#	ARTICLE	IF	CITATIONS
1	Mapping groundwater recharge in Africa from ground observations and implications for water security. <i>Environmental Research Letters</i> , 2021, 16, 034012.	5.2	55
2	Groundwater recharge from heavy rainfall in the southwestern Lake Chad Basin: evidence from isotopic observations. <i>Hydrological Sciences Journal</i> , 2021, 66, 1359-1371.	2.6	17
3	Characterization of recharge mechanisms in a Precambrian basement aquifer in semi-arid south-west Niger. <i>Hydrogeology Journal</i> , 2019, 27, 475-491.	2.1	17
4	Observed controls on resilience of groundwater to climate variability in sub-Saharan Africa. <i>Nature</i> , 2019, 572, 230-234.	27.8	168
5	Fonctionnement hydrologique de la grande mare de Kokorou dans le socle cristallin du Liptako Gourma (Niger). <i>International Journal of Biological and Chemical Sciences</i> , 2019, 12, 2951.	0.2	0
6	Water table variations in the hyperarid Atacama Desert: Role of the increasing groundwater extraction in the pampa del tamarugal (Northern Chile). <i>Journal of Arid Environments</i> , 2019, 168, 9-16.	2.4	17
7	Impacts of a large Sahelian city on groundwater hydrodynamics and quality: example of Niamey (Niger). <i>Hydrogeology Journal</i> , 2016, 24, 407-423.	2.1	19
8	La petite irrigation par les eaux souterraines, une solution durable contre la pauvreté et les crises alimentaires au Niger? <i>Cahiers Agricultures</i> , 2016, 25, 15003.	0.9	8
9	Investigation of $^{36}\text{Cl}$ Distribution: Towards a New Estimation of Groundwater Residence Times in the Confined Aquifer of the LCB?. <i>Procedia Earth and Planetary Science</i> , 2015, 13, 147-150.	0.6	4
10	Building a field- and model-based climatology of local water and energy cycles in the cultivated Sahel annual budgets and seasonality. <i>Hydrology and Earth System Sciences</i> , 2014, 18, 5001-5024.	4.9	23
11	Clustering mesoscale convective systems with laser-based water vapor $\text{O}^{18}$ monitoring in Niamey (Niger). <i>Journal of Geophysical Research D: Atmospheres</i> , 2014, 119, 5079-5103.	3.3	44
12	Long-term increase in diffuse groundwater recharge following expansion of rainfed cultivation in the Sahel, West Africa. <i>Hydrogeology Journal</i> , 2014, 22, 1293-1305.	2.1	29
13	Occurrence of 1,1-dimethyl-4,4-bipyridinium (Paraquat) in irrigated soil of the Lake Chad Basin, Niger. <i>Environmental Science and Pollution Research</i> , 2014, 21, 10601-10613.	5.3	14
14	Evaluating surface and subsurface water storage variations at small time and space scales from relative gravity measurements in semiarid Niger. <i>Water Resources Research</i> , 2013, 49, 3276-3291.	4.2	30
15	Constraints and opportunities for groundwater irrigation arising from hydrologic shifts in the Iullemedden Basin, south-western Niger. <i>Water International</i> , 2013, 38, 465-479.	1.0	8
16	Modeling Increased Groundwater Recharge due to Change from Rainfed to Irrigated Cropping in a Semiarid Region. <i>Vadose Zone Journal</i> , 2013, 12, 2-12.	2.2	12
17	A 1-year long $\text{O}^{18}$ record of water vapor in Niamey (Niger) reveals insightful atmospheric processes at different timescales. <i>Geophysical Research Letters</i> , 2012, 39, .	4.0	70
18	Constraining Groundwater Modeling with Magnetic Resonance Soundings. <i>Ground Water</i> , 2012, 50, 775-784.	1.3	15

#	ARTICLE	IF	CITATIONS
19	Local and global hydrological contributions to time-variable gravity in Southwest Niger. <i>Geophysical Journal International</i> , 2011, 184, 661-672.	2.4	32
20	Arid zone groundwater recharge and salinisation processes; an example from the Lake Eyre Basin, Australia. <i>Journal of Hydrology</i> , 2011, 408, 257-275.	5.4	95
21	Measurements of water vapor isotope ratios with wavelength-scanned cavity ring-down spectroscopy technology: new insights and important caveats for deuterium excess measurements in tropical areas in comparison with isotope ratio mass spectrometry. <i>Rapid Communications in Mass Spectrometry</i> , 2011, 25, 3469-3480.	1.5	53
22	Évolution de la recharge de l'Applaine phréatique de Kairouan (Tunisie centrale) due à l'analyse géochimique. <i>Sécheresse</i> , 2009, 20, 087-095.	0.1	6
23	Assessment of Digital Elevation Model (DEM) aggregation methods for hydrological modeling: Lake Chad basin, Africa. <i>Computers and Geosciences</i> , 2009, 35, 1661-1670.	4.2	43
24	Contribution of geophysical surveys to groundwater modelling of a porous aquifer in semiarid Niger: An overview. <i>Comptes Rendus - Geoscience</i> , 2009, 341, 800-809.	1.2	38
25	Land clearance and hydrological change in the Sahel: SW Niger. <i>Global and Planetary Change</i> , 2008, 61, 135-150.	3.5	174
26	Remote sensing for groundwater modelling in large semiarid areas: Lake Chad Basin, Africa. <i>Hydrogeology Journal</i> , 2007, 15, 97-100.	2.1	68
27	Deep infiltration through a sandy alluvial fan in semiarid Niger inferred from electrical conductivity survey, vadose zone chemistry and hydrological modelling. <i>Catena</i> , 2006, 67, 105-118.	5.0	52
28	Comment on "Estimating groundwater mixing ratios and their uncertainties using a statistical multi-parameter approach" by Rueedi, J., Putschert, R., Beyerle, U., Alberich, C., Kipfer, R. <i>J. Hydrol.</i> , 2005, 305: 1-14. <i>Journal of Hydrology</i> , 2006, 318, 3-6.	5.4	2
29	Evidence for Megalake Chad, north-central Africa, during the late Quaternary from satellite data. <i>Palaeogeography, Palaeoclimatology, Palaeoecology</i> , 2006, 230, 230-242.	2.3	52
30	Reconstruction of Megalake Chad using Shuttle Radar Topographic Mission data. <i>Palaeogeography, Palaeoclimatology, Palaeoecology</i> , 2006, 239, 16-27.	2.3	91
31	Simulated impacts of climate change and land-clearing on runoff from a small Sahelian catchment. <i>Hydrological Processes</i> , 2004, 18, 3401-3413.	2.6	84
32	Comment on "Improving noble gas based paleoclimate reconstruction and groundwater dating using $^{20}\text{Ne}/^{22}\text{Ne}$ ratios" by F. Peeters et al. (2003) <i>Geochim. Cosmochim. Acta</i> , 67, 587-600. Associate editor: B. Marty. <i>Geochimica Et Cosmochimica Acta</i> , 2004, 68, 1433-1435.	3.9	2
33	Determining natural groundwater influx to a tropical river using radon, chlorofluorocarbons and ionic environmental tracers. <i>Journal of Hydrology</i> , 2003, 277, 74-88.	5.4	212
34	Major ion chemistry of groundwaters in the Continental Terminal water table of southwestern Niger (Africa). <i>Applied Geochemistry</i> , 2002, 17, 1343-1349.	3.0	25
35	Une dépression piémontaise naturelle en hausse au Sahel (Sud-Ouest du Niger). <i>Comptes Rendus - Geoscience</i> , 2002, 334, 395-401.	1.2	23
36	Estimate of Recharge of a Rising Water Table in Semiarid Niger from $^3\text{H}$ and $^{14}\text{C}$ Modeling. <i>Ground Water</i> , 2002, 40, 144-151.	1.3	59
