#	ARTICLE	IF	CITATIONS
1	Towards an International Classification for Patient Safety: key concepts and terms. <i>International Journal for Quality in Health Care</i> , 2009, 21, 18-26.	1.8	377
2	CareTrack: assessing the appropriateness of health care delivery in Australia. <i>Medical Journal of Australia</i> , 2012, 197, 100-105.	1.7	327
3	â€œMatching Michiganâ€™: a 2-year stepped interventional programme to minimise central venous catheter-blood stream infections in intensive care units in England. <i>BMJ Quality and Safety</i> , 2013, 22, 110-123.	3.7	266
4	Towards an International Classification for Patient Safety: the conceptual framework. <i>International Journal for Quality in Health Care</i> , 2009, 21, 2-8.	1.8	185
5	Health system frameworks and performance indicators in eight countries: A comparative international analysis. <i>SAGE Open Medicine</i> , 2017, 5, 205031211668651.	1.8	95
6	Human factors in the management of the critically ill patient. <i>British Journal of Anaesthesia</i> , 2010, 105, 26-33.	3.4	79
7	Quality of Health Care for Children in Australia, 2012-2013. <i>JAMA - Journal of the American Medical Association</i> , 2018, 319, 1113.	7.4	77
8	The application of the Global Trigger Tool: a systematic review. <i>International Journal for Quality in Health Care</i> , 2016, 28, 640-649.	1.8	71
9	Harms from discharge to primary care: mixed methods analysis of incident reports. <i>British Journal of General Practice</i> , 2015, 65, e829-e837.	1.4	62
10	Patient Safety Incidents Involving Sick Children in Primary Care in England and Wales: A Mixed Methods Analysis. <i>PLoS Medicine</i> , 2017, 14, e1002217.	8.4	56
11	Are root cause analyses recommendations effective and sustainable? An observational study. <i>International Journal for Quality in Health Care</i> , 2018, 30, 124-131.	1.8	55
12	Towards an International Classification for Patient Safety: a Delphi survey. <i>International Journal for Quality in Health Care</i> , 2009, 21, 9-17.	1.8	54
13	Classification of patient-safety incidents in primary care. <i>Bulletin of the World Health Organization</i> , 2018, 96, 498-505.	3.3	52
14	Diagnostic error in the emergency department: learning from national patient safety incident report analysis. <i>BMC Emergency Medicine</i> , 2019, 19, 77.	1.9	46
15	Towards the delivery of appropriate health care in Australia. <i>Medical Journal of Australia</i> , 2012, 197, 78-81.	1.7	45
16	Sources of unsafe primary care for older adults: a mixed-methods analysis of patient safety incident reports. <i>Age and Ageing</i> , 2017, 46, 833-839.	1.6	43
17	A cross-sectional mixed methods study protocol to generate learning from patient safety incidents reported from general practice. <i>BMJ Open</i> , 2015, 5, e009079.	1.9	40
18	Structuring successful collaboration: a longitudinal social network analysis of a translational research network. <i>Implementation Science</i> , 2015, 11, 19.	6.9	39

#	ARTICLE	IF	CITATIONS
19	The impact of general practitioners working in or alongside emergency departments: a rapid realist review. <i>BMJ Open</i> , 2019, 9, e024501.	1.9	39
20	Violence in health care: the contribution of the Australian Patient Safety Foundation to incident monitoring and analysis. <i>Medical Journal of Australia</i> , 2005, 183, 348-351.	1.7	38
21	Characterising the nature of primary care patient safety incident reports in the England and Wales National Reporting and Learning System: a mixed-methods agenda-setting study for general practice. <i>Health Services and Delivery Research</i> , 2016, 4, 1-76.	1.4	38
22	Pediatric immunization-related safety incidents in primary care: A mixed methods analysis of a national database. <i>Vaccine</i> , 2015, 33, 3873-3880.	3.8	35
23	Nature of Blame in Patient Safety Incident Reports: Mixed Methods Analysis of a National Database. <i>Annals of Family Medicine</i> , 2017, 15, 455-461.	1.9	35
24	Safety Incidents in the Primary Care Office Setting. <i>Pediatrics</i> , 2015, 135, 1027-1035.	2.1	31
25	CareTrack Kids–part 1. Assessing the appropriateness of healthcare delivered to Australian children: study protocol for clinical indicator development. <i>BMJ Open</i> , 2015, 5, e007748-e007748.	1.9	30
26	Quality improvement priorities for safer out-of-hours palliative care: Lessons from a mixed-methods analysis of a national incident-reporting database. <i>Palliative Medicine</i> , 2019, 33, 346-356.	3.1	29
27	Bradycardia as an early warning sign for cardiac arrest during routine laparoscopic surgery. <i>International Journal for Quality in Health Care</i> , 2015, 27, 473-478.	1.8	28
28	Automated classification of primary care patient safety incident report content and severity using supervised machine learning (ML) approaches. <i>Health Informatics Journal</i> , 2020, 26, 3123-3139.	2.1	28
29	CareTrack Kids–part 2. Assessing the appropriateness of the healthcare delivered to Australian children: study protocol for a retrospective medical record review. <i>BMJ Open</i> , 2015, 5, e007749-e007749.	1.9	27
30	CareTrack: assessing the appropriateness of health care delivery in Australia. <i>Medical Journal of Australia</i> , 2012, 197, 549-550.	1.7	25
31	CareTrack Australia: assessing the appropriateness of adult healthcare: protocol for a retrospective medical record review. <i>BMJ Open</i> , 2012, 2, e000665.	1.9	24
32	What is the association between the presence of comorbidities and the appropriateness of care for low back pain? A population-based medical record review study. <i>BMC Musculoskeletal Disorders</i> , 2018, 19, 391.	1.9	24
33	Implementing large-system, value-based healthcare initiatives: a realist study protocol for seven natural experiments. <i>BMJ Open</i> , 2020, 10, e044049.	1.9	23
34	Comprehensive Researcher Achievement Model (CRAM): a framework for measuring researcher achievement, impact and influence derived from a systematic literature review of metrics and models. <i>BMJ Open</i> , 2019, 9, e025320.	1.9	21
35	CareTrack. <i>Spine</i> , 2017, 42, E802-E809.	2.0	17
36	Assessing the appropriateness of prevention and management of venous thromboembolism in Australia: a cross-sectional study: Table A1. <i>BMJ Open</i> , 2016, 6, e008618.	1.9	16

#	ARTICLE	IF	CITATIONS
37	Clinical indicators for common paediatric conditions: Processes, provenance and products of the CareTrack Kids study. PLoS ONE, 2019, 14, e0209637.	2.5	16
38	Systematic review of the factors and the key indicators that identify doctors at risk of complaints, malpractice claims or impaired performance. BMJ Open, 2021, 11, e050377.	1.9	15
39	Deepening our Understanding of Quality in Australia (DUQuA): An overview of a nation-wide, multi-level analysis of relationships between quality management systems and patient factors in 32 hospitals. International Journal for Quality in Health Care, 2020, 32, 8-21.	1.8	12
40	iCareTrack: measuring the appropriateness of eyecare delivery in Australia. Ophthalmic and Physiological Optics, 2020, 40, 433-441.	2.0	12
41	How to sustainably build capacity in quality improvement within a healthcare organisation: a deep-dive, focused qualitative analysis. BMC Health Services Research, 2021, 21, 588.	2.2	12
42	What Constitutes "Appropriate Care" for Low Back Pain?. Spine, 2022, 47, 879-891.	2.0	12
43	Systematic review of the appropriateness of eye care delivery in eye care practice. BMC Health Services Research, 2019, 19, 646.	2.2	10
44	Can benchmarking Australian hospitals for quality identify and improve high and low performers? Disseminating research findings for hospitals. International Journal for Quality in Health Care, 2020, 32, 84-88.	1.8	10
45	CareTrack Kids-part 3. Adverse events in children's healthcare in Australia: study protocol for a retrospective medical record review. BMJ Open, 2015, 5, e007750-e007750.	1.9	9
46	Patient safety's missing link: using clinical expertise to recognize, respond to and reduce risks at a population level. International Journal for Quality in Health Care, 2016, 28, 114-121.	1.8	9
47	Emergency department clinical leads™ experiences of implementing primary care services where GPs work in or alongside emergency departments in the UK: a qualitative study. BMC Emergency Medicine, 2020, 20, 62.	1.9	9
48	A mixed-methods analysis of patient safety incidents involving opioid substitution treatment with methadone or buprenorphine in community-based care in England and Wales. Addiction, 2020, 115, 2066-2076.	3.3	9
49	A qualitative content analysis of retained surgical items: learning from root cause analysis investigations. International Journal for Quality in Health Care, 2020, 32, 184-189.	1.8	9
50	Complexity Science as a Frame for Understanding the Management and Delivery of High Quality and Safer Care. , 2021, , 375-391.		9
51	Identifying and characterizing system issues of health information technology in medical imaging as a basis for recommendations. , 2019, , .		8
52	Assessing appropriateness of paediatric asthma management: A population-based sample survey. Respiriology, 2020, 25, 71-79.	2.3	8
53	Linking quality indicators to clinical trials: an automated approach. International Journal for Quality in Health Care, 2017, 29, 571-578.	1.8	7
54	Patient safety incidents in advance care planning for serious illness: a mixed-methods analysis. BMJ Supportive and Palliative Care, 2019, , bmjspcare-2019-001824.	1.6	7

#	ARTICLE	IF	CITATIONS
55	Using the WHO International Classification of patient safety framework to identify incident characteristics and contributing factors for medical or surgical complication deaths. <i>Applied Ergonomics</i> , 2020, 52, 102920.	3.1	7
56	Implementing high value back pain care in private physiotherapy in Australia: A qualitative evaluation of physiotherapists who participated in an "implementation to innovation" system. <i>Canadian Journal of Pain</i> , 2020, 4, 86-102.	1.7	7
57	<i>STANDING Collaboration</i>: a study protocol for developing clinical standards. <i>BMJ Open</i> , 2017, 7, e014048.	1.9	6
58	Assessing the Quality of the Management of Tonsillitis among Australian Children: A Population-Based Sample Survey. <i>Otolaryngology - Head and Neck Surgery</i> , 2019, 160, 137-144.	1.9	6
59	Effectiveness of quality improvement interventions for patient safety in radiology. <i>JBIR Database of Systematic Reviews and Implementation Reports</i> , 2016, 14, 65-78.	1.7	5
60	Assessing the quality of care for paediatric depression and anxiety in Australia: A population-based sample survey. <i>Australian and New Zealand Journal of Psychiatry</i> , 2019, 53, 1013-1025.	2.3	5
61	Appropriate management of acute gastroenteritis in Australian children: A population-based study. <i>PLoS ONE</i> , 2019, 14, e0224681.	2.5	5
62	Assessing the appropriateness of the management of upper respiratory tract infection in Australian children: a population-based sample survey. <i>BMJ Open</i> , 2019, 9, e026915.	1.9	5
63	The patient died: What about involvement in the investigation process?. <i>International Journal for Quality in Health Care</i> , 2020, 32, 342-346.	1.8	5
64	Assessing the appropriateness of paediatric antibiotic overuse in Australian children: a population-based sample survey. <i>BMC Pediatrics</i> , 2020, 20, 185.	1.7	5
65	Guideline adherence in the management of attention deficit hyperactivity disorder in children: An audit of selected medical records in three Australian states. <i>PLoS ONE</i> , 2021, 16, e0245916.	2.5	5
66	The use of a global trigger tool to inform quality and safety in Australian general practice: a pilot study. <i>Australian Family Physician</i> , 2014, 43, 723-6.	0.5	5
67	Designing clinical indicators for common residential aged care conditions and processes of care: the CareTrack Aged development and validation study. <i>International Journal for Quality in Health Care</i> , 2022, 34, .	1.8	5
68	Linking clinical quality indicators to research evidence - a case study in asthma management for children. <i>BMC Health Services Research</i> , 2017, 17, 502.	2.2	4
69	<i>CareTrack Aged</i>: the appropriateness of care delivered to Australians living in residential aged care facilities: a study protocol. <i>BMJ Open</i> , 2019, 9, e030988.	1.9	4
70	Can the appropriateness of eye care be measured through cross-sectional retrospective patient record review in eye care practices in Australia? The iCareTrack feasibility study. <i>BMJ Open</i> , 2019, 9, e024298.	1.9	4
71	Assessing guideline adherence in the management of type 1 diabetes mellitus in Australian children: a population-based sample survey. <i>BMJ Open Diabetes Research and Care</i> , 2020, 8, e001141.	2.8	4
72	Management of fever in Australian children: a population-based sample survey. <i>BMC Pediatrics</i> , 2020, 20, 16.	1.7	4

#	ARTICLE	IF	CITATIONS
73	A classification of primary care streaming pathways in UK emergency departments: Findings from a multi-methods study comprising cross-sectional survey; site visits with observations, semi-structured and informal interviews. <i>International Emergency Nursing</i> , 2021, 56, 101000.	1.5	4
74	Learning from diagnostic errors to improve patient safety when GPs work in or alongside emergency departments: incorporating realist methodology into patient safety incident report analysis. <i>BMC Emergency Medicine</i> , 2021, 21, 139.	1.9	4
75	The effectiveness of primary care streaming in emergency departments on decision-making and patient flow and safety – A realist evaluation. <i>International Emergency Nursing</i> , 2022, 62, 101155.	1.5	4
76	Assessing the quality of health care in the management of bronchiolitis in Australian children: a population-based sample survey. <i>BMJ Quality and Safety</i> , 2019, 28, 817-825.	3.7	3
77	Assessing the appropriateness of the management of otitis media in Australia: A population-based sample survey. <i>Journal of Paediatrics and Child Health</i> , 2020, 56, 215-223.	0.8	3
78	Characterising the types of paediatric adverse events detected by the global trigger tool – CareTrack Kids. <i>Journal of Patient Safety and Risk Management</i> , 2020, 25, 239-249.	0.6	3
79	Reducing preventable harm to residents in aged care: A systems approach. <i>Australasian Journal on Ageing</i> , 2021, 40, 72-76.	0.9	3
80	Senior clinical and business managers' perspectives on the influence of different funding mechanisms, and barriers and enablers to implementing models of employing General Practitioners in or alongside emergency departments: Qualitative study. <i>Health Policy</i> , 2021, 125, 482-488.	3.0	3
81	Surgical safety checklist audits may be misleading! Improving the implementation and adherence of the surgical safety checklist: a quality improvement project. <i>BMJ Open Quality</i> , 2021, 10, e001593.	1.1	3
82	Epidemiology of falls in 25 Australian residential aged care facilities: a retrospective longitudinal cohort study using routinely collected data. <i>International Journal for Quality in Health Care</i> , 2022, 34, .	1.8	3
83	Comparing clinical quality indicators for asthma management in children with outcome measures used in randomised controlled trials: a protocol. <i>BMJ Open</i> , 2015, 5, e008819.	1.9	2
84	Australians with osteoarthritis: satisfaction with health care providers and the perceived helpfulness of treatments and information sources. <i>Journal of Multidisciplinary Healthcare</i> , 2016, Volume 9, 387-394.	2.7	2
85	Assessing the adherence to guidelines in the management of croup in Australian children: a population-based sample survey. <i>International Journal for Quality in Health Care</i> , 2019, 31, 759-767.	1.8	2
86	Using accreditation surveyors to conduct health services research: a qualitative, comparative study in Australia. <i>International Journal for Quality in Health Care</i> , 2020, 32, 89-98.	1.8	2
87	Guideline adherence in the management of head injury in Australian children: A population-based sample survey. <i>PLoS ONE</i> , 2020, 15, e0228715.	2.5	2
88	Health and social care-associated harm amongst vulnerable children in primary care: mixed methods analysis of national safety reports. <i>Archives of Disease in Childhood</i> , 2020, 105, 731-737.	1.9	2
89	Identifying safe care processes when GPs work in or alongside emergency departments: a realist evaluation. <i>British Journal of General Practice</i> , 2021, 71, e931-e940.	1.4	2
90	Patients Experience More Support, Information and Involvement After First-Time Hospital Accreditation: A Before and After Study in the Faroe Islands. <i>International Journal for Quality in Health Care</i> , 2021, 33, .	1.8	2

#	ARTICLE	IF	CITATIONS
91	The appropriateness of and barriers to glaucoma care delivery by Australian optometrists. Australasian journal of optometry, The, 2022, , 1-9.	1.3	2
92	Level of appropriate primary diabetic eyecare delivered and achievable in optometry practices in Australia. Australasian journal of optometry, The, 2023, 106, 276-282.	1.3	2
93	IDENTIFYING PRIORITIES FOR IMPROVED CHILD HEALTHCARE: A MIXED METHODS ANALYSIS OF SAFETY INCIDENT REPORTS. BMJ Quality and Safety, 2015, 24, 730-731.	3.7	1
94	VULNERABLE CHILDREN AND THEIR CARE QUALITY ISSUES: A DESCRIPTIVE ANALYSIS OF A NATIONAL DATABASE. BMJ Quality and Safety, 2015, 24, 732-733.	3.7	1
95	26â€¦Designing safer services for patients needing palliative care in gp out of hours services: a national analysis of patient safety data to identify priorities for systems improvement. , 2018, , .		1
96	The quality of preventive care for pre-school aged children in Australian general practice. BMC Medicine, 2019, 17, 218.	5.5	1
97	Assessing the appropriateness of the management of gastro-oesophageal reflux in Australian children: a population-based sample survey. Scientific Reports, 2021, 11, 7744.	3.3	1
98	The association between first-time accreditation and the delivery of recommended care: a before and after study in the Faroe Islands. BMC Health Services Research, 2021, 21, 917.	2.2	1
99	The development of a crisis management manual for anesthetists and anesthesiologists. Seminars in Anesthesia, 2007, 26, 173-177.	0.3	0
100	Unsafe opioid replacement therapy in England and Wales: a mixed-methods study. Lancet, The, 2017, 389, S38.	13.7	0
101	Quality of care for acute abdominal pain in children. BMJ Quality and Safety, 2020, 29, 509-516.	3.7	0
102	Accreditation and Clinical Outcomes: Shorter Length of Stay After First-Time Hospital Accreditation in the Faroe Islands. International Journal for Quality in Health Care, 2022, , .	1.8	0
103	Title is missing!. , 2020, 15, e0228715.		0
104	Title is missing!. , 2020, 15, e0228715.		0
105	Title is missing!. , 2020, 15, e0228715.		0
106	Title is missing!. , 2020, 15, e0228715.		0
