#	ARTICLE	IF	CITATIONS
1	Effects of Physicians's Information Giving on Patient Outcomes: a Systematic Review. <i>Journal of General Internal Medicine</i> , 2022, 37, 651-663.	1.3	18
2	“What type of cells are these” flourishing in the liver? Cancer patients' disclosure of existential concerns in routine hospital consultations. <i>Patient Education and Counseling</i> , 2022, 105, 2019-2026.	1.0	8
3	Training physicians in providing complex information to patients with multiple sclerosis: a randomised controlled trial. <i>BMJ Open</i> , 2022, 12, e049817.	0.8	2
4	Time to advance the educational model of clinical communication in medicine. <i>Patient Education and Counseling</i> , 2022, 105, 1351-1352.	1.0	1
5	Tested communication strategies for providing information to patients in medical consultations: A scoping review and quality assessment of the literature. <i>Patient Education and Counseling</i> , 2021, 104, 1891-1903.	1.0	15
6	How Physicians Manage Medical Uncertainty: A Qualitative Study and Conceptual Taxonomy. <i>Medical Decision Making</i> , 2021, 41, 275-291.	1.2	35
7	How well do doctors understand a scientific article in English when it is not their first language? A randomised controlled trial. <i>BMJ Open</i> , 2021, 11, e043444.	0.8	1
8	Evaluating a training intervention for improving alignment between emergency medical telephone operators and callers: a pilot study of communication behaviours. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2021, 29, 107.	1.1	3
9	Communication Skills Training: A Means to Promote Time-Efficient Patient-Centered Communication in Clinical Practice. <i>Journal of Patient-centered Research and Reviews</i> , 2021, 8, 307-314.	0.6	15
10	“What should I do when I get home?” treatment plan discussion at discharge between specialist physicians and older in-patients: mixed method study. <i>BMC Health Services Research</i> , 2020, 20, 1002.	0.9	10
11	Codebook for rating clinical communication skills based on the Calgary-Cambridge Guide. <i>BMC Medical Education</i> , 2020, 20, 140.	1.0	15
12	Shared decision making: improving doctor-patient communication. <i>BMJ</i> , The, 2020, 368, m97.	3.0	7
13	Patient affect, physician liking for the patient, physician behavior, and patient reported outcomes: A modeling approach. <i>Patient Education and Counseling</i> , 2020, 103, 1143-1149.	1.0	6
14	Effective health communication “a key factor in fighting the COVID-19 pandemic. <i>Patient Education and Counseling</i> , 2020, 103, 873-876.	1.0	239
15	Saying “I Don't Know”: A Video-Based Study on Physicians' Claims of No-Knowledge in Assisted Reproductive Technology Consultations. <i>Frontiers in Psychology</i> , 2020, 11, 611074.	1.1	6
16	Uncertainty in health care: Towards a more systematic program of research. <i>Patient Education and Counseling</i> , 2019, 102, 1756-1766.	1.0	73
17	Contextualizing decisions: Stepping out of the SDM track. <i>Patient Education and Counseling</i> , 2019, 102, 815-816.	1.0	13
18	How participatory action research changed our view of the challenges of shared decision-making training. <i>Patient Education and Counseling</i> , 2018, 101, 639-646.	1.0	16

#	ARTICLE	IF	CITATIONS
19	Clinical decisions presented to patients in hospital encounters: a cross-sectional study using a novel taxonomy. <i>BMJ Open</i> , 2018, 8, e018042.	0.8	15
20	The possible impact of vulnerability on clinical communication: Some reflections and a call for empirical studies. <i>Patient Education and Counseling</i> , 2018, 101, 1990-1994.	1.0	6
21	“We are the barriers”: Danish general practitioners’ interpretations of why the existential and spiritual dimensions are neglected in patient care. <i>Communication and Medicine</i> , 2018, 14, 108-120.	0.1	34
22	Patient involvement and language barriers: Problems of agreement or understanding?. <i>Patient Education and Counseling</i> , 2017, 100, 1092-1102.	1.0	16
23	The perils of information giving: What an accidental incident taught us about messages and roles. <i>Patient Education and Counseling</i> , 2017, 100, 2109-2115.	1.0	1
24	How do international medical graduates and colleagues perceive and deal with difficulties in everyday collaboration? A qualitative study. <i>Scandinavian Journal of Public Health</i> , 2017, 45, 428-435.	1.2	15
25	Language barriers and professional identity: A qualitative interview study of newly employed international medical doctors and Norwegian colleagues. <i>Patient Education and Counseling</i> , 2017, 100, 1466-1472.	1.0	22
26	Development of the EMAP tool facilitating existential communication between general practitioners and cancer patients. <i>European Journal of General Practice</i> , 2017, 23, 261-268.	0.9	16
27	A patient in the clinic; a person in the world. Why shared decision making needs to center on the person rather than the medical encounter. <i>Patient Education and Counseling</i> , 2017, 100, 600-604.	1.0	76
28	A three-talk model for shared decision making: multistage consultation process. <i>BMJ: British Medical Journal</i> , 2017, 359, j4891.	2.4	495
29	The Impact of PACS on Radiograph Interpretations in an Orthopedic Outpatient Clinic. <i>Studies in Health Technology and Informatics</i> , 2017, 245, 1364.	0.2	0
30	What is a medical decision? A taxonomy based on physician statements in hospital encounters: a qualitative study. <i>BMJ Open</i> , 2016, 6, e010098.	0.8	26
31	The significance of seconds. <i>Patient Education and Counseling</i> , 2016, 99, 1751-1752.	1.0	0
32	Double reading of current chest CT examinations: Clinical importance of changes to radiology reports. <i>European Journal of Radiology</i> , 2016, 85, 199-204.	1.2	18
33	Shared decision-making as an existential journey: Aiming for restored autonomous capacity. <i>Patient Education and Counseling</i> , 2016, 99, 1505-1510.	1.0	109
34	Negotiating treatment preferences: Physicians' formulations of patients' stance. <i>Social Science and Medicine</i> , 2016, 149, 26-36.	1.8	26
35	A microanalysis of the clarity of information in physicians’ and patients’ discussions of treatment plans with and without language barriers. <i>Patient Education and Counseling</i> , 2016, 99, 522-529.	1.0	15
36	Radiologist-initiated double reading of abdominal CT: retrospective analysis of the clinical importance of changes to radiology reports. <i>BMJ Quality and Safety</i> , 2016, 25, 595-603.	1.8	37

#	ARTICLE	IF	CITATIONS
37	Identifying the Basis for Clinical Decisions - A Feasibility Study. <i>Studies in Health Technology and Informatics</i> , 2016, 228, 509-13.	0.2	0
38	Whose decision? Negotiating epistemic and deontic rights in medical treatment decisions. <i>Journal of Pragmatics</i> , 2015, 78, 54-69.	0.8	100
39	The Expanded Four Habits Model – A teachable consultation model for encounters with patients in emotional distress. <i>Patient Education and Counseling</i> , 2015, 98, 598-603.	1.0	17
40	Double reading rates and quality assurance practices in Norwegian hospital radiology departments: two parallel national surveys. <i>Acta Radiologica</i> , 2015, 56, 78-86.	0.5	12
41	Barriers and Facilitators Related to Rehabilitation Stays in Multiple Sclerosis. <i>International Journal of MS Care</i> , 2015, 17, 122-129.	0.4	19
42	Temporal characteristics of decisions in hospital encounters: A threshold for shared decision making? A qualitative study. <i>Patient Education and Counseling</i> , 2014, 97, 216-222.	1.0	23
43	What's in shared decision-making for the physician?. <i>Patient Education and Counseling</i> , 2014, 97, 145-146.	1.0	6
44	Confusion in and about shared decision making in hospital outpatient encounters. <i>Patient Education and Counseling</i> , 2014, 96, 287-294.	1.0	23
45	A matter of the heart. <i>Patient Education and Counseling</i> , 2014, 96, 139-141.	1.0	1
46	Physician gender, physician patient-centered behavior, and patient satisfaction: A study in three practice settings within a hospital. <i>Patient Education and Counseling</i> , 2014, 95, 313-318.	1.0	53
47	Improving communication in general practice when mental health issues appear: Piloting a set of six evidence-based skills. <i>Patient Education and Counseling</i> , 2014, 95, 69-75.	1.0	12
48	Yes, the cross-over design is suitable for evaluation of the effect of an educational intervention. <i>Patient Education and Counseling</i> , 2013, 90, 285.	1.0	0
49	Long-term effect of communication training on the relationship between physicians' self-efficacy and performance. <i>Patient Education and Counseling</i> , 2013, 91, 180-185.	1.0	68
50	Does PACS improve diagnostic accuracy in chest radiograph interpretations in clinical practice?. <i>European Journal of Radiology</i> , 2012, 81, 173-177.	1.2	6
51	Recognition can leave room for disagreement in the doctor-patient consultation. <i>Patient Education and Counseling</i> , 2012, 86, 316-321.	1.0	10
52	The influence of physician communication style on overweight patients' perceptions of length of encounter and physician being rushed. <i>Family Medicine</i> , 2012, 44, 183-8.	0.3	6
53	Five-point scales outperform 10-point scales in a randomized comparison of item scaling for the Patient Experiences Questionnaire. <i>Journal of Clinical Epidemiology</i> , 2011, 64, 200-207.	2.4	50
54	The ability of a behaviour-specific patient questionnaire to identify poorly performing doctors. <i>BMJ Quality and Safety</i> , 2011, 20, 885-893.	1.8	19

#	ARTICLE	IF	CITATIONS
55	Patients'™ negative emotional cues and concerns in hospital consultations: A video-based observational study. <i>Patient Education and Counseling</i> , 2011, 85, 356-362.	1.0	24
