#	ARTICLE	IF	CITATIONS
1	The magnitude of neurocognitive impairment is overestimated in depression: the role of motivation, debilitating momentary influences, and the overreliance on mean differences. <i>Psychological Medicine</i> , 2023, 53, 2820-2830.	4.5	3
2	Metacognitive training for psychosis (MCT): past, present, and future. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2023, 273, 811-817.	3.2	12
3	A Head-to-Head Comparison of Three Self-Help Techniques to Reduce Body-Focused Repetitive Behaviors. <i>Behavior Modification</i> , 2022, 46, 894-912.	1.6	15
4	Therapistsâ€™ Thought-Action Fusion Beliefs Predict Utilization of Exposure in Obsessive-Compulsive Disorder. <i>Behavior Therapy</i> , 2022, 53, 23-33.	2.4	4
5	Spared performance but increased uncertainty in schizophrenia: Evidence from a probabilistic decision-making task. <i>Schizophrenia Research</i> , 2022, 243, 414-423.	2.0	7
6	Imaginal Retraining Reduces Craving for Tobacco in 1-Year Controlled Follow-Up Study. <i>European Addiction Research</i> , 2022, 28, 68-79.	2.4	3
7	Metacognitive training modified for negative symptoms: A feasibility study. <i>Clinical Psychology and Psychotherapy</i> , 2022, 29, 1068-1079.	2.7	2
8	Aberrant salience predicts fluctuations of paranoia two weeks in advance during a 1-year experience sampling method study in people with psychosis. <i>Schizophrenia Research</i> , 2022, 248, 361-362.	2.0	2
9	Unrealistic pessimism and obsessiveâ€”compulsive symptoms during the COVIDâ€”19 pandemic: Two longitudinal studies. <i>British Journal of Clinical Psychology</i> , 2022, 61, 816-835.	3.5	3
10	Immediate and Sustained Outcomes and Moderators Associated With Metacognitive Training for Psychosis. <i>JAMA Psychiatry</i> , 2022, 79, 417.	11.0	42
11	Mid-term improvement of cognitive performance after total hip arthroplasty in patients with osteoarthritis of the hip. <i>Bone and Joint Journal</i> , 2022, 104-B, 331-340.	4.4	3
12	Efficacy of metacognitive training for depression as addâ€”on intervention for patients with depression in acute intensive psychiatric inpatient care: A randomized controlled trial. <i>Clinical Psychology and Psychotherapy</i> , 2022, 29, 1542-1555.	2.7	3
13	False Memory in Posttraumatic Stress Disorder and Borderline Personality Disorder. <i>Psychiatry Research</i> , 2022, , 114547.	3.3	0
14	Optimizing the context of support of web-based self-help in individuals with mild to moderate depressive symptoms: A randomized full factorial trial. <i>Behaviour Research and Therapy</i> , 2022, 152, 104070.	3.1	18
15	Functional brain networks underlying probabilistic reasoning and delusions in schizophrenia. <i>Psychiatry Research - Neuroimaging</i> , 2022, 323, 111472.	1.8	3
16	The relationship between jumping to conclusions and social cognition in first-episode psychosis. <i>NPJ Schizophrenia</i> , 2022, 8, .	3.6	5
17	Chronic pain in osteoarthritis of the hip is associated with selective cognitive impairment. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2022, , 1.	2.4	4
18	A randomized controlled trial on a novel behavioral treatment for individuals with skin picking and other bodyâ€”focused repetitive behaviors. <i>Journal of Dermatology</i> , 2022, 49, 933-934.	1.2	4

#	ARTICLE	IF	CITATIONS
19	Seeing minds â€“ a signal detection study of agency attribution along the autism-psychosis continuum. <i>Cognitive Neuropsychiatry</i> , 2022, , 1-17.	1.3	4
20	â€˜You are trying to teach us to think more slowly!â€™: Adapting Metacognitive Training for the acute care settingâ€”A case report. <i>Clinical Psychology and Psychotherapy</i> , 2022, 29, 1877-1885.	2.7	4
21	Correction: A Mobile-Based Intervention to Increase Self-esteem in Students with Depressive Symptoms: Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2022, 10, e39448.	3.7	1
22	Group therapy for schizophrenia: Why Burlingame et al. (2020) should redo their meta-analysis.. <i>Psychotherapy</i> , 2022, 59, 133-135.	1.2	2
23	Is less more? Dismantling imaginal retraining and examining the effects of psychoeducation and embodied cognition on craving and alcohol consumption in problem drinkers: A randomized controlled trial. <i>Addictive Behaviors</i> , 2022, 135, 107429.	3.0	1
24	Exposure and Response Prevention in Virtual Reality for Patients with Contamination-Related Obsessiveâ€“Compulsive Disorder: a Case Series. <i>Psychiatric Quarterly</i> , 2022, 93, 861-882.	2.1	5
25	Efficacy and Moderators of Internet-Based Interventions in Adults with Subthreshold Depression: An Individual Participant Data Meta-Analysis of Randomized Controlled Trials. <i>Psychotherapy and Psychosomatics</i> , 2021, 90, 94-106.	8.8	59
26	Coercion in psychiatry: A crossâ€“sectional study on staff views and emotions. <i>Journal of Psychiatric and Mental Health Nursing</i> , 2021, 28, 149-162.	2.1	37
27	Experience-based knowledge increases confidence in discriminating our memories. <i>Current Psychology</i> , 2021, 40, 840-852.	2.8	5
28	Obsessive-compulsive disorder during COVID-19: Turning a problem into an opportunity?. <i>Journal of Anxiety Disorders</i> , 2021, 77, 102329.	3.2	74
29	Patients responses to diagnoses of mental disorders: Development and validation of a reliable selfâ€“report measure. <i>International Journal of Methods in Psychiatric Research</i> , 2021, 30, e1854.	2.1	0
30	How Education and Metacognitive Training May Ameliorate Religious Prejudices: A Randomized Controlled Trial. <i>International Journal for the Psychology of Religion, The</i> , 2021, 31, 121-137.	2.1	5
31	A ghost in the machine? The predictive role of metacognitive beliefs, cognitive biases, and machine-related features in the severity of problematic slot machine gambling. <i>Personality and Individual Differences</i> , 2021, 171, 110539.	2.9	2
32	Sleep problems and worrying precede psychotic symptoms during an online intervention for psychosis. <i>British Journal of Clinical Psychology</i> , 2021, 60, 48-67.	3.5	6
33	Feasibility, Acceptance, and Safety of Metacognitive Training for Problem and Pathological Gamblers (Gambling-MCT): A Pilot Study. <i>Journal of Gambling Studies</i> , 2021, 37, 663-687.	1.6	12
34	The dimensional structure of the Yale-Brown Obsessive-Compulsive Scale for Pathological Gambling: functional differences between true compulsions and compulsive behavior. <i>International Gambling Studies</i> , 2021, 21, 92-102.	2.1	1
35	The role of expectancies and emotional load in false auditory perceptions among patients with schizophrenia spectrum disorders. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2021, 271, 713-722.	3.2	9
36	Early detection. A defense of our statement that we should not catastrophize a future we cannot reliably predict nor change. A plea for a faster transition of traditional â€“early interventionâ€” programs for psychosis into new treatment models. <i>Psychological Medicine</i> , 2021, 51, 219-222.	4.5	2

#	ARTICLE	IF	CITATIONS
37	Much of the Neurocognitive Impairment in Schizophrenia is Due to Factors Other Than Schizophrenia Itself: Implications for Research and Treatment. <i>Schizophrenia Bulletin Open</i> , 2021, 2, .	1.7	17
38	A dismantling study on imaginal retraining in smokers. <i>Translational Psychiatry</i> , 2021, 11, 92.	4.8	4
39	Optimizing the Context of Support to Improve Outcomes of Internet-Based Self-help in Individuals With Depressive Symptoms: Protocol for a Randomized Factorial Trial. <i>JMIR Research Protocols</i> , 2021, 10, e21207.	1.0	4
40	Evaluation of an Internet-based metacognitive training for individuals who hear voices. <i>Schizophrenia Research</i> , 2021, 228, 256-259.	2.0	1
41	Coping Strategies and Subjective Well-being: Context Matters. <i>Journal of Happiness Studies</i> , 2021, 22, 3413-3434.	3.2	12
42	Probing the Hypersalience Hypothesis—An Adapted Judge-Advisor System Tested in Individuals With Psychotic-Like Experiences. <i>Frontiers in Psychiatry</i> , 2021, 12, 612810.	2.6	3
43	Maintaining Outcomes of Internet-Delivered Cognitive-Behavioral Therapy for Depression: A Network Analysis of Follow-Up Effects. <i>Frontiers in Psychiatry</i> , 2021, 12, 598317.	2.6	2
44	Internet-Based Cognitive Behavioral Therapy for Depression. <i>JAMA Psychiatry</i> , 2021, 78, 361.	11.0	398
45	Side effects of the metacognitive training for depression compared to a cognitive remediation training in patients with depression. <i>Scientific Reports</i> , 2021, 11, 7861.	3.3	5
46	Predictors of trajectories of obsessive-compulsive symptoms during the COVID-19 pandemic in the general population in Germany. <i>Translational Psychiatry</i> , 2021, 11, 323.	4.8	17
47	Dismantling, optimising, and personalising internet cognitive behavioural therapy for depression: a systematic review and component network meta-analysis using individual participant data. <i>Lancet Psychiatry</i> , 2021, 8, 500-511.	7.4	105
48	A randomized controlled trial on a self-guided Internet-based intervention for gambling problems. <i>Scientific Reports</i> , 2021, 11, 13033.	3.3	8
49	Aggressiveness in patients with obsessive-compulsive disorder as assessed by the Implicit Relational Assessment Procedure. <i>Journal of Contextual Behavioral Science</i> , 2021, 21, 176-186.	2.6	2
50	Metacognitive Training for Obsessive-Compulsive Disorder: A randomized controlled trial. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2021, 30, 100647.	1.5	7
51	A Mobile-Based Intervention to Increase Self-esteem in Students With Depressive Symptoms: Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2021, 9, e26498.	3.7	25
52	Impaired test performance yet spared neurocognitive functioning in individuals with obsessive-compulsive disorder: the role of performance mediators. <i>Cognitive Neuropsychiatry</i> , 2021, 26, 1-14.	1.3	0
53	Editorial: The Relationship Between Cognitive Biases and Psychosis: Searching for Mechanisms. <i>Frontiers in Psychiatry</i> , 2021, 12, 753317.	2.6	2
54	A dismantling study on imaginal retraining in overweight or obese women. <i>Translational Psychiatry</i> , 2021, 11, 481.	4.8	4

#	ARTICLE	IF	CITATIONS
55	Insight and the number of completed modules predict a reduction of positive symptoms in an Internet-based intervention for people with psychosis. <i>Psychiatry Research</i> , 2021, 306, 114223.	3.3	5
56	Do you like cliff-hangers? Objective versus subjective need for closure in the schizophrenia spectrum. <i>Schizophrenia Research</i> , 2021, 238, 20-26.	2.0	1
57	Do sociodemographic variables moderate effects of an internet intervention for mild to moderate depressive symptoms? An exploratory analysis of a randomised controlled trial (EVIDENT) including 1013 participants. <i>BMJ Open</i> , 2021, 11, e041389.	1.9	5
58	When a nightmare comes true: Change in obsessive-compulsive disorder over the first months of the COVID-19 pandemic. <i>Journal of Anxiety Disorders</i> , 2021, 84, 102493.	3.2	9
59	Do interpersonal fears mediate the association between childhood maltreatment and interpersonal skills deficits? A matched cross-sectional analysis. <i>Psychotherapy Research</i> , 2020, 30, 267-278.	1.8	15
60	The Working Alliance Inventory for guided Internet interventions (WAI-IT). <i>Journal of Clinical Psychology</i> , 2020, 76, 973-986.	1.9	62
61	Effects and side effects of a transdiagnostic bias modification intervention in a mixed sample with obsessive-compulsive and/or depressive symptoms—a randomized controlled trial. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2020, 270, 1025-1036.	3.2	3
62	Pill or needle? Determinants of the preference for long-acting injection over oral treatment in people facing chronic illness. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2020, 98, 109798.	4.8	0
63	Functional brain networks underlying evidence integration and delusional ideation. <i>Schizophrenia Research</i> , 2020, 216, 302-309.	2.0	13
64	Akzeptanz und Nebenwirkungen einer Virtuellen-Realitäts-Intervention bei Menschen mit Psychose und gesunden Kontrollprobanden. <i>Verhaltenstherapie</i> , 2020, , 1-11.	0.4	0
65	A comparison of the three year course between chronic depression and depression with multiple vs. few prior episodes. <i>Psychiatry Research</i> , 2020, 291, 113235.	3.3	7
66	Preoperational Thinking as a Measure of Social Cognition Is Associated With Long-Term Course of Depressive Symptoms. A Longitudinal Study Involving Patients With Depression and Healthy Controls. <i>Frontiers in Psychiatry</i> , 2020, 11, 652.	2.6	9
67	Effects of intense assessment on statistical power in randomized controlled trials: Simulation study on depression. <i>Internet Interventions</i> , 2020, 20, 100313.	2.7	17
68	The Metacognitive Training for obsessive-compulsive disorder: A pilot study. <i>Current Psychology</i> , 2020, , 1.	2.8	8
69	Feasibility, effectiveness and safety of the self-management intervention deprexis in routine medical care: Results of an uncontrolled observational study. <i>Internet Interventions</i> , 2020, 22, 100341.	2.7	4
70	Self-esteem mediates the relationship between perfectionism and obsessive-compulsive symptoms. <i>Personality and Individual Differences</i> , 2020, 167, 110239.	2.9	10
71	Biases in diagnostic terminology: Clinicians choose different symptom labels depending on whether the same case is framed as depression or schizophrenia. <i>Schizophrenia Research</i> , 2020, 222, 444-449.	2.0	7
72	Objective Versus Subjective Effort in Schizophrenia. <i>Frontiers in Psychology</i> , 2020, 11, 1469.	2.1	9

#	ARTICLE	IF	CITATIONS
73	Cognitive biases and psychosis: From bench to bedside. <i>Schizophrenia Research</i> , 2020, 223, 368-369.	2.0	2
74	Imaginal Retraining Reduces Cigarette Smoking: A Randomized Controlled Study. <i>European Addiction Research</i> , 2020, 26, 355-364.	2.4	8
75	Effort and liberal acceptance bias in patients with schizophrenia. <i>Cognitive Neuropsychiatry</i> , 2020, 25, 364-370.	1.3	0
76	Problems in measuring the JTC-bias in patients with psychotic disorders with the fish task: a secondary analysis of a baseline assessment of a randomized controlled trial. <i>BMC Psychiatry</i> , 2020, 20, 554.	2.6	11
77	Cognitive Insight in First-Episode Psychosis: Changes during Metacognitive Training. <i>Journal of Personalized Medicine</i> , 2020, 10, 253.	2.5	12
78	Unguided Internet-based cognitive-behavioral therapy for obsessive-compulsive disorder: A randomized controlled trial. <i>Depression and Anxiety</i> , 2020, 37, 1208-1220.	4.1	17
79	A transdiagnostic perspective of constructs underlying obsessive-compulsive and related disorders: An international Delphi consensus study. <i>Australian and New Zealand Journal of Psychiatry</i> , 2020, 54, 719-731.	2.3	13
80	Neurocognitive deficits in schizophrenia are likely to be less severe and less related to the disorder than previously thought. <i>World Psychiatry</i> , 2020, 19, 254-255.	10.4	34
81	Long-term effects of mindfulness-based cognitive therapy in patients with obsessive-compulsive disorder and residual symptoms after cognitive behavioral therapy: Twelve-month follow-up of a randomized controlled trial. <i>Psychiatry Research</i> , 2020, 291, 113119.	3.3	14
82	Immediate and long-term effectiveness of adding an Internet intervention for depression to routine outpatient psychotherapy: Subgroup analysis of the EVIDENT trial. <i>Journal of Affective Disorders</i> , 2020, 274, 643-651.	4.1	15
83	Prolonged rather than hasty decision-making in schizophrenia using the box task. Must we rethink the jumping to conclusions account of paranoia?. <i>Schizophrenia Research</i> , 2020, 222, 202-208.	2.0	24
84	Health economic evaluation of an internet intervention for depression (deprexis), a randomized controlled trial. <i>Health Economics Review</i> , 2020, 10, 19.	2.0	16
85	Less self-stigmatization and more empowerment in patients with schizophrenia and comorbid cannabis use disorder compared to non-comorbid schizophrenia. <i>Schizophrenia Research</i> , 2020, 222, 523-524.	2.0	0
86	Metacognitive Training for Obsessive-Compulsive Disorder: a study protocol for a randomized controlled trial. <i>BMC Psychiatry</i> , 2020, 20, 350.	2.6	10
87	Changes in the daily life experience of patients with obsessive-compulsive disorder following mindfulness-based cognitive therapy: Looking beyond symptom reduction using ecological momentary assessment. <i>Psychiatry Research</i> , 2020, 286, 112842.	3.3	12
88	Using virtual reality to explore differences in memory biases and cognitive insight in people with psychosis and healthy controls. <i>Psychiatry Research</i> , 2020, 285, 112787.	3.3	18
89	Advice weighting as a novel measure for belief flexibility in people with psychotic-like experiences. <i>Schizophrenia Research</i> , 2020, 216, 129-137.	2.0	9
90	Lifestyle Variables Do Not Predict Subjective Memory Performance Over and Above Depression and Anxiety. <i>Frontiers in Psychology</i> , 2020, 11, 484.	2.1	5

#	ARTICLE	IF	CITATIONS
91	Recovery from pathological skin picking and dermatodaxia using a revised decoupling protocol. <i>Journal of Cosmetic Dermatology</i> , 2020, 19, 3038-3040.	1.6	10
92	Mindfulness Mediates the Effect of a Psychological Online Intervention for Psychosis on Self-Reported Hallucinations: A Secondary Analysis of Voice Hearers From the EviBaS Trial. <i>Frontiers in Psychiatry</i> , 2020, 11, 228.	2.6	6
93	Escaping the mouth-trap: Recovery from long-term pathological lip/cheek biting (morsicatio) Tj ETQq1 1 0.784314 rgBT /Overlock 10 2020, 25, 100530.	1.5	10
94	Moderators of treatment efficacy in individualized metacognitive training for psychosis (MCT+). <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2020, 68, 101547.	1.2	7
95	Internet-based self-help for psychosis: Findings from a randomized controlled trial.. <i>Journal of Consulting and Clinical Psychology</i> , 2020, 88, 937-950.	2.0	18
96	Identifying change-dropout patterns during an Internet-based intervention for depression by applying the Muthen-Roy model. <i>Cognitive Behaviour Therapy</i> , 2020, 49, 22-40.	3.5	7
97	Brief Web-Based Intervention for Depression: Randomized Controlled Trial on Behavioral Activation. <i>Journal of Medical Internet Research</i> , 2020, 22, e15312.	4.3	15
98	The Association of Therapeutic Alliance With Long-Term Outcome in a Guided Internet Intervention for Depression: Secondary Analysis From a Randomized Control Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e15824.	4.3	24
99	Targeting our blind spot: A metacognitive intervention ameliorates negative feelings, evaluations, and stereotypes towards conservatives in a liberal sample. <i>Journal of Social and Political Psychology</i> , 2020, 8, 453-472.	1.1	8
100	Virtual Reality for Individuals with Occasional Paranoid Thoughts. , 2020, , .		5
101	It can't hurt, right? Adverse effects of psychotherapy in patients with depression. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2019, 269, 577-586.	3.2	41
102	Phobie Å deux and other reasons why clinicians do not apply exposure with response prevention in patients with obsessive-compulsive disorder. <i>Cognitive Behaviour Therapy</i> , 2019, 48, 162-176.	3.5	36
103	The Voice of Depression: Prevalence and Stability Across Time of Perception-Laden Intrusive Thoughts in Depression. <i>Cognitive Therapy and Research</i> , 2019, 43, 986-994.	1.9	1
104	The specificity of schizotypal scales and some implications for clinical high-risk research. <i>Personality and Individual Differences</i> , 2019, 151, 109450.	2.9	4
105	Post-psychotic depression: Paranoia and the damage done. <i>Schizophrenia Research</i> , 2019, 211, 79-85.	2.0	9
106	Does uncertainty breed conviction? On the possible role of compensatory conviction in jumping to conclusions and overconfidence in psychosis. <i>Cognitive Neuropsychiatry</i> , 2019, 24, 284-299.	1.3	5
107	Four reasons why early detection centers for psychosis should be renamed and their treatment targets reconsidered: we should not catastrophize a future we can neither reliably predict nor change. <i>Psychological Medicine</i> , 2019, 49, 2134-2140.	4.5	43
108	Mindfulness predicts insight in obsessive-compulsive disorder over and above OC symptoms: An experience-sampling study. <i>Behaviour Research and Therapy</i> , 2019, 121, 103449.	3.1	7

#	ARTICLE	IF	CITATIONS
109	Assessment of Adult ADHD in Clinical Practice: Four Lettersâ€™40 Opinions. <i>Journal of Attention Disorders</i> , 2019, , 108705471987949.	2.6	7
110	Symptom-specific effectiveness of an internet-based intervention in the treatment of mild to moderate depressive symptomatology: The potential of network estimation techniques. <i>Behaviour Research and Therapy</i> , 2019, 122, 103440.	3.1	22
111	A self-guided Internet-based intervention for individuals with gambling problems: study protocol for a randomized controlled trial. <i>Trials</i> , 2019, 20, 74.	1.6	6
112	Health economic evaluation of a web-based intervention for depression: the EVIDENT-trial, a randomized controlled study. <i>Health Economics Review</i> , 2019, 9, 16.	2.0	13
113	Acceptance and efficacy of a metacognitive self-help intervention in an Arabic-speaking mixed patient sample with depression and/or obsessiveâ€™compulsive disorder: A randomized controlled trial. <i>Journal of Experimental Psychopathology</i> , 2019, 10, 204380871882068.	0.8	5
114	The impact of social and sensory stress on cognitive biases and delusions in schizophrenia. <i>Cognitive Neuropsychiatry</i> , 2019, 24, 217-232.	1.3	7
115	Alternative or complementary attitudes toward alternative and complementary medicines. <i>BMC Complementary and Alternative Medicine</i> , 2019, 19, 83.	3.7	22
116	Imaginal retraining reduces alcohol craving in problem drinkers: A randomized controlled trial. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2019, 64, 158-166.	1.2	13
117	Congruence and discrepancy between self-rated and clinician-rated symptom severity on the Yaleâ€™Brown Obsessive-Compulsive Scale (Y-BOCS) before and after a low-intensity intervention. <i>Psychiatry Research</i> , 2019, 273, 595-602.	3.3	31
118	Kann eine Online-Intervention fÃ¼r Depressionen emotionale Probleme und Schmerzen lindern? Eine randomisiert-kontrollierte Studie. <i>Verhaltenstherapie</i> , 2019, 29, 166-181.	0.4	5
