#	ARTICLE	IF	CITATIONS
1	Emulating a target trial of intensive nurse home visiting in the policy-relevant population using linked administrative data. <i>International Journal of Epidemiology</i> , 2023, 52, 119-131.	1.9	5
2	Isolation, marginalisation and disempowerment – understanding how interactions with health providers can influence smoking cessation in pregnancy. <i>BMC Pregnancy and Childbirth</i> , 2022, 22, 396.	2.4	2
3	Characteristics of paediatric frequent presenters at emergency departments: A whole-of-population study. <i>Journal of Paediatrics and Child Health</i> , 2021, 57, 64-72.	0.8	5
4	Effects of educational activities prior to school entry are more important for socioeconomically disadvantaged children. <i>International Journal of Epidemiology</i> , 2021, 50, .	1.9	1
5	Which time investments in the first 5 years of life matter most for children’s language and behavioural outcomes at school entry?. <i>International Journal of Epidemiology</i> , 2020, 49, 548-558.	1.9	8
6	Inequalities in child development at school entry: A repeated cross-sectional analysis of the Australian Early Development Census 2009–2018. <i>The Lancet Regional Health - Western Pacific</i> , 2020, 4, 100057.	2.9	4
7	Educational activities on language and behavioural outcomes at school entry are more important for socioeconomically disadvantaged children: a prospective observational study of Australian children. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, jech-2020-213856.	3.7	1
8	Association of anthropometric measures and cardiovascular risk factors in children and adolescents: Findings from the Aboriginal Birth Cohort study. <i>PLoS ONE</i> , 2018, 13, e0199280.	2.5	5
9	Identification of Aboriginal children using linked administrative data: Consequences for measuring inequalities. <i>Journal of Paediatrics and Child Health</i> , 2016, 52, 534-540.	0.8	20
10	Time spent in different types of childcare and children's development at school entry: an Australian longitudinal study. <i>Archives of Disease in Childhood</i> , 2015, 100, 226-232.	1.9	13
11	Social inequalities in childcare quality and their effects on children's development at school entry: findings from the Longitudinal Study of Australian Children. <i>Journal of Epidemiology and Community Health</i> , 2015, 69, 841-848.	3.7	19
12	Anaemia of Pregnancy, Perinatal Outcomes and Children's Developmental Vulnerability: a Whole-of-Population Study. <i>Paediatric and Perinatal Epidemiology</i> , 2014, 28, 381-390.	1.7	19
13	Child care quality and children's cognitive and socio-emotional development: an Australian longitudinal study. <i>Early Child Development and Care</i> , 2014, 184, 977-997.	1.3	29
14	Quality of Childcare Influences Children's Attentiveness and Emotional Regulation at School Entry. <i>Journal of Pediatrics</i> , 2014, 165, 813-819.e3.	1.8	16
15	Jurisdictional, socioeconomic and gender inequalities in child health and development: analysis of a national census of 5-year-olds in Australia. <i>BMJ Open</i> , 2012, 2, e001075.	1.9	75
16	Cholesterol lowering medication - patients' knowledge, attitudes and experiences. <i>Australian Family Physician</i> , 2011, 40, 519-22.	0.5	5
17	Assessing agreement between point of care and pathology laboratory results for INR: experiences from the Point of Care Testing in General Practice Trial. <i>Pathology</i> , 2010, 42, 155-159.	0.6	7
18	Patient satisfaction with point-of-care testing in general practice. <i>British Journal of General Practice</i> , 2010, 60, e98-e104.	1.4	79

#	ARTICLE	IF	CITATIONS
19	Assessing agreement between point of care and laboratory results for lipid testing from a clinical perspective. <i>Clinical Biochemistry</i> , 2010, 43, 515-518.	1.9	15
20	Point-of-care testing for patients with diabetes, hyperlipidaemia or coagulation disorders in the general practice setting: a systematic review. <i>Family Practice</i> , 2010, 27, 17-24.	1.9	120
21	Does point-of-care testing lead to the same or better adherence to medication? A randomised controlled trial: the PoCT in General Practice Trial. <i>Medical Journal of Australia</i> , 2009, 191, 487-491.	1.7	71
22	Effectiveness of point-of-care testing for therapeutic control of chronic conditions: results from the PoCT in General Practice Trial. <i>Medical Journal of Australia</i> , 2009, 190, 624-626.	1.7	65
23	A pragmatic cluster randomised controlled trial to evaluate the safety, clinical effectiveness, cost effectiveness and satisfaction with point of care testing in a general practice setting – rationale, design and baseline characteristics. <i>Trials</i> , 2008, 9, 50.	1.6	43
24	A before and after study of the impact of academic detailing on the use of diagnostic imaging for shoulder complaints in general practice. <i>BMC Family Practice</i> , 2007, 8, 12.	2.9	16
25	How do Australian GPs manage shoulder dysfunction?. <i>Australian Family Physician</i> , 2004, 33, 861-2, 864.	0.5	6
26	Investigating tiredness in Australian general practice. Do pathology tests help in diagnosis?. <i>Australian Family Physician</i> , 2003, 32, 663-6.	0.5	12
