citing authors

#	ARTICLE	IF	CITATIONS
1	Neural basis of a multidimensional model of body image distortion in anorexia nervosa. <i>Neuroscience and Biobehavioral Reviews</i> , 2012, 36, 1839-1847.	6.1	139
2	Nonvisual Multisensory Impairment of Body Perception in Anorexia Nervosa: A Systematic Review of Neuropsychological Studies. <i>PLoS ONE</i> , 2014, 9, e110087.	2.5	115
3	A systematic review of resting-state functional-MRI studies in anorexia nervosa: Evidence for functional connectivity impairment in cognitive control and visuospatial and body-signal integration. <i>Neuroscience and Biobehavioral Reviews</i> , 2016, 41, 578-589.	6.1	112
4	Gray matter decrease distribution in the early stages of Anorexia Nervosa restrictive type in adolescents. <i>Psychiatry Research - Neuroimaging</i> , 2011, 191, 24-30.	1.8	76
5	Allocentric lock in anorexia nervosa: New evidences from neuroimaging studies. <i>Medical Hypotheses</i> , 2012, 79, 113-117.	1.5	73
6	Body-image distortion in anorexia nervosa. <i>Nature Reviews Disease Primers</i> , 2016, 2, .	30.5	70
7	The Neuropsychology of Self-Objectification. <i>European Psychologist</i> , 2015, 20, 34-43.	3.1	60
8	Out of body, out of space: Impaired reference frame processing in eating disorders. <i>Psychiatry Research</i> , 2015, 230, 732-734.	3.3	51
9	Predictors of initiation and persistence of recurrent binge eating and inappropriate weight compensatory behaviors in college men. <i>International Journal of Eating Disorders</i> , 2016, 49, 581-590.	4.0	49
10	Locked to a wrong body: Eating disorders as the outcome of a primary disturbance in multisensory body integration. <i>Consciousness and Cognition</i> , 2018, 59, 57-59.	1.5	48
11	Immersion in a virtual body: a locked allocentric memory may impair the experience of the body in both obesity and anorexia nervosa. <i>Eating and Weight Disorders</i> , 2014, 19, 133-134.	2.5	46
12	White matter abnormalities in treatment-naïve adolescents at the earliest stages of Anorexia Nervosa: A diffusion tensor imaging study. <i>Psychiatry Research - Neuroimaging</i> , 2017, 266, 138-145.	1.8	45
13	Altered resting state functional connectivity of anterior cingulate cortex in drug-naïve adolescents at the earliest stages of anorexia nervosa. <i>Scientific Reports</i> , 2015, 5, 10818.	3.3	44
14	Testing the cognitive-behavioural maintenance models across DSM-5 bulimic-type eating disorder diagnostic groups: a multi-centre study. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2015, 265, 663-676.	3.2	40
15	What Is the Role of the Placebo Effect for Pain Relief in Neurorehabilitation? Clinical Implications From the Italian Consensus Conference on Pain in Neurorehabilitation. <i>Frontiers in Neurology</i> , 2018, 9, 310.	2.4	40
16	Body Image in Anorexia Nervosa: The Link Between Functional Connectivity Alterations and Spatial Reference Frames. <i>Biological Psychiatry</i> , 2013, 73, e25-e26.	1.3	36
17	A Novel Technique for Improving Bodily Experience in a Non-operable Super Obese Case. <i>Frontiers in Psychology</i> , 2016, 7, 837.	2.1	35
18	Altered cerebellar-insular-parietal-cingular subnetwork in adolescents in the earliest stages of anorexia nervosa: a network-based statistic analysis. <i>Translational Psychiatry</i> , 2018, 8, 127.	4.8	29

#	ARTICLE	IF	CITATIONS
19	Limbic-thalamo-cortical projections and reward-related circuitry integrity affects eating behavior: A longitudinal DTI study in adolescents with restrictive eating disorders. PLoS ONE, 2017, 12, e0172129.	2.5	27
20	Brain and Cognitive Development in Adolescents with Anorexia Nervosa: A Systematic Review of fMRI Studies. Nutrients, 2019, 11, 1907.	4.1	27
21	Altered thalamo-cortical and occipital-parietal-temporal-frontal white matter connections in patients with anorexia and bulimia nervosa: a systematic review of diffusion tensor imaging studies. Journal of Psychiatry and Neuroscience, 2019, 44, 324-339.	2.4	24
22	Atypical anorexia nervosa is not related to brain structural changes in newly diagnosed adolescent patients. International Journal of Eating Disorders, 2018, 51, 39-45.	4.0	22
23	Prevalence of Personality Disorders and Their Clinical Correlates in Outpatient Adolescents With Anorexia Nervosa. Psychosomatic Medicine, 2011, 73, 769-774.	2.0	21
24	Alexithymia in parents and adolescents with generalised anxiety disorder. Clinical Psychologist, 2018, 22, 336-343.	0.8	15
25	Personality and eating and weight disorders: an open research challenge. Eating and Weight Disorders, 2018, 23, 143-147.	2.5	10
26	Reduced resting-state connectivity in areas involved in processing of face-related social cues in female adolescents with atypical anorexia nervosa. Translational Psychiatry, 2018, 8, 275.	4.8	10
27	Genetics of anorexia nervosa: An overview of genome-wide association studies and emerging biological links. Journal of Genetics and Genomics, 2022, 49, 1-12.	3.9	6
28	Neuroscience, Brain Imaging, and Body Image in Eating and Weight Disorders. , 2018, , 97-111.		5
29	What about the assessment of personality disturbance in adolescents with eating disorders?. Eating and Weight Disorders, 2017, 22, 551-552.	2.5	4
30	Virtual Reality for the Treatment of Body Image Disturbances in Eating and Weight Disorders. , 2018, , 333-351.		4
31	Phonological working memory is adversely affected in adults with anorexia nervosa: a systematic literature review. Eating and Weight Disorders, 2022, 27, 1931-1952.	2.5	2
32	Cognitive-behavioral or psychodynamic therapy for people with bulimia nervosa. Eating and Weight Disorders, 2017, 22, 555-556.	2.5	1
33	Severity of bulimia nervosa and its impact on treatment outcome. Eating and Weight Disorders, 2017, 22, 727-729.	2.5	0
