citing authors

#	ARTICLE	IF	CITATIONS
1	Video-Assisted Thoracoscopic or Open Lobectomy in Early-Stage Lung Cancer. , 2022, 1, .		66
2	The importance of overcoming the challenges in delivering the Proper Understanding of Recurrent Stress Urinary Incontinence Treatment (PURSUIT) study. , 2022, 1, 100020.		1
3	Development of a new adapted QuinteT Recruitment Intervention (QRI-Two) for rapid application to RCTs underway with enrolment shortfalls to identify previously hidden barriers and improve recruitment. <i>Trials</i> , 2022, 23, 258.	1.6	10
4	SMALL: Open surgery versus minimally invasive vacuum-assisted excision for small screen-detected breast cancers.. <i>Journal of Clinical Oncology</i> , 2022, 40, TPS614-TPS614.	1.6	1
5	Video-assisted thoracoscopic versus open lobectomy in patients with early-stage lung cancer: One-year results from a randomized controlled trial (VIOLET).. <i>Journal of Clinical Oncology</i> , 2021, 39, 8504-8504.	1.6	17
6	What empirical research has been undertaken on the ethics of clinical research in India? A systematic scoping review and narrative synthesis. <i>BMJ Global Health</i> , 2021, 6, e004729.	4.7	5
7	“Overnight, things changed. Suddenly, we were in it”: a qualitative study exploring how surgical teams mitigated risks of COVID-19. <i>BMJ Open</i> , 2021, 11, e046662.	1.9	3
8	Strategies to Improve Recruitment to a De-escalation Trial: A Mixed-Methods Study of the OPTIMA Prelim Trial in Early Breast Cancer. <i>Clinical Oncology</i> , 2020, 32, 382-389.	1.4	3
9	Intensive Triangulation of Qualitative Research and Quantitative Data to Improve Recruitment to Randomized Trials: The QuinteT Approach. <i>Qualitative Health Research</i> , 2019, 29, 672-679.	2.1	38
10	Introduction and adoption of innovative invasive procedures and devices in the NHS: an in-depth analysis of written policies and qualitative interviews (the INTRODUCE study protocol). <i>BMJ Open</i> , 2019, 9, e029963.	1.9	11
11	Study protocol for Video assisted thoracoscopic lobectomy versus conventional Open LobEcTomy for lung cancer, a UK multicentre randomised controlled trial with an internal pilot (the VIOLET study). <i>BMJ Open</i> , 2019, 9, e029507.	1.9	55
12	The QuinteT Recruitment Intervention supported five randomized trials to recruit to target: a mixed-methods evaluation. <i>Journal of Clinical Epidemiology</i> , 2019, 106, 108-120.	5.0	49
13	Development of a framework to improve the process of recruitment to randomised controlled trials (RCTs): the SEAR (Screened, Eligible, Approached, Randomised) framework. <i>Trials</i> , 2018, 19, 50.	1.6	48
14	Adaptation of the By-Band randomized clinical trial to By-Band-Sleeve to include a new intervention and maintain relevance of the study to practice. <i>British Journal of Surgery</i> , 2017, 104, 1207-1214.	0.3	34
15	Enabling recruitment success in bariatric surgical trials: pilot phase of the By-Band-Sleeve study. <i>International Journal of Obesity</i> , 2017, 41, 1654-1661.	3.4	25
16	Informed consent in randomised controlled trials: development and preliminary evaluation of a measure of Participatory and Informed Consent (PIC). <i>Trials</i> , 2017, 18, 327.	1.6	9
17	“The trial is owned by the team, not by an individual”: a qualitative study exploring the role of teamwork in recruitment to randomised controlled trials in surgical oncology. <i>Trials</i> , 2016, 17, 212.	1.6	24
18	Optimising recruitment and informed consent in randomised controlled trials: the development and implementation of the Quintet Recruitment Intervention (QRI). <i>Trials</i> , 2016, 17, 283.	1.6	162

#	ARTICLE	IF	CITATIONS
19	Conveying Equipoise during Recruitment for Clinical Trials: Qualitative Synthesis of Clinicians' Practices across Six Randomised Controlled Trials. PLoS Medicine, 2016, 13, e1002147.	8.4	82
20	Patients' and clinicians' experiences of holistic needs assessment using a cancer distress thermometer and problem list: A qualitative study. European Journal of Oncology Nursing, 2016, 23, 59-65.	2.1	36
21	Understanding the role of teamwork in recruitment to randomised controlled trials in surgical oncology-results from an exploratory study. Trials, 2015, 16, .	1.6	0
22	A simple technique to identify key recruitment issues in randomised controlled trials: Q-QAT - quanti-qualitative appointment timing. Trials, 2015, 16, 88.	1.6	25
23	Clear obstacles and hidden challenges: understanding recruiter perspectives in six pragmatic randomised controlled trials. Trials, 2014, 15, 5.	1.6	194
24	Training recruiters to randomized trials to facilitate recruitment and informed consent by exploring patients' treatment preferences. Trials, 2014, 15, 323.	1.6	50
25	The By-Band study: gastric bypass or adjustable gastric band surgery to treat morbid obesity: study protocol for a multi-centre randomised controlled trial with an internal pilot phase. Trials, 2014, 15, 53.	1.6	36
26	The intellectual challenges and emotional consequences of equipoise contributed to the fragility of recruitment in six randomized controlled trials. Journal of Clinical Epidemiology, 2014, 67, 912-920.	5.0	114
27	"Keep an open mind": using qualitative research to make recruitment easier in the by-band randomised controlled trial. Trials, 2013, 14, .	1.6	0
28	A simple technique to identify key recruitment issues in randomised controlled trials: Q-QAT - quanti-qualitative appointment timing. Trials, 2013, 14, .	1.6	0
29	Evaluating best practice in informed consent discussions: a new method of evaluating information provision and patient understanding during trial recruitment consultations. Trials, 2013, 14, .	1.6	1
30	Key issues in recruitment to randomised controlled trials with very different interventions: a qualitative investigation of recruitment to the SPARE trial (CRUK/07/011). Trials, 2011, 12, 78.	1.6	112
