#	ARTICLE	IF	CITATIONS
1	MMR Vaccination: A Potential Strategy to Reduce Severity and Mortality of COVID-19 Illness. American Journal of Medicine, 2021, 134, 153-155.	1.5	30
2	Supplementing sleep actigraphy with button pressing while awake. PLoS ONE, 2020, 15, e0234060.	2.5	1
3	Supplementing sleep actigraphy with button pressing while awake. , 2020, 15, e0234060.		0
4	Supplementing sleep actigraphy with button pressing while awake. , 2020, 15, e0234060.		0
5	Supplementing sleep actigraphy with button pressing while awake. , 2020, 15, e0234060.		0
6	Supplementing sleep actigraphy with button pressing while awake. , 2020, 15, e0234060.		0
7	Effects of psychosocial and physical stress on lactate and anxiety levels. Stress, 2019, 22, 664-669.	1.8	25
8	Hypoventilation Therapy Alleviates Panic by Repeated Induction of Dyspnea. Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, 2018, 3, 539-545.	1.5	19
9	Assessing sleep quality using self-report and actigraphy in PTSD. Journal of Sleep Research, 2018, 27, e12632.	3.2	23
10	Motivation to Participate in PTSD Research. JAMA - Journal of the American Medical Association, 2018, 319, 2439.	7.4	0
11	Effects of therapeutic relationship, expectancy, and credibility in breathing therapies for anxiety. Bulletin of the Menninger Clinic, 2015, 79, 116-130.	0.6	20
12	Psychiatry on Trial. Journal of Nervous and Mental Disease, 2014, 202, 181-185.	1.0	6
13	For distinguished contributions to psychophysiology: Judith M. Ford. Psychophysiology, 2012, 49, 151-153.	2.4	4
14	Diversity of effective treatments of panic attacks: what do they have in common?. Depression and Anxiety, 2010, 27, 5-11.	4.1	13
15	Psychophysiological characteristics of women suffering from stress-related fatigue. Stress and Health, 2010, 26, 113-126.	2.6	22
16	The psychophysiology of generalized anxiety disorder: 1. Pretreatment characteristics. Psychophysiology, 2008, 45, 366-376.	2.4	20
17	The psychophysiology of generalized anxiety disorder: 2. Effects of applied relaxation. Psychophysiology, 2008, 45, 377-388.	2.4	22
18	Sympathetic activation in broadly defined generalized anxiety disorder. Journal of Psychiatric Research, 2008, 42, 205-212.	3.1	56

#	ARTICLE	IF	CITATIONS
19	Muscle relaxation therapy for anxiety disorders: It works but how?. Journal of Anxiety Disorders, 2007, 21, 243-264.	3.2	162
20	Psychophysiological Effects of Breathing Instructions for Stress Management. Applied Psychophysiology Biofeedback, 2007, 32, 89-98.	1.7	76
21	Are Current Theories of Panic Falsifiable?. Psychological Bulletin, 2005, 131, 171-192.	6.1	53
22	Respiratory feedback for treating panic disorder. Journal of Clinical Psychology, 2004, 60, 197-207.	1.9	48
23	Selective attention in anxiety: Distraction and enhancement in visual search. Depression and Anxiety, 2003, 18, 18-28.	4.1	86
24	Breathing Training for Treating Panic Disorder. Behavior Modification, 2003, 27, 731-754.	1.6	70
25	Reduced communication between frontal and temporal lobes during talking in schizophrenia. Biological Psychiatry, 2002, 51, 485-492.	1.3	300
26	High altitudes, anxiety, and panic attacks: is there a relationship?. Depression and Anxiety, 2002, 16, 51-58.	4.1	45
27	Physiologic instability in panic disorder and generalized anxiety disorder. Biological Psychiatry, 2001, 49, 596-605.	1.3	151
28	Cortical responsiveness during talking and listening in schizophrenia: an event-related brain potential study. Biological Psychiatry, 2001, 50, 540-549.	1.3	119
29	The emotional Stroop effect in anxiety disorders. Journal of Anxiety Disorders, 2001, 15, 147-159.	3.2	168
30	Cortical Responsiveness During Inner Speech in Schizophrenia: An Event-Related Potential Study. American Journal of Psychiatry, 2001, 158, 1914-1916.	7.2	71
31	Respiratory Biofeedback-Assisted Therapy in Panic Disorder. Behavior Modification, 2001, 25, 584-605.	1.6	93
32	Neurophysiological Evidence of Corollary Discharge Dysfunction in Schizophrenia. American Journal of Psychiatry, 2001, 158, 2069-2071.	7.2	267
33	Event-Related Potential Correlates of Acquisition and Retrieval of Verbal Associations in Schizophrenics and Controls. Journal of Psychophysiology, 2000, 14, 87-96.	0.7	6
34	Autonomic instability during relaxation in panic disorder. Psychiatry Research, 1998, 80, 155-164.	3.3	44
35	Clinical Characteristics of Flight Phobia. Journal of Anxiety Disorders, 1997, 11, 241-261.	3.2	70
36	Activation in novice and expert parachutists while jumping. Psychophysiology, 1996, 33, 63-72.	2.4	36

#	ARTICLE	IF	CITATIONS
37	Elderly men and women are less responsive to startling noises: N1, P3 and blink evidence. <i>Biological Psychology</i> , 1995, 39, 57-80.	2.2	45
38	ERPs for infrequent omissions and inclusions of stimulus elements. <i>Psychophysiology</i> , 1994, 31, 544-552.	2.4	73
39	ERPs in schizophrenia: Effects of antipsychotic medication. <i>Biological Psychiatry</i> , 1994, 36, 153-170.	1.3	211
40	Auditory event-related potentials and electrodermal activity in medicated and unmedicated schizophrenics. <i>Biological Psychiatry</i> , 1991, 29, 585-599.	1.3	63
41	How "blind" are double-blind studies?. <i>Journal of Consulting and Clinical Psychology</i> , 1991, 59, 184-187.	2.0	111
42	Biological vs. Psychological Treatments of Anxiety Disorders. , 1991, , 205-225.		0
43	Event-Related Potentials to Time-Deviant and Pitch-Deviant Tones. <i>Psychophysiology</i> , 1988, 25, 249-261.	2.4	124
44	Event-Related Potentials to Breaks in Sequences of Alternating Pitches or Interstimulus Intervals. <i>Psychophysiology</i> , 1988, 25, 262-268.	2.4	141
45	Anxiety induced by false heart rate feedback in patients with panic disorder. <i>Behaviour Research and Therapy</i> , 1988, 26, 1-11.	3.1	154
46	Autonomic changes after treatment of agoraphobia with panic attacks. <i>Psychiatry Research</i> , 1988, 24, 95-107.	3.3	19
47	Selective Processing of Threat Cues in Subjects with Panic Attacks. <i>Cognition and Emotion</i> , 1988, 2, 201-219.	2.0	204
48	P3 and (de)activation. <i>Behavioral and Brain Sciences</i> , 1988, 11, 393.	0.7	3
49	Biological models of panic disorder and agoraphobiaâ€”A review. <i>Behaviour Research and Therapy</i> , 1986, 24, 553-567.	3.1	120
50	Autonomic characteristics of agoraphobia with panic attacks. <i>Biological Psychiatry</i> , 1986, 21, 1133-1154.	1.3	94
51	Lactate infusions and panic attacks: Do patients and controls respond differently?. <i>Psychiatry Research</i> , 1986, 17, 295-308.	3.3	90
52	Combined pharmacological and behavioral treatment for agoraphobia. <i>Behaviour Research and Therapy</i> , 1985, 23, 325-335.	3.1	194
53	Intensity and Task Effects on Evoked Physiological Responses to Noise Bursts. <i>Psychophysiology</i> , 1984, 21, 466-481.	2.4	121
54	ERPs and Psychopathology I. Behavioral Process Issues. <i>Annals of the New York Academy of Sciences</i> , 1984, 425, 496-522.	3.8	12

#	ARTICLE	IF	CITATIONS
55	Clinical application of the P3 component of event-related potentials. I. Normal aging. <i>Electroencephalography and Clinical Neurophysiology - Evoked Potentials</i> , 1984, 59, 85-103.	2.0	395
56	Clinical application of the P3 component of event-related potentials. II. Dementia, depression and schizophrenia. <i>Electroencephalography and Clinical Neurophysiology - Evoked Potentials</i> , 1984, 59, 104-124.	2.0	527
57	Auditory event-related potentials in schizophrenia and depression. <i>Psychiatry Research</i> , 1981, 4, 199-212.	3.3	198
58	Age differences in P3-reaction time associations. <i>Electroencephalography and Clinical Neurophysiology</i> , 1980, 49, 257-265.	0.3	94
59	Age-related changes in auditory event-related potentials. <i>Electroencephalography and Clinical Neurophysiology</i> , 1980, 49, 266-276.	0.3	224
60	Event-related potentials in schizophrenics. <i>Electroencephalography and Clinical Neurophysiology</i> , 1980, 48, 127-139.	0.3	208
61	Age Effects on Event-related Potentials in a Selective Attention Task. <i>Journal of Gerontology</i> , 1979, 34, 388-395.	1.9	83
62	Event-related potential changes in healthy aged females. <i>Electroencephalography and Clinical Neurophysiology</i> , 1979, 46, 81-86.	0.3	62
63	Event-related potentials recorded from young and old adults during a memory retrieval task. <i>Electroencephalography and Clinical Neurophysiology</i> , 1979, 47, 450-459.	0.3	231
64	Event-related potential changes in chronic alcoholics. <i>Electroencephalography and Clinical Neurophysiology</i> , 1979, 47, 637-647.	0.3	119
65	The effects of ethanol and meperidine on auditory evoked potentials. <i>Drug and Alcohol Dependence</i> , 1979, 4, 371-380.	3.2	33
66	Long-Latency Evoked Potentials and Reaction Time. <i>Psychophysiology</i> , 1978, 15, 17-23.	2.4	134
67	The timing of CNV resolution in a memory retrieval task. <i>Biological Psychology</i> , 1978, 6, 39-49.	2.2	19
68	Auditory Evoked Potentials to Unpredictable Shifts in Pitch. <i>Psychophysiology</i> , 1976, 13, 32-39.	2.4	201
69	Prevalence and Methods of Control of the Cephalic Skin Potential EEG Artifact. <i>Psychophysiology</i> , 1974, 11, 350-360.	2.4	24
70	Auditory Evoked Responses to Unpredictable Stimuli. <i>Psychophysiology</i> , 1973, 10, 125-138.	2.4	186
71	THE AUDITORY EVOKED RESPONSE TO REPEATED STIMULI DURING A VIGILANCE TASK. <i>Psychophysiology</i> , 1969, 6, 301-309.	2.4	50
