#	ARTICLE	IF	CITATIONS
1	Wheelchair interventions, services and provision for disabled children: a mixed-method systematic review and conceptual framework. <i>BMC Health Services Research</i> , 2014, 14, 309.	2.2	56
2	High Prevalence of Untreated Depression in Patients Accessing Low-Vision Services. <i>Ophthalmology</i> , 2016, 123, 440-441.	5.2	45
3	Depression in Visual Impairment Trial (DEPVIT): A Randomized Clinical Trial of Depression Treatments in People With Low Vision. , 2016, 57, 4247.		36
4	Measuring the health-related quality of life of children with impaired mobility: examining correlation and agreement between children and parent proxies. <i>BMC Research Notes</i> , 2017, 10, 377.	1.4	32
5	Portable electronic vision enhancement systems in comparison with optical magnifiers for near vision activities: an economic evaluation alongside a randomized crossover trial. <i>Acta Ophthalmologica</i> , 2017, 95, e415-e423.	1.1	29
6	Effectiveness of portable electronic and optical magnifiers for near vision activities in low vision: a randomised crossover trial. <i>Ophthalmic and Physiological Optics</i> , 2017, 37, 370-384.	2.0	27
7	Depressive symptoms in people with vision impairment: a cross-sectional study to identify who is most at risk. <i>BMJ Open</i> , 2019, 9, e026163.	1.9	27
8	Powered mobility interventions for very young children with mobility limitations to aid participation and positive development: the EMPoWER evidence synthesis. <i>Health Technology Assessment</i> , 2020, 24, 1-194.	2.8	25
9	Defining health-related quality of life for young wheelchair users: A qualitative health economics study. <i>PLoS ONE</i> , 2017, 12, e0179269.	2.5	18
10	Appropriate Assistive Technology for Developing Countries. <i>Physical Medicine and Rehabilitation Clinics of North America</i> , 2019, 30, 847-865.	1.3	17
11	Costs and outcomes of improving population health through better social housing: a cohort study and economic analysis. <i>International Journal of Public Health</i> , 2017, 62, 1039-1050.	2.3	11
12	A conceptual framework to assess effectiveness in wheelchair provision. <i>African Journal of Disability</i> , 2017, 6, 355.	1.6	11
13	Understanding the Global Challenges to Accessing Appropriate Wheelchairs: Position Paper. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3338.	2.6	11
14	Development of the Wheelchair outcomes Assessment Tool for Children (WATCH): A patient-centred outcome measure for young wheelchair users. <i>PLoS ONE</i> , 2018, 13, e0209380.	2.5	10
15	A randomised controlled trial and costâ€œconsequence analysis of traditional and digital foot orthoses supply chains in a National Health Service setting: application to feet at risk of diabetic plantar ulceration. <i>Journal of Foot and Ankle Research</i> , 2019, 12, 2.	1.9	10
16	Prioritising wheelchair services for children: a pilot discrete choice experiment to understand how child wheelchair users and their parents prioritise different attributes of wheelchair services. <i>Pilot and Feasibility Studies</i> , 2016, 2, 32.	1.2	9
17	Preference-based measures of health-related quality of life in congenital mobility impairment: a systematic review of validity and responsiveness. <i>Health Economics Review</i> , 2020, 10, 9.	2.0	9
18	Atopic dermatitis: economic burden and strategies for highâ€œquality care. <i>British Journal of Dermatology</i> , 2020, 182, 1087-1088.	1.5	7

#	ARTICLE	IF	CITATIONS
19	Endoscopic ultrasound staging in patients with gastro-oesophageal cancers: a systematic review of economic evidence. <i>BMC Cancer</i> , 2019, 19, 900.	2.6	6
20	Allocation of biologics: health economics and clinical decision making in plaque psoriasis. <i>British Journal of Dermatology</i> , 2018, 178, 997-998.	1.5	5
21	Preference-based measurement of mobility-related quality of life: developing the MobQoL-7D health state classification system. <i>Disability and Rehabilitation</i> , 2022, 44, 2915-2929.	1.8	5
22	Considering the role of health economics in pyoderma gangrenosum and other dermatology research. <i>British Journal of Dermatology</i> , 2017, 177, 1475-1476.	1.5	4
23	Development of the MobQoL patient reported outcome measure for mobility-related quality of life. <i>Disability and Rehabilitation</i> , 2020, 43, 1-10.	1.8	4
24	Economic model to examine the cost-effectiveness of FlowOx home therapy compared to standard care in patients with peripheral artery disease. <i>PLoS ONE</i> , 2021, 16, e0244851.	2.5	4
25	Conceptualization of physical exercise and keeping fit by child wheelchair users and their parents. <i>Journal of Advanced Nursing</i> , 2017, 73, 1111-1123.	3.3	2
26	Perceptions of the impact of disability and impairment on health, quality of life and capability. <i>BMC Research Notes</i> , 2019, 12, 287.	1.4	2
27	Increased healthcare costs for filaggrin-related eczema and asthma: hope for targeted management and prevention. <i>British Journal of Dermatology</i> , 2018, 179, 564-565.	1.5	1
