#	ARTICLE	IF	CITATIONS
1	EASE: Examination of Anomalous Self-Experience. <i>Psychopathology</i> , 2005, 38, 236-258.	1.5	663
2	Selective Aggregation of Self-Disorders in First-Treatment DSM-IV Schizophrenia Spectrum Disorders. <i>Journal of Nervous and Mental Disease</i> , 2012, 200, 632-636.	1.0	98
3	Examination of Anomalous Self-Experience in First-Episode Psychosis: Interrater Reliability. <i>Psychopathology</i> , 2011, 44, 386-390.	1.5	74
4	Association of Structural Magnetic Resonance Imaging Measures With Psychosis Onset in Individuals at Clinical High Risk for Developing Psychosis. <i>JAMA Psychiatry</i> , 2021, 78, 753.	11.0	74
5	Anomalous self-experiences contribute independently to social dysfunction in the early phases of schizophrenia and psychotic bipolar disorder. <i>Comprehensive Psychiatry</i> , 2014, 55, 475-482.	3.1	45
6	Anomalous self-experience and childhood trauma in first-episode schizophrenia. <i>Comprehensive Psychiatry</i> , 2015, 56, 35-41.	3.1	43
7	The association between anomalous self-experience and suicidality in first-episode schizophrenia seems mediated by depression. <i>Comprehensive Psychiatry</i> , 2012, 53, 456-460.	3.1	42
8	The association between self-disorders and neurocognitive dysfunction in schizophrenia. <i>Schizophrenia Research</i> , 2012, 135, 79-83.	2.0	38
9	Disordered Selfhood in Schizophrenia and the Examination of Anomalous Self-Experience: Accumulated Evidence and Experience. <i>Psychopathology</i> , 2021, 54, 275-281.	1.5	21
10	Environmental factors during adolescence associated with later development of psychotic disorders – A nested case-control study. <i>Psychiatry Research</i> , 2014, 215, 579-585.	3.3	20
11	Anomalous self-experiences are strongly associated with negative symptoms in a clinical high-risk for psychosis sample. <i>Comprehensive Psychiatry</i> , 2019, 93, 65-72.	3.1	18
12	“I Didn't Have My Faith I Would Have Killed Myself!” Spiritual Coping in Patients Suffering From Schizophrenia. <i>International Journal for the Psychology of Religion</i> , 2013, 23, 126-144.	2.1	16
13	Stability in basic self-disturbances and diagnosis in a first treated psychosis: A seven year follow-up study. <i>Schizophrenia Research</i> , 2018, 202, 274-280.	2.0	16
14	High levels of anomalous self-experience are associated with longer duration of untreated psychosis. <i>Microbial Biotechnology</i> , 2017, 11, 133-138.	1.7	15
15	The Association between Anomalous Self-experiences, Self-esteem and Depressive Symptoms in First Episode Schizophrenia. <i>Frontiers in Human Neuroscience</i> , 2016, 10, 557.	2.0	12
16	Collaborative Assessment and Management of Suicidality (CAMS) compared to treatment as usual (TAU) for suicidal patients: study protocol for a randomized controlled trial. <i>Trials</i> , 2016, 17, 481.	1.6	12
17	Basic self-disturbances independently predict recovery in psychotic disorders: A seven year follow-up study. <i>Schizophrenia Research</i> , 2019, 212, 72-78.	2.0	12
18	Anomalous Self-Experiences: Markers of Schizophrenia Vulnerability or Symptoms of Depersonalization Disorder? A Phenomenological Investigation of Two Cases. <i>Psychopathology</i> , 2018, 51, 198-209.	1.5	10

#	ARTICLE	IF	CITATIONS
19	Self-reported symptoms and health service use in adolescence in persons who later develop psychotic disorders: A prospective case-control study. <i>Microbial Biotechnology</i> , 2015, 9, 221-227.	1.7	9
20	Basic self-disturbances are associated with Sense of Coherence in patients with psychotic disorders. <i>PLoS ONE</i> , 2020, 15, e0230956.	2.5	4
21	Basic self-disturbance in subjects at clinical high risk for psychosis: Relationship with clinical and functional outcomes at one year follow-up. <i>Psychiatry Research</i> , 2021, 300, 113942.	3.3	3
22	Approaching patients with hyperreflectivity and perplexity: an empirical qualitative investigation. <i>Trends in Psychiatry and Psychotherapy</i> , 2018, 40, 216-225.	0.8	2
23	Basic self-disturbance trajectories in clinical high risk for psychosis: a one-year follow-up study. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2022, 272, 1007-1019.	3.2	2
24	EASE: Examination of Anomalous Self-Experience. <i>Current Problems of Psychiatry</i> , 2017, 18, 217-241.	0.2	0
25	S217. SELF-DISTURBANCES AND DIAGNOSTIC STABILITY IN FIRST EPISODE PSYCHOSIS: A SEVEN YEAR FOLLOW-UP STUDY. <i>Schizophrenia Bulletin</i> , 2018, 44, S410-S410.	4.3	0
