#	ARTICLE	IF	CITATIONS
1	The migration of social workers to and from the United Kingdom: a comparative perspective. <i>European Journal of Social Work</i> , 2023, 26, 189-202.	0.9	1
2	Disentangling interventions to reduce fear of falling in community-dwelling older people: a systematic review and meta-analysis of intervention components. <i>Disability and Rehabilitation</i> , 2022, 44, 6247-6257.	1.8	8
3	Social Workers Migrating between England and Australia: Linking Social Hierarchies, Bureaucracy, Trust and Politeness. <i>British Journal of Social Work</i> , 2022, 52, 3095-3113.	1.4	4
4	Global article collection: essential reads from around the world. <i>Journal of Medical Economics</i> , 2022, 25, 864-869.	2.1	1
5	Intervention Characteristics Associated With a Reduction in Fear of Falling Among Community-Dwelling Older People: A Systematic Review and Meta-analysis of Randomized Controlled Trials. <i>Gerontologist</i> , 2021, 61, e269-e282.	3.9	27
6	Effects of the reform of the Dutch healthcare into managed competition: Results of a Delphi study among experts. <i>Health Policy</i> , 2021, 125, 27-33.	3.0	7
7	Illustration of tailored digital health and potential new avenues. , 2021, , 159-169.		0
8	How to use the Integrated-Change Model to design digital health programs. , 2021, , 143-157.		4
9	Knowledge, socio-cognitive perceptions and the practice of hand hygiene and social distancing during the COVID-19 pandemic: a cross-sectional study of UK university students. <i>BMC Public Health</i> , 2021, 21, 426.	2.9	41
10	Most Important Factors for Deciding Rehabilitation Provision for Severe Stroke Survivors Post Hospital Discharge: A Study Protocol for a Bestâ€“Worst Scaling Experiment. <i>Methods and Protocols</i> , 2021, 4, 27.	2.0	3
11	The most important facilitators and barriers to the use of Health Technology Assessment in Canada: a bestâ€“worst scaling approach. <i>Journal of Medical Economics</i> , 2021, 24, 846-856.	2.1	2
12	Knowledge and perceptions of Alzheimerâ€™s disease in three ethnic groups of younger adults in the United Kingdom. <i>BMC Public Health</i> , 2021, 21, 1124.	2.9	3
13	Combining the Integrated-Change Model with Self-Determination Theory: Application in Physical Activity. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 28.	2.6	4
14	Understanding patientsâ€™ preferences for HIV treatment among rural and urban Colombian patients. <i>Journal of Medical Economics</i> , 2020, 23, 801-802.	2.1	3
15	A discrete choice experiment to assess patientsâ€™ preferences for HIV treatment in the rural population in Colombia. <i>Journal of Medical Economics</i> , 2020, 23, 803-811.	2.1	7
16	A discrete choice experiment to assess patientsâ€™ preferences for HIV treatment in the urban population in Colombia. <i>Journal of Medical Economics</i> , 2020, 23, 812-818.	2.1	11
17	A Multifactorial Approach to Sleep and Its Association with Health-Related Quality of Life in a Multiethnic Asian Working Population: A Cross-Sectional Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4147.	2.6	6
18	How recommender systems could support and enhance computer-tailored digital health programs: A scoping review. <i>Digital Health</i> , 2019, 5, 205520761882472.	1.8	48

#	ARTICLE	IF	CITATIONS
19	Examining the Factor Structure of the Pittsburgh Sleep Quality Index in a Multi-Ethnic Working Population in Singapore. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4590.	2.6	10
20	Comparison of statistical analysis methods for object case best-worst scaling. <i>Journal of Medical Economics</i> , 2019, 22, 509-515.	2.1	15
21	Health Effects of Underground Workspaces cohort: study design and baseline characteristics. <i>Epidemiology and Health</i> , 2019, 41, e2019025.	1.9	16
22	Factors associated with smoking initiation among Saudi male adolescents: A longitudinal study. <i>Tobacco Prevention and Cessation</i> , 2019, 5, 21.	0.4	2
23	Relevance of barriers and facilitators in the use of health technology assessment in Colombia. <i>Journal of Medical Economics</i> , 2018, 21, 510-517.	2.1	6
24	OPTIMIZING USABILITY OF AN ECONOMIC DECISION SUPPORT TOOL: PROTOTYPE OF THE EQUIPTMOD. <i>International Journal of Technology Assessment in Health Care</i> , 2018, 34, 68-77.	0.5	5
25	Cost-effectiveness of alternative smoking cessation scenarios in Spain: results from the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 65-75.	3.3	19
26	Assessment of cost-effective changes to the current and potential provision of smoking cessation services: an analysis based on the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 96-105.	3.3	7
27	Cost-effectiveness of possible future smoking cessation strategies in Hungary: results from the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 76-86.	3.3	5
28	Serious gaming as a method for changing stakeholders'™ perspectives on integrated care. <i>Journal of Integrated Care</i> , 2018, 26, 54-64.	0.5	1
29	Cost-effectiveness of increasing the reach of smoking cessation interventions in Germany: results from the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 52-64.	3.3	6
30	Most important barriers and facilitators of HTA usage in decision-making in Europe. <i>Expert Review of Pharmacoeconomics and Outcomes Research</i> , 2018, 18, 297-304.	1.4	12
31	Estimates of costs for modelling return on investment from smoking cessation interventions. <i>Addiction</i> , 2018, 113, 32-41.	3.3	9
32	Best-worst scaling to assess the most important barriers and facilitators for the use of health technology assessment in Austria. <i>Expert Review of Pharmacoeconomics and Outcomes Research</i> , 2018, 18, 223-232.	1.4	10
33	Is it cost-effective to provide internet-based interventions to complement the current provision of smoking cessation services in the Netherlands? An analysis based on the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 87-95.	3.3	15
34	Understanding perceived availability and importance of tobacco control interventions to inform European adoption of a UK economic model: a cross-sectional study. <i>BMC Health Services Research</i> , 2018, 18, 115.	2.2	2
35	Model-based economic evaluations in smoking cessation and their transferability to new contexts: a systematic review. <i>Addiction</i> , 2017, 112, 946-967.	3.3	27
36	MOST IMPORTANT BARRIERS AND FACILITATORS REGARDING THE USE OF HEALTH TECHNOLOGY ASSESSMENT. <i>International Journal of Technology Assessment in Health Care</i> , 2017, 33, 183-191.	0.5	11

#	ARTICLE	IF	CITATIONS
37	The impact of non-response bias due to sampling in public health studies: A comparison of voluntary versus mandatory recruitment in a Dutch national survey on adolescent health. BMC Public Health, 2017, 17, 276.	2.9	249
38	Exploring consensus on how to measure smoking cessation. A Delphi study. BMC Public Health, 2017, 17, 890.	2.9	70
39	Effectiveness of a Video-Versus Text-Based Computer-Tailored Intervention for Obesity Prevention after One Year: A Randomized Controlled Trial. International Journal of Environmental Research and Public Health, 2017, 14, 1275.	2.6	21
40	A Review of the Theoretical Basis, Effects, and Cost Effectiveness of Online Smoking Cessation Interventions in the Netherlands: A Mixed-Methods Approach. Journal of Medical Internet Research, 2017, 19, e230.	4.3	31
41	Similarities and differences between stakeholders'™ opinions on using Health Technology Assessment (HTA) information across five European countries: results from the EQUIPT survey. Health Research Policy and Systems, 2016, 14, 38.	2.8	19
42	Using Bestâ€Worst Scaling to Investigate Preferences in Health Care. Pharmacoeconomics, 2016, 34, 1195-1209.	3.3	164
43	Understanding the stakeholders'™ intention to use economic decision-support tools: A cross-sectional study with the tobacco return on investment tool. Health Policy, 2016, 120, 46-54.	3.0	23
