#	ARTICLE	IF	CITATIONS
1	Socioeconomic disparities in early language development in two Norwegian samples. <i>Applied Developmental Science</i> , 2023, 27, 172-188.	1.0	2
2	Cohort Profile: COVIDMENT: COVID-19 cohorts on mental health across six nations. <i>International Journal of Epidemiology</i> , 2022, 51, e108-e122.	0.9	16
3	The effect of special educational assistance in early childhood education and care on psycho-social difficulties in elementary school children. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2022, 16, 14.	1.2	0
4	Association between work situation and life satisfaction during the COVID-19 pandemic: prospective cohort study in Norway. <i>BMJ Open</i> , 2022, 12, e049586.	0.8	6
5	Gender gaps in preschool age: A study of behavior, neurodevelopment and pre-academic skills. <i>Scandinavian Journal of Public Health</i> , 2021, 49, 503-510.	1.2	16
6	Maternal caffeine intake during pregnancy and child neurodevelopment up to eight years of age—Results from the Norwegian Mother, Father and Child Cohort Study. <i>European Journal of Nutrition</i> , 2021, 60, 791-805.	1.8	15
7	Predicting selection into ECEC of higher quality in a universal context: The role of parental education and income. <i>Early Childhood Research Quarterly</i> , 2021, 55, 336-348.	1.6	14
8	Children's temperament moderates the long-term effects of pedagogical practices in ECEC on children's externalising problems. <i>European Early Childhood Education Research Journal</i> , 2021, 29, 206-223.	1.2	2
9	Associations Between Language Difficulties, Peer Victimization, and Bully Perpetration From 3 Through 8 Years of Age: Results From a Population-Based Study. <i>Journal of Speech, Language, and Hearing Research</i> , 2021, 64, 2698-2714.	0.7	8
10	Associations between poor gross and fine motor skills in pre-school and peer victimization concurrently and longitudinally with follow-up in school age—results from a population-based study. <i>British Journal of Educational Psychology</i> , 2021, , e12464.	1.6	4
11	Maternal Anxiety and Infants Birthweight and Length of Gestation. A sibling design. <i>BMC Psychiatry</i> , 2021, 21, 609.	1.1	2
12	In utero exposure to analgesic opioids and language development in 5-year old children. <i>Pharmacoepidemiology and Drug Safety</i> , 2020, 29, 736-744.	0.9	6
13	A Common Family Factor Underlying Language Difficulties and Internalizing Problems: Findings From a Population-Based Sibling Study. <i>Journal of Learning Disabilities</i> , 2020, 53, 399-409.	1.5	4
14	Mechanisms linking parental educational attainment with child ADHD, depression, and academic problems: a study of extended families in The Norwegian Mother, Father and Child Cohort Study. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2020, 61, 1009-1018.	3.1	63
15	Estimating the Strength of Associations Between Prenatal Diet Quality and Child Developmental Outcomes: Results From a Large Prospective Pregnancy Cohort Study. <i>American Journal of Epidemiology</i> , 2019, 188, 1902-1912.	1.6	10
16	Maternal Thyroid Hormone Replacement Therapy Exposure and Language and Communication Skills of Offspring at 8 Years of Age. <i>JAMA Network Open</i> , 2019, 2, e1912424.	2.8	2
17	Peer-Victimization of Young Children With Developmental and Behavioral Difficulties—A Population-Based Study. <i>Journal of Pediatric Psychology</i> , 2019, 44, 589-600.	1.1	13
18	Language delay and poorer school performance in children of mothers with inadequate iodine intake in pregnancy: results from follow-up at 8 years in the Norwegian Mother and Child Cohort Study. <i>European Journal of Nutrition</i> , 2019, 58, 3047-3058.	1.8	30

#	ARTICLE	IF	CITATIONS
19	Factors associated with pharmacy students' attitudes towards learning communication skills – A study among Nordic pharmacy students. <i>Research in Social and Administrative Pharmacy</i> , 2018, 14, 279-289.	1.5	8
20	Prenatal mercury exposure, maternal seafood consumption and associations with child language at five years. <i>Environment International</i> , 2018, 110, 71-79.	4.8	28
21	Suboptimal Maternal Iodine Intake Is Associated with Impaired Child Neurodevelopment at 3 Years of Age in the Norwegian Mother and Child Cohort Study. <i>Journal of Nutrition</i> , 2017, 147, 1314-1324.	1.3	136
22	Language competence and communication skills in 3-year-old children after prenatal exposure to analgesic opioids. <i>Pharmacoepidemiology and Drug Safety</i> , 2017, 26, 625-634.	0.9	23
23	Prenatal Exposure to Acetaminophen and Risk of ADHD. <i>Pediatrics</i> , 2017, 140, .	1.0	138
24	Association of prenatal exposure to benzodiazepines and child internalizing problems: A sibling-controlled cohort study. <i>PLoS ONE</i> , 2017, 12, e0181042.	1.1	28
25	Effect of prenatal selective serotonin reuptake inhibitor (SSRI) exposure on birthweight and gestational age: a sibling-controlled cohort study. <i>International Journal of Epidemiology</i> , 2016, 45, dyw049.	0.9	11
26	Neurodevelopmental problems at 18 months among children exposed to paracetamol in utero: a propensity score matched cohort study. <i>International Journal of Epidemiology</i> , 2016, 45, dyw192.	0.9	37
27	Behavioural effects of fetal antidepressant exposure in a Norwegian cohort of discordant siblings. <i>International Journal of Epidemiology</i> , 2015, 44, 1397-1407.	0.9	65
28	Annotations and Reflections. <i>Basic and Clinical Pharmacology and Toxicology</i> , 2015, 116, 6-8.	1.2	3
29	Communication Impairments in Early Term and Late Preterm Children: A Prospective Cohort Study following Children to Age 36 Months. <i>Journal of Pediatrics</i> , 2014, 165, 1123-1128.	0.9	44
30	Authors' Response: More research on paracetamol is required. <i>International Journal of Epidemiology</i> , 2014, 43, 975-976.	0.9	5
31	Prenatal paracetamol exposure and child neurodevelopment: a sibling-controlled cohort study. <i>International Journal of Epidemiology</i> , 2013, 42, 1702-1713.	0.9	227
32	Longitudinal Analysis of Emotional Problems in Children with Congenital Heart Defects: A Follow-Up from Age 6 to 36 Months. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2011, 32, 461-464.	0.6	11
33	Occurrence and Predictors of Developmental Impairments in 3-Year-Old Children with Congenital Heart Defects. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2011, 32, 526-532.	0.6	9
34	Symptoms of communication and social impairment in toddlers with congenital heart defects. <i>Child: Care, Health and Development</i> , 2011, 37, 37-43.	0.8	16
35	Longitudinal findings from a Norwegian case-cohort study on internalizing problems in children with congenital heart defects. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011, 100, 236-241.	0.7	4
36	Motor and Social Development in 6-Month-Old Children with Congenital Heart Defects. <i>Journal of Pediatrics</i> , 2010, 156, 265-269.e1.	0.9	23
