#	ARTICLE	IF	CITATIONS
1	Beyond the "at risk mental state" concept: transitioning to transdiagnostic psychiatry. <i>World Psychiatry</i> , 2018, 17, 133-142.	10.4	311
2	Moving From Static to Dynamic Models of the Onset of Mental Disorder. <i>JAMA Psychiatry</i> , 2017, 74, 528.	11.0	218
3	A therapeutic application of the experience sampling method in the treatment of depression: a randomized controlled trial. <i>World Psychiatry</i> , 2014, 13, 68-77.	10.4	194
4	Momentary assessment technology as a tool to help patients with depression help themselves. <i>Acta Psychiatrica Scandinavica</i> , 2011, 124, 262-272.	4.5	108
5	Can We Jump from Cross-Sectional to Dynamic Interpretations of Networks Implications for the Network Perspective in Psychiatry. <i>Psychotherapy and Psychosomatics</i> , 2017, 86, 175-177.	8.8	96
6	Declining transition rates to psychotic disorder in "ultra-high risk" clients: Investigation of a dilution effect. <i>Schizophrenia Research</i> , 2016, 170, 130-136.	2.0	87
7	Day-to-day associations between subjective sleep and affect in regard to future depression in a female population-based sample. <i>British Journal of Psychiatry</i> , 2013, 202, 407-412.	2.8	84
8	Broad clinical high-risk mental state (CHARMS): Methodology of a cohort study validating criteria for pluripotent risk. <i>Microbial Biotechnology</i> , 2019, 13, 379-386.	1.7	76
9	At-risk studies and clinical antecedents of psychosis, bipolar disorder and depression: a scoping review in the context of clinical staging. <i>Psychological Medicine</i> , 2019, 49, 177-189.	4.5	55
10	Clinical trajectories in the ultra-high risk for psychosis population. <i>Schizophrenia Research</i> , 2018, 197, 550-556.	2.0	54
11	The neurophenomenology of early psychosis: An integrative empirical study. <i>Consciousness and Cognition</i> , 2020, 77, 102845.	1.5	51
12	Further examination of the reducing transition rate in ultra high risk for psychosis samples: The possible role of earlier intervention. <i>Schizophrenia Research</i> , 2016, 174, 43-49.	2.0	47
13	Change in daily life behaviors and depression: Within-person and between-person associations.. <i>Health Psychology</i> , 2016, 35, 433-441.	1.6	47
14	Translating assessments of the film of daily life into person-tailored feedback interventions in depression. <i>Acta Psychiatrica Scandinavica</i> , 2011, 123, 402-403.	4.5	43
15	Experience Sampling-Based Personalized Feedback and Positive Affect: A Randomized Controlled Trial in Depressed Patients. <i>PLoS ONE</i> , 2015, 10, e0128095.	2.5	43
16	Cannabis-induced attenuated psychotic symptoms: implications for prognosis in young people at ultra-high risk for psychosis. <i>Psychological Medicine</i> , 2017, 47, 616-626.	4.5	41
17	NEURAPRO: a multi-centre RCT of omega-3 polyunsaturated fatty acids versus placebo in young people at ultra-high risk of psychotic disorders"medium-term follow-up and clinical course. <i>NPJ Schizophrenia</i> , 2018, 4, 11.	3.6	41
18	Effects of momentary self-monitoring on empowerment in a randomized controlled trial in patients with depression. <i>European Psychiatry</i> , 2015, 30, 900-906.	0.2	38

#	ARTICLE	IF	CITATIONS
19	Effect of self-monitoring through experience sampling on emotion differentiation in depression. <i>Journal of Affective Disorders</i> , 2019, 244, 71-77.	4.1	35
20	Exploring the Construct of Subjective Sleep Quality in Patients With Insomnia. <i>Journal of Clinical Psychiatry</i> , 2015, 76, e768-e773.	2.2	34
21	Capturing the risk of persisting depressive symptoms: A dynamic network investigation of patients' daily symptom experiences. <i>Psychiatry Research</i> , 2019, 271, 640-648.	3.3	33
22	Pluripotential Risk and Clinical Staging: Theoretical Considerations and Preliminary Data From a Transdiagnostic Risk Identification Approach. <i>Frontiers in Psychiatry</i> , 2020, 11, 553578.	2.6	30
23	The Ultra-High-Risk for psychosis groups: Evidence to maintain the status quo. <i>Schizophrenia Research</i> , 2018, 195, 543-548.	2.0	28
24	The construct validity of the Inventory of Psychotic-Like Anomalous Self-Experiences (IPASE) as a measure of minimal self-disturbance: Preliminary data. <i>Microbial Biotechnology</i> , 2019, 13, 686-691.	1.7	24
25	Testing a neurophenomenological model of basic self disturbance in early psychosis. <i>World Psychiatry</i> , 2019, 18, 104-105.	10.4	23
26	Opening the Black Box of Cognitive-Behavioural Case Management in Clients with Ultra-High Risk for Psychosis. <i>Psychotherapy and Psychosomatics</i> , 2017, 86, 292-299.	8.8	20
27	Detail, dynamics and depth: useful correctives for some current research trends. <i>British Journal of Psychiatry</i> , 2018, 212, 262-264.	2.8	19
28	Intervention strategies for ultra-high risk for psychosis: Progress in delaying the onset and reducing the impact of first-episode psychosis. <i>Schizophrenia Research</i> , 2021, 228, 344-356.	2.0	19
29	Dynamic prediction of transition to psychosis using joint modelling. <i>Schizophrenia Research</i> , 2018, 202, 333-340.	2.0	18
30	Trajectories of symptom severity and functioning over a three-year period in a psychosis high-risk sample: A secondary analysis of the Neurapro trial. <i>Behaviour Research and Therapy</i> , 2020, 124, 103527.	3.1	16
31	The serotonin transporter 5-HTTLPR polymorphism in the association between sleep quality and affect. <i>European Neuropsychopharmacology</i> , 2014, 24, 1086-1090.	0.7	15
32	Toward a Complex Network of Risks for Psychosis: Combining Trauma, Cognitive Biases, Depression, and Psychotic-like Experiences on a Large Sample of Young Adults. <i>Schizophrenia Bulletin</i> , 2021, 47, 395-404.	4.3	15
33	Economic evaluation of an experience sampling method intervention in depression compared with treatment as usual using data from a randomized controlled trial. <i>BMC Psychiatry</i> , 2017, 17, 415.	2.6	14
34	Improving treatments for psychotic disorders: beyond cognitive behaviour therapy for psychosis. <i>Psychosis</i> , 2021, 13, 78-84.	0.8	14
35	The relation of basic self-disturbance to self-harm, eating disorder symptomatology and other clinical features: Exploration in an early psychosis sample. <i>Microbial Biotechnology</i> , 2020, 14, 275-282.	1.7	12
36	Prediction of clinical outcomes beyond psychosis in the ultra-high risk for psychosis population. <i>Microbial Biotechnology</i> , 2021, 15, 642-651.	1.7	11

#	ARTICLE	IF	CITATIONS
37	Distinguishing schizophrenia spectrum from non-spectrum disorders among young patients with first episode psychosis and at high clinical risk: The role of basic self-disturbance and neurocognition. Schizophrenia Research, 2021, 228, 19-28.	2.0	11
38	Basic symptoms in young people at ultra-high risk of psychosis: Association with clinical characteristics and outcomes. Schizophrenia Research, 2020, 216, 255-261.	2.0	8
39	Does reason for referral to an ultra-high risk clinic predict transition to psychosis?. Microbial Biotechnology, 2019, 13, 318-321.	1.7	7
40	Subjective and objective sleep in young people with borderline personality disorder features. Journal of Sleep Research, 2022, 31, e13463.	3.2	7
41	The relationship between childhood trauma and clinical characteristics in ultra-high risk for psychosis youth. Psychosis, 2019, 11, 28-41.	0.8	6
42	Physical health assistance in early recovery of psychosis: Study protocol for a randomized controlled trial. Microbial Biotechnology, 2020, 14, 587-593.	1.7	6
43	Prediction in mental health research and its limits (or why life can only be understood backwards but) Tj ETQq1 1 0,784314 rgBT /Over	1.7	5
44	The association between migrant status and transition in an ultra-high risk for psychosis population. Social Psychiatry and Psychiatric Epidemiology, 2021, 56, 943-952.	3.1	5
45	Greater preference for eveningness is associated with negative symptoms in an ultra-high risk for psychosis sample. Microbial Biotechnology, 2021, 15, 1793-1798.	1.7	4
46	The 5-HTTLPR genotype moderates the association between sleep quality and positive affect: A replication study. European Neuropsychopharmacology, 2016, 26, 1350-1351.	0.7	3
47	Transdiagnostic early intervention, prevention, and prediction in psychiatry. , 2020, , 27-37.		3
48	Clinical risk factors for psychosis. , 2020, , 249-268.		2
49	Twelve-Month Cognitive Trajectories in Individuals at Ultra-High Risk for Psychosis: A Latent Class Analysis. Schizophrenia Bulletin Open, 2022, 3, .	1.7	2
50	My child's future mental health: Carer's engagement with risk identification in an intervention study for youth with at-risk mental states. Microbial Biotechnology, 2021, , .	1.7	1
51	Patients'™, carers'™ and clinicians'™ attitudes towards alternative terms to describe the at-risk for psychosis state. Schizophrenia Research, 2021, 237, 69-75.	2.0	1
52	P.2.a.012 Evidence that self-reported sleep impacts on momentary affect in daily life and predicts follow-up depressive symptomatology. European Neuropsychopharmacology, 2012, 22, S230-S231.	0.7	0
53	A Moving Target. , 2019, , 67-80.		0
54	New paradigms to study psychosis risk. , 2020, , 399-416.		0

#	ARTICLE	IF	CITATIONS
55	Baseline data of a sequential multiple assignment randomized trial (STEP study). <i>Microbial Biotechnology</i> , 2022, 16, 1130-1142.	1.7	0
