#	ARTICLE	IF	CITATIONS
1	Exploring the association between religious participation and memory in middle- and older-aged adults in the Canadian Longitudinal Study on Aging. <i>Aging, Neuropsychology, and Cognition</i> , 2023, 30, 106-123.	0.7	2
2	The Association Between Adverse Childhood Experiences and Late-Life Cognition: A Systematic Review of Cross-Sectional and Case-Control Studies. <i>Gerontologist, The</i> , 2023, 63, 1087-1103.	2.3	5
3	Subtypes of social support availability are not differentially associated with memory: a cross-sectional analysis of the Comprehensive Cohort of the Canadian Longitudinal Study on Aging. <i>Aging, Neuropsychology, and Cognition</i> , 2022, , 1-16.	0.7	4
4	Examining the association between the COVID-19 pandemic and self-harm death counts in four Canadian provinces. <i>Psychiatry Research</i> , 2022, 310, 114433.	1.7	2
5	The association between religiosity, spirituality, and breast cancer screening: A cross-sectional analysis of Alberta's Tomorrow Project. <i>Preventive Medicine Reports</i> , 2022, 26, 101726.	0.8	2
6	Efficacy of telehealth in integrated chronic disease management for older, multimorbid adults with heart failure: A systematic review. <i>International Journal of Medical Informatics</i> , 2022, 162, 104756.	1.6	8
7	Perceived susceptibility to developing cancer and screening for colorectal and prostate cancer: A longitudinal analysis of Alberta's Tomorrow Project. <i>Journal of Medical Screening</i> , 2021, 28, 148-157.	1.1	2
8	The role of epidemiologists in SARS-CoV-2 and COVID-19 research. <i>Public Health</i> , 2021, 190, e3-e4.	1.4	8
9	Biobehavioral Aspects of the COVID-19 Pandemic: A Review. <i>Psychosomatic Medicine</i> , 2021, 83, 309-321.	1.3	21
10	Social support availability is positively associated with memory in persons aged 45-85 years: A cross-sectional analysis of the Canadian Longitudinal Study on Aging. <i>Archives of Gerontology and Geriatrics</i> , 2020, 86, 103962.	1.4	17
11	No clear choice between Newcastle's Ottawa Scale and Appraisal Tool for Cross-Sectional Studies to assess methodological quality in cross-sectional studies of health-related quality of life and breast cancer. <i>Journal of Clinical Epidemiology</i> , 2020, 120, 94-103.	2.4	126
12	Association between functional social support and cognitive function in middle-aged and older adults: a protocol for a systematic review. <i>BMJ Open</i> , 2020, 10, e037301.	0.8	11
13	Considerations for an Individual-Level Population Notification System for Pandemic Response: A Review and Prototype. <i>Journal of Medical Internet Research</i> , 2020, 22, e19930.	2.1	14
14	Perceived susceptibility to developing cancer and mammography screening behaviour: a cross-sectional analysis of Alberta's Tomorrow Project. <i>Public Health</i> , 2019, 177, 135-142.	1.4	4
15	Social support and cognitive function in middle- and older-aged adults: descriptive analysis of CLSA tracking data. <i>European Journal of Public Health</i> , 2019, 29, 1084-1089.	0.1	16
16	The Effect of Religion and Spirituality on Cognitive Function: A Systematic Review. <i>Gerontologist, The</i> , 2019, 59, e76-e85.	2.3	43
17	The association between antibiotic use in infancy and childhood overweight or obesity: a systematic review and meta-analysis. <i>Obesity Reviews</i> , 2018, 19, 1463-1475.	3.1	61
18	A pharmaco-economic evaluation of cholinesterase inhibitors and memantine for the treatment of Alzheimer's disease. <i>Expert Opinion on Pharmacotherapy</i> , 2018, 19, 1245-1259.	0.9	10

#	ARTICLE	IF	CITATIONS
19	A Computer-Assisted Personal Interview App in Research Electronic Data Capture for Administering Time Trade-off Surveys (REDCap): Development and Pretest. JMIR Formative Research, 2018, 2, e3.	0.7	5
20	Does being a retired or employed caregiver affect the association between behaviours in Alzheimer's disease and caregivers' health-related quality-of-life?. BMC Research Notes, 2017, 10, 766.	0.6	5
21	A comparison of health utility scores calculated using United Kingdom and Canadian preference weights in persons with Alzheimer's disease and their caregivers. Health and Quality of Life Outcomes, 2016, 14, 105.	1.0	13
22	Can the general public use vignettes to discriminate between Alzheimer's disease health states?. BMC Geriatrics, 2016, 16, 36.	1.1	7
23	Development of Clinical Vignettes to Describe Alzheimer's Disease Health States: A Qualitative Study. PLoS ONE, 2016, 11, e0162422.	1.1	5
24	Identifying the components of clinical vignettes describing Alzheimer's disease or other dementias: a scoping review. BMC Medical Informatics and Decision Making, 2015, 15, 54.	1.5	14
25	Caregivers' willingness-to-pay for Alzheimer's disease medications in Canada. Dementia, 2015, 14, 63-79.	1.0	6
26	Attending Religious Services and Its Relationship with Coronary Heart Disease and Related Risk Factors in Older Adults: A Qualitative Study of Church Pastors' and Parishioners' Perspectives. Journal of Religion and Health, 2014, 53, 1770-1785.	0.8	12
27	Health Utility Scores in Alzheimer's Disease: Differences Based on Calculation With American and Canadian Preference Weights. Value in Health, 2014, 17, 77-83.	0.1	16
28	Inter-rater and test-retest reliability of quality assessments by novice student raters using the Jadad and Newcastle-Ottawa Scales. BMJ Open, 2012, 2, e001368.	0.8	137
29	Measuring health-related quality-of-life for Alzheimer's disease using the general public. Quality of Life Research, 2012, 21, 593-601.	1.5	9
30	How Does the Canadian General Public Rate Moderate Alzheimer's Disease?. Journal of Aging Research, 2011, 2011, 1-8.	0.4	3
31	The Canadian Longitudinal Study on Aging (CLSA). Canadian Journal on Aging, 2009, 28, 221-229.	0.6	402
32	Support for a tax increase to provide unrestricted access to an Alzheimer's disease medication: a survey of the general public in Canada. BMC Health Services Research, 2009, 9, 246.	0.9	7
33	Effectiveness of Cholinesterase Inhibitors and Memantine for Treating Dementia: Evidence Review for a Clinical Practice Guideline. Annals of Internal Medicine, 2008, 148, 379.	2.0	655
34	Physicians' Efficacy Requirements for Prescribing Medications to Persons with Alzheimer's Disease. Canadian Journal on Aging, 2007, 26, 139-148.	0.6	4
35	Caregiver Acceptance of Adverse Effects and Use of Cholinesterase Inhibitors in Alzheimer's Disease. Canadian Journal on Aging, 2007, 26, 205-212.	0.6	1
36	A hybrid qualitative method for pretesting questionnaires: The example of a questionnaire to caregivers of Alzheimer disease patients. Research in Nursing and Health, 2005, 28, 419-430.	0.8	25

#	ARTICLE	IF	CITATIONS
37	Female specialists were more likely to respond to a postal questionnaire about drug treatments for Alzheimer disease. <i>Journal of Clinical Epidemiology</i> , 2004, 57, 620-623.	2.4	6
38	Surgery versus collagen for female stress urinary incontinence: economic assessment in Ontario and Quebec. <i>Canadian Journal of Urology</i> , 2003, 10, 1934-44.	0.0	10
39	A survey of physician efficacy requirements to plan clinical trials. <i>Pharmacoepidemiology and Drug Safety</i> , 2002, 11, 677-685.	0.9	3
40	Is your religious involvement helping your mind? The link between religious involvement and cognitive function from the perspectives of Christian pastors and parishioners. <i>Journal of Religion, Spirituality and Aging</i> , 0, , 1-18.	0.5	0
41	The Association between Religious Participation and Executive Function in Middle- and Older-aged Adults: A Cross-Sectional Analysis of the Canadian Longitudinal Study on Aging. <i>International Journal for the Psychology of Religion, The</i> , 0, , 1-16.	1.3	1
