#	ARTICLE	IF	CITATIONS
1	Data concerning the Copenhagen tool: A research tool for evaluation of basic life Support educational interventions. Data in Brief, 2021, 34, 106679.	1.0	1
2	Medical dispatchers'™ perception of the interaction with the caller during emergency calls - a qualitative study. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2021, 29, 45.	2.6	14
3	Description of call handling in emergency medical dispatch centres in Scandinavia: recognition of out-of-hospital cardiac arrests and dispatcher-assisted CPR. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2021, 29, 88.	2.6	11
4	Helicopter emergency medical services missions to islands and the mainland during a 3-year period in Denmark: a population-based study on patient and sociodemographic characteristics, comorbidity, and use of healthcare services. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2021, 29, 152.	2.6	3
5	The Copenhagen Tool a research tool for evaluation of basic life support educational interventions. Resuscitation, 2020, 156, 125-136.	3.0	2
6	Medical dispatchers'™ perception of visual information in real out-of-hospital cardiac arrest: a qualitative interview study. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2019, 27, 8.	2.6	10
7	The Danish helicopter emergency medical service database: High quality data with great potential. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2019, 27, 38.	2.6	24
8	Characteristics of patients treated by the Danish Helicopter Emergency Medical Service from 2014-2018: a nationwide population-based study. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2019, 27, 102.	2.6	25
9	A nationwide investigation of CPR courses, books, and skill retention. Resuscitation, 2019, 134, 110-121.	3.0	11
10	Response by Baekgaard et al to Letters Regarding Article, "The Effects of Public Access Defibrillation on Survival After Out-of-Hospital Cardiac Arrest: A Systematic Review of Observational Studies". Circulation, 2018, 137, 1650-1651.	1.6	1
11	Danish first aid books compliance with the new evidence-based non-resuscitative first aid guidelines. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2018, 26, 7.	2.6	3
12	Different defibrillation strategies in survivors after out-of-hospital cardiac arrest. Heart, 2018, 104, 1929-1936.	2.9	18
13	Recognition of out-of-hospital cardiac arrest during emergency calls " a systematic review of observational studies. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2017, 25, 9.	2.6	45
14	Recognising out-of-hospital cardiac arrest during emergency calls increases bystander cardiopulmonary resuscitation and survival. Resuscitation, 2017, 115, 141-147.	3.0	63
15	Effect of bystander CPR initiation prior to the emergency call on ROSC and 30day survival"An evaluation of 548 emergency calls. Resuscitation, 2017, 111, 55-61.	3.0	24
16	The Effects of Public Access Defibrillation on Survival After Out-of-Hospital Cardiac Arrest. Circulation, 2017, 136, 954-965.	1.6	140
17	The difficult medical emergency call: A register-based study of predictors and outcomes. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2017, 25, 22.	2.6	26
18	Medical dispatchers recognise substantial amount of acute stroke during emergency calls. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2016, 24, 89.	2.6	21

#	ARTICLE	IF	CITATIONS
19	Recognition of out-of-hospital cardiac arrest by medical dispatchers in emergency medical dispatch centres in two countries. <i>Resuscitation</i> , 2016, 109, 1-8.	3.0	31
20	Barriers to recognition of out-of-hospital cardiac arrest during emergency medical calls: a qualitative inductive thematic analysis. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2015, 23, 70.	2.6	28
21	Why and when citizens call for emergency help: an observational study of 211,193 medical emergency calls. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2015, 23, 88.	2.6	66
22	Challenges in out-of-hospital cardiac arrest – A study combining closed-circuit television (CCTV) and medical emergency calls. <i>Resuscitation</i> , 2015, 96, 317-322.	3.0	45
23	Debriefing bystanders of out-of-hospital cardiac arrest is valuable. <i>Resuscitation</i> , 2014, 85, 1504-1511.	3.0	45
