#	ARTICLE	IF	CITATIONS
1	Burnout, anxiety and depression in healthcare workers during the early COVID-19 period in Singapore. Singapore Medical Journal, 2024, 65, S26-S29.	0.6	2
2	The Effect of Building-Level Socioeconomic Status on Bystander Cardiopulmonary Resuscitation: A Retrospective Cohort Study. Prehospital Emergency Care, 2023, 27, 205-212.	1.8	4
3	Relationship between local weather, air pollution and hospital attendances for urticaria in children: Time stratified analysis of 12,002 cases. Clinical and Experimental Allergy, 2022, 52, 180-182.	2.9	4
4	Clinical evaluation of the use of laryngeal tube versus laryngeal mask airway for out-of-hospital cardiac arrest by paramedics in Singapore. Singapore Medical Journal, 2022, 63, 157-161.	0.6	2
5	Prevalence of anxiety, depression, and post-traumatic stress disorder after cardiac arrest: A systematic review and meta-analysis. Resuscitation, 2022, 170, 82-91.	3.0	28
6	Leveraging Large-Scale Electronic Health Records and Interpretable Machine Learning for Clinical Decision Making at the Emergency Department: Protocol for System Development and Validation. JMIR Research Protocols, 2022, 11, e34201.	1.0	10
7	Development and validation of the SARICA score to predict survival after return of spontaneous circulation in out of hospital cardiac arrest using an interpretable machine learning framework. Resuscitation, 2022, 170, 126-133.	3.0	14
8	Spillover Effects of COVID-19 on Essential Chronic Care and Ways to Foster Health System Resilience to Support Vulnerable Non-COVID Patients: A Multistakeholder Study. Journal of the American Medical Directors Association, 2022, 23, 7-14.	2.5	21
9	AutoScore-Survival: Developing interpretable machine learning-based time-to-event scores with right-censored survival data. Journal of Biomedical Informatics, 2022, 125, 103959.	4.3	8
10	Health Services Use and Functional Recovery Following Blunt Trauma in Older Persons – A National Multicentre Prospective Cohort Study. Journal of the American Medical Directors Association, 2022, 23, 646-653.e1.	2.5	5
11	Long-term outcomes after out-of-hospital cardiac arrest: A systematic review and meta-analysis. Resuscitation, 2022, 171, 15-29.	3.0	27
12	Resuming elective surgery after COVID-19: A simulation modelling framework for guiding the phased opening of operating rooms. International Journal of Medical Informatics, 2022, 158, 104665.	3.3	5
13	Association of ambient air pollution with risk of hemorrhagic stroke: A time-stratified case crossover analysis of the Singapore stroke registry. International Journal of Hygiene and Environmental Health, 2022, 240, 113908.	4.3	8
14	Impact of Cardiac Arrest Centers on the Survival of Patients With Nontraumatic Out-of-Hospital Cardiac Arrest: A Systematic Review and Meta-Analysis. Journal of the American Heart Association, 2022, 11, e023806.	3.7	22
15	Maximum expected survival rate model for public access defibrillator placement. Resuscitation, 2022, 170, 213-221.	3.0	3
16	Variation in community and ambulance care processes for out-of-hospital cardiac arrest during the COVID-19 pandemic: a systematic review and meta-analysis. Scientific Reports, 2022, 12, 800.	3.3	23
17	Deep learning for temporal data representation in electronic health records: A systematic review of challenges and methodologies. Journal of Biomedical Informatics, 2022, 126, 103980.	4.3	40
18	International multi-center real world implementation trial to increase out-of-hospital cardiac arrest survival with a dispatcher-assisted cardio-pulmonary resuscitation package (Pan-Asian resuscitation) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 5		

#	ARTICLE	IF	CITATIONS
19	Gender disparities among adult recipients of layperson bystander cardiopulmonary resuscitation by location of cardiac arrest in Pan-Asian communities: A registry-based study. <i>EClinicalMedicine</i> , 2022, 44, 101293.	7.1	15
20	Comparative efficacy of anaesthetic methods for closed reduction of paediatric forearm fractures: a systematic review. <i>Emergency Medicine Journal</i> , 2022, 39, 888-896.	1.0	2
21	Optimizing outcomes after out-of-hospital cardiac arrest with innovative approaches to public-access defibrillation: A scientific statement from the International Liaison Committee on Resuscitation. <i>Resuscitation</i> , 2022, 172, 204-228.	3.0	20
22	Development and validation of an interpretable machine learning scoring tool for estimating time to emergency readmissions. <i>EClinicalMedicine</i> , 2022, 45, 101315.	7.1	5
23	Optimizing Outcomes After Out-of-Hospital Cardiac Arrest With Innovative Approaches to Public-Access Defibrillation: A Scientific Statement From the International Liaison Committee on Resuscitation. <i>Circulation</i> , 2022, 145, CIR0000000000001013.	1.6	44
24	Determinants of emergency department utilisation by older adults in Singapore: A systematic review. <i>Annals of the Academy of Medicine, Singapore</i> , 2022, 51, 170-179.	0.4	4
25	Shapley variable importance cloud for interpretable machine learning. <i>Patterns</i> , 2022, 3, 100452.	5.9	29
26	Nationwide Alcohol-related visits In Singapore's Emergency departments (<scp>NAISE</scp>): A retrospective population-level study from 2007 to 2016. <i>Drug and Alcohol Review</i> , 2022, .	2.1	3
27	AutoScore-Imbalance: An interpretable machine learning tool for development of clinical scores with rare events data. <i>Journal of Biomedical Informatics</i> , 2022, 129, 104072.	4.3	8
28	Development and validation of an interpretable clinical score for early identification of acute kidney injury at the emergency department. <i>Scientific Reports</i> , 2022, 12, 7111.	3.3	5
29	Long term risk of recurrence among survivors of sudden cardiac arrest: A systematic review and meta-analysis. <i>Resuscitation</i> , 2022, 176, 30-41.	3.0	4
30	Proper Use of Multiple Imputation and Dealing with Missing Covariate Data. <i>World Neurosurgery</i> , 2022, 161, 284-290.	1.3	3
31	Validation of the CaRdiac Arrest Survival Score (CRASS) for predicting good neurological outcome after out-of-hospital cardiac arrest in an Asian emergency medical service system. <i>Resuscitation</i> , 2022, 176, 42-50.	3.0	2
32	Development and validation of an interpretable prehospital return of spontaneous circulation (P-ROSC) score for patients with out-of-hospital cardiac arrest using machine learning: A retrospective study. <i>EClinicalMedicine</i> , 2022, 48, 101422.	7.1	16
33	Pre-hospital airway management and survival outcomes after paediatric out-of-hospital cardiac arrests. <i>Resuscitation</i> , 2022, 176, 9-18.	3.0	10
34	Anaesthesia and analgesia in the emergency care setting for treating distal radius fractures in adults. <i>The Cochrane Library</i> , 2022, 2022, .	2.8	1
35	An Agile Systems Modeling Framework for Bed Resource Planning During COVID-19 Pandemic in Singapore. <i>Frontiers in Public Health</i> , 2022, 10, .	2.7	5
36	Association of High-Volume Centers With Survival Outcomes Among Patients With Nontraumatic Out-of-Hospital Cardiac Arrest. <i>JAMA Network Open</i> , 2022, 5, e2214639.	5.9	8

#	ARTICLE	IF	CITATIONS
37	The Psychological Well-Being of Southeast Asian Frontline Healthcare Workers during COVID-19: A Multi-Country Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 6380.	2.6	9
38	Emergency department utilisation among older adultsâ€”Protocol for a systematic review of determinants and conceptual frameworks. <i>PLoS ONE</i> , 2022, 17, e0265423.	2.5	1
39	Cardiac arrest centres: what, who, when, and where?. <i>Current Opinion in Critical Care</i> , 2022, 28, 262-269.	3.2	0
40	Multifactorial influences underpinning a decision on COVID-19 vaccination among healthcare workers: a qualitative analysis. <i>Human Vaccines and Immunotherapeutics</i> , 2022, 18, .	3.3	2
41	A novel interpretable machine learning system to generate clinical risk scores: An application for predicting early mortality or unplanned readmission in a retrospective cohort study. , 2022, 1, e0000062.		7
42	Inter-hospital trends of post-resuscitation interventions and outcomes of out-of-hospital cardiac arrest in Singapore. <i>Annals of the Academy of Medicine, Singapore</i> , 2022, 51, 341-350.	0.4	0
43	Clustering of Environmental Parameters and the Risk of Acute Myocardial Infarction. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 8476.	2.6	4
44	Improved Out-of-Hospital Cardiac Arrest Survival with a Comprehensive Dispatcher-Assisted CPR Program in a Developing Emergency Care System. <i>Prehospital Emergency Care</i> , 2021, 25, 802-811.	1.8	9
45	myResponder Smartphone Application to Crowdsource Basic Life Support for Out-of-Hospital Cardiac Arrest: The Singapore Experience. <i>Prehospital Emergency Care</i> , 2021, 25, 388-396.	1.8	16
46	Population Segmentation Based on Healthcare Needs: Validation of a Brief Clinician-Administered Tool. <i>Journal of General Internal Medicine</i> , 2021, 36, 9-16.	2.6	5
47	Clinical evaluation of intravenous alone versus intravenous or intraosseous access for treatment of out-of-hospital cardiac arrest. <i>Resuscitation</i> , 2021, 159, 129-136.	3.0	18
48	Effects of housing value and medical subsidy on treatment and outcomes of breast cancer patients in Singapore: A retrospective cohort study. <i>The Lancet Regional Health - Western Pacific</i> , 2021, 6, 100065.	2.9	7
49	Improving Psychological Comfort of Paramedics for Field Termination of Resuscitation through Structured Training. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1050.	2.6	0
50	Modeling Emergency Department crowding: Restoring the balance between demand for and supply of emergency medicine. <i>PLoS ONE</i> , 2021, 16, e0244097.	2.5	17
51	Transportation during and after cardiac arrest: who, when, how and where?. <i>Current Opinion in Critical Care</i> , 2021, 27, 223-231.	3.2	11
52	Cardiopulmonary resuscitation (CPR) training strategies in the times of COVID-19: a systematic literature review comparing different training methodologies. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2021, 29, 53.	2.6	26
53	Impact of dispatcher-assisted cardiopulmonary resuscitation and myResponder mobile app on bystander resuscitation. <i>Annals of the Academy of Medicine, Singapore</i> , 2021, 50, 212-221.	0.4	5
54	The effectiveness of public health interventions against COVID-19: Lessons from the Singapore experience. <i>PLoS ONE</i> , 2021, 16, e0248742.	2.5	23

#	ARTICLE	IF	CITATIONS
55	Changes in Informed Consent Policy and Treatment Delays in Stroke Thrombolysis. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2021, 30, 105551.	1.6	3
56	Impact of COVID-19 on Out-of-Hospital Cardiac Arrest in Singapore. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3646.	2.6	34
57	Early prediction of serious infections in febrile infants incorporating heart rate variability in an emergency department: a pilot study. <i>Emergency Medicine Journal</i> , 2021, 38, 607-612.	1.0	3
58	Utilizing machine learning dimensionality reduction for risk stratification of chest pain patients in the emergency department. <i>BMC Medical Research Methodology</i> , 2021, 21, 74.	3.1	7
59	Artificial Intelligence Applications for COVID-19 in Intensive Care and Emergency Settings: A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4749.	2.6	23
60	Frailty and length of stay in older adults with blunt injury in a national multicentre prospective cohort study. <i>PLoS ONE</i> , 2021, 16, e0250803.	2.5	3
61	Outcomes of patients with OHCA of presumed cardiac etiology that did not achieve prehospital restoration of spontaneous circulation: The All-Japan Utstein Registry experience. <i>Resuscitation</i> , 2021, 162, 245-250.	3.0	6
62	Perceptions of Mobile Health Apps and Features to Support Psychosocial Well-being Among Frontline Health Care Workers Involved in the COVID-19 Pandemic Response: Qualitative Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e26282.	4.3	18
63	Predicting Major Adverse Cardiovascular Events in Asian Type 2 Diabetes Patients With Lasso-Cox Regression. <i>Journal of the Endocrine Society</i> , 2021, 5, A417-A418.	0.2	0
64	A hypothetical implementation of "Termination of Resuscitation"™ protocol for out-of-hospital cardiac arrest. <i>Resuscitation Plus</i> , 2021, 6, 100092.	1.7	2
65	Comparison of inhalational methoxyflurane (Penthrox®) and intramuscular tramadol for prehospital analgesia. <i>Singapore Medical Journal</i> , 2021, 62, 281-286.	0.6	5
66	Drone-delivered automated external defibrillators: How to site them?. <i>Resuscitation</i> , 2021, 163, 189-190.	3.0	7
67	Geospatial analysis of severe road traffic accidents in Singapore in 2013-2014. <i>Singapore Medical Journal</i> , 2021, 62, 353-358.	0.6	1
68	Assessing unrealised potential for organ donation after out-of-hospital cardiac arrest. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2021, 29, 105.	2.6	11
69	A Weakly-Supervised Named Entity Recognition Machine Learning Approach for Emergency Medical Services Clinical Audit. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7776.	2.6	3
70	Characteristics of Prehospital Heat Illness Cases During the Annual Heat Wave Period in Telangana, India. <i>Prehospital and Disaster Medicine</i> , 2021, 36, 385-392.	1.3	2
71	Development and Assessment of an Interpretable Machine Learning Triage Tool for Estimating Mortality After Emergency Admissions. <i>JAMA Network Open</i> , 2021, 4, e2118467.	5.9	30
72	Beyond return of spontaneous circulation: update on post-cardiac arrest management in the intensive care unit. <i>Singapore Medical Journal</i> , 2021, 62, 444-451.	0.6	4
