#	ARTICLE	IF	CITATIONS
1	Determinants of fruit and vegetable consumption among children and adolescents: a review of the literature. Part I: Quantitative studies. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2006, 3, 22.	2.0	789
2	A cross-national profile of bullying and victimization among adolescents in 40 countries. <i>International Journal of Public Health</i> , 2009, 54, 216-224.	1.0	785
3	Bullying and symptoms among school-aged children: international comparative cross sectional study in 28 countries. <i>European Journal of Public Health</i> , 2005, 15, 128-132.	0.1	537
4	Socioeconomic Inequality in Exposure to Bullying During Adolescence: A Comparative, Cross-Sectional, Multilevel Study in 35 Countries. <i>American Journal of Public Health</i> , 2009, 99, 907-914.	1.5	328
5	Body Mass Index and Overweight in Adolescents in 13 European Countries, Israel, and the United States. <i>JAMA Pediatrics</i> , 2004, 158, 27.	3.6	318
6	Social relations: network, support and relational strain. <i>Social Science and Medicine</i> , 1999, 48, 661-673.	1.8	300
7	Social relations as determinant of onset of disability in aging. <i>Archives of Gerontology and Geriatrics</i> , 2004, 38, 85-99.	1.4	198
8	The contribution of childhood and adult socioeconomic position to adult obesity and smoking behaviour: an international comparison. <i>International Journal of Epidemiology</i> , 2005, 34, 335-344.	0.9	184
9	Overweight in school-aged children and its relationship with demographic and lifestyle factors: results from the WHO-Collaborative Health Behaviour in School-aged Children (HBSC) Study. <i>International Journal of Public Health</i> , 2009, 54, 167-179.	1.0	172
10	Pathways and mechanisms in adolescence contribute to adult health inequalities. <i>Scandinavian Journal of Public Health</i> , 2011, 39, 62-78.	1.2	156
11	Cross-national time trends in bullying behaviour 1994-2006: findings from Europe and North America. <i>International Journal of Public Health</i> , 2009, 54, 225-234.	1.0	153
12	Cohabitation and marital status as predictors of mortality—an eight year follow-up study. <i>Social Science and Medicine</i> , 2002, 55, 673-679.	1.8	151
13	Income inequality, individual income, and mortality in Danish adults: analysis of pooled data from two cohort studies. <i>BMJ: British Medical Journal</i> , 2002, 324, 13-13.	2.4	128
14	Negative school perceptions and involvement in school bullying: A universal relationship across 40 countries. <i>Journal of Adolescence</i> , 2011, 34, 639-652.	1.2	122
15	The Impact of Structural and Functional Characteristics of Social Relations as Determinants of Functional Decline. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2004, 59, S44-S51.	2.4	112
16	International Survey of Self-Reported Medicine Use Among Adolescents. <i>Annals of Pharmacotherapy</i> , 2003, 37, 361-366.	0.9	111
17	Bullying victimization among 13 to 15 year old school children: Results from two comparative studies in 66 countries and regions. <i>International Journal of Adolescent Medicine and Health</i> , 2008, 20, 209-21.	0.6	109
18	Is bullying equally harmful for rich and poor children?: a study of bullying and depression from age 15 to 27. <i>European Journal of Public Health</i> , 2009, 19, 464-469.	0.1	102

#	ARTICLE	IF	CITATIONS
19	Socio-economic inequality in multiple health complaints among adolescents: international comparative study in 37 countries. <i>International Journal of Public Health</i> , 2009, 54, 260-270.	1.0	102
20	Correlates of Fruit and Vegetable Consumption Among 11-Year-Old Belgian-Flemish and Dutch Schoolchildren. <i>Journal of Nutrition Education and Behavior</i> , 2006, 38, 211-221.	0.3	96
21	Overweight, body image and bullying--an epidemiological study of 11- to 15-years olds. <i>European Journal of Public Health</i> , 2012, 22, 126-130.	0.1	95
22	Exposure to bullying at school and depression in adulthood: A study of Danish men born in 1953. <i>European Journal of Public Health</i> , 2008, 19, 111-116.	0.1	88
23	Is Obesity at Individual and National Level Associated With Lower Age at Menarche? Evidence From 34 Countries in the Health Behaviour in School-aged Children Study. <i>Journal of Adolescent Health</i> , 2012, 50, 621-626.	1.2	86
24	Trends in overweight prevalence among 11-, 13- and 15-year-olds in 25 countries in Europe, Canada and USA from 2002 to 2010. <i>European Journal of Public Health</i> , 2015, 25, 28-32.	0.1	78
25	Trends in Prevalence of Overweight and Obesity in Danish Infants, Children and Adolescents "Are We Still on a Plateau?". <i>PLoS ONE</i> , 2013, 8, e69860.	1.1	73
26	Peer victimization and subjective health among students reporting disability or chronic illness in 11 Western countries. <i>European Journal of Public Health</i> , 2013, 23, 421-426.	0.1	71
27	Is Victimization From Bullying Associated With Medicine Use Among Adolescents? A Nationally Representative Cross-sectional Survey in Denmark. <i>Pediatrics</i> , 2007, 120, 110-117.	1.0	70
28	Cynical Hostility, Socioeconomic Position, Health Behaviors, and Symptom Load: A Cross-Sectional Analysis in a Danish Population-Based Study. <i>Psychosomatic Medicine</i> , 2004, 66, 572-577.	1.3	69
29	Self-reported medicine use among 11- to 15-year-old girls and boys in Denmark 1988 - 1998. <i>Scandinavian Journal of Public Health</i> , 2003, 31, 334-341.	1.2	64
30	Determinants of fruit and vegetable intake among 11-year-old schoolchildren in a country of traditionally low fruit and vegetable consumption. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2006, 3, 41.	2.0	64
31	Tracking drinking behaviour from age 15-19 years. <i>Addiction</i> , 2003, 98, 1505-1511.	1.7	59
32	Effect of antenatal education in small classes versus standard auditorium-based lectures on use of pain relief during labour and of obstetric interventions: results from the randomised NEWBORN trial. <i>BMJ Open</i> , 2016, 6, e010761.	0.8	54
33	Personal, Social and Environmental Factors regarding Fruit and Vegetable Intake among Schoolchildren in Nine European Countries. <i>Annals of Nutrition and Metabolism</i> , 2005, 49, 255-266.	1.0	51
34	Intervention Effects on Adolescent Physical Activity in the Multicomponent SPACE Study: A Cluster Randomized Controlled Trial. <i>PLoS ONE</i> , 2014, 9, e99369.	1.1	47
35	Stability and change in structural social relations as predictor of mortality among elderly women and men. <i>European Journal of Epidemiology</i> , 2000, 16, 1087-1097.	2.5	46
36	The effect of antenatal education in small classes on obstetric and psycho-social outcomes - a systematic review. <i>Systematic Reviews</i> , 2015, 4, 20.	2.5	43

#	ARTICLE	IF	CITATIONS
37	Income inequality and ischaemic heart disease in Danish men and women. <i>International Journal of Epidemiology</i> , 2003, 32, 375-380.	0.9	41
38	Cross-country comparisons of trends in adolescent psychosomatic symptoms – a Rasch analysis of HBSC data from four Nordic countries. <i>Health and Quality of Life Outcomes</i> , 2019, 17, 27.	1.0	39
39	Social class variation in medicine use among adolescents. <i>European Journal of Public Health</i> , 2004, 14, 49-52.	0.1	38
40	The role of national policies intended to regulate adolescent smoking in explaining the prevalence of daily smoking: a study of adolescents from 27 European countries. <i>Addiction</i> , 2008, 103, 824-831.	1.7	31
41	Prevention of public health risks linked to bullying: A need for a whole community approach. <i>International Journal of Adolescent Medicine and Health</i> , 2008, 20, 185-99.	0.6	31
42	Young adolescents' use of medicine for headache: sources of supply, availability and accessibility at home. <i>Pharmacoepidemiology and Drug Safety</i> , 2008, 17, 406-410.	0.9	30
43	Medicine use for headache in adolescence predicts medicine use for headache in young adulthood. <i>Pharmacoepidemiology and Drug Safety</i> , 2009, 18, 619-623.	0.9	30
44	Social inequality in adolescent daily smoking: Has it changed over time?. <i>Scandinavian Journal of Public Health</i> , 2009, 37, 287-294.	1.2	29
45	Does school social capital modify socioeconomic inequality in mental health? A multi-level analysis in Danish schools. <i>Social Science and Medicine</i> , 2015, 140, 35-43.	1.8	29
46	Loneliness, immigration background and self-identified ethnicity: a nationally representative study of adolescents in Denmark. <i>Journal of Ethnic and Migration Studies</i> , 2016, 42, 1977-1995.	1.9	29
47	Medicine Use Among 11- and 13-Year-Olds: Agreement Between Parents' Reports and Children's Self-Reports. <i>Annals of Pharmacotherapy</i> , 2007, 41, 581-586.	0.9	27
48	Antenatal education in small classes may increase childbirth self-efficacy: Results from a Danish randomised trial. <i>Sexual and Reproductive Healthcare</i> , 2016, 10, 32-34.	0.5	27
49	Socioeconomic disparities in birth weight and body mass index during infancy through age 7 years: a study within the Danish National Birth Cohort. <i>BMJ Open</i> , 2017, 7, e011781.	0.8	27
50	School-related risk factors for drunkenness among adolescents: risk factors differ between socio-economic groups. <i>European Journal of Public Health</i> , 2007, 17, 27-32.	0.1	26
51	Self-rated health as predictor of medicine use in adolescence. <i>Pharmacoepidemiology and Drug Safety</i> , 2008, 17, 186-192.	0.9	26
52	Revitalising the Metropolit 1953 Danish male birth cohort: background, aims and design. <i>Paediatric and Perinatal Epidemiology</i> , 2004, 18, 385-394.	0.8	25
53	Effects of the X:IT smoking intervention: a school-based cluster randomized trial. <i>International Journal of Epidemiology</i> , 2015, 44, 1900-1908.	0.9	24
54	High impact of implementation on school-based smoking prevention: the X:IT study – a cluster-randomized smoking prevention trial. <i>Implementation Science</i> , 2015, 11, 125.	2.5	23

#	ARTICLE	IF	CITATIONS
55	Emotional symptoms among adolescents: epidemiological analysis of individual-, classroom- and school-level factors. <i>European Journal of Public Health</i> , 2015, 25, 644-649.	0.1	23
56	Influence of marital history over two and three generations on early death. A longitudinal study of Danish men born in 1953. <i>Journal of Epidemiology and Community Health</i> , 2006, 60, 496-501.	2.0	22
57	Living with a disability: a qualitative study of associations between social relations, social participation and quality of life. <i>Disability and Rehabilitation</i> , 2019, 41, 1275-1286.	0.9	22
58	Eight-year change in functional ability among 70- to 95-year-olds. <i>Scandinavian Journal of Public Health</i> , 2007, 35, 243-249.	1.2	21
59	Barriers and Facilitators for Teachers' Implementation of the Curricular Component of the Boost Intervention Targeting Adolescents' Fruit and Vegetable Intake. <i>Journal of Nutrition Education and Behavior</i> , 2014, 46, e1-e8.	0.3	21
60	Trends in high life satisfaction among adolescents in five Nordic countries 2002â€“2014. <i>Nordisk VÃlfÃrdsforskning</i> , 2019, 4, 54-66.	0.2	21
61	Changes in social relations in old age. Are they influenced by functional ability?. <i>Aging Clinical and Experimental Research</i> , 2002, 14, 56-64.	1.4	20
62	Implementation of strategies to increase adolescentsâ€™ access to fruit and vegetables at school: process evaluation findings from the Boost study. <i>BMC Public Health</i> , 2015, 15, 86.	1.2	19
63	Trends in social inequality in overweight and obesity among adolescents in Denmark 1998â€“2018. <i>International Journal of Public Health</i> , 2020, 65, 607-616.	1.0	19
64	The Hi Five study: design of a school-based randomized trial to reduce infections and improve hygiene and well-being among 6â€“15 year olds in Denmark. <i>BMC Public Health</i> , 2015, 15, 207.	1.2	18
65	Secular Trends in Alcohol Drinking Among Danish 15â€“Yearâ€“Olds: Comparable Representative Samples From 1988 to 2010. <i>Journal of Research on Adolescence</i> , 2014, 24, 748-756.	1.9	17
66	Design of a school-based randomized trial to reduce smoking among 13 to 15-year olds, the X:IT study. <i>BMC Public Health</i> , 2014, 14, 518.	1.2	17
67	A six-step protocol to systematic process evaluation of multicomponent cluster-randomised health promoting interventions illustrated by the Boost study. <i>Evaluation and Program Planning</i> , 2014, 46, 58-71.	0.9	17
68	Adolescent Weight Status: Associations With Structural and Functional Dimensions of Social Relations. <i>Journal of Adolescent Health</i> , 2017, 60, 460-468.	1.2	17
69	Validity of a hospital-based obstetric register using medical records as reference. <i>Clinical Epidemiology</i> , 2015, 7, 509.	1.5	16
70	Study protocol of the Healthy High School study: a school-based intervention to improve well-being among high school students in Denmark. <i>BMC Public Health</i> , 2020, 20, 95.	1.2	16
71	Changes in household composition as determinant of changes in functional ability among old men and women. <i>Aging Clinical and Experimental Research</i> , 2002, 14, 65-74.	1.4	16
72	Supermarket and fast-food outlet exposure in Copenhagen: associations with socio-economic and demographic characteristics. <i>Public Health Nutrition</i> , 2011, 14, 1618-1626.	1.1	15

#	ARTICLE	IF	CITATIONS
73	Antenatal small-class education versus auditorium-based lectures to promote positive transitioning to parenthood – A randomised trial. PLoS ONE, 2017, 12, e0176819.	1.1	12
74	Validation of presence of supermarkets and fast-food outlets in Copenhagen: case study comparison of multiple sources of secondary data. Public Health Nutrition, 2012, 15, 1228-1231.	1.1	11
75	Parental involvement and association with adolescents’ fruit and vegetable intake at follow-up: Process evaluation results from the multi-component school-based Boost intervention. International Journal of Behavioral Nutrition and Physical Activity, 2016, 13, 112.	2.0	11
76	Study protocol of the X:IT II - a school-based smoking preventive intervention. BMC Public Health, 2019, 19, 497.	1.2	11
77	Trends in socioeconomic differences in daily smoking among 15-year-old Danes 1991–2014. Scandinavian Journal of Public Health, 2020, 48, 667-673.	1.2	11
78	Association of School Characteristics and Implementation in the X:IT Study – A School Randomized Smoking Prevention Program. Journal of School Health, 2017, 87, 329-337.	0.8	10
79	Old Persons' Contact with General Practitioners in relation to Health: A Danish Population Study. Scandinavian Journal of Primary Health Care, 1991, 9, 252-258.	0.6	9
80	Development in self-rated health among older people as determinant of social relations. Scandinavian Journal of Public Health, 2004, 32, 419-425.	1.2	9
81	Group-based antenatal birth and parent preparation for improving birth outcomes and parenting resources: Study protocol for a randomised trial. Sexual and Reproductive Healthcare, 2013, 4, 121-126.	0.5	9
82	Self-efficacy and social competence reduce socioeconomic inequality in emotional symptoms among schoolchildren. European Journal of Public Health, 2020, 30, 80-85.	0.1	9
83	Socioeconomic differences in emotional symptoms among adolescents in the Nordic countries: Recommendations on how to present inequality. Scandinavian Journal of Public Health, 2015, 43, 83-90.	1.2	8
