#	ARTICLE	IF	CITATIONS
1	Self-reported chemotherapy-related cognitive impairment compared with cognitive complaints following menopause. <i>Psycho-Oncology</i> , 2018, 27, 2198-2205.	2.3	7
2	Estrogen enhances hippocampal gray-matter volume in young and older postmenopausal women: a prospective dose-response study. <i>Neurobiology of Aging</i> , 2017, 56, 1-6.	3.1	43
3	Altered Brain Connectivity in Early Postmenopausal Women with Subjective Cognitive Impairment. <i>Frontiers in Neuroscience</i> , 2016, 10, 433.	2.8	31
4	Estrogen-cholinergic interactions: Implications for cognitive aging. <i>Hormones and Behavior</i> , 2015, 74, 173-185.	2.1	63
5	Tamoxifen Improves Cholinergically Modulated Cognitive Performance in Postmenopausal Women. <i>Neuropsychopharmacology</i> , 2013, 38, 2632-2643.	5.4	37
6	Estrogen treatment impairs cognitive performance after psychosocial stress and monoamine depletion in postmenopausal women. <i>Menopause</i> , 2010, 17, 860-873.	2.0	34
7	Mechanisms of Action of Estrogen in the Brain: Insights from Human Neuroimaging and Psychopharmacologic Studies. <i>Seminars in Reproductive Medicine</i> , 2009, 27, 250-259.	1.1	61
8	Estradiol interacts with the cholinergic system to affect verbal memory in postmenopausal women: Evidence for the critical period hypothesis. <i>Hormones and Behavior</i> , 2008, 53, 159-169.	2.1	90
9	Estrogen Administration Negatively Alters Mood Following Monoaminergic Depletion and Psychosocial Stress in Postmenopausal Women. <i>Neuropsychopharmacology</i> , 2008, 33, 1514-1527.	5.4	32
10	Estrogen therapy after menopause: role in normal cognition and Alzheimer's disease. <i>Aging Health</i> , 2006, 2, 955-966.	0.3	1
11	Estrogen Treatment Effects on Anticholinergic-Induced Cognitive Dysfunction in Normal Postmenopausal Women. <i>Neuropsychopharmacology</i> , 2006, 31, 2065-2078.	5.4	76
