#	ARTICLE	IF	CITATIONS
1	Academic Challenges in Developmental Coordination Disorder: A Systematic Review and Meta-Analysis. Physical and Occupational Therapy in Pediatrics, 2023, 43, 34-57.	1.3	2
2	Changes in Use of a Leisure Activity Mobile App for Children With Disabilities During the COVID-19 Pandemic: Retrospective Study. JMIR Pediatrics and Parenting, 2022, 5, e32274.	1.6	3
3	Biomedical Research and Informatics Living Laboratory for Innovative Advances of New Technologies in Community Mobility Rehabilitation: Protocol for Evaluation and Rehabilitation of Mobility Across Continuums of Care. JMIR Research Protocols, 2022, 11, e12506.	1.0	3
4	Using crowdsourced data to assess the relationship between neighbourhood-level deprivation and the availability of inclusive leisure programmes in Canadian cities. Cities and Health, 2022, 6, 503-510.	2.6	3
5	Content development of the Child Community Health Inclusion Index: An evaluation tool for measuring inclusion of children with disabilities in the community. Child: Care, Health and Development, 2022, , .	1.7	1
6	The Effect of Context-Based Interventions at the Systems-Level on Participation of Children with Disabilities: A Systematic Review. Physical and Occupational Therapy in Pediatrics, 2022, 42, 542-565.	1.3	7
7	Complementary and Alternative Therapy Use in Children with Cerebral Palsy. Canadian Journal of Neurological Sciences, 2021, 48, 408-414.	0.5	6
8	Benefit of antenatal corticosteroids by year of birth among preterm infants in Canada during 2003â€“2017: a populationâ€“based cohort study. BJOG: an International Journal of Obstetrics and Gynaecology, 2021, 128, 521-531.	2.3	6
9	Patient engagement in an online coaching intervention for parents of children with suspected developmental delays. Developmental Medicine and Child Neurology, 2021, 63, 668-674.	2.1	10
10	Time to be counted: COVID-19 and intellectual and developmental disabilitiesâ€”an RSC Policy Briefing. Facets, 2021, 6, 1337-1389.	2.4	13
11	Developing a Canadian evaluation framework for patient and public engagement in research: study protocol. Research Involvement and Engagement, 2021, 7, 10.	2.9	14
12	Fathers Matter: Enhancing Healthcare Experiences Among Fathers of Children With Developmental Disabilities. Frontiers in Rehabilitation Sciences, 2021, 2, .	1.2	3
13	Designing User-Centered Mobile Health Initiatives to Promote Healthy Behaviors for Children With Disabilities: Development and Usability Study. JMIR Formative Research, 2021, 5, e23877.	1.4	5
14	Use of consensus methods to determine the early clinical signs of cerebral palsy. Paediatrics and Child Health, 2020, 25, 300-307.	0.6	6
15	International expert recommendations of clinical features to prompt referral for diagnostic assessment of cerebral palsy. Developmental Medicine and Child Neurology, 2020, 62, 89-96.	2.1	24
16	Quantification of apparent axon density and orientation dispersion in the white matter of youth born with congenital heart disease. NeuroImage, 2020, 205, 116255.	4.2	21
17	Early Clinical Features of Cerebral Palsy in Children Without Perinatal Risk Factors: A Scoping Review. Pediatric Neurology, 2020, 102, 56-61.	2.1	13
18	Current Referral Practices for Diagnosis and Intervention for Children with Cerebral Palsy: A National Environmental Scan. Journal of Pediatrics, 2020, 216, 173-180.e1.	1.8	8

#	ARTICLE	IF	CITATIONS
19	Participation in leisure activities in adolescents with congenital heart defects. <i>Developmental Medicine and Child Neurology</i> , 2020, 62, 946-953.	2.1	8
20	Online peer mentorship programmes for children and adolescents with neurodevelopmental disabilities: A systematic review. <i>Child: Care, Health and Development</i> , 2020, 46, 132-148.	1.7	14
21	Motor Impairment in Children With Congenital Heart Defects: A Systematic Review. <i>Pediatrics</i> , 2020, 146, .	2.1	39
22	Characterizing the Subcortical Structures in Youth with Congenital Heart Disease. <i>American Journal of Neuroradiology</i> , 2020, 41, 1503-1508.	2.4	1
23	Knowledge Empowers: Responding to the Knowledge Needs of Youth with Disabilities and Families during the Pandemic. <i>Physical and Occupational Therapy in Pediatrics</i> , 2020, 40, 487-490.	1.3	6
24	Using a rapid review process to engage stakeholders, inform policy and set priorities for promoting physical activity and leisure participation for children with disabilities in British Columbia. <i>Leisure/Loisir</i> , 2020, 44, 225-253.	1.1	9
25	Contextualized Autonomy in Transitional Care for Youth With Neurologic Conditions: The Role of the Pediatric Neurologist. <i>Journal of Child Neurology</i> , 2020, 35, 536-542.	1.4	4
26	Associations Between Postoperative Management in the Critical Care Unit and Adolescent Developmental Outcomes Following Cardiac Surgery in Infancy: An Exploratory Study*. <i>Pediatric Critical Care Medicine</i> , 2020, 21, e1010-e1019.	0.5	3
27	Preterm children with suspected cerebral palsy at 19 months corrected age in the Canadian neonatal follow-up network. <i>Early Human Development</i> , 2019, 136, 7-13.	1.8	1
28	BRIGHT Coaching: A Randomized Controlled Trial on the Effectiveness of a Developmental Coach System to Empower Families of Children With Emerging Developmental Delay. <i>Frontiers in Pediatrics</i> , 2019, 7, 332.	1.9	11
29	Gymnastic-Based Movement Therapy for Children With Neurodevelopmental Disabilities: Results From a Pilot Feasibility Study. <i>Frontiers in Pediatrics</i> , 2019, 7, 186.	1.9	2
30	Hippocampal alterations and functional correlates in adolescents and young adults with congenital heart disease. <i>Human Brain Mapping</i> , 2019, 40, 3548-3560.	3.6	35
31	Health coaching for parents of children with developmental disabilities: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 1259-1265.	2.1	26
32	A Comparison of Developmental Outcomes of Adolescent Neonatal Intensive Care Unit Survivors Born with a Congenital Heart Defect or Born Preterm. <i>Journal of Pediatrics</i> , 2019, 207, 34-41.e2.	1.8	23
33	Coach, Care Coordinator, Navigator or Keyworker? Review of Emergent Terms in Childhood Disability. <i>Physical and Occupational Therapy in Pediatrics</i> , 2019, 39, 119-123.	1.3	12
34	A cross-sectional analysis on the effects of age on dual tasking in typically developing children. <i>Psychological Research</i> , 2019, 83, 104-115.	1.7	12
35	Family-centred health care for children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 62-68.	2.1	19
36	The Role of Rehabilitation Specialists in Canadian NICUs: A 21st Century Perspective. <i>Physical and Occupational Therapy in Pediatrics</i> , 2019, 39, 33-47.	1.3	11

#	ARTICLE	IF	CITATIONS
37	Age at referral for diagnosis and rehabilitation services for cerebral palsy: a scoping review. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 908-914.	2.1	22
38	A Pilot Randomized Controlled Trial of an Intervention to Promote Psychological Well-Being in Critically Ill Children: Soothing Through Touch, Reading, and Music*. <i>Pediatric Critical Care Medicine</i> , 2018, 19, e358-e366.	0.5	24
39	Health-Related Quality of Life for Patients With Genetically Determined Leukoencephalopathy. <i>Pediatric Neurology</i> , 2018, 84, 21-26.	2.1	9
40	The effectiveness of the Pathways and Resources for Engagement and Participation (<scp>PREP</scp>) intervention: improving participation of adolescents with physical disabilities. <i>Developmental Medicine and Child Neurology</i> , 2018, 60, 513-519.	2.1	70
41	Current Practice “Constraints” in the Uptake and Use of Intensive Upper Extremity Training: A Canadian Perspective. <i>Physical and Occupational Therapy in Pediatrics</i> , 2018, 38, 143-156.	1.3	11
42	Factors Associated With Moderate to Vigorous Physical Activity in Adolescents Born Preterm. <i>Pediatric Exercise Science</i> , 2017, 29, 260-267.	1.0	3
43	Does dual tasking ability change with age across childhood and adolescence? A systematic scoping review. <i>International Journal of Developmental Neuroscience</i> , 2017, 58, 35-49.	1.6	33
44	Determinants of developmental outcomes in a very preterm Canadian cohort. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2017, 102, F235-F234.	2.8	196
45	Ottawa Panel Evidence-Based Clinical Practice Guidelines for Structured Physical Activity in the Management of Juvenile Idiopathic Arthritis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2017, 98, 1018-1041.	0.9	36
46	Educational and rehabilitation service utilization in adolescents born preterm or with a congenital heart defect and at high risk for disability. <i>Developmental Medicine and Child Neurology</i> , 2017, 59, 1056-1062.	2.1	8
47	Leisure participation “preference congruence of children with cerebral palsy: a Children's Assessment of Participation and Enjoyment International Network descriptive study. <i>Developmental Medicine and Child Neurology</i> , 2017, 59, 380-387.	2.1	19
48	Canadian stroke best practice recommendations: Stroke rehabilitation practice guidelines, update 2015. <i>International Journal of Stroke</i> , 2016, 11, 459-484.	5.9	440
49	The neurologist's role in supporting transition to adult health care. <i>Neurology</i> , 2016, 87, 835-840.	1.1	76
50	Adolescents with disabilities participate in the shopping mall: facilitators and barriers framed according to the ICF. <i>Disability and Rehabilitation</i> , 2016, 38, 2102-2113.	1.8	11
51	Opening doors to participation of youth with physical disabilities: An intervention study. <i>Canadian Journal of Occupational Therapy</i> , 2016, 83, 83-90.	1.3	44
52	Age at Referral of Children for Initial Diagnosis of Cerebral Palsy and Rehabilitation: Current Practices. <i>Journal of Child Neurology</i> , 2016, 31, 364-369.	1.4	71
53	Impact of Vitamin D Supplementation on Gross Motor Development of Healthy Term Infants: A Randomized Dose-Response Trial. <i>Physical and Occupational Therapy in Pediatrics</i> , 2016, 36, 330-342.	1.3	19
54	ISDN2014_0402: An environmental scan of current practices related to initial referral of children with cerebral palsy to medical and rehabilitation specialists. <i>International Journal of Developmental Neuroscience</i> , 2015, 47, 120-121.	1.6	0

#	ARTICLE	IF	CITATIONS
55	What we can learn from existing evidence about physical activity for juvenile idiopathic arthritis?. <i>Rheumatology</i> , 2015, 55, kev389.	1.9	3
56	Participation in Leisure Activities among Canadian Children with Arthritis: Results from a National Representative Sample. <i>Journal of Rheumatology</i> , 2015, 42, 1002-1010.	2.0	13
57	Persistent Handwriting Difficulties in Children With ADHD After Treatment With Stimulant Medication. <i>Journal of Attention Disorders</i> , 2015, 19, 620-629.	2.6	18
58	Pediatric Cerebral Palsy in Africa. <i>Journal of Child Neurology</i> , 2015, 30, 963-971.	1.4	64
59	Magnetic Resonance Imaging (MRI) and Prognostication in Neonatal Hypoxic-Ischemic Injury. <i>Journal of Child Neurology</i> , 2015, 30, 174-181.	1.4	9
60	Somatosensory evoked potentials in neonates with hypoxic-ischemic encephalopathy treated with hypothermia. <i>European Journal of Paediatric Neurology</i> , 2015, 19, 423-428.	1.6	27
61	Participation of Children and Youth with Autism Spectrum Disorder: A Scoping Review. <i>Review Journal of Autism and Developmental Disorders</i> , 2015, 2, 103-114.	3.4	82
62	Participation in Leisure Activities by Children and Adolescents with Juvenile Idiopathic Arthritis. <i>Journal of Rheumatology</i> , 2015, 42, 1708-1715.	2.0	12
63	Stability of leisure participation from school-age to adolescence in individuals with cerebral palsy. <i>Research in Developmental Disabilities</i> , 2015, 47, 73-79.	2.2	37
64	Are you doing what you want to do? Leisure preferences of adolescents with cerebral palsy. <i>Developmental Neurorehabilitation</i> , 2015, 18, 234-240.	1.1	25
65	Contribution of socio-economic status on the prevalence of cerebral palsy: a systematic search and review. <i>Developmental Medicine and Child Neurology</i> , 2014, 56, 1043-1051.	2.1	50
66	A100: Predictors of Involvement in Leisure Activities Among Children and Youth With Juvenile Idiopathic Arthritis. <i>Arthritis and Rheumatology</i> , 2014, 66, S135-S135.	5.6	1
67	Participation and enjoyment of leisure activities in adolescents born at <math>\leq 29</math>week gestation. <i>Early Human Development</i> , 2014, 90, 307-314.	1.8	17
68	Rehabilitation service utilization in children and youth with cerebral palsy. <i>Child: Care, Health and Development</i> , 2014, 40, 275-282.	1.7	56
69	No differences were observed between six months of context- versus child-focused intervention for young children with cerebral palsy on self-care, mobility, range of motion or participation. <i>Australian Occupational Therapy Journal</i> , 2014, 61, 126-127.	1.1	0
70	International Classification of Functioning, Disability and Health (ICF) as a Framework for Change. <i>Journal of Child Neurology</i> , 2014, 29, 1030-1035.	1.4	49
71	Child and environmental factors associated with leisure participation in adolescents born extremely preterm. <i>Early Human Development</i> , 2014, 90, 665-672.	1.8	16
72	Innovation Toward Better Living. <i>Journal of Child Neurology</i> , 2014, 29, 1028-1029.	1.4	0
