#	ARTICLE	IF	CITATIONS
1	Academic Challenges in Developmental Coordination Disorder: A Systematic Review and Meta-Analysis. <i>Physical and Occupational Therapy in Pediatrics</i> , 2023, 43, 34-57.	0.8	2
2	Changes in Use of a Leisure Activity Mobile App for Children With Disabilities During the COVID-19 Pandemic: Retrospective Study. <i>JMIR Pediatrics and Parenting</i> , 2022, 5, e32274.	0.8	3
3	Biomedical Research and Informatics Living Laboratory for Innovative Advances of New Technologies in Community Mobility Rehabilitation: Protocol for Evaluation and Rehabilitation of Mobility Across Continuums of Care. <i>JMIR Research Protocols</i> , 2022, 11, e12506.	0.5	3
4	Using crowdsourced data to assess the relationship between neighbourhood-level deprivation and the availability of inclusive leisure programmes in Canadian cities. <i>Cities and Health</i> , 2022, 6, 503-510.	1.6	3
5	Content development of the Child Community Health Inclusion Index: An evaluation tool for measuring inclusion of children with disabilities in the community. <i>Child: Care, Health and Development</i> , 2022, , .	0.8	1
6	The Effect of Context-Based Interventions at the Systems-Level on Participation of Children with Disabilities: A Systematic Review. <i>Physical and Occupational Therapy in Pediatrics</i> , 2022, 42, 542-565.	0.8	7
7	Complementary and Alternative Therapy Use in Children with Cerebral Palsy. <i>Canadian Journal of Neurological Sciences</i> , 2021, 48, 408-414.	0.3	6
8	Benefit of antenatal corticosteroids by year of birth among preterm infants in Canada during 2003-2017: a population-based cohort study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2021, 128, 521-531.	1.1	6
9	Patient engagement in an online coaching intervention for parents of children with suspected developmental delays. <i>Developmental Medicine and Child Neurology</i> , 2021, 63, 668-674.	1.1	10
10	Time to be counted: COVID-19 and intellectual and developmental disabilities- an RSC Policy Briefing. <i>Facets</i> , 2021, 6, 1337-1389.	1.1	13
11	Developing a Canadian evaluation framework for patient and public engagement in research: study protocol. <i>Research Involvement and Engagement</i> , 2021, 7, 10.	1.1	14
12	Fathers Matter: Enhancing Healthcare Experiences Among Fathers of Children With Developmental Disabilities. <i>Frontiers in Rehabilitation Sciences</i> , 2021, 2, .	0.5	3
13	Designing User-Centered Mobile Health Initiatives to Promote Healthy Behaviors for Children With Disabilities: Development and Usability Study. <i>JMIR Formative Research</i> , 2021, 5, e23877.	0.7	5
14	Use of consensus methods to determine the early clinical signs of cerebral palsy. <i>Paediatrics and Child Health</i> , 2020, 25, 300-307.	0.3	6
15	International expert recommendations of clinical features to prompt referral for diagnostic assessment of cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2020, 62, 89-96.	1.1	24
16	Quantification of apparent axon density and orientation dispersion in the white matter of youth born with congenital heart disease. <i>NeuroImage</i> , 2020, 205, 116255.	2.1	21
17	Early Clinical Features of Cerebral Palsy in Children Without Perinatal Risk Factors: A Scoping Review. <i>Pediatric Neurology</i> , 2020, 102, 56-61.	1.0	13
18	Current Referral Practices for Diagnosis and Intervention for Children with Cerebral Palsy: A National Environmental Scan. <i>Journal of Pediatrics</i> , 2020, 216, 173-180.e1.	0.9	8

#	ARTICLE	IF	CITATIONS
19	Participation in leisure activities in adolescents with congenital heart defects. <i>Developmental Medicine and Child Neurology</i> , 2020, 62, 946-953.	1.1	8
20	Online peer mentorship programmes for children and adolescents with neurodevelopmental disabilities: A systematic review. <i>Child: Care, Health and Development</i> , 2020, 46, 132-148.	0.8	14
21	Motor Impairment in Children With Congenital Heart Defects: A Systematic Review. <i>Pediatrics</i> , 2020, 146, .	1.0	39
22	Characterizing the Subcortical Structures in Youth with Congenital Heart Disease. <i>American Journal of Neuroradiology</i> , 2020, 41, 1503-1508.	1.2	1
23	Knowledge Empowers: Responding to the Knowledge Needs of Youth with Disabilities and Families during the Pandemic. <i>Physical and Occupational Therapy in Pediatrics</i> , 2020, 40, 487-490.	0.8	6
24	Using a rapid review process to engage stakeholders, inform policy and set priorities for promoting physical activity and leisure participation for children with disabilities in British Columbia. <i>Leisure/ Loisir</i> , 2020, 44, 225-253.	0.6	9
25	Contextualized Autonomy in Transitional Care for Youth With Neurologic Conditions: The Role of the Pediatric Neurologist. <i>Journal of Child Neurology</i> , 2020, 35, 536-542.	0.7	4
26	Associations Between Postoperative Management in the Critical Care Unit and Adolescent Developmental Outcomes Following Cardiac Surgery in Infancy: An Exploratory Study*. <i>Pediatric Critical Care Medicine</i> , 2020, 21, e1010-e1019.	0.2	3
27	Preterm children with suspected cerebral palsy at 19 months corrected age in the Canadian neonatal follow-up network. <i>Early Human Development</i> , 2019, 136, 7-13.	0.8	1
28	BRIGHT Coaching: A Randomized Controlled Trial on the Effectiveness of a Developmental Coach System to Empower Families of Children With Emerging Developmental Delay. <i>Frontiers in Pediatrics</i> , 2019, 7, 332.	0.9	11
29	Gymnastic-Based Movement Therapy for Children With Neurodevelopmental Disabilities: Results From a Pilot Feasibility Study. <i>Frontiers in Pediatrics</i> , 2019, 7, 186.	0.9	2
30	Hippocampal alterations and functional correlates in adolescents and young adults with congenital heart disease. <i>Human Brain Mapping</i> , 2019, 40, 3548-3560.	1.9	35
31	Health coaching for parents of children with developmental disabilities: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 1259-1265.	1.1	26
32	A Comparison of Developmental Outcomes of Adolescent Neonatal Intensive Care Unit Survivors Born with a Congenital Heart Defect or Born Preterm. <i>Journal of Pediatrics</i> , 2019, 207, 34-41.e2.	0.9	23
33	Coach, Care Coordinator, Navigator or Keyworker? Review of Emergent Terms in Childhood Disability. <i>Physical and Occupational Therapy in Pediatrics</i> , 2019, 39, 119-123.	0.8	12
34	A cross-sectional analysis on the effects of age on dual tasking in typically developing children. <i>Psychological Research</i> , 2019, 83, 104-115.	1.0	12
35	Family-centred health care for children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 62-68.	1.1	19
36	The Role of Rehabilitation Specialists in Canadian NICUs: A 21st Century Perspective. <i>Physical and Occupational Therapy in Pediatrics</i> , 2019, 39, 33-47.	0.8	11

#	ARTICLE	IF	CITATIONS
37	Age at referral for diagnosis and rehabilitation services for cerebral palsy: a scoping review. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 908-914.	1.1	22
38	A Pilot Randomized Controlled Trial of an Intervention to Promote Psychological Well-Being in Critically Ill Children: Soothing Through Touch, Reading, and Music*. <i>Pediatric Critical Care Medicine</i> , 2018, 19, e358-e366.	0.2	24
39	Health-Related Quality of Life for Patients With Genetically Determined Leukoencephalopathy. <i>Pediatric Neurology</i> , 2018, 84, 21-26.	1.0	9
40	The effectiveness of the Pathways and Resources for Engagement and Participation (<scp>PREP</scp>) intervention: improving participation of adolescents with physical disabilities. <i>Developmental Medicine and Child Neurology</i> , 2018, 60, 513-519.	1.1	70
41	Current Practice “Constraints” in the Uptake and Use of Intensive Upper Extremity Training: A Canadian Perspective. <i>Physical and Occupational Therapy in Pediatrics</i> , 2018, 38, 143-156.	0.8	11
42	Factors Associated With Moderate to Vigorous Physical Activity in Adolescents Born Preterm. <i>Pediatric Exercise Science</i> , 2017, 29, 260-267.	0.5	3
43	Does dual tasking ability change with age across childhood and adolescence? A systematic scoping review. <i>International Journal of Developmental Neuroscience</i> , 2017, 58, 35-49.	0.7	33
44	Determinants of developmental outcomes in a very preterm Canadian cohort. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2017, 102, F235-F234.	1.4	196
45	Ottawa Panel Evidence-Based Clinical Practice Guidelines for Structured Physical Activity in the Management of Juvenile Idiopathic Arthritis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2017, 98, 1018-1041.	0.5	36
46	Educational and rehabilitation service utilization in adolescents born preterm or with a congenital heart defect and at high risk for disability. <i>Developmental Medicine and Child Neurology</i> , 2017, 59, 1056-1062.	1.1	8
47	Leisure participation “preference congruence of children with cerebral palsy: a Children's Assessment of Participation and Enjoyment International Network descriptive study. <i>Developmental Medicine and Child Neurology</i> , 2017, 59, 380-387.	1.1	19
48	Canadian stroke best practice recommendations: Stroke rehabilitation practice guidelines, update 2015. <i>International Journal of Stroke</i> , 2016, 11, 459-484.	2.9	440
49	The neurologist's role in supporting transition to adult health care. <i>Neurology</i> , 2016, 87, 835-840.	1.5	76
50	Adolescents with disabilities participate in the shopping mall: facilitators and barriers framed according to the ICF. <i>Disability and Rehabilitation</i> , 2016, 38, 2102-2113.	0.9	11
51	Opening doors to participation of youth with physical disabilities: An intervention study. <i>Canadian Journal of Occupational Therapy</i> , 2016, 83, 83-90.	0.8	44
52	Age at Referral of Children for Initial Diagnosis of Cerebral Palsy and Rehabilitation: Current Practices. <i>Journal of Child Neurology</i> , 2016, 31, 364-369.	0.7	71
53	Impact of Vitamin D Supplementation on Gross Motor Development of Healthy Term Infants: A Randomized Dose-Response Trial. <i>Physical and Occupational Therapy in Pediatrics</i> , 2016, 36, 330-342.	0.8	19
54	ISDN2014_0402: An environmental scan of current practices related to initial referral of children with cerebral palsy to medical and rehabilitation specialists. <i>International Journal of Developmental Neuroscience</i> , 2015, 47, 120-121.	0.7	0

#	ARTICLE	IF	CITATIONS
55	What we can learn from existing evidence about physical activity for juvenile idiopathic arthritis?. <i>Rheumatology</i> , 2015, 55, kev389.	0.9	3
56	Participation in Leisure Activities among Canadian Children with Arthritis: Results from a National Representative Sample. <i>Journal of Rheumatology</i> , 2015, 42, 1002-1010.	1.0	13
57	Persistent Handwriting Difficulties in Children With ADHD After Treatment With Stimulant Medication. <i>Journal of Attention Disorders</i> , 2015, 19, 620-629.	1.5	18
58	Pediatric Cerebral Palsy in Africa. <i>Journal of Child Neurology</i> , 2015, 30, 963-971.	0.7	64
59	Magnetic Resonance Imaging (MRI) and Prognostication in Neonatal Hypoxic-Ischemic Injury. <i>Journal of Child Neurology</i> , 2015, 30, 174-181.	0.7	9
60	Somatosensory evoked potentials in neonates with hypoxic-ischemic encephalopathy treated with hypothermia. <i>European Journal of Paediatric Neurology</i> , 2015, 19, 423-428.	0.7	27
61	Participation of Children and Youth with Autism Spectrum Disorder: A Scoping Review. <i>Review Journal of Autism and Developmental Disorders</i> , 2015, 2, 103-114.	2.2	82
62	Participation in Leisure Activities by Children and Adolescents with Juvenile Idiopathic Arthritis. <i>Journal of Rheumatology</i> , 2015, 42, 1708-1715.	1.0	12
63	Stability of leisure participation from school-age to adolescence in individuals with cerebral palsy. <i>Research in Developmental Disabilities</i> , 2015, 47, 73-79.	1.2	37
64	Are you doing what you want to do? Leisure preferences of adolescents with cerebral palsy. <i>Developmental Neurorehabilitation</i> , 2015, 18, 234-240.	0.5	25
65	Contribution of socio-economic status on the prevalence of cerebral palsy: a systematic search and review. <i>Developmental Medicine and Child Neurology</i> , 2014, 56, 1043-1051.	1.1	50
66	A100: Predictors of Involvement in Leisure Activities Among Children and Youth With Juvenile Idiopathic Arthritis. <i>Arthritis and Rheumatology</i> , 2014, 66, S135-S135.	2.9	1
67	Participation and enjoyment of leisure activities in adolescents born at ≤ 29week gestation. <i>Early Human Development</i> , 2014, 90, 307-314.	0.8	17
68	Rehabilitation service utilization in children and youth with cerebral palsy. <i>Child: Care, Health and Development</i> , 2014, 40, 275-282.	0.8	56
69	No differences were observed between six months of context- versus child-focused intervention for young children with cerebral palsy on self-care, mobility, range of motion or participation. <i>Australian Occupational Therapy Journal</i> , 2014, 61, 126-127.	0.6	0
70	International Classification of Functioning, Disability and Health (ICF) as a Framework for Change. <i>Journal of Child Neurology</i> , 2014, 29, 1030-1035.	0.7	49
71	Child and environmental factors associated with leisure participation in adolescents born extremely preterm. <i>Early Human Development</i> , 2014, 90, 665-672.	0.8	16
72	Innovation Toward Better Living. <i>Journal of Child Neurology</i> , 2014, 29, 1028-1029.	0.7	0

#	ARTICLE	IF	CITATIONS
73	The Concept of a Toolbox of Outcome Measures for Children With Cerebral Palsy. <i>Journal of Child Neurology</i> , 2014, 29, 1055-1065.	0.7	38
74	Brain Volume and Neurobehavior in Newborns with Complex Congenital Heart Defects. <i>Journal of Pediatrics</i> , 2014, 164, 1121-1127.e1.	0.9	93
75	Leisure in Children and Adolescents with Juvenile Idiopathic Arthritis: A Systematic Review. <i>PLoS ONE</i> , 2014, 9, e104642.	1.1	22
76	Motor Measures: A Moving Target?. <i>Seminars in Pediatric Neurology</i> , 2013, 20, 84-99.	1.0	7
77	Determinants of participation in leisure activities among adolescents with cerebral palsy. <i>Research in Developmental Disabilities</i> , 2013, 34, 2621-2634.	1.2	76
78	Mastery motivation in adolescents with cerebral palsy. <i>Research in Developmental Disabilities</i> , 2013, 34, 3384-3392.	1.2	24
79	Picture me playing – A portrait of participation and enjoyment of leisure activities in adolescents with cerebral palsy. <i>Research in Developmental Disabilities</i> , 2013, 34, 1001-1010.	1.2	40
80	Intensive Upper Extremity Training for Children with Hemiplegia: From Science to Practice. <i>Seminars in Pediatric Neurology</i> , 2013, 20, 100-105.	1.0	16
81	Assessments Used to Diagnose Developmental Coordination Disorder: Do Their Underlying Constructs Match the Diagnostic Criteria?. <i>Physical and Occupational Therapy in Pediatrics</i> , 2013, 33, 186-198.	0.8	15
82	Parents' perspectives on the quality of life of adolescents with cerebral palsy: trajectory, choices and hope. <i>Disability and Rehabilitation</i> , 2013, 35, 2113-2122.	0.9	20
83	Perspectives of Young Adults With Cerebral Palsy on Transitioning From Pediatric to Adult Healthcare Systems. <i>Seminars in Pediatric Neurology</i> , 2013, 20, 154-159.	1.0	51
84	Pursuit of Complementary and Alternative Medicine Treatments in Adolescents With Cerebral Palsy. <i>Journal of Child Neurology</i> , 2013, 28, 1443-1447.	0.7	17
85	Are You Knowledgeable About Knowledge Translation?. <i>Physical and Occupational Therapy in Pediatrics</i> , 2013, 33, 369-371.	0.8	3
86	The Relationship Between Manual Ability and Ambulation in Adolescents with Cerebral Palsy. <i>Physical and Occupational Therapy in Pediatrics</i> , 2013, 33, 243-252.	0.8	8
87	Suzanne K. Campbell: the Journal's Founding Editor. <i>Physical and Occupational Therapy in Pediatrics</i> , 2013, 33, 1-2.	0.8	2
88	Behavioral Difficulties in Adolescents With Cerebral Palsy. <i>Journal of Child Neurology</i> , 2013, 28, 27-33.	0.7	41
89	The Relationship Between Gross Motor Function and Manual Ability in Cerebral Palsy. <i>Journal of Child Neurology</i> , 2013, 28, 1646-1652.	0.7	13
90	Geographical patterns in the recreation and leisure participation of children and youth with cerebral palsy: A CAPE international collaborative network study. <i>Developmental Neurorehabilitation</i> , 2013, 16, 196-206.	0.5	34
