#	ARTICLE	IF	CITATIONS
1	Use of the moving epidemic method (MEM) to assess national surveillance data for respiratory syncytial virus (RSV) in the Netherlands, 2005 to 2017. <i>Eurosurveillance</i> , 2019, 24, .	7.0	21
2	Development of sensitive dd<scp>PCR</scp> assays to reliably quantify the proviral <scp>DNA</scp> reservoir in all common circulating <scp>HIV</scp> subtypes and recombinant forms. <i>Journal of the International AIDS Society</i> , 2018, 21, e25185.	3.0	16
3	The effect of switching protease inhibitors to raltegravir on endothelial function, in HIV-infected patients. <i>HIV Clinical Trials</i> , 2018, 19, 75-83.	2.0	6
4	The influences of antiviral therapy on T-cell function in adult patients with chronic hepatitis B. <i>Future Virology</i> , 2014, 9, 913-920.	1.8	0
5	Impact of transient elastography on clinical decision-making in patients with chronic viral hepatitis. <i>Scandinavian Journal of Gastroenterology</i> , 2013, 48, 1074-1081.	1.5	4
6	Risk of tuberculosis after antiretroviral treatment initiation: a comparison between efavirenz and nevirapine using inverse probability weighting. <i>Antiviral Therapy</i> , 2013, 18, 615-622.	1.0	3
7	Peripheral T-cell apoptosis is not differentially affected by antiretroviral regimens in HIV-infected patients. <i>Antiviral Therapy</i> , 2013, 18, 1021-1025.	1.0	0
8	Accumulation of Drug Resistance and Loss of Therapeutic Options Precede Commonly Used Criteria for Treatment Failure in HIV-1 Subtype-C-Infected Patients. <i>Antiviral Therapy</i> , 2012, 17, 377-386.	1.0	50
9	The MOTIVATE trials: maraviroc therapy in antiretroviral treatment-experienced HIV-1-infected patients. <i>Expert Review of Anti-Infective Therapy</i> , 2012, 10, 1241-1247.	4.4	11
10	Telbivudine Exerts no Antiviral Activity against HIV-1 <i>In Vitro</i> and in Humans. <i>Antiviral Therapy</i> , 2011, 16, 1123-1130.	1.0	3
11	Pegylated interferon- α ± monotherapy leads to low response rates in HIV-infected patients with acute hepatitis C. <i>Antiviral Therapy</i> , 2011, 16, 979-988.	1.0	11
12	Presence of occult HBV, but near absence of active HBV and HCV infections in people infected with HIV in rural South Africa. <i>Journal of Medical Virology</i> , 2011, 83, 929-934.	5.0	27
13	Abacavir/Lamivudine/Zidovudine Maintenance After Standard Induction in Antiretroviral Therapy-Na \tilde{A} ve Patients: FREE Randomized Trial Interim Results. <i>AIDS Patient Care and STDs</i> , 2010, 24, 361-366.	2.5	9
14	Risk of recurrent acute lower urinary tract infections and prescription pattern of antibiotics in women with and without diabetes in primary care. <i>Family Practice</i> , 2010, 27, 379-385.	1.9	49
15	Occult hepatitis B in persons infected with HIV is associated with low CD4 counts and resolves during antiretroviral therapy. <i>Journal of Medical Virology</i> , 2009, 81, 441-445.	5.0	70
16	Peginterferon monotherapy for the treatment of acute hepatitis C in HIV-coinfected patients. <i>Aids</i> , 2008, 22, 1381-1382.	2.2	3
17	The Skn7 response regulator of <i>Cryptococcus neoformans</i> involved in oxidative stress signalling and augments intracellular survival in endothelium. <i>FEMS Yeast Research</i> , 2006, 6, 652-661.	2.3	40
18	History taking and leukocyturia predict the presence of asymptomatic bacteriuria in women with diabetes mellitus. <i>European Journal of Epidemiology</i> , 2004, 19, 1021-1027.	5.7	7

#	ARTICLE	IF	CITATIONS
19	Virulence factors of Escherichia coli isolated from urine of diabetic women with asymptomatic bacteriuria: correlation with clinical characteristics. <i>Antonie Van Leeuwenhoek</i> , 2001, 80, 119-127.	1.7	22
20	Tumor necrosis factor receptor-associated periodic syndrome (TRAPS) in a Dutch family: evidence for a TNFRSF1A mutation with reduced penetrance. <i>European Journal of Human Genetics</i> , 2001, 9, 63-66.	2.8	44
