#	ARTICLE	IF	CITATIONS
1	PRISMA Extension for Scoping Reviews (PRISMA-ScR): Checklist and Explanation. <i>Annals of Internal Medicine</i> , 2018, 169, 467-473.	2.0	15,209
2	Conducting a meta-ethnography of qualitative literature: Lessons learnt. <i>BMC Medical Research Methodology</i> , 2008, 8, 21.	1.4	666
3	Lay health workers in primary and community health care for maternal and child health and the management of infectious diseases. <i>The Cochrane Library</i> , 2010, , CD004015.	1.5	641
4	Applying GRADE-CERQual to qualitative evidence synthesis findings: introduction to the series. <i>Implementation Science</i> , 2018, 13, 2.	2.5	578
5	Using Qualitative Evidence in Decision Making for Health and Social Interventions: An Approach to Assess Confidence in Findings from Qualitative Evidence Syntheses (GRADE-CERQual). <i>PLoS Medicine</i> , 2015, 12, e1001895.	3.9	571
6	Use of qualitative methods alongside randomised controlled trials of complex healthcare interventions: methodological study. <i>BMJ: British Medical Journal</i> , 2009, 339, b3496-b3496.	2.4	526
7	Non-specialist health worker interventions for the care of mental, neurological and substance-abuse disorders in low- and middle-income countries. <i>The Cochrane Library</i> , 2013, , CD009149.	1.5	357
8	Can We Systematically Review Studies That Evaluate Complex Interventions?. <i>PLoS Medicine</i> , 2009, 6, e1000086.	3.9	352
9	Barriers and facilitators to the implementation of lay health worker programmes to improve access to maternal and child health: qualitative evidence synthesis. , 2013, , CD010414.		287
10	Applying GRADE-CERQual to qualitative evidence synthesis findingsâ€”paper 2: how to make an overall CERQual assessment of confidence and create a Summary of Qualitative Findings table. <i>Implementation Science</i> , 2018, 13, 10.	2.5	287
11	Cochrane Qualitative and Implementation Methods Group guidance seriesâ€”paper 3: methods for assessing methodological limitations, data extraction and synthesis, and confidence in synthesized qualitative findings. <i>Journal of Clinical Epidemiology</i> , 2018, 97, 49-58.	2.4	281
12	SUPPORT Tools for evidence-informed health Policymaking (STP) 1: What is evidence-informed policymaking?. <i>Health Research Policy and Systems</i> , 2009, 7, S1.	1.1	270
13	Maximising the impact of qualitative research in feasibility studies for randomised controlled trials: guidance for researchers. <i>Pilot and Feasibility Studies</i> , 2015, 1, 32.	0.5	240
14	Improving reporting of meta-ethnography: the eMERGe reporting guidance. <i>BMC Medical Research Methodology</i> , 2019, 19, 25.	1.4	224
15	The female community health volunteer programme in Nepal: Decision makersâ€™ perceptions of volunteerism, payment and other incentives. <i>Social Science and Medicine</i> , 2010, 70, 1920-1927.	1.8	205
16	Purposive sampling in a qualitative evidence synthesis: a worked example from a synthesis on parental perceptions of vaccination communication. <i>BMC Medical Research Methodology</i> , 2019, 19, 26.	1.4	184
17	The GRADE Evidence to Decision (EtD) framework for health system and public health decisions. <i>Health Research Policy and Systems</i> , 2018, 16, 45.	1.1	179
18	Supporting the delivery of cost-effective interventions in primary health-care systems in low-income and middle-income countries: an overview of systematic reviews. <i>Lancet</i> , The, 2008, 372, 928-939.	6.3	173

#	ARTICLE	IF	CITATIONS
19	Parents' and informal caregivers' views and experiences of communication about routine childhood vaccination: a synthesis of qualitative evidence. The Cochrane Library, 2017, 2017, CD011787.	1.5	171
20	Taking healthcare interventions from trial to practice. BMJ: British Medical Journal, 2010, 341, c3852-c3852.	2.4	168
21	Applying GRADE-CERQual to qualitative evidence synthesis findingsâ€”paper 3: how to assess methodological limitations. Implementation Science, 2018, 13, 9.	2.5	149
22	SUPPORT Tools for evidence-informed health Policymaking (STP) 14: Organising and using policy dialogues to support evidence-informed policymaking. Health Research Policy and Systems, 2009, 7, S14.	1.1	147
23	Applying GRADE-CERQual to qualitative evidence synthesis findingsâ€”paper 6: how to assess relevance of the data. Implementation Science, 2018, 13, 4.	2.5	147
24	Applying GRADE-CERQual to qualitative evidence synthesis findingsâ€”paper 5: how to assess adequacy of data. Implementation Science, 2018, 13, 14.	2.5	146
25	SUPPORT Tools for evidence-informed health Policymaking (STP) 13: Preparing and using policy briefs to support evidence-informed policymaking. Health Research Policy and Systems, 2009, 7, S13.	1.1	142
26	Applying GRADE-CERQual to qualitative evidence synthesis findingsâ€”paper 4: how to assess coherence. Implementation Science, 2018, 13, 13.	2.5	137
27	Factors that influence the provision of intrapartum and postnatal care by skilled birth attendants in low- and middle-income countries: a qualitative evidence synthesis. The Cochrane Library, 2018, 2018, CD011558.	1.5	126
28	Cochrane Qualitative and Implementation Methods Group guidance seriesâ€”paper 1: introduction. Journal of Clinical Epidemiology, 2018, 97, 35-38.	2.4	123
29	Implementation strategies for health systems in low-income countries: an overview of systematic reviews. The Cochrane Library, 2017, 2017, CD011086.	1.5	120
30	A systematic review of qualitative evidence on barriers and facilitators to the implementation of task-shifting in midwifery services. Midwifery, 2013, 29, 1211-1221.	1.0	98
31	Guidance for Evidence-Informed Policies about Health Systems: Rationale for and Challenges of Guidance Development. PLoS Medicine, 2012, 9, e1001185.	3.9	94
32	Assessing the complexity of interventions within systematic reviews: development, content and use of a new tool (iCAT_SR). BMC Medical Research Methodology, 2017, 17, 76.	1.4	94
33	Guidance for Evidence-Informed Policies about Health Systems: Linking Guidance Development to Policy Development. PLoS Medicine, 2012, 9, e1001186.	3.9	92
34	The emergence of community health worker programmes in the late apartheid era in South Africa: An historical analysis. Social Science and Medicine, 2010, 71, 1110-1118.	1.8	77
35	Factors affecting the implementation of childhood vaccination communication strategies in Nigeria: a qualitative study. BMC Public Health, 2017, 17, 200.	1.2	75
36	Rapid review methods more challenging during COVID-19: commentary with a focus on 8 knowledge synthesis steps. Journal of Clinical Epidemiology, 2020, 126, 177-183.	2.4	73

#	ARTICLE	IF	CITATIONS
37	Effects of the Informed Health Choices primary school intervention on the ability of children in Uganda to assess the reliability of claims about treatment effects: a cluster-randomised controlled trial. <i>Lancet, The</i> , 2017, 390, 374-388.	6.3	72
38	Barriers and facilitators to the implementation of doctor-nurse substitution strategies in primary care: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2019, 2019, CD010412.	1.5	69
39	A research and development agenda for systematic reviews that ask complex questions about complex interventions. <i>Journal of Clinical Epidemiology</i> , 2013, 66, 1262-1270.	2.4	68
40	Can lay health workers increase the uptake of childhood immunisation? Systematic review and typology. <i>Tropical Medicine and International Health</i> , 2011, 16, 1044-1053.	1.0	65
41	Assessing the applicability of findings in systematic reviews of complex interventions can enhance the utility of reviews for decision making. <i>Journal of Clinical Epidemiology</i> , 2013, 66, 1251-1261.	2.4	65
42	Interventions aimed at communities to inform and/or educate about early childhood vaccination. <i>The Cochrane Library</i> , 2014, 2014, CD010232.	1.5	64
43	Still too little qualitative research to shed light on results from reviews of effectiveness trials: A case study of a Cochrane review on the use of lay health workers. <i>Implementation Science</i> , 2011, 6, 53.	2.5	62
44	Delivery arrangements for health systems in low-income countries: an overview of systematic reviews. <i>The Cochrane Library</i> , 2017, 2017, CD011083.	1.5	62
45	Improving reporting of meta-ethnography: The eMERGe reporting guidance. <i>Journal of Advanced Nursing</i> , 2019, 75, 1126-1139.	1.5	58
46	Developing and applying a 'living guidelines' approach to WHO recommendations on maternal and perinatal health. <i>BMJ Global Health</i> , 2019, 4, e001683.	2.0	58
47	Mobile technologies to support healthcare provider to healthcare provider communication and management of care. <i>The Cochrane Library</i> , 2020, 2020, CD012927.	1.5	58
48	Clients' perceptions and experiences of targeted digital communication accessible via mobile devices for reproductive, maternal, newborn, child, and adolescent health: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2019, 2019, CD013447.	1.5	54
49	SUPPORT Tools for evidence-informed Policymaking in health 11: Finding and using evidence about local conditions. <i>Health Research Policy and Systems</i> , 2009, 7, S11.	1.1	51
50	SUPPORT Tools for evidence-informed health Policymaking (STP) 15: Engaging the public in evidence-informed policymaking. <i>Health Research Policy and Systems</i> , 2009, 7, S15.	1.1	51
51	Applying GRADE-CERQual to qualitative evidence synthesis findings—paper 7: understanding the potential impacts of dissemination bias. <i>Implementation Science</i> , 2018, 13, 12.	2.5	50
52	Guidance for Evidence-Informed Policies about Health Systems: Assessing How Much Confidence to Place in the Research Evidence. <i>PLoS Medicine</i> , 2012, 9, e1001187.	3.9	49
53	Primary-level worker interventions for the care of people living with mental disorders and distress in low- and middle-income countries. <i>The Cochrane Library</i> , 2021, 2021, CD009149.	1.5	47
54	Are we entering a new era for qualitative research? Using qualitative evidence to support guidance and guideline development by the World Health Organization. <i>International Journal for Equity in Health</i> , 2018, 17, 126.	1.5	46

#	ARTICLE	IF	CITATIONS
55	Community health workers at the dawn of a new era: 11. CHWs leading the way to ‘Health for All’. Health Research Policy and Systems, 2021, 19, 111.	1.1	45
56	SUPPORT Tools for Evidence-informed Policymaking in health 6: Using research evidence to address how an option will be implemented. Health Research Policy and Systems, 2009, 7, S6.	1.1	41
57	‘Communicate to vaccinate’: the development of a taxonomy of communication interventions to improve routine childhood vaccination. BMC International Health and Human Rights, 2013, 13, 23.	2.5	41
58	Current use was established and Cochrane guidance on selection of social theories for systematic reviews of complex interventions was developed. Journal of Clinical Epidemiology, 2016, 75, 78-92.	2.4	40
59	Staff training and ambulatory tuberculosis treatment outcomes: a cluster randomized controlled trial in South Africa. Bulletin of the World Health Organization, 2005, 83, 250-9.	1.5	38
60	‘Communicate to vaccinate’ (COMMVAC). building evidence for improving communication about childhood vaccinations in low- and middle-income countries: protocol for a programme of research. Implementation Science, 2011, 6, 125.	2.5	37
61	Governance arrangements for health systems in low-income countries: an overview of systematic reviews. The Cochrane Library, 2017, 2017, CD011085.	1.5	35
62	Improving reporting of meta-ethnography: The eMERGe reporting guidance. Psycho-Oncology, 2019, 28, 447-458.	1.0	34
63	Community health workers at the dawn of a new era: 1. Introduction: tensions confronting large-scale CHW programmes. Health Research Policy and Systems, 2021, 19, 109.	1.1	34
64	Effects of the Informed Health Choices podcast on the ability of parents of primary school children in Uganda to assess claims about treatment effects: a randomised controlled trial. Lancet, The, 2017, 390, 389-398.	6.3	33
65	Fair publication of qualitative research in health systems: a call by health policy and systems researchers. International Journal for Equity in Health, 2016, 15, 98.	1.5	32
66	The comprehensive ‘Communicate to Vaccinate’™ taxonomy of communication interventions for childhood vaccination in routine and campaign contexts. BMC Public Health, 2017, 17, 423.	1.2	32
67	Communication strategies to promote the uptake of childhood vaccination in Nigeria: a systematic map. Global Health Action, 2016, 9, 30337.	0.7	32
68	Systematic mapping of existing tools to appraise methodological strengths and limitations of qualitative research: first stage in the development of the CAMELOT tool. BMC Medical Research Methodology, 2019, 19, 113.	1.4	31
69	Informed health choices intervention to teach primary school children in low-income countries to assess claims about treatment effects: process evaluation. BMJ Open, 2019, 9, e030787.	0.8	31
70	Implementation considerations when expanding health worker roles to include safe abortion care: a five-country case study synthesis. BMC Public Health, 2017, 17, 730.	1.2	30
71	The TRANSFER Approach for assessing the transferability of systematic review findings. BMC Medical Research Methodology, 2020, 20, 11.	1.4	30
72	The provision of TB and HIV/AIDS treatment support by lay health workers in South Africa: a time-and-motion study. Human Resources for Health, 2014, 12, 18.	1.1	28

#	ARTICLE	IF	CITATIONS
73	Further exploration of dissemination bias in qualitative research required to facilitate assessment within qualitative evidence syntheses. <i>Journal of Clinical Epidemiology</i> , 2017, 88, 133-139.	2.4	28
74	A new resource for developing and strengthening large-scale community health worker programs. <i>Human Resources for Health</i> , 2017, 15, 13.	1.1	28
75	Targeted client communication via mobile devices for improving maternal, neonatal, and child health. <i>The Cochrane Library</i> , 2020, 2020, CD013679.	1.5	28
76	Extent, Awareness and Perception of Dissemination Bias in Qualitative Research: An Explorative Survey. <i>PLoS ONE</i> , 2016, 11, e0159290.	1.1	28
77	Implementing large-scale programmes to optimise the health workforce in low- and middle-income settings: a multicountry case study synthesis. <i>Tropical Medicine and International Health</i> , 2014, 19, 1437-1456.	1.0	27
78	Targeted client communication via mobile devices for improving sexual and reproductive health. <i>The Cochrane Library</i> , 2020, 2020, CD013680.	1.5	26
79	Health communication in and out of public health emergencies: to persuade or to inform?. <i>Health Research Policy and Systems</i> , 2022, 20, 28.	1.1	26
80	Perceptions and experiences of childhood vaccination communication strategies among caregivers and health workers in Nigeria: A qualitative study. <i>PLoS ONE</i> , 2017, 12, e0186733.	1.1	25
81	Effects of the Informed Health Choices primary school intervention on the ability of children in Uganda to assess the reliability of claims about treatment effects, 1-year follow-up: a cluster-randomised trial. <i>Trials</i> , 2020, 21, 27.	0.7	24
82	Estimating the burden of disease attributable to unsafe water and lack of sanitation and hygiene in South Africa in 2000. <i>South African Medical Journal</i> , 2007, 97, 755-62.	0.2	24
83	Expanding the evidence base for global recommendations on health systems: strengths and challenges of the OptimizeMNH guidance process. <i>Implementation Science</i> , 2015, 11, 98.	2.5	23
84	Qualitative "sibling" studies and "unrelated" qualitative studies contributed to complex intervention reviews. <i>Journal of Clinical Epidemiology</i> , 2016, 74, 133-143.	2.4	23
85	Effects of the Informed Health Choices podcast on the ability of parents of primary school children in Uganda to assess the trustworthiness of claims about treatment effects: one-year follow up of a randomised trial. <i>Trials</i> , 2020, 21, 187.	0.7	22
86	Advancing the field of health systems research synthesis. <i>Systematic Reviews</i> , 2015, 4, 90.	2.5	21
87	Qualitative Evidence Synthesis (QES) for Guidelines: Paper 3 "Using qualitative evidence syntheses to develop implementation considerations and inform implementation processes. <i>Health Research Policy and Systems</i> , 2019, 17, 74.	1.1	21
88	Ritual and the organisation of care in primary care clinics in Cape Town, South Africa. <i>Social Science and Medicine</i> , 2009, 68, 1464-1471.	1.8	20
89	Developing Evidence to Decision Frameworks and an Interactive Evidence to Decision Tool for Making and Using Decisions and Recommendations in Health Care. <i>Global Challenges</i> , 2018, 2, 1700081.	1.8	19
90	Communication around HPV vaccination for adolescents in low- and middle-income countries: a systematic scoping overview of systematic reviews. <i>Systematic Reviews</i> , 2019, 8, 190.	2.5	19

#	ARTICLE	IF	CITATIONS
91	Development of the informed health choices resources in four countries to teach primary school children to assess claims about treatment effects: a qualitative study employing a user-centred approach. <i>Pilot and Feasibility Studies</i> , 2020, 6, 18.	0.5	18
92	Healthcare workersâ€™ perceptions and experiences of communicating with people over 50 years of age about vaccination: a qualitative evidence synthesis. <i>The Cochrane Library</i> , 2021, 2021, CD013706.	1.5	18
93	Mapping how information about childhood vaccination is communicated in two regions of Cameroon: What is done and where are the gaps?. <i>BMC Public Health</i> , 2015, 15, 1264.	1.2	17
94	Stakeholder perceptions of communication about vaccination in two regions of Cameroon: A qualitative case study. <i>PLoS ONE</i> , 2017, 12, e0183721.	1.1	17
95	<p>Improving uptake and completion of pulmonary rehabilitation in COPD with lay health workers: feasibility of a clinical trial</p>. <i>International Journal of COPD</i> , 2019, Volume 14, 631-643.	0.9	17
96	Qualitative Evidence SynthesisÂ(QES) for Guidelines: Paper 2 â€“ Using qualitative evidence synthesis findings to inform evidence-to-decision frameworks and recommendations. <i>Health Research Policy and Systems</i> , 2019, 17, 75.	1.1	15
97	Development of mass media resources to improve the ability of parents of primary school children in Uganda to assess the trustworthiness of claims about the effects of treatments: a human-centred design approach. <i>Pilot and Feasibility Studies</i> , 2019, 5, 155.	0.5	15
98	Development of a checklist for people communicating evidence-based information about the effects of healthcare interventions: a mixed methods study. <i>BMJ Open</i> , 2020, 10, e036348.	0.8	15
99	Decision-support tools via mobile devices to improve quality of care in primary healthcare settings. <i>The Cochrane Library</i> , 2021, 2021, CD012944.	1.5	15
100	Childhood vaccination communication outcomes unpacked and organized in a taxonomy to facilitate core outcome establishment. <i>Journal of Clinical Epidemiology</i> , 2017, 84, 173-184.	2.4	14
101	Improving reporting of metaâ€ethnography: The <sc>eMERG</sc> reporting guidance. <i>Review of Education</i> , 2019, 7, 430-451.	1.1	14
102	Teaching critical thinking about health using digital technology in lower secondary schools in Rwanda: A qualitative context analysis. <i>PLoS ONE</i> , 2021, 16, e0248773.	1.1	14
103	Outcomes mapping study for childhood vaccination communication: too few concepts were measured in too many ways. <i>Journal of Clinical Epidemiology</i> , 2016, 72, 33-44.	2.4	13
104	Multiple and mixed methods in formative evaluation: Is more better? Reflections from a South African study. <i>BMC Medical Research Methodology</i> , 2016, 16, 173.	1.4	13
105	Identification of preliminary core outcome domains for communication about childhood vaccination: An online Delphi survey. <i>Vaccine</i> , 2018, 36, 6520-6528.	1.7	13
106	Community health workers at the dawn of a new era: 3. Programme governance. <i>Health Research Policy and Systems</i> , 2021, 19, 129.	1.1	13
107	Learning to think critically about health using digital technology in Ugandan lower secondary schools: A contextual analysis. <i>PLoS ONE</i> , 2022, 17, e0260367.	1.1	12
108	Towards an empowerment approach in tuberculosis treatment in Cape Town, South Africa: a qualitative analysis of programmatic change. <i>Global Health Action</i> , 2012, 5, 14385.	0.7	11

#	ARTICLE	IF	CITATIONS
109	Tracking health commodity inventory and notifying stock levels via mobile devices: a mixed methods systematic review. The Cochrane Library, 2020, 2020, CD012907.	1.5	10
110	Addressing the tensions and complexities involved in commissioning and undertaking implementation research in low- and middle-income countries. BMJ Global Health, 2018, 3, e000741.	2.0	8
111	The lay health workerâ€™patient relationship in promoting pulmonary rehabilitation (PR) in COPD: What makes it work?. Chronic Respiratory Disease, 2019, 16, 147997311986932.	1.0	8
112	Using a mHealth system to recall and refer existing clients and refer community members with health concerns to primary healthcare facilities in South Africa: a feasibility study. Global Health Action, 2020, 13, 1717410.	0.7	8
