#	ARTICLE	IF	CITATIONS
1	Exploring the gateway hypothesis of e-cigarettes and tobacco: a prospective replication study among adolescents in the Netherlands and Flanders. <i>Tobacco Control</i> , 2023, 32, 170-178.	3.2	30
2	Secondhand Smoke Exposure in European Countries With Different Smoke-Free Legislation: Findings From the EUREST-PLUS ITC Europe Surveys. <i>Nicotine and Tobacco Research</i> , 2022, 24, 85-92.	2.6	5
3	Addiction and Recovery in Dutch Governmental and Practice-Level Drug Policy: Whatâ€™s the Problem Represented to be?. <i>Journal of Drug Issues</i> , 2022, 52, 547-567.	1.2	1
4	Are members of mutual aid groups better equipped for addiction recovery? European cross-sectional study into recovery capital, social networks, and commitment to sobriety. <i>Drugs: Education, Prevention and Policy</i> , 2021, 28, 389-398.	1.3	12
5	Instrumental Mentoring for Young Adults: A Multi-Method Study. <i>Journal of Adolescent Research</i> , 2021, 36, 398-424.	2.1	4
6	Reasons for (not) participating in a communityâ€based health promotion program for lowâ€income multiâ€problem households in the Netherlands: A qualitative study. <i>Health and Social Care in the Community</i> , 2021, 29, 241-249.	1.6	4
7	Is smoking an independent risk factor for developing cervical intra-epithelial neoplasia and cervical cancer? A systematic review and meta-analysis. <i>Expert Review of Anticancer Therapy</i> , 2021, 21, 781-794.	2.4	18
8	The Strengths and Barriers Recovery Scale (SABRS): Relationships Matter in Building Strengths and Overcoming Barriers. <i>Frontiers in Psychology</i> , 2021, 12, 663447.	2.1	20
9	How Financial Incentives Increase Smoking Cessation: A Two-Level Path Analysis. <i>Nicotine and Tobacco Research</i> , 2021, 23, 99-106.	2.6	15
10	â€I (really) know what you meanâ€™. Mechanisms of experiential peer support for young people with criminal behavior: a qualitative study. <i>Journal of Crime and Justice</i> , 2021, 44, 535-552.	1.1	6
11	Do e-cigarettes attract youths who are otherwise unlikely to use addictive substances? Cross-sectional analyses of Dutch and Flemish secondary school students. <i>Tobacco Prevention and Cessation</i> , 2021, 7, 1-14.	0.4	0
12	â€I Need to Do This on My Ownâ€Resilience and Self-Reliance in Urban At-Risk Youths. <i>Deviant Behavior</i> , 2020, 41, 1330-1345.	1.7	15
13	Costâ€effectiveness and costâ€utility analysis of a workâ€place smoking cessation intervention with and without financial incentives. <i>Addiction</i> , 2020, 115, 534-545.	3.3	16
14	Quasi-experimentally examining the impact of introducing tobacco pictorial health warnings: Findings from the International Tobacco Control (ITC) 4C and Netherlands surveys in the Netherlands, Australia, Canada, United Kingdom, and the United States. <i>Drug and Alcohol Dependence</i> , 2020, 207, 107818.	3.2	7
15	Drinking until Intoxication: A Qualitative Study among Underage Adolescents Admitted to the Emergency Room. <i>Alcoholism Treatment Quarterly</i> , 2020, 38, 364-378.	0.8	0
16	Transitions in product use during the implementation of the European Tobacco Products Directive: cohort study findings from the EUREST-PLUS ITC Europe Surveys. <i>European Journal of Public Health</i> , 2020, 30, iii10-iii17.	0.3	5
17	Differences in smokersâ€™ awareness of the health risks of smoking before and after introducing pictorial tobacco health warnings: findings from the 2012â€2017 international tobacco control (ITC) Netherlands surveys. <i>BMC Public Health</i> , 2020, 20, 512.	2.9	4
18	Transitions from and to roll-your-own tobacco, perceptions and health beliefs among smokers: findings from the EUREST-PLUS ITC Europe Surveys. <i>European Journal of Public Health</i> , 2020, 30, iii18-iii25.	0.3	4

#	ARTICLE	IF	CITATIONS
19	Awareness and correlates of noticing changes to cigarette packaging design after implementation of the European Tobacco Products Directive: findings from the EUREST-PLUS ITC Europe Surveys. <i>European Journal of Public Health</i> , 2020, 30, iii98-iii107.	0.3	4
20	Evaluating the impact of introducing standardized packaging with larger health-warning labels in England: findings from adult smokers within the EUREST-PLUS ITC Europe Surveys. <i>European Journal of Public Health</i> , 2020, 30, iii91-iii97.	0.3	13
21	Effectiveness of tobacco warning labels before and after implementation of the European Tobacco Products Directive—findings from the longitudinal EUREST-PLUS ITC Europe surveys. <i>European Journal of Public Health</i> , 2020, 30, iii84-iii90.	0.3	5
22	Comparing three stages of addiction recovery: long-term recovery and its relation to housing problems, crime, occupation situation, and substance use. <i>Drugs: Education, Prevention and Policy</i> , 2020, 27, 387-396.	1.3	32
23	Language and stigmatization of individuals with mental health problems or substance addiction in the Netherlands: An experimental vignette study. <i>Health and Social Care in the Community</i> , 2020, 28, 1504-1513.	1.6	11
24	Methods of the International Tobacco Control (ITC) EUREST-PLUS ITC Europe Surveys. <i>European Journal of Public Health</i> , 2020, 30, iii4-iii9.	0.3	21
25	How can vulnerable groups be recruited to participate in a community-based smoking cessation program and perceptions of effective elements: A qualitative study among participants and professionals. <i>Tobacco Prevention and Cessation</i> , 2020, 6, 1-9.	0.4	5
26	The Association of Peer Smoking Behavior and Social Support with Quit Success in Employees Who Participated in a Smoking Cessation Intervention at the Workplace. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2831.	2.6	24
27	Did E-Cigarette Users Notice the New European Union's E-Cigarette Legislation? Findings from the 2015–2017 International Tobacco Control (ITC) Netherlands Survey. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2917.	2.6	2
28	Experiential peer support and its effects on desistance from delinquent behavior: protocol paper for a systematic realist literature review. <i>Systematic Reviews</i> , 2019, 8, 119.	5.3	6
29	How the New European Union's (Pictorial) Tobacco Health Warnings Influence Quit Attempts and Smoking Cessation: Findings from the 2016–2017 International Tobacco Control (ITC) Netherlands Surveys. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4260.	2.6	2
30	Implementation of Financial Incentives for Successful Smoking Cessation in Real-Life Company Settings: A Qualitative Needs Assessment among Employers. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 5135.	2.6	7
31	How Do Health and Social Networks Compare between Low-Income Multiproblem Households and the General Population?. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4967.	2.6	4
32	Does free or lower cost smoking cessation medication stimulate quitting? Findings from the International Tobacco Control (ITC) Netherlands and UK Surveys. <i>Tobacco Control</i> , 2019, 28, s61-s67.	3.2	6
33	The role of income and psychological distress in the relationship between work loss and smoking cessation: Findings from three International Tobacco Control (ITC) Europe countries. <i>Tobacco Prevention and Cessation</i> , 2019, 5, 42.	0.4	0
34	Construct and Predictive Validity of Three Measures of Intention to Quit Smoking: Findings From the International Tobacco Control (ITC) Netherlands Survey. <i>Nicotine and Tobacco Research</i> , 2018, 20, 1101-1108.	2.6	32
35	Over-Time Impacts of Pictorial Health Warning Labels and their Differences across Smoker Subgroups: Results from Adult Smokers in Canada and Australia. <i>Nicotine and Tobacco Research</i> , 2018, 20, 888-896.	2.6	29
36	Effect of a workplace-based group training programme combined with financial incentives on smoking cessation: a cluster-randomised controlled trial. <i>Lancet Public Health</i> , The, 2018, 3, e536-e544.	10.0	42

#	ARTICLE	IF	CITATIONS
37	REC-PATH (Recovery Pathways): Overview of a Four-Country Study of Pathways to Recovery from Problematic Drug Use. <i>Alcoholism Treatment Quarterly</i> , 2018, 36, 517-529.	0.8	28
38	Support for a point-of-sale cigarette display ban among smokers: findings from the international tobacco control (ITC) Netherlands survey. <i>BMC Public Health</i> , 2018, 18, 740.	2.9	2
39	Why Are New Tobacco Control Interventions Needed?. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 658.	2.6	3
40	At-risk youths' self-sufficiency: The role of social capital and help-seeking orientation. <i>Children and Youth Services Review</i> , 2018, 91, 263-270.	1.9	14
41	â€œSecretly, itâ€™s a competitionâ€™: a qualitative study investigating what helped employees quit smoking during a workplace smoking cessation group training programme with incentives. <i>BMJ Open</i> , 2018, 8, e023917.	1.9	10
42	A quasi-experimental study evaluating a health promotion program targeting healthy nutrition, physical activity and social network enhancement for low-income multi-problem households: study protocol. <i>International Journal of Clinical Trials</i> , 2018, 5, 132.	0.2	5
43	Quitting activity and use of cessation assistance reported by smokers in eight European countries: Findings from the EUREST-PLUS ITC Europe Surveys. <i>Tobacco Induced Diseases</i> , 2018, 16, .	0.6	31
44	The long road to smokefree bars in the Netherlands: findings from the ITC Netherlands Survey 2008-2016. <i>Tobacco Induced Diseases</i> , 2018, 16, .	0.6	0
45	Does free or lower cost smoking cessation medication stimulate quitting? Findings from the International Tobacco Control (ITC) Netherlands and United Kingdom Surveys. <i>Tobacco Induced Diseases</i> , 2018, 16, .	0.6	0
46	How economic recessions and unemployment affect illegal drug use: A systematic realist literature review. <i>International Journal of Drug Policy</i> , 2017, 44, 69-83.	3.3	102
47	Healthcare financing systems for increasing the use of tobacco dependence treatment. <i>The Cochrane Library</i> , 2017, 2017, CD004305.	2.8	94
48	Barriers and Facilitators for Health Behavior Change among Adults from Multi-Problem Households: A Qualitative Study. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1229.	2.6	18
49	Social Acceptance of Smoking Restrictions During 10 Years of Policy Implementation, Reversal, and Reenactment in the Netherlands: Findings From a National Population Survey. <i>Nicotine and Tobacco Research</i> , 2017, 19, 231-238.	2.6	4
50	Influences of Self-Efficacy, Response Efficacy, and Reactance on Responses to Cigarette Health Warnings: A Longitudinal Study of Adult Smokers in Australia and Canada. <i>Health Communication</i> , 2016, 31, 1517-1526.	3.1	80
51	Attrition analysed in five waves of a longitudinal yearly survey of smokers: findings from the ITC Netherlands survey. <i>European Journal of Public Health</i> , 2016, 26, 693-699.	0.3	25
52	E-cigarette advertisements, and associations with the use of e-cigarettes and disapproval or quitting of smoking: Findings from the International Tobacco Control (ITC) Netherlands Survey. <i>International Journal of Drug Policy</i> , 2016, 29, 73-79.	3.3	17
53	Inequalities in the Impact of National Reimbursement of Smoking Cessation Pharmacotherapy and the Influence of Injunctive Norms: An Explorative Study. <i>Substance Abuse: Research and Treatment</i> , 2016, 10, SART.S32225.	0.9	2
54	Prevalence of hardcore smoking in the Netherlands between 2001 and 2012: a test of the hardening hypothesis. <i>BMC Public Health</i> , 2016, 16, 754.	2.9	20

#	ARTICLE	IF	CITATIONS
55	Country Differences and Changes in Focus of Scientific Tobacco Control Publications between 2000 and 2012 in Europe. <i>European Addiction Research</i> , 2016, 22, 52-58.	2.4	8
