#	Article	IF	Citations
1	Social stress and risk of declining cognition: a longitudinal study of men and women in the United States. Social Psychiatry and Psychiatric Epidemiology, 2022, 57, 1875-1884.	3.1	3
2	Longitudinal Associations Between Discrimination, Neighborhood Social Cohesion, and Telomere Length: The Multi-Ethnic Study of Atherosclerosis. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2022, 77, 365-374.	3.6	9
3	Biological costs and benefits of social relationships for men and women in adulthood: The role of partner, family and friends. Sociology of Health and Illness, 2022, 44, 5-24.	2.1	9
4	Micronutrient Deficiency as a Confounder in Ascertaining the Role of Obesity in Severe COVID-19 Infection. International Journal of Environmental Research and Public Health, 2022, 19, 1125.	2.6	4
5	Measuring early life adversity: A dimensional approach. Development and Psychopathology, 2022, 34, 499-511.	2.3	29
6	Allostatic load in the context of disasters. Psychoneuroendocrinology, 2022, 140, 105725.	2.7	6
7	Social stressors associated with age-related T lymphocyte percentages in older US adults: Evidence from the US Health and Retirement Study. Proceedings of the National Academy of Sciences of the United States of America, 2022, 119, .	7.1	24
8	On the Biopsychosocial Costs of Alienated Labor. Work, Employment and Society, 2021, 35, 891-913.	2.7	5
9	Health Literacy Within a Diverse Community-Based Cohort: The Multi-Ethnic Study of Atherosclerosis. Journal of Immigrant and Minority Health, 2021, 23, 659-667.	1.6	9
10	Generativity and Social Well-Being in Older Women: Expectations Regarding Aging Matter. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2021, 76, 289-294.	3.9	13
11	Neighborhood social environment and changes in leukocyte telomere length: The Multi-Ethnic Study of Atherosclerosis (MESA). Health and Place, 2021, 67, 102488.	3.3	7
12	Biology and Lived Experience in Health and Disease: A Tribute to Bruce McEwen (1938â€“2020), a Scientist without Silos. Psychotherapy and Psychosomatics, 2021, 90, 5-10.	8.8	4
13	The association of cortisol curve features with incident diabetes among whites and African Americans: The CARDIA study. Psychoneuroendocrinology, 2021, 123, 105041.	2.7	6
14	Baseline pro-inflammatory gene expression in whole blood is related to adverse long-term outcomes after transcatheter aortic valve replacement: a case control study. BMC Cardiovascular Disorders, 2021, 21, 368.	1.7	1
15	Urinary Stress Hormones, Hypertension, and Cardiovascular Events: The Multi-Ethnic Study of Atherosclerosis. Hypertension, 2021, 78, 1640-1647.	2.7	21
16	Beyond the 405 and the 5: Geographic Variations and Factors Associated With Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Positivity Rates in Los Angeles County. Clinical Infectious Diseases, 2021, 73, e2970-e2975.	5.8	19
17	Intergenerational mentoring, eudaimonic well-being and gene regulation in older adults: A pilot study. Psychoneuroendocrinology, 2020, 111, 104468.	2.7	40
18	Effects of stress-induced inflammation on reward processing in healthy young women. Brain, Behavior, and Immunity, 2020, 83, 126-134.	4.1	20

#	Article	IF	Citations
19	Sleep problems in adolescence are prospectively linked to later depressive symptoms via the cortisol awakening response. Development and Psychopathology, 2020, 32, 997-1006.	2.3	22
20	Feeling needed: Effects of a randomized generativity intervention on well-being and inflammation in older women. Brain, Behavior, and Immunity, 2020, 84, 97-105.	4.1	22
21	Framework for a Community Health Observing System for the Gulf of Mexico Region: Preparing for Future Disasters. Frontiers in Public Health, 2020, 8, 578463.	2.7	13
22	Race/ethnicity, neighborhood socioeconomic status and cardio-metabolic risk. SSM - Population Health, 2020, 11, 100634.	2.7	8
23	The longitudinal association of changes in diurnal cortisol features with fasting glucose: MESA. Psychoneuroendocrinology, 2020, 119, 104698.	2.7	20
24	Serum Aldosterone Concentration, Blood Pressure, and Coronary Artery Calcium. Hypertension, 2020, 76, 113-120.	2.7	42
25	Social regulation of inflammation related gene expression in the multi-ethnic study of atherosclerosis. Psychoneuroendocrinology, 2020, 117, 104654.	2.7	11
26	Sleep and Inflammation During Adolescents' Transition to Young Adulthood. Journal of Adolescent Health, 2020, 67, 821-828.	2.5	15
27	Discrimination, social support, and telomere length: the Multi-Ethnic Study of Atherosclerosis (MESA). Annals of Epidemiology, 2020, 42, 58-63.e2.	1.9	15
28	Subjective social status and health during high school and young adulthood.. Developmental Psychology, 2020, 56, 1220-1232.	1.6	23
29	Baseline Characteristics of the 2015-2019 First Year Student Cohorts of the NIH Building Infrastructure Leading to Diversity (BUILD) Program. Ethnicity and Disease, 2020, 30, 681-692.	2.3	6
30	The cross-sectional and longitudinal association between air pollution and salivary cortisol: Evidence from the Multi-Ethnic Study of Atherosclerosis. Environment International, 2019, 131, 105062.	10.0	29
31	Compared to non-drinkers, individuals who drink alcohol have a more favorable multisystem physiologic risk score as measured by allostatic load. PLoS ONE, 2019, 14, e0223168.	2.5	8
32	Understanding associations of early-life adversities with mid-life inflammatory profiles: Evidence from the UK and USA. Brain, Behavior, and Immunity, 2019, 78, 143-152.	4.1	31
33	Social stratification and allostatic load: shapes of health differences in the MIDUS study in the United States. Journal of Biosocial Science, 2019, 51, 627-644.	1.2	41
34	Cellular response to chronic psychosocial stress: Ten-year longitudinal changes in telomere length in the Multi-Ethnic Study of Atherosclerosis. Psychoneuroendocrinology, 2019, 107, 70-81.	2.7	25
35	Inflammaging: Age and Systemic, Cellular, and Nuclear Inflammatory Biology in Older Adults. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2019, 74, 1716-1724.	3.6	41
36	Obstructive sleep apnea, nighttime arousals, and leukocyte telomere length: the Multi-Ethnic Study of Atherosclerosis. Sleep, 2019, 42, .	1.1	31

#	Article	IF	Citations
37	Expression of socially sensitive genes: The multi-ethnic study of atherosclerosis. PLoS ONE, 2019, 14, e0214061.	2.5	9
38	Association between allostatic load and health behaviours: a latent class approach. Journal of Epidemiology and Community Health, 2019, 73, 340-345.	3.7	23
39	How does socio-economic position (SEP) get biologically embedded? A comparison of allostatic load and the epigenetic clock(s). Psychoneuroendocrinology, 2019, 104, 64-73.	2.7	65
40	Associations between neighborhood built environment and cognition vary by apolipoprotein E genotype: Multi-Ethnic Study of Atherosclerosis. Health and Place, 2019, 60, 102188.	3.3	21
41	Early-Life Adversity and Dysregulation of Adult Diurnal Cortisol Rhythm. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2019, 74, 160-169.	3.9	24
42	Cardiovascular and Metabolic Risk in Women in the First Year Postpartum: Allostatic Load as a Function of Race, Ethnicity, and Poverty Status. American Journal of Perinatology, 2019, 36, 1079-1089.	1.4	18
43	Sociodemographic correlates of change in leukocyte telomere length during mid- to late-life: The Multi-Ethnic Study of Atherosclerosis. Psychoneuroendocrinology, 2019, 102, 182-188.	2.7	14
44	Associations of objective versus subjective social isolation with sleep disturbance, depression, and fatigue in community-dwelling older adults. Aging and Mental Health, 2019, 23, 1130-1138.	2.8	89
45	Interleukin-10 as a predictor of major adverse cardiovascular events in a racially and ethnically diverse population: Multi-Ethnic Study of Atherosclerosis. Annals of Epidemiology, 2019, 30, 9-14.e1.	1.9	10
46	Neighbourhood racial/ethnic residential segregation and cardiometabolic risk: the multiethnic study of atherosclerosis. Journal of Epidemiology and Community Health, 2019, 73, 26-33.	3.7	24
47	Midlife reversibility of early-established biobehavioral risk factors: A research agenda.. Developmental Psychology, 2019, 55, 2203-2218.	1.6	8
48	Psychosocial stress and C-reactive protein from mid-adolescence to young adulthood.. Health Psychology, 2019, 38, 259-267.	1.6	14
49	Neighborhood built environment and cognition in non-demented older adults: The Multi-Ethnic Study of Atherosclerosis. Social Science and Medicine, 2018, 200, 27-35.	3.8	40
50	How Socioeconomic Disadvantages Get Under the Skin and into the Brain to Influence Health Development Across the Lifespan. , 2018, , 463-497.		47
51	Child and Adult Socioeconomic Status and the Cortisol Response to Acute Stress: Evidence From the Multi-Ethnic Study of Atherosclerosis. Psychosomatic Medicine, 2018, 80, 184-192.	2.0	34
52	Social Support and Strain Across Close Relationships: A Twin Study. Behavior Genetics, 2018, 48, 173-186.	2.1	8
53	The Great Recession worsened blood pressure and blood glucose levels in American adults. Proceedings of the National Academy of Sciences of the United States of America, 2018, 115, 3296-3301.	7.1	27
54	Selected occupational characteristics and change in leukocyte telomere length over 10 years: The Multi-Ethnic Study of Atherosclerosis (MESA). PLoS ONE, 2018, 13, e0204704.	2.5	7

#	Article	IF	Citations
55	Examining the Role of Neighborhood-Level Foreclosure in Smoking and Alcohol Use Among Older Adults in the Multi-Ethnic Study of Atherosclerosis. American Journal of Epidemiology, 2018, 187, 1863-1870.	3.4	3
56	Body mass index is negatively associated with telomere length: a collaborative cross-sectional meta-analysis of 87 observational studies. American Journal of Clinical Nutrition, 2018, 108, 453-475.	4.7	137
57	HPLC-based Measurement of Glycated Hemoglobin using Dried Blood Spots Collected under Adverse Field Conditions. Biodemography and Social Biology, 2018, 64, 43-62.	1.0	9
58	Chronic Physiologic Effects of Stress Among Lesbian, Gay, and Bisexual Adults: Results From the National Health and Nutrition Examination Survey. Psychosomatic Medicine, 2018, 80, 551-563.	2.0	52
59	Positive Expectations Regarding Aging Linked to More New Friends in Later Life. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2017, 72, gbv118.	3.9	39
60	Antecedent longitudinal changes in body mass index are associated with diurnal cortisol curve features: The multi-ethnic study of atherosclerosis. Metabolism: Clinical and Experimental, 2017, 68, 95-107.	3.4	20
61	Exposure to Neighborhood Foreclosures and Changes in Cardiometabolic Health: Results From MESA. American Journal of Epidemiology, 2017, 185, 106-114.	3.4	19
62	Diurnal salivary cortisol and nativity/duration of residence in Latinos: The Multi-Ethnic Study of Atherosclerosis. Psychoneuroendocrinology, 2017, 85, 179-189.	2.7	6
63	Sleep and Physiological Dysregulation: A Closer Look at Sleep Intraindividual Variability. Sleep, 2017, 40, .	1.1	54
64	Epigenetic Aging and Immune Senescence in Women With Insomnia Symptoms: Findings From the Womenâ€™s Health Initiative Study. Biological Psychiatry, 2017, 81, 136-144.	1.3	108
65	Positive Aging Expectations Are Associated With Physical Activity Among Urban-Dwelling Older Adults. Gerontologist, The, 2017, 57, S178-S186.	3.9	29
66	Evaluating efforts to diversify the biomedical workforce: the role and function of the Coordination and Evaluation Center of the Diversity Program Consortium. BMC Proceedings, 2017, 11, 27.	1.6	16
67	Vagally-mediated heart rate variability and indices of well-being: Results of a nationally representative study.. Health Psychology, 2017, 36, 73-81.	1.6	52
68	Socioeconomic, health, and psychosocial mediators of racial disparities in cognition in early, middle, and late adulthood.. Psychology and Aging, 2017, 32, 118-130.	1.6	92
69	Loneliness, Depression, and Inflammation: Evidence from the Multi-Ethnic Study of Atherosclerosis. PLoS ONE, 2016, 11, e0158056.	2.5	33
70	Modeling Multisystem Physiological Dysregulation. Psychosomatic Medicine, 2016, 78, 290-301.	2.0	80
71	Psychological resilience and the gene regulatory impact of posttraumatic stress in Nepali child soldiers. Proceedings of the National Academy of Sciences of the United States of America, 2016, 113, 8156-8161.	7.1	67
72	Allostatic load as a complex clinical construct: A caseâ€based computational modeling approach. Complexity, 2016, 21, 291-306.	1.6	24

#	Article	IF	Citations
73	Associations between actigraphy-assessed sleep, inflammatory markers, and insulin resistance in the Midlife Development in the United States (MIDUS) study. Sleep Medicine, 2016, 27-28, 72-79.	1.6	32
74	Associations of cortisol/testosterone and cortisol/sex hormone-binding globulin ratios with atherosclerosis in middle-age women. Atherosclerosis, 2016, 248, 203-209.	0.8	10
75	Food insecurity and intimate partner violence against women: results from the California Womenâ€™s Health Survey. Public Health Nutrition, 2016, 19, 914-923.	2.2	80
76	Nativity differences in allostatic load by age, sex, and Hispanic background from the Hispanic Community Health Study/Study of Latinos. SSM - Population Health, 2016, 2, 416-424.	2.7	36
77	Insomnia and Telomere Length in Older Adults. Sleep, 2016, 39, 559-564.	1.1	62
78	Sleep Duration and Quality in Relation to Autonomic Nervous System Measures: The Multi-Ethnic Study of Atherosclerosis (MESA). Sleep, 2016, 39, 1927-1940.	1.1	121
79	Daily family stress and HPA axis functioning during adolescence: The moderating role of sleep. Psychoneuroendocrinology, 2016, 71, 43-53.	2.7	44
80	Job Strain and the Cortisol Diurnal Cycle in MESA: Accounting for Between- and Within-Day Variability. American Journal of Epidemiology, 2016, 183, 497-506.	3.4	9
81	The Baltimore Experience Corps Trial: Enhancing Generativity via Intergenerational Activity Engagement in Later Life. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2016, 71, 661-670.	3.9	74
82	Lack of significant association between type 2 diabetes mellitus with longitudinal change in diurnal salivary cortisol: the multiethnic study of atherosclerosis. Endocrine, 2016, 53, 227-239.	2.3	14
83	Aging Well: Observations From the Womenâ€™s Health Initiative Study. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2016, 71, S3-S12.	3.6	28
84	Partial sleep deprivation activates the DNA damage response (DDR) and the senescence-associated secretory phenotype (SASP) in aged adult humans. Brain, Behavior, and Immunity, 2016, 51, 223-229.	4.1	77
85	Vagal Recovery From Cognitive Challenge Moderates Age-Related Deficits in Executive Functioning. Research on Aging, 2016, 38, 504-525.	1.8	8
86	Change in cardiometabolic score and incidence of cardiovascular disease: the multi-ethnic study of atherosclerosis. Annals of Epidemiology, 2015, 25, 912-917.e1.	1.9	7
87	Acculturation is associated with left ventricular mass in a multiethnic sample: the Multi-Ethnic Study of Atherosclerosis. BMC Cardiovascular Disorders, 2015, 15, 161.	1.7	7
88	Sleep Deprivation and Divergent Toll-like Receptor-4 Activation of Cellular Inflammation in Aging. Sleep, 2015, 38, 205-211.	1.1	41
89	A Longitudinal Investigation of Race, Socioeconomic Status, and Psychosocial Mediators of Allostatic Load in Midlife Women. Psychosomatic Medicine, 2015, 77, 402-412.	2.0	86
90	Validation and modification of dried blood spotâ€based glycosylated hemoglobin assay for the longitudinal aging study in <scp>I</scp>ndia. American Journal of Human Biology, 2015, 27, 579-581.	1.6	13

#	Article	IF	Citations
91	Psychosocial Predictors of Metabolic Syndrome among Latino Groups in the Multi-Ethnic Study of Atherosclerosis (MESA). PLoS ONE, 2015, 10, e0124517.	2.5	19
92	Association between Stress Response Genes and Features of Diurnal Cortisol Curves in the Multi-Ethnic Study of Atherosclerosis: A New Multi-Phenotype Approach for Gene-Based Association Tests. PLoS ONE, 2015, 10, e0126637.	2.5	6
93	Sleep and Multisystem Biological Risk: A Population-Based Study. PLoS ONE, 2015, 10, e0118467.	2.5	44
94	Heart rate variability predicts levels of inflammatory markers: Evidence for the vagal anti-inflammatory pathway. Brain, Behavior, and Immunity, 2015, 49, 94-100.	4.1	111
95	Sociodemographic Correlates of Cognition in the Multi-Ethnic Study of Atherosclerosis (MESA). American Journal of Geriatric Psychiatry, 2015, 23, 684-697.	1.2	41
96	Marital status, marital quality, and heart rate variability in the MIDUS cohort.. Journal of Family Psychology, 2015, 29, 290-295.	1.3	42
97	Improved sleep quality in older adults with insomnia reduces biomarkers of disease risk: Pilot results from a randomized controlled comparative efficacy trial. Psychoneuroendocrinology, 2015, 55, 184-192.	2.7	102
98	Impact of the Baltimore Experience Corps Trial on cortical and hippocampal volumes. Alzheimer's and Dementia, 2015, 11, 1340-1348.	0.8	103
99	Sleep disturbance and longitudinal risk of inflammation: Moderating influences of social integration and social isolation in the Coronary Artery Risk Development in Young Adults (CARDIA) study. Brain, Behavior, and Immunity, 2015, 46, 319-326.	4.1	76
100	Study protocol of â€œWorth the Walkâ€: a randomized controlled trial of a stroke risk reduction walking intervention among racial/ethnic minority older adults with hypertension in community senior centers. BMC Neurology, 2015, 15, 91.	1.8	13
101	Association of Sleep Duration and Quality With Alterations in the Hypothalamic-Pituitary Adrenocortical Axis: The Multi-Ethnic Study of Atherosclerosis (MESA). Journal of Clinical Endocrinology and Metabolism, 2015, 100, 3149-3158.	3.6	71
102	Diurnal salivary cortisol, glycemia and insulin resistance: The multi-ethnic study of atherosclerosis. Psychoneuroendocrinology, 2015, 62, 327-335.	2.7	48
103	Life course socioeconomic status and DNA methylation in genes related to stress reactivity and inflammation: The multi-ethnic study of atherosclerosis. Epigenetics, 2015, 10, 958-969.	2.7	155
104	Examining the cross-sectional and longitudinal association between diurnal cortisol and neighborhood characteristics: Evidence from the multi-ethnic study of atherosclerosis. Health and Place, 2015, 34, 199-206.	3.3	26
105	Social engagement and chronic disease risk behaviors: The Multi-Ethnic Study of Atherosclerosis. Preventive Medicine, 2015, 71, 61-66.	3.4	37
106	Additive contributions of childhood adversity and recent stressors to inflammation at midlife: Findings from the MIDUS study.. Developmental Psychology, 2015, 51, 1630-1644.	1.6	114
107	The role of multiple negative social relationships in inflammatory cytokine responses to a laboratory stressor. PeerJ, 2015, 3, e959.	2.0	5
108	Low-Intensity Walking Activity Is Associated With Better Health. Journal of Applied Gerontology, 2014, 33, 870-887.	2.0	46

#	Article	IF	Citations
109	Daily stress magnifies the association between cognitive decline and everyday memory problems: An integration of longitudinal and diary methods.. Psychology and Aging, 2014, 29, 852-862.	1.6	45
110	A Test of Biological and Behavioral Explanations for Gender Differences in Telomere Length: The Multi-Ethnic Study of Atherosclerosis. Biodemography and Social Biology, 2014, 60, 156-173.	1.0	27
111	Social relationships and allostatic load in the MIDUS study.. Health Psychology, 2014, 33, 1373-1381.	1.6	84
112	Biological correlates of adult cognition: Midlife in the United States (MIDUS). Neurobiology of Aging, 2014, 35, 387-394.	3.1	85
113	Multisystem Dysregulation and Bone Strength: Findings From the Study of Midlife in the United States. Journal of Clinical Endocrinology and Metabolism, 2014, 99, 1843-1851.	3.6	9
114	Stability and predictors of change in salivary cortisol measures over six years: MESA. Psychoneuroendocrinology, 2014, 49, 310-320.	2.7	49
115	Social status and biological dysregulation: The â€œstatus syndromeâ€•and allostatic load. Social Science and Medicine, 2014, 118, 143-151.	3.8	82
116	Associations of socioeconomic and psychosocial factors with urinary measures of cortisol and catecholamines in the Multi-Ethnic Study of Atherosclerosis (MESA). Psychoneuroendocrinology, 2014, 41, 132-141.	2.7	38
117	Salivary cortisol protocol adherence and reliability by socio-demographic features: The Multi-Ethnic Study of Atherosclerosis. Psychoneuroendocrinology, 2014, 43, 30-40.	2.7	25
118	Social relationships and their biological correlates: Coronary Artery Risk Development in Young Adults (CARDIA) study. Psychoneuroendocrinology, 2014, 43, 126-138.	2.7	43
119	Neighborhood characteristics and leukocyte telomere length: The Multi-Ethnic Study of Atherosclerosis. Health and Place, 2014, 28, 167-172.	3.3	64
120	Social integration and pulmonary function in the elderly.. Health Psychology, 2014, 33, 535-543.	1.6	33
121	Life Course Socioeconomic Status and Longitudinal Accumulation of Allostatic Load in Adulthood: Multi-Ethnic Study of Atherosclerosis. American Journal of Public Health, 2014, 104, e48-e55.	2.7	45
122	Trends in Late-Life Activity Limitations in the United States: An Update From Five National Surveys. Demography, 2013, 50, 661-671.	2.5	201
123	Relationship between the cortisol awakening response and other features of the diurnal cortisol rhythm: The Multi-Ethnic Study of Atherosclerosis. Psychoneuroendocrinology, 2013, 38, 2720-2728.	2.7	36
124	Examining the association between salivary cortisol levels and subclinical measures of atherosclerosis: The Multi-Ethnic Study of Atherosclerosis. Psychoneuroendocrinology, 2013, 38, 1036-1046.	2.7	34
125	Socioeconomic factors and leukocyte telomere length in a multi-ethnic sample: Findings from the multi-ethnic study of atherosclerosis (MESA). Brain, Behavior, and Immunity, 2013, 28, 108-114.	4.1	46
126	Daytime trajectories of cortisol: Demographic and socioeconomic differencesâ€"Findings from the National Study of Daily Experiences. Psychoneuroendocrinology, 2013, 38, 2585-2597.	2.7	123

#	Article	IF	Citations
127	Diurnal salivary cortisol is associated with body mass index and waist circumference: The multiethnic study of atherosclerosis. Obesity, 2013, 21, E56-63.	3.0	122
128	Childhood abuse, parental warmth, and adult multisystem biological risk in the Coronary Artery Risk Development in Young Adults study. Proceedings of the National Academy of Sciences of the United States of America, 2013, 110, 17149-17153.	7.1	167
129	Social strain and executive function across the lifespan: The dark (and light) sides of social engagement. Aging, Neuropsychology, and Cognition, 2013, 20, 320-338.	1.3	40
130	Protective Factors for Adults From Low-Childhood Socioeconomic Circumstances. Psychosomatic Medicine, 2012, 74, 178-186.	2.0	131
131	Socioeconomic status over the life-course and adult bone mineral density: The Midlife in the U.S. Study. Bone, 2012, 51, 107-113.	2.9	32
132	Diurnal salivary cortisol and urinary catecholamines are associated with diabetes mellitus: the Multi-Ethnic Study of Atherosclerosis. Metabolism: Clinical and Experimental, 2012, 61, 986-995.	3.4	70
133	History of socioeconomic disadvantage and allostatic load in later life. Social Science and Medicine, 2012, 74, 75-83.	3.8	322
134	Social strain and cortisol regulation in midlife in the US. Social Science and Medicine, 2012, 74, 607-615.	3.8	55
135	Blunted diurnal decline of cortisol among older adults with low socioeconomic status. Annals of the New York Academy of Sciences, 2011, 1231, 56-64.	3.8	25
136	Circadian rhythm of cortisol and neighborhood characteristics in a population-based sample: The Multi-Ethnic Study of Atherosclerosis. Health and Place, 2011, 17, 625-632.	3.3	80
