#	ARTICLE	IF	CITATIONS
1	Lessons learned from a pandemic: implications for a combined exercise and educational programme for medical students. BMC Medical Education, 2022, 22, 255.	2.4	1
2	Career destinations of graduates from a medical school with an 18-week longitudinal integrated clerkship in general practice: a survey of alumni 6 to 8 years after graduation. Irish Journal of Medical Science, 2021, 190, 185-191.	1.5	7
3	SARS-CoV-2 infection in general practice in Ireland: a seroprevalence study. BJGP Open, 2021, 5, BJGPO.2021.0038.	1.8	3
4	Juggling with theory, evidence, practice, and real-world circumstances: Development of a complex community intervention to increase physical activity in inactive adults aged 50 years and older – The Move for Life Study. Evaluation and Program Planning, 2021, 89, 101983.	1.6	1
5	Identifying the gaps in Irish cancer care: Patient, public and providers' perspectives. Health Policy, 2021, 125, 1482-1488.	3.0	1
6	Communication between primary and secondary care: deficits and danger. Family Practice, 2020, 37, 63-68.	1.9	13
7	A qualitative comparison of high and low adherers with apparent treatment-resistant hypertension. Psychology, Health and Medicine, 2020, 25, 64-77.	2.4	4
8	A feasibility study of an exercise intervention to educate and promote health and well-being among medical students: the –MED-WELL– programme. BMC Medical Education, 2020, 20, 183.	2.4	16
9	The University of Limerick Education and Research Network for General Practice (ULEARN-GP): practice characteristics and general practitioner perspectives. BMC Family Practice, 2020, 21, 25.	2.9	19
10	How to improve recruitment, sustainability and scalability in physical activity programmes for adults aged 50 years and older: A qualitative study of key stakeholder perspectives. PLoS ONE, 2020, 15, e0240974.	2.5	12
11	An evaluation of an intervention designed to help inactive adults become more active with a peer mentoring component: a protocol for a cluster randomised feasibility trial of the Move for Life programme. Pilot and Feasibility Studies, 2019, 5, 88.	1.2	5
12	Measuring adherence to therapy in apparent treatment-resistant hypertension: a feasibility study in Irish primary care. British Journal of General Practice, 2019, 69, e621-e628.	1.4	9
13	New self-management technologies for the treatment of hypertension: general practitioners' perspectives. Family Practice, 2018, 35, 318-322.	1.9	22
14	Smartphone apps for improving medication adherence in hypertension: patients' perspectives. Patient Preference and Adherence, 2018, Volume 12, 813-822.	1.8	53
15	Does culture affect usability? A trans-European usability and user experience assessment of a falls-risk connected health system following a user-centred design methodology carried out in a single European country. Maturitas, 2018, 114, 22-26.	2.4	14
16	Platelet-rich plasma (PRP) therapy for knee arthritis: a feasibility study in primary care. Pilot and Feasibility Studies, 2018, 4, 93.	1.2	30
17	Medication adherence for resistant hypertension: Assessing theoretical predictors of adherence using direct and indirect adherence measures. British Journal of Health Psychology, 2018, 23, 949-966.	3.5	33
18	Implementation of the SMART MOVE intervention in primary care: a qualitative study using normalisation process theory. BMC Family Practice, 2018, 19, 48.	2.9	13

#	ARTICLE	IF	CITATIONS
19	Prognosis of patients with apparent treatment-resistant hypertension—a feasibility study. Pilot and Feasibility Studies, 2018, 4, 43.	1.2	1
20	Prevalence of treatment-resistant hypertension after considering pseudo-resistance and morbidity: a cross-sectional study in Irish primary care. British Journal of General Practice, 2018, 68, e394-e400.	1.4	19
21	Concurrent validation of an index to estimate fall risk in community dwelling seniors through a wireless sensor insole system: A pilot study. Gait and Posture, 2017, 55, 6-11.	1.4	43
22	Medication adherence among patients with apparent treatment-resistant hypertension. Journal of Hypertension, 2017, 35, 2346-2357.	0.5	129
23	Patients' views and experiences of technology based self-management tools for the treatment of hypertension in the community: A qualitative study. BMC Family Practice, 2015, 16, 119.	2.9	26
24	Patients' experiences of using a smartphone application to increase physical activity: the SMART MOVE qualitative study in primary care. British Journal of General Practice, 2014, 64, e500-e508.	1.4	58
25	Effectiveness of a smartphone application to promote physical activity in primary care: the SMART MOVE randomised controlled trial. British Journal of General Practice, 2014, 64, e384-e391.	1.4	250
26	SMART MOVE - a smartphone-based intervention to promote physical activity in primary care: study protocol for a randomized controlled trial. Trials, 2013, 14, 157.	1.6	50
27	Implementing transnational telemedicine solutions: A connected health project in rural and remote areas of six Northern Periphery countries. European Journal of General Practice, 2013, 19, 52-58.	2.0	39
