1	54

#	ARTICLE	IF	CITATIONS
91	Exploratory bifactor analysis in sport, exercise, and performance psychology: A substantive-methodological synergy.. Sport, Exercise, and Performance Psychology, 2014, 3, 258-272.	0.6	54
92	Team resilience: A scoping review of conceptual and empirical work. Work and Stress, 2020, 34, 57-81.	2.8	54
93	Examining Exercise Dependence Symptomatology from a Self-determination Perspective. Journal of Health Psychology, 2006, 11, 887-903.	1.3	53
94	Weight maintenance: Self-regulatory factors underpinning success and failure. Psychology and Health, 2013, 28, 1207-1223.	1.2	51
95	An Ecological Momentary Assessment of Lapse Occurrences in Dieters. Annals of Behavioral Medicine, 2014, 48, 300-310.	1.7	51
