#	ARTICLE	IF	CITATIONS
1	Differences in diagnostic activity in general practice and findings for individuals invited to the danish screening programme for colorectal cancer: a population-based cohort study. <i>Scandinavian Journal of Primary Health Care</i> , 2018, 36, 281-290.	1.5	3
2	The value of using the faecal immunochemical test in general practice on patients presenting with non-alarm symptoms of colorectal cancer. <i>British Journal of Cancer</i> , 2018, 119, 471-479.	6.4	59
3	Development of the EMAP tool facilitating existential communication between general practitioners and cancer patients. <i>European Journal of General Practice</i> , 2017, 23, 261-268.	2.0	16
4	Data quality and factor analysis of the Danish version of the Relationship Scale Questionnaire. <i>PLoS ONE</i> , 2017, 12, e0176810.	2.5	5
5	Tumour stage and implementation of standardised cancer patient pathways: a comparative cohort study. <i>British Journal of General Practice</i> , 2016, 66, e434-e443.	1.4	14
6	Implementation of immunochemical faecal occult blood test in general practice: a study protocol using a cluster-randomised stepped-wedge design. <i>BMC Cancer</i> , 2016, 16, 445.	2.6	2
7	The existential dimension in general practice: identifying understandings and experiences of general practitioners in Denmark. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 385-393.	1.5	32
8	Beyond the placebo: understanding the therapeutic context. <i>British Journal of General Practice</i> , 2015, 65, 6-7.	1.4	3
9	Diagnostic intervals before and after implementation of cancer patient pathways – a GP survey and registry based comparison of three cohorts of cancer patients. <i>BMC Cancer</i> , 2015, 15, 308.	2.6	63
10	Sexual behaviour among young Danes aged 15–29 years: a cross-sectional study of core indicators. <i>Sexually Transmitted Infections</i> , 2015, 91, 171-177.	1.9	23
11	To test or not: A registry-based observational study of an online decision support for prostate-specific antigen tests. <i>International Journal of Medical Informatics</i> , 2013, 82, 973-979.	3.3	7
12	Evidence of increasing mortality with longer diagnostic intervals for five common cancers: A cohort study in primary care. <i>European Journal of Cancer</i> , 2013, 49, 2187-2198.	2.8	199
13	Risk of Burnout in Danish GPs and Exploration of Factors Associated with Development of Burnout: A Two-Wave Panel Study. <i>International Journal of Family Medicine</i> , 2013, 2013, 1-8.	1.2	29
14	Are the serious problems in cancer survival partly rooted in gatekeeper principles? An ecologic study. <i>British Journal of General Practice</i> , 2011, 61, e508-e512.	1.4	135
15	Impact of intensified testing for urogenital <i>Chlamydia trachomatis</i> infections: a randomised study with 9-year follow-up. <i>Sexually Transmitted Infections</i> , 2011, 87, 156-161.	1.9	31
16	Does the organizational structure of health care systems influence care-seeking decisions? A qualitative analysis of Danish cancer patients' reflections on care-seeking. <i>Scandinavian Journal of Primary Health Care</i> , 2011, 29, 144-149.	1.5	46
17	Which is more important for outcome: the physician's or the patient's understanding of a health problem? A 2-year follow-up study in primary care. <i>General Hospital Psychiatry</i> , 2010, 32, 1-8.	2.4	21
18	Training General Practitioners in the Treatment of Functional Somatic Symptoms: Effects on Patient Health in a Cluster-Randomised Controlled Trial (the Functional Illness in Primary Care Study). <i>Psychotherapy and Psychosomatics</i> , 2010, 79, 227-237.	8.8	49

#	ARTICLE	IF	CITATIONS
19	Patient characteristics associated with differences in patients' evaluation of their general practitioner. <i>BMC Health Services Research</i> , 2008, 8, 178.	2.2	40
20	Symptoms and Syndromes of Bodily Distress: An Exploratory Study of 978 Internal Medical, Neurological, and Primary Care Patients. <i>Psychosomatic Medicine</i> , 2007, 69, 30-39.	2.0	244
21	A randomized controlled trial of brief training in the assessment and treatment of somatization in primary care: effects on patient outcome. <i>General Hospital Psychiatry</i> , 2007, 29, 364-373.	2.4	75
22	Psychosocial impact of Chlamydia trachomatis testing in general practice. <i>British Journal of General Practice</i> , 2006, 56, 587-93.	1.4	16
23	Mental disorders in primary care: prevalence and co-morbidity among disorders. Results from the Functional Illness in Primary care (FIP) study. <i>Psychological Medicine</i> , 2005, 35, 1175-1184.	4.5	214
24	A brief case-finding questionnaire for common mental disorders: the CMDQ. <i>Family Practice</i> , 2005, 22, 448-457.	1.9	136
25	Classification of Somatization and Functional Somatic Symptoms in Primary Care. <i>Australian and New Zealand Journal of Psychiatry</i> , 2005, 39, 772-781.	2.3	131
26	Management of medically unexplained symptoms. <i>BMJ: British Medical Journal</i> , 2005, 330, 4-5.	2.3	88
27	Screening for common mental disorders: who will benefit? Results from a randomised clinical trial. <i>Family Practice</i> , 2005, 22, 428-434.	1.9	28
28	Classification of somatization and functional somatic symptoms in primary care. <i>Australian and New Zealand Journal of Psychiatry</i> , 2005, 39, 772-781.	2.3	11
29	A New, Empirically Established Hypochondriasis Diagnosis. <i>American Journal of Psychiatry</i> , 2004, 161, 1680-1691.	7.2	178
30	Value of Self-Reportable Screening Criteria to Identify Asymptomatic Individuals in the General Population for Urogenital Chlamydia trachomatis Infection Screening. <i>Clinical Infectious Diseases</i> , 2003, 36, 837-844.	5.8	10
31	Continuity of care: an essential element of modern general practice?. <i>Family Practice</i> , 2003, 20, 623-627.	1.9	119
32	A framework for clinical general practice and for research and teaching in the discipline. <i>Family Practice</i> , 2003, 20, 318-323.	1.9	15
33	Diagnosis of somatisation: effect of an educational intervention in a cluster randomised controlled trial. <i>British Journal of General Practice</i> , 2003, 53, 917-22.	1.4	43
34	Population-Based Strategies for Outreach Screening of Urogenital Chlamydia trachomatis Infections: A Randomized, Controlled Trial. <i>Journal of Infectious Diseases</i> , 2002, 185, 252-258.	4.0	113
35	Do We Need a Definition of General Practice/Family Medicine?. <i>European Journal of General Practice</i> , 2002, 8, 138-139.	2.0	4
36	Diagnosis of Urogenital Chlamydia trachomatis Infections by Home-obtained, Mailed Samples: Do we Need a Telephone Hotline for Information and Advice?. <i>Scandinavian Journal of Infectious Diseases</i> , 2002, 34, 262-266.	1.5	5

#	ARTICLE	IF	CITATIONS
37	Reproducibility of evaluation of the uterus by transvaginal sonography, hysterosonographic examination, hysteroscopy and magnetic resonance imaging. <i>Human Reproduction</i> , 2002, 17, 195-200.	0.9	105
38	Imaging Techniques for Evaluation of the Uterine Cavity and Endometrium in Premenopausal Patients Before Minimally Invasive Surgery. <i>Obstetrical and Gynecological Survey</i> , 2002, 57, 389-403.	0.4	38
39	Accuracy of magnetic resonance imaging and transvaginal ultrasonography in the diagnosis, mapping, and measurement of uterine myomas. <i>American Journal of Obstetrics and Gynecology</i> , 2002, 186, 409-415.	1.3	297
40	Evaluation of the uterine cavity with magnetic resonance imaging, transvaginal sonography, hysterosonographic examination, and diagnostic hysteroscopy. <i>Fertility and Sterility</i> , 2001, 76, 350-357.	1.0	166
41	Magnetic resonance imaging and transvaginal ultrasonography for the diagnosis of adenomyosis. <i>Fertility and Sterility</i> , 2001, 76, 588-594.	1.0	245
42	Psychological Distress as a Predictor of Frequent Attendance in Family Practice: A Cohort Study. <i>Psychosomatics</i> , 2001, 42, 416-422.	2.5	52
43	Patients in General Practice in Denmark Referred to Physiotherapists: A Description of Patient Characteristics Based on General Health Status, Diagnoses, and Sociodemographic Characteristics. <i>Physical Therapy</i> , 2001, 81, 915-923.	2.4	11
44	General practice--time for a new definition. <i>BMJ: British Medical Journal</i> , 2000, 320, 354-357.	2.3	104
45	Home Sampling versus Conventional Swab Sampling for Screening of Chlamydia trachomatis in Women: A Cluster-Randomized 1-Year Follow-up Study. <i>Clinical Infectious Diseases</i> , 2000, 31, 951-957.	5.8	168
46	Women's knowledge of and attitude towards organized cervical smear screening. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 1998, 77, 988-996.	2.8	13
47	Efficacy of home sampling for screening of Chlamydia trachomatis: randomised study. <i>BMJ: British Medical Journal</i> , 1998, 317, 26-27.	2.3	91
48	Organizing, storing, and analysing qualitative research information in a computer database. <i>Scandinavian Journal of Primary Health Care</i> , 1997, 15, 7-9.	1.5	0
49	From Strasbourg. <i>European Journal of General Practice</i> , 1996, 2, 51-52.	2.0	0
50	Research, technology assessment, and quality assurance. <i>European Journal of General Practice</i> , 1996, 2, 162-165.	2.0	6
51	Change in ranking order of prescribing patterns by age and sex standardization of the practice population -audit may be misleading. <i>Scandinavian Journal of Primary Health Care</i> , 1996, 14, 159-164.	1.5	3
52	General Practice Characteristics and use of PAP-smear. <i>Scandinavian Journal of Primary Health Care</i> , 1991, 9, 224-224.	1.5	2
53	Factors of Importance for the use of PAP-SMEAR in a Danish County without Systematic Screening. <i>Scandinavian Journal of Primary Health Care</i> , 1990, 8, 69-73.	1.5	1
54	Factors Affecting Prescription of Psychotropic Drugs in General Practice. <i>Scandinavian Journal of Primary Health Care</i> , 1988, 6, 169-173.	1.5	16

#	ARTICLE	IF	CITATIONS
55	The Pattern of Attendance at General Practice in the Years before the Diagnosis of Cervical Cancer: <i>A Case Control Study</i> . Scandinavian Journal of Primary Health Care, 1988, 6, 199-203.	1.5	4
56	Use of Pap Smear in General Practice by Case Finding or Screening Programme. Scandinavian Journal of Primary Health Care, 1986, 4, 59-62.	1.5	10
