#	ARTICLE	IF	CITATIONS
1	Temperature dependence of soleus H-reflex and M wave in young and older women. <i>European Journal of Applied Physiology</i> , 2005, 94, 491-499.	2.5	66
2	Eye Movements Affect Postural Control in Young and Older Females. <i>Frontiers in Aging Neuroscience</i> , 2016, 8, 216.	3.4	41
3	Effects of altered muscle temperature on neuromuscular properties in young and older women. <i>European Journal of Applied Physiology</i> , 2010, 108, 451-458.	2.5	38
4	Muscle temperature has a different effect on force fluctuations in young and older women. <i>Clinical Neurophysiology</i> , 2007, 118, 762-769.	1.5	25
5	Moderate alterations in lower limbs muscle temperature do not affect postural stability during quiet standing in both young and older women. <i>Journal of Electromyography and Kinesiology</i> , 2007, 17, 292-298.	1.7	21
6	Carrying shopping bags does not alter static postural stability and gait parameters in healthy older females. <i>Gait and Posture</i> , 2016, 46, 81-85.	1.4	15
7	Intraday Reliability and Sensitivity of Four Functional Ability Tests in Older Women. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2014, 93, 703-707.	1.4	13
8	Scottish Country Dance: Benefits to Functional Ability in Older Women. <i>Journal of Aging and Physical Activity</i> , 2014, 22, 146-153.	1.0	13
9	Head flexion and different walking speeds do not affect gait stability in older females. <i>Human Movement Science</i> , 2017, 55, 87-93.	1.4	8
10	Postural Stability of Older Female Scottish Country Dancers in Comparison With Physically Active Controls. <i>Journal of Aging and Physical Activity</i> , 2015, 23, 128-132.	1.0	7
11	Homogeneity of fascicle architecture following repeated contractions in the human gastrocnemius medialis. <i>Journal of Electromyography and Kinesiology</i> , 2015, 25, 870-875.	1.7	5
12	Visually fixating or tracking another person decreases balance control in young and older females walking in a real-world scenario. <i>Neuroscience Letters</i> , 2018, 677, 78-83.	2.1	5
13	Smooth pursuits decrease balance control during locomotion in young and older healthy females. <i>Experimental Brain Research</i> , 2017, 235, 2661-2668.	1.5	3
