#	ARTICLE	IF	CITATIONS
1	A Systematic Review of Healthcare Professionals's Knowledge, Self-Efficacy and Attitudes Towards Working with Autistic People. <i>Review Journal of Autism and Developmental Disorders</i> , 2022, 9, 386-399.	3.4	24
2	The Oxford Face Matching Test: A non-biased test of the full range of individual differences in face perception. <i>Behavior Research Methods</i> , 2022, 54, 158-173.	4.0	21
3	Development and validation of the Interoceptive States Static Images (ISSI) database. <i>Behavior Research Methods</i> , 2022, 54, 1744-1765.	4.0	2
4	Dissociations between self-reported interoceptive accuracy and attention: Evidence from the Interoceptive Attention Scale. <i>Biological Psychology</i> , 2022, 168, 108243.	2.2	19
5	Personal Identity After an Autism Diagnosis: Relationships With Self-Esteem, Mental Wellbeing, and Diagnostic Timing. <i>Frontiers in Psychology</i> , 2021, 12, 699335.	2.1	21
6	Atypical interoception as a common risk factor for psychopathology: A review. <i>Neuroscience and Biobehavioral Reviews</i> , 2021, 130, 470-508.	6.1	54
7	Testing the independence of self-reported interoceptive accuracy and attention. <i>Quarterly Journal of Experimental Psychology</i> , 2020, 73, 115-133.	1.1	91
8	Disordered Social Cognition. , 2020, , 436-448.		0
9	Face perception in autism spectrum disorder: Modulation of holistic processing by facial emotion. <i>Cognition</i> , 2019, 193, 104016.	2.2	14
10	I feel it in my finger: Measurement device affects cardiac interoceptive accuracy. <i>Biological Psychology</i> , 2019, 148, 107765.	2.2	27
11	Communicative misalignment in Autism Spectrum Disorder. <i>Cortex</i> , 2019, 115, 15-26.	2.4	15
12	The Role of Language in Alexithymia: Moving Towards a Multiroute Model of Alexithymia. <i>Emotion Review</i> , 2019, 11, 247-261.	3.4	38
13	The importance of stimulus variability when studying face processing using fast periodic visual stimulation: A novel "mixed-emotions" paradigm. <i>Cortex</i> , 2019, 117, 182-195.	2.4	5
14	Brief Report: Typical Auditory-Motor and Enhanced Visual-Motor Temporal Synchronization in Adults with Autism Spectrum Disorder. <i>Journal of Autism and Developmental Disorders</i> , 2019, 49, 788-793.	2.7	9
15	Adults with autism spectrum disorder are sensitive to the kinematic features defining natural human motion. <i>Autism Research</i> , 2019, 12, 284-294.	3.8	9
16	Alexithymia explains increased empathic personal distress in individuals with and without eating disorders. <i>Quarterly Journal of Experimental Psychology</i> , 2019, 72, 1827-1836.	1.1	11
17	The importance of stimulus variability when studying face processing using Fast Periodic Visual Stimulation: A novel "Mixed-Emotions" paradigm. <i>Journal of Vision</i> , 2019, 19, 181b.	0.3	0
18	Language and alexithymia: Evidence for the role of the inferior frontal gyrus in acquired alexithymia. <i>Neuropsychologia</i> , 2018, 111, 229-240.	1.6	27

#	ARTICLE	IF	CITATIONS
19	Knowledge of resting heart rate mediates the relationship between intelligence and the heartbeat counting task. <i>Biological Psychology</i> , 2018, 133, 1-3.	2.2	56
20	Fitness to plead: Development and validation of a standardised assessment instrument. <i>PLoS ONE</i> , 2018, 13, e0194332.	2.5	14
21	Is alexithymia characterised by impaired interoception? Further evidence, the importance of control variables, and the problems with the Heartbeat Counting Task. <i>Biological Psychology</i> , 2018, 136, 189-197.	2.2	124
22	Interoception and psychopathology: A developmental neuroscience perspective. <i>Developmental Cognitive Neuroscience</i> , 2017, 23, 45-56.	4.0	264
23	Typical integration of emotion cues from bodies and faces in Autism Spectrum Disorder. <i>Cognition</i> , 2017, 165, 82-87.	2.2	15
24	The specificity of the link between alexithymia, interoception, and imitation.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2016, 42, 1687-1692.	0.9	23
25	Can Neurotypical Individuals Read Autistic Facial Expressions? Atypical Production of Emotional Facial Expressions in Autism Spectrum Disorders. <i>Autism Research</i> , 2016, 9, 262-271.	3.8	137
26	Alexithymia: a general deficit of interoception. <i>Royal Society Open Science</i> , 2016, 3, 150664.	2.4	221
27	Interaction takes two: Typical adults exhibit mind-blindness towards those with autism spectrum disorder.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 879-885.	1.9	114
28	Atypical trait inferences from facial cues in alexithymia.. <i>Emotion</i> , 2015, 15, 637-643.	1.8	11
29	Commentary on "Autism, oxytocin and interoception": Alexithymia, not Autism Spectrum Disorders, is the consequence of interoceptive failure. <i>Neuroscience and Biobehavioral Reviews</i> , 2015, 56, 348-353.	6.1	84
30	Emotion recognition deficits in eating disorders are explained by co-occurring alexithymia. <i>Royal Society Open Science</i> , 2015, 2, 140382.	2.4	73
31	The impact of autism spectrum disorder and alexithymia on judgments of moral acceptability.. <i>Journal of Abnormal Psychology</i> , 2015, 124, 589-595.	1.9	47
32	Intact Facial Adaptation in Autistic Adults. <i>Autism Research</i> , 2014, 7, 481-490.	3.8	30
33	Alexithymia, Not Autism, Predicts Poor Recognition of Emotional Facial Expressions. <i>Psychological Science</i> , 2013, 24, 723-732.	3.3	265
34	Shared Interoceptive Representations: The Case of Alexithymia. , 0, , 439-459.		0
