|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Indication-prescription study for the management of conjunctivitis in a Colombian population. International Ophthalmology, 2023, 43, 83-93.                                                                                                        | 1.4 | 1         |
| 2  | Para quÃ© indicaciones se estÃ¡n utilizando los antidepresivos en adultos de Colombia. Revista Colombiana De PsiquiatrÃa, 2022, 51, 192-198.                                                                                                       | 0.3 | 0         |
| 3  | IndicaciÃ³n y prescripciÃ³n de macrÃ³lidos en una poblaciÃ³n colombiana. Biomedica, 2022, 42, 302-314.                                                                                                                                             | 0.7 | 4         |
| 4  | Use of healthcare resources in a cohort of rheumatoid arthritis patients treated with biological disease-modifying antirheumatic drugs or tofacitinib. Clinical Rheumatology, 2021, 40, 1273-1281.                                                 | 2.2 | 6         |
| 5  | Use of nonâ€¢vitamin K antagonist oral anticoagulants in Colombia: A descriptive study using a national administrative healthcare database. Pharmacoepidemiology and Drug Safety, 2021, 30, 426-434.                                               | 1.9 | 4         |
| 6  | Estudio de utilizaciÃ³n de fÃ¡rmacos antigotosos en poblaciÃ³n colombiana, 2016. Revista Colombiana De ReumatologÃa, 2021, 28, 11-15.                                                                                                              | 0.1 | 0         |
| 7  | Clinical characteristics and stratification of the cerebrovascular accident risk among patients with atrial fibrillation in Colombia, 2011-2016. Expert Review of Cardiovascular Therapy, 2021, 19, 181-187.                                       | 1.5 | 2         |
| 8  | DetecciÃ³n de errores de medicaciÃ³n mediante un programa de seguimiento y minimizaciÃ³n en pacientes ambulatorios de Colombia, 2018-2019. Biomedica, 2021, 41, 79-86.                                                                             | 0.7 | 1         |
| 9  | Factors Associated with Survival in Patients Undergoing Invasive Mechanical Ventilation in an Intensive Care Unit in Colombia, 2017â€“2018: A Retrospective Cohort Study. Drugs - Real World Outcomes, 2021, 8, 417-425.                           | 1.6 | 3         |
| 10 | eHealth and mHealth: Adherence to treatment in chronic diseases. Revista Facultad De Medicina, 2021, 69, e78766.                                                                                                                                   | 0.2 | 1         |
| 11 | Antibiotic Prescriptions for Respiratory Tract Viral Infections in the Colombian Population. Antibiotics, 2021, 10, 864.                                                                                                                           | 3.7 | 2         |
| 12 | Prevalence of the Use of Aspirin and Statins for Preventing Cardiovascular Events in the Colombian Population with Type 2 Diabetes Mellitus: Comparison of 2008 and 2018. Journal of Primary Care and Community Health, 2021, 12, 215013272110070. | 2.1 | 2         |
| 13 | Identification of potentially inappropriate cardiovascular prescriptions in the elderly using Beersâ€™ criteria. Revista Colombiana De Cardiologia, 2020, 27, 90-96.                                                                               | 0.1 | 1         |
| 14 | Factors Involved in the Development of Inhibitory Antibodies in Patients with Hemophilia in Colombia: A Case-Control Study. Plasmatology, 2020, 13, 263485352096246.                                                                               | 0.4 | 0         |
| 15 | Real-World Effectiveness of Therapy With Rosuvastatin Combined With Fenofibric Acid in a Sample of Colombian Patients With Mixed Dyslipidemia. Journal of Primary Care and Community Health, 2020, 11, 215013272097773.                            | 2.1 | 1         |
| 16 | Patterns of pharmacological treatment of patients with migraine, tension-type headache, and cluster headache in a large group of patients in Colombia, 2019. International Clinical Psychopharmacology, 2020, 35, 279-284.                         | 1.7 | 1         |
| 17 | Trends in Opioid Use in a Cohort of Patients with Rheumatoid Arthritis. Pain Research and Management, 2020, 2020, 1-6.                                                                                                                             | 1.8 | 5         |
| 18 | Patterns of Antibiotic Prescription in Colombia: Are There Differences between Capital Cities and Municipalities?. Antibiotics, 2020, 9, 389.                                                                                                      | 3.7 | 19        |

| #  | ARTICLE                                                                                                                                                                                        | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Prescripción e indicaciones de uso de fluoroquinolonas en un grupo de pacientes ambulatorios de Colombia. Biomedica, 2020, 40, 382-390.                                                        | 0.7 | 6         |
| 20 | Real-World Evidence: Pharmacoepidemiology for Daily Clinical Practice—An Experience from Colombia. Drugs - Real World Outcomes, 2020, 7, 257-259.                                              | 1.6 | 0         |
| 21 | Use of Tramadol or Other Analgesics in Patients Treated in the Emergency Department as a Risk Factor for Opioid Use. Pain Research and Management, 2020, 2020, 1-8.                            | 1.8 | 7         |
| 22 | Time to modification of antidiabetic therapy in patients over the age of 65 years with newly diagnosed diabetes mellitus. Diabetes Research and Clinical Practice, 2020, 162, 108090.          | 2.8 | 2         |
| 23 | Extreme polypharmacy: The need to mint a new term. Pharmacoepidemiology and Drug Safety, 2020, 29, 224-225.                                                                                    | 1.9 | 3         |
| 24 | Evaluation of Treatment Patterns and Direct Costs Associated with the Management of Neuropathic Pain. Pain Research and Management, 2020, 2020, 1-8.                                           | 1.8 | 4         |
| 25 | Adherence to levothyroxine prescription in patients with hypothyroidism. Revista Medica De Chile, 2020, 148, 740-745.                                                                          | 0.2 | 5         |
| 26 | Lipid-lowering drug prescriptions in a group of Colombian patients. Biomedica, 2019, 39, 759-768.                                                                                              | 0.7 | 3         |
| 27 | Analysis of secondary prevention measures implemented in patients with a history of acute coronary syndrome. Revista Colombiana De Cardiologia, 2019, 26, 63-69.                               | 0.1 | 0         |
| 28 | Use of intravenous alprostadil in patients with severe critical ischemia of the lower limbs. Vascular, 2019, 27, 318-323.                                                                      | 0.9 | 4         |
| 29 | Are the 2014–2016 Zika and Chikungunya epidemics in Colombia associated with a higher use of antihistamines?. Travel Medicine and Infectious Disease, 2019, 27, 123-124.                       | 3.0 | 0         |
| 30 | Factors related to excessive polypharmacy ( $\geq 15$ medications) in an outpatient population from Colombia. International Journal of Clinical Practice, 2019, 73, e13278.                    | 1.7 | 7         |
| 31 | Polypharmacy, An Unfinished Term. Journal of the American Medical Directors Association, 2018, 19, 182.                                                                                        | 2.5 | 0         |
| 32 | Drugs With Anticholinergic Potential and Risk of Falls With Hip Fracture in the Elderly Patients: A Case-Control Study. Journal of Geriatric Psychiatry and Neurology, 2018, 31, 63-69.        | 2.3 | 21        |
| 33 | Association between the use of benzodiazepines and opioids with the risk of falls and hip fractures in older adults. International Psychogeriatrics, 2018, 30, 941-946.                        | 1.0 | 42        |
| 34 | Results of the effectiveness of two piperacillin-tazobactam molecules in the real world. International Journal of Infectious Diseases, 2018, 76, 91-96.                                        | 3.3 | 1         |
| 35 | Deprescribing: a new goal focused on the patient. Expert Opinion on Drug Safety, 2017, 16, 1-2.                                                                                                | 2.4 | 16        |
| 36 | Use patterns of first-line inhibitors of tyrosine kinase and time to change to second-line therapy in chronic myeloid leukemia. International Journal of Clinical Pharmacy, 2017, 39, 851-859. | 2.1 | 3         |

| #  | ARTICLE                                                                                                                                                                                                                         | IF   | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 37 | Effectiveness and clinical inertia in patients with antidiabetic therapy. International Journal of Clinical Practice, 2017, 71, e12954.                                                                                         | 1.7  | 12        |
| 38 | Multicentre evaluation of postoperative pain control after 24 hours in three hospitals of Colombia. EnfermerÃa ClÃnica (English Edition), 2017, 27, 241-245.                                                                    | 0.3  | 0         |
| 39 | EvaluaciÃ³n multicÃ©ntrica de control del dolor postoperatorio a las 24 horas en tres hospitales de Colombia. EnfermerÃa ClÃnica, 2017, 27, 241-245.                                                                            | 0.3  | 0         |
| 40 | International trends in antipsychotic use: A study in 16 countries, 2005â€“2014. European Neuropsychopharmacology, 2017, 27, 1064-1076.                                                                                         | 0.7  | 185       |
| 41 | Endpoints in strategies to reduce polypharmacy. British Journal of Clinical Pharmacology, 2017, 83, 432-433.                                                                                                                    | 2.4  | 3         |
| 42 | Tratamiento hipolipemiante y su efectividad en pacientes de cuatro ciudades colombianas, 2012-2013.. Acta Medica Colombiana: AMC: Organo De La AsociaciÃ³n Colombiana De Medicina Interna, 2017, 41, .                          | 0.0  | 3         |
| 43 | Epidemiology of Cutaneous Leishmaniasis in a Colombian Municipality. American Journal of Tropical Medicine and Hygiene, 2017, 97, 1503-1507.                                                                                    | 1.4  | 10        |
| 44 | Off-label use of psychotropic drugs beyond officially approved indications in Colombia. Revista Facultad De Medicina, 2017, 65, 411-415.                                                                                        | 0.2  | 0         |
| 45 | UtilizaciÃ³n de medicamentos antidepresivos en poblaciÃ³n adolescente de Colombia: un estudio tipo prescripció-n-indicaciÃ³n. Revista Ciencias De La Salud, 2017, 15, 387.                                                      | 0.2  | 2         |
| 46 | Hormonal contraceptive prescriptions in Colombia and Zika virus. Lancet, The, 2016, 387, 1993.                                                                                                                                  | 13.7 | 7         |
| 47 | Diagnosis of neurological disorders and the Zika virus epidemic in Colombia 2014 â€“2016. International Journal of Infectious Diseases, 2016, 51, 133-134.                                                                      | 3.3  | 12        |
| 48 | Time to and factors associated with insulin initiation in patients with type 2 diabetes mellitus. Diabetes Research and Clinical Practice, 2015, 107, 332-337.                                                                  | 2.8  | 17        |
| 49 | Effectiveness and clinical inertia in the management of hypertension in patients in Colombia. Journal of the American Society of Hypertension, 2015, 9, 878-884.                                                                | 2.3  | 10        |
| 50 | The Role of Research Incubators in Encouraging Research and Publication Among Medical Students. Academic Medicine, 2014, 89, 961-962.                                                                                           | 1.6  | 6         |
| 51 | Prevalencia de factores de riesgo cardiovascular en pacientes con dislipidemia, afiliados al sistema de salud en Colombia. Revista Peruana De Medicina De Experimental Y Salud Publica, 2014, 30, .                             | 0.4  | 13        |
| 52 | Adverse drug reactions associated with the use of disease-modifying anti-rheumatic drugs in patients with rheumatoid arthritis. Revista Panamericana De Salud Publica/Pan American Journal of Public Health, 2014, 36, 396-401. | 1.1  | 7         |
| 53 | Effectiveness of lipid-lowering therapy among a sample of patients in Colombia. Revista Panamericana De Salud Publica/Pan American Journal of Public Health, 2013, 33, 383-90.                                                  | 1.1  | 4         |
