#	Article	IF	CITATIONS
1	Panethnic Differences in Blood Pressure in Europe: A Systematic Review and Meta-Analysis. PLoS ONE, 2016, 11, e0147601.	2.5	882
2	Sharpening the global focus on ethnicity and race in the time of COVID-19. Lancet, The, 2020, 395, 1673-1676.	13.7	214
3	Disparities in type 2 diabetes prevalence among ethnic minority groups resident in Europe: a systematic review and meta-analysis. Internal and Emergency Medicine, 2016, 11, 327-340.	2.0	171
4	Cardiovascular disease, diabetes and established risk factors among populations of sub-Saharan African descent in Europe: a literature review. Globalization and Health, 2009, 5, 7.	4.9	142
5	Prevalence, awareness, treatment, and control of hypertension among Black Surinamese, South Asian Surinamese and White Dutch in Amsterdam, The Netherlands: the SUNSET study. Journal of Hypertension, 2005, 23, 1971-1977.	0.5	136
6	Obesity and type 2 diabetes in sub-Saharan Africans – Is the burden in today's Africa similar to African migrants in Europe? The RODAM study. BMC Medicine, 2016, 14, 166.	5 . 5	132
7	Knowledge and awareness of and perception towards cardiovascular disease risk in sub-Saharan Africa: A systematic review. PLoS ONE, 2017, 12, e0189264.	2.5	122
8	Status report on hypertension in Africa - Consultative review for the 6th Session of the African Union Conference of Ministers of Health on NCD'ss. Pan African Medical Journal, 2013, 16, 38.	0.8	119
9	Length of Residence in the United States is Associated With a Higher Prevalence of Cardiometabolic Risk Factors in Immigrants: A Contemporary Analysis of the National Health Interview Survey. Journal of the American Heart Association, 2016, 5, .	3.7	110
10	Rationale and cross-sectional study design of the Research on Obesity and type 2 Diabetes among African Migrants: the RODAM study. BMJ Open, 2015, 4, e004877.	1.9	94
11	Overweight and obesity among Ghanaian residents in The Netherlands: how do they weigh against their urban and rural counterparts in Ghana?. Public Health Nutrition, 2009, 12, 909-916.	2.2	79
12	Hypertension control in a large multi-ethnic cohort in Amsterdam, The Netherlands: The HELIUS study. International Journal of Cardiology, 2015, 183, 180-189.	1.7	77
13	Tracing Africa's progress towards implementing the Non-Communicable Diseases Global action plan 2013–2020: a synthesis of WHO country profile reports. BMC Public Health, 2017, 17, 297.	2.9	77
14	Non-communicable diseases in migrants: an expert review. Journal of Travel Medicine, 2019, 26, .	3.0	71
15	The association of physical activity, body mass index and the blood pressure levels among urban poor youth in Accra, Ghana. BMC Public Health, 2015, 15, 269.	2.9	63
16	Epigenome-wide association study in whole blood on type 2 diabetes among sub-Saharan African individuals: findings from the RODAM study. International Journal of Epidemiology, 2019, 48, 58-70.	1.9	62
17	The association of neighbourhood psychosocial stressors and self-rated health in Amsterdam, The Netherlands. Journal of Epidemiology and Community Health, 2007, 61, 1042-1049.	3.7	58
18	Relationship between post-traumatic stress disorder and diabetes among 105 180 asylum seekers in the Netherlands. European Journal of Public Health, 2012, 22, 658-662.	0.3	58

#	Article	IF	Citations
19	Prevalence of metabolic syndrome in sub-Saharan Africa: AÂsystematic review and meta-analysis. Nutrition, Metabolism and Cardiovascular Diseases, 2020, 30, 547-565.	2.6	58
20	Diabetes Prevalence in Populations of South Asian Indian and African Origins. Epidemiology, 2011, 22, 563-567.	2.7	57
21	Cardiometabolic Health in African Immigrants to the United States: A Call to Re-examine Research on African-descent Populations. Ethnicity and Disease, 2015, 25, 373.	2.3	57
22	Remigration of migrants with severe disease: myth or reality?â€"a register-based cohort study. European Journal of Public Health, 2015, 25, 84-89.	0.3	55
23	An epigenome-wide association study in whole blood of measures of adiposity among Ghanaians: the RODAM study. Clinical Epigenetics, 2017, 9, 103.	4.1	55
24	Ethnic minority status as social determinant for COVID-19 infection, hospitalisation, severity, ICU admission and deaths in the early phase of the pandemic: a meta-analysis. BMJ Global Health, 2021, 6, e007433.	4.7	51
25	Ethnicity and cardiovascular health research: pushing the boundaries by including comparison populations in the countries of origin. Ethnicity and Health, 2012, 17, 579-596.	2.5	49
26	Case Finding and Medical Treatment of Type 2 Diabetes among Different Ethnic Minority Groups: The HELIUS Study. Journal of Diabetes Research, 2017, 2017, 1-8.	2.3	49
27	A Cross-National Comparative Study of Blood Pressure and Hypertension Between English and Dutch South-Asian- and African-Origin Populations: The Role of National Context. American Journal of Hypertension, 2010, 23, 639-648.	2.0	48
28	Variations in hypertension awareness, treatment, and control among Ghanaian migrants living in Amsterdam, Berlin, London, and nonmigrant Ghanaians living in rural and urban Ghana $\hat{a} \in \text{``the RODAM study. Journal of Hypertension, 2018, 36, 169-177.}$	0.5	47
29	Ethnic Disparities in Ischemic Stroke, Intracerebral Hemorrhage, and Subarachnoid Hemorrhage Incidence in The Netherlands. Stroke, 2014, 45, 3236-3242.	2.0	45
30	The Association Between Acculturation and Cardiovascular Disease Risk in Ghanaian and Nigerian-born African Immigrants in the United States: The Afro-Cardiac Study. Journal of Immigrant and Minority Health, 2018, 20, 1137-1146.	1.6	45
31	Socioeconomic Inequalities in Stroke Incidence Among Migrant Groups. Stroke, 2014, 45, 2397-2403.	2.0	40
32	Physical violence during pregnancy and pregnancy outcomes in Ghana. BMC Pregnancy and Childbirth, 2014, 14, 71.	2.4	40
33	Epidemiology, risk factors, and opportunities for prevention of cardiovascular disease in individuals of South Asian ethnicity living in Europe. Atherosclerosis, 2019, 286, 105-113.	0.8	40
34	Association between socioeconomic position and the prevalence of type 2 diabetes in Ghanaians in different geographic locations: the RODAM study. Journal of Epidemiology and Community Health, 2017, 71, 633-639.	3.7	39
35	Current trends in admissions and outcomes of cardiac diseases in Ghana. Clinical Cardiology, 2017, 40, 783-788.	1.8	38
36	The Upcoming Epidemic of Heart Failure in South Asia. Circulation: Heart Failure, 2020, 13, e007218.	3.9	37

#	Article	IF	CITATIONS
37	Incidence and determinants of diabetes-related lower limb amputations in Ghana, 2010–2015- a retrospective cohort study. BMC Endocrine Disorders, 2019, 19, 27.	2.2	35
38	Thresholds for Ambulatory Blood Pressure Among African Americans in the Jackson Heart Study. Circulation, 2017, 135, 2470-2480.	1.6	34
39	Cardiovascular disease risk prediction in sub-Saharan African populations — Comparative analysis of risk algorithms in the RODAM study. International Journal of Cardiology, 2018, 254, 310-315.	1.7	34
40	Indirect implications of COVID-19 prevention strategies on non-communicable diseases. BMC Medicine, 2020, 18, 256.	5.5	34
41	Relationship between short sleep duration and cardiovascular risk factors in a multi-ethnic cohort – the helius study. Sleep Medicine, 2015, 16, 1482-1488.	1.6	33
42	Perceptions of inhibitors and facilitators for adhering to hypertension treatment among insured patients in rural Nigeria: a qualitative study. BMC Health Services Research, 2014, 14, 624.	2.2	31
43	Cardiovascular disease incidence and survival: Are migrants always worse off?. European Journal of Epidemiology, 2016, 31, 667-677.	5.7	31
44	Differential prevalence and associations of overweight and obesity by gender and population group among school learners in South Africa: a cross-sectional study. BMC Obesity, 2017, 4, 29.	3.1	31
45	Educational inequalities in metabolic syndrome vary by ethnic group: Evidence from the SUNSET study. International Journal of Cardiology, 2010, 141, 266-274.	1.7	30
46	Chronic kidney disease burden among African migrants in three European countries and in urban and rural Ghana: the RODAM cross-sectional study. Nephrology Dialysis Transplantation, 2018, 33, 1812-1822.	0.7	30
47	Meta-analyses identify DNA methylation associated with kidney function and damage. Nature Communications, 2021, 12, 7174.	12.8	30
48	Prehypertension in the Ashanti region of Ghana, West Africa: An opportunity for early prevention of clinical hypertension. Public Health, 2008, 122, 19-24.	2.9	29
49	Ethnic differences in arterial stiffness the Helius study. International Journal of Cardiology, 2015, 191, 28-33.	1.7	29
50	Prevalence and determinants of prehypertension among African Surinamese, Hindustani Surinamese, and White Dutch in Amsterdam, the Netherlands: the SUNSET study. European Journal of Cardiovascular Prevention and Rehabilitation, 2007, 14, 775-781.	2.8	28
51	Reducing the impact of the coronavirus on disadvantaged migrants and ethnic minorities. European Journal of Public Health, 2021, 31, iv9-iv13.	0.3	28
52	Relationship between psychosocial stress and hypertension among Ghanaians in Amsterdam, the Netherlands $\hat{a} \in \mathcal{C}$ the GHAIA study. BMC Public Health, 2014, 14, 692.	2.9	27
53	Lay community perceptions and treatment options for hypertension in rural northern Ghana: a qualitative analysis. BMJ Open, 2018, 8, e023451.	1.9	27
54	Differences in SARS-CoV-2 infections during the first and second wave of SARS-CoV-2 between six ethnic groups in Amsterdam, the Netherlands: A population-based longitudinal serological study. Lancet Regional Health - Europe, The, 2022, 13, 100284.	5.6	27

#	Article	IF	Citations
55	Migration and Cardiovascular Disease Risk Among Ghanaian Populations in Europe:. Circulation: Cardiovascular Quality and Outcomes, 2017, 10, .	2.2	26
56	Challenges of health programmes in slums. Lancet, The, 2015, 386, 2114-2116.	13.7	25
57	Microvascular and macrovascular complications in type 2 diabetes Ghanaian residents in Ghana and Europe: The RODAM study. Journal of Diabetes and Its Complications, 2019, 33, 572-578.	2.3	25
58	A cross-national comparative study of smoking prevalence and cessation between English and Dutch South Asian and African origin populations: the role of national context. Nicotine and Tobacco Research, 2010, 12, 557-566.	2.6	24
59	Outcomes and costs of implementing a community-based intervention for hypertension in an urban slum in Kenya. Bulletin of the World Health Organization, 2016, 94, 501-509.	3.3	23
60	Impact evaluation of a community-based intervention for prevention of cardiovascular diseases in the slums of Nairobi: the SCALE-UP study. Global Health Action, 2016, 9, 30922.	1.9	22
61	Peripheral insulin resistance rather than beta cell dysfunction accounts for geographical differences in impaired fasting blood glucose among sub-Saharan African individuals: findings from the RODAM study. Diabetologia, 2017, 60, 854-864.	6.3	22
62	A Review of Applications of Machine Learning in Mammography and Future Challenges. Oncology, 2021, 99, 483-490.	1.9	22
63	Rural and urban differences in blood pressure and pregnancy-induced hypertension among pregnant women in Ghana. Globalization and Health, 2013, 9, 59.	4.9	21
64	Ethnic differences in self-reported sleep duration in the Netherlands $\hat{a} \in$ the HELIUS study. Sleep Medicine, 2014, 15, 1115-1121.	1.6	21
65	Ethnic Disparities in CKD in the Netherlands: The Healthy Life in an Urban Setting (HELIUS) Study. American Journal of Kidney Diseases, 2016, 67, 391-399.	1.9	21
66	Innovative ways of studying the effect of migration on obesity and diabetes beyond the common designs: lessons from the RODAM study. Annals of the New York Academy of Sciences, 2017, 1391, 54-70.	3.8	21
67	Genetic factors contributing to hypertension in Africanâ€based populations: A systematic review and metaâ€analysis. Journal of Clinical Hypertension, 2018, 20, 485-495.	2.0	21
68	Perceived discrimination and stressful life events are associated with cardiovascular risk score in migrant and non-migrant populations: The RODAM study. International Journal of Cardiology, 2019, 286, 169-174.	1.7	21
69	Prevalence and determinants of type 2 diabetes among lean African migrants and non-migrants: the RODAM study. Journal of Global Health, 2019, 9, 020426.	2.7	20
70	Type 2 diabetes burden among migrants in Europe: unravelling the causal pathways. Diabetologia, 2021, 64, 2665-2675.	6.3	20
71	Cardiovascular health and disease in migrant populations: a call to action. Nature Reviews Cardiology, 2022, 19, 1-2.	13.7	20
72	Blood pressure and body mass index in an ethnically diverse sample of adolescents in Paramaribo, Suriname. BMC Cardiovascular Disorders, 2009, 9, 19.	1.7	19

#	Article	IF	CITATIONS
73	Dietary patterns and type 2 diabetes among Ghanaian migrants in Europe and their compatriots in Ghana: the RODAM study. Nutrition and Diabetes, 2018, 8, 25.	3.2	19
74	Food variety, dietary diversity, and type 2 diabetes in a multi-center cross-sectional study among Ghanaian migrants in Europe and their compatriots in Ghana: the RODAM study. European Journal of Nutrition, 2018, 57, 2723-2733.	3.9	19
75	Ideal cardiovascular health among Ghanaian populations in three European countries and rural and urban Ghana: the RODAM study. Internal and Emergency Medicine, 2018, 13, 845-856.	2.0	19
76	Differences in alcohol consumption and drinking patterns in Ghanaians in Europe and Africa: The RODAM Study. PLoS ONE, 2018, 13, e0206286.	2.5	18
77	Ethnic differences in current smoking and former smoking in the Netherlands and the contribution of socioeconomic factors: a cross-sectional analysis of the HELIUS study. BMJ Open, 2017, 7, e016041.	1.9	17
78	Oral Health Status, Oral Health Behaviours and Oral Health Care Utilisation Among Migrants Residing in Europe: A Systematic Review. Journal of Immigrant and Minority Health, 2021, 23, 373-388.	1.6	17
79	Relationship between sleep duration and arterial stiffness in a multi-ethnic population: The HELIUS study. Chronobiology International, 2016, 33, 543-552.	2.0	15
80	Association of perceived ethnic discrimination with general and abdominal obesity in ethnic minority groups: the HELIUS study. Journal of Epidemiology and Community Health, 2017, 71, 453-460.	3.7	15
81	Relationship between educational and occupational levels, and Chronic Kidney Disease in a multi-ethnic sample- The HELIUS study. PLoS ONE, 2017, 12, e0186460.	2.5	15
82	Objectively measured physical activity levels and sedentary time in children and adolescents with sickle cell anemia. PLoS ONE, 2018, 13, e0208916.	2.5	15
83	Dietary Patterns Are Associated with Predicted 10-Year Risk of Cardiovascular Disease Among Ghanaian Populations: the Research on Obesity and Diabetes in African Migrants (RODAM) Study. Journal of Nutrition, 2019, 149, 755-769.	2.9	15
84	Divergence With Age in Blood Pressure in African-Caribbean and White Populations in England: Implications for Screening for Hypertension. American Journal of Hypertension, 2012, 25, 89-96.	2.0	14
85	A cross-national comparative study of metabolic syndrome among non-diabetic Dutch and English ethnic groups. European Journal of Public Health, 2013, 23, 447-452.	0.3	14
86	Comfy zone hypotheses in migrant health research: time for a paradigm shift. Public Health, 2019, 172, 108-115.	2.9	14
87	SARS-CoV-2 antibody prevalence and correlates of six ethnic groups living in Amsterdam, the Netherlands: a population-based cross-sectional study, June–October 2020. BMJ Open, 2022, 12, e052752.	1.9	14
88	Gender Disparities in Hypertension Among Different Ethnic Groups in Amsterdam, The Netherlands: The SUNSET Study. American Journal of Hypertension, 2008, 21, 1001-1006.	2.0	13
89	The influence of early-life conditions on cardiovascular disease later in life among ethnic minority populations: a systematic review. Internal and Emergency Medicine, 2016, 11, 341-353.	2.0	13
90	The prevalence of metabolic syndrome among Ghanaian migrants and their homeland counterparts: the Research on Obesity and type 2 Diabetes among African Migrants (RODAM) study. European Journal of Public Health, 2019, 29, 906-913.	0.3	13
