#	Article	IF	CITATIONS
1	Comparative efficacy and acceptability of non-surgical brain stimulation for the acute treatment of major depressive episodes in adults: systematic review and network meta-analysis. BMJ: British Medical Journal, 2019, 364, l1079.	2.3	189
2	Efficacy and acceptability of non-invasive brain stimulation for the treatment of adult unipolar and bipolar depression: A systematic review and meta-analysis of randomised sham-controlled trials. Neuroscience and Biobehavioral Reviews, 2018, 92, 291-303.	6.1	175
3	Night-time screen-based media device use and adolescents' sleep and health-related quality of life. Environment International, 2019, 124, 66-78.	10.0	110
4	Mental Toughness and Individual Differences in Learning, Educational and Work Performance, Psychological Well-being, and Personality: A Systematic Review. Frontiers in Psychology, 2017, 8, 1345.	2.1	90
5	Exploring health in the UK Biobank: associations with sociodemographic characteristics, psychosocial factors, lifestyle and environmental exposures. BMC Medicine, 2021, 19, 240.	5.5	36
6	Examining the association between family status and depression in the UK Biobank. Journal of Affective Disorders, 2021, 279, 585-598.	4.1	22
7	ls tDCS a potential first line treatment for major depression?. International Review of Psychiatry, 2021, 33, 250-265.	2.8	21
8	Repetitive transcranial magnetic stimulation in non-treatment-resistant depression. British Journal of Psychiatry, 2019, 215, 445-446.	2.8	20
9	Lifetime depression and age-related changes in body composition, cardiovascular function, grip strength and lung function: sex-specific analyses in the UK Biobank. Aging, 2021, 13, 17038-17079.	3.1	20
10	Do Individual Differences in Emotion Regulation Mediate the Relationship Between Mental Toughness and Symptoms of Depression?. Journal of Individual Differences, 2017, 38, 71-82.	1.0	20
11	Cohort Profile: The Study of Cognition, Adolescents and Mobile Phones (SCAMP). International Journal of Epidemiology, 2019, 48, 25-26l.	1.9	19
12	Cross-classification between self-rated health and health status: longitudinal analyses of all-cause mortality and leading causes of death in the UK. Scientific Reports, 2022, 12, 459.	3.3	18
13	Age-related changes in physiology in individuals with bipolar disorder. Journal of Affective Disorders, 2022, 296, 157-168.	4.1	17
14	Exploring the neural correlates of dream phenomenology and altered states of consciousness during sleep. Neuroscience of Consciousness, 2017, 2017, nix009.	2.6	16
15	Anxiety disorders and age-related changes in physiology. British Journal of Psychiatry, 2022, 221, 528-537.	2.8	10
16	Depressive symptoms and neuroticism-related traits are the main factors associated with wellbeing independent of the history of lifetime depression in the UK Biobank. Psychological Medicine, 2023, 53, 3000-3008.	4.5	9
17	Processed data on the night-time use of screen-based media devices and adolescents' sleep quality and health-related quality of life. Data in Brief, 2019, 23, 103761.	1.0	7
18	Personal radiofrequency electromagnetic field exposure of adolescents in the Greater London area in the SCAMP cohort and the association with restrictions on permitted use of mobile communication technologies at school and at home. Environmental Research, 2022, 212, 113252.	7.5	6

#	Article	IF	CITATIONS
19	Using a pragmatically adapted, low-cost contingency management intervention to promote heroin abstinence in individuals undergoing treatment for heroin use disorder in UK drug services (PRAISE): a cluster randomised trial. BMJ Open, 2021, 11, e046371.	1.9	5
20	Positive reinforcement targeting abstinence in substance misuse (PRAISe): Study protocol for a Cluster RCT & process evaluation of contingency management. Contemporary Clinical Trials, 2018, 71, 124-132.	1.8	3
21	Mental Toughness: A Personality Trait That Is Relevant across Achievement Contexts and Mental Health Outcomes. , 0, , 588-603.		3
22	Cognitive effects of non-surgical brain stimulation for major depressive disorder: protocol for a systematic review and meta-analysis. BMJ Open, 2019, 9, e023796.	1.9	2
23	Effects of Night-Time Screen-Based Media Device Use on Adolescents' Sleep and Health-Related Quality of Life. ISEE Conference Abstracts, 2018, 2018, .	0.0	2
24	Anxiety disorders and age-related changes in physiology – ERRATUM. British Journal of Psychiatry, 2022, , 1-1.	2.8	1
25	Depression and Age-Related Changes in Body Composition, Cardiovascular Function, Grip Strength, and Lung Function. Innovation in Aging, 2021, 5, 440-440.	0.1	1
26	Non-invasive brain stimulation for the treatment of depression: systematic review and meta-analysis of randomised, sham-controlled trials. European Neuropsychopharmacology, 2017, 27, S811.	0.7	0
27	OP VI – 3â€Socio-demographic predictors of mobile phone ownership and use in the study of cognition, adolescents and mobile phones. , 2018, , .		0
28	(No) rTMS in non-treatment refractory patients with depression: findings from a meta-analysis. European Neuropsychopharmacology, 2019, 29, S533-S534.	0.7	0
29	P281 Treatment refractoriness in rTMS and TBS trials: Findings from a large meta-analysis. Clinical Neurophysiology, 2020, 131, e174.	1.5	0
30	Age-related changes in physiology in individuals with lifetime bipolar disorder. BJPsych Open, 2021, 7, S276-S276.	0.7	0
31	Lifetime depression and age-related changes in body composition, cardiovascular function, grip strength and lung function: sex-specific analyses in the UK Biobank. BJPsych Open, 2021, 7, S44-S44.	0.7	0
32	242Exploring health in the UK Biobank: cross-sectional analyses of sociodemographic, psychosocial, lifestyle and environmental factors. International Journal of Epidemiology, 2021, 50, .	1.9	0
33	P.0116 Depressive symptoms and personality traits are the main factors associated with wellbeing independent of the diagnosis of depression. European Neuropsychopharmacology, 2021, 53, S84-S85.	0.7	0
34	Exploring Health in the UK Biobank: Sociodemographic, Psychosocial, Lifestyle and Environmental Factors. Innovation in Aging, 2021, 5, 670-670.	0.1	0
35	The Interplay Between Stress Related Genes and Its Role in Human Longevity: Insights for Translational Studies. Innovation in Aging, 2021, 5, 668-668.	0.1	0
