#	ARTICLE	IF	CITATIONS
1	Excessive reassurance seeking, depression, and interpersonal rejection: A meta-analytic review.. Journal of Abnormal Psychology, 2008, 117, 762-775.	1.9	185
2	Frequency and quality of social networking among young adults: Associations with depressive symptoms, rumination, and corumination.. Psychology of Popular Media Culture, 2012, 1, 72-86.	2.4	151
3	Temporal patterns of anxious and depressed mood in generalized anxiety disorder: A daily diary study. Behaviour Research and Therapy, 2012, 50, 131-141.	3.1	101
4	Clarifying co-rumination: Associations with internalizing symptoms and romantic involvement among adolescent girls. Journal of Adolescence, 2009, 32, 19-37.	2.4	93
5	Differentiating Interpersonal Correlates of Depressive Symptoms and Social Anxiety in Adolescence: Implications for Models of Comorbidity. Journal of Clinical Child and Adolescent Psychology, 2008, 37, 337-349.	3.4	85
6	Romantic and sexual activities, parent-adolescent stress, and depressive symptoms among early adolescent girls. Journal of Adolescence, 2009, 32, 909-924.	2.4	78
7	Responding to Anxiety with Rumination and Hopelessness: Mechanism of Anxiety-Depression Symptom Co-Occurrence?. Cognitive Therapy and Research, 2012, 36, 321-337.	1.9	68
8	Oxytocin receptor gene polymorphism (rs53576) moderates the intergenerational transmission of depression. Psychoneuroendocrinology, 2014, 43, 11-19.	2.7	63
9	Sensitizing effect of early adversity on depressive reactions to later proximal stress: Moderation by polymorphisms in serotonin transporter and corticotropin releasing hormone receptor genes in a 20-year longitudinal study. Development and Psychopathology, 2014, 26, 1241-1254.	2.3	58
10	DOES RELATIONAL DYSFUNCTION MEDIATE THE ASSOCIATION BETWEEN ANXIETY DISORDERS AND LATER DEPRESSION? TESTING AN INTERPERSONAL MODEL OF COMORBIDITY. Depression and Anxiety, 2014, 31, 77-86.	4.1	58
11	When Support Seeking Backfires: Co-Rumination, Excessive Reassurance Seeking, and Depressed Mood in the Daily Lives of Young Adults. Journal of Social and Clinical Psychology, 2015, 34, 436-457.	0.5	50
12	Chronic stress exposure, diurnal cortisol slope, and implications for mood and fatigue: Moderation by multilocus HPA-Axis genetic variation. Psychoneuroendocrinology, 2019, 100, 156-163.	2.7	49
13	Transdiagnostic and disorder-specific models of intergenerational transmission of internalizing pathology. Psychological Medicine, 2014, 44, 161-172.	4.5	48
14	Responses to Positive Affect in Daily Life: Positive Rumination and Dampening Moderate the Association Between Daily Events and Depressive Symptoms. Journal of Psychopathology and Behavioral Assessment, 2017, 39, 412-425.	1.2	45
15	Assessing romantic competence in adolescence: The Romantic Competence Interview. Journal of Adolescence, 2009, 32, 55-75.	2.4	43
16	When Feelings Lack Precision: Low Positive and Negative Emotion Differentiation and Depressive Symptoms in Daily Life. Clinical Psychological Science, 2017, 5, 613-631.	4.0	43
17	Intergenerational Transmission of Emotion Dysregulation: The Role of Authoritarian Parenting Style and Family Chronic Stress. Journal of Child and Family Studies, 2019, 28, 3508-3518.	1.3	38
18	Predicting the transition from anxiety to depressive symptoms in early adolescence: Negative anxiety response style as a moderator of sequential comorbidity. Journal of Affective Disorders, 2016, 190, 757-763.	4.1	37

#	ARTICLE	IF	CITATIONS
19	The developmental origins of ruminative response style: An integrative review. <i>Clinical Psychology Review</i> , 2019, 74, 101780.	11.4	37
20	Examining associations between civic engagement and depressive symptoms from adolescence to young adulthood in a national U.S. sample. <i>Applied Developmental Science</i> , 2019, 23, 119-131.	1.7	36
21	Stress responsivity and the structure of common mental disorders: Transdiagnostic internalizing and externalizing dimensions are associated with contrasting stress appraisal biases.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 1079-1089.	1.9	35
22	Cognitive and Interpersonal Moderators of Daily Co-occurrence of Anxious and Depressed Moods in Generalized Anxiety Disorder. <i>Cognitive Therapy and Research</i> , 2012, 36, 655-669.	1.9	33
23	Childhood adversity moderates the influence of proximal episodic stress on the cortisol awakening response and depressive symptoms in adolescents. <i>Development and Psychopathology</i> , 2017, 29, 1877-1893.	2.3	33
24	Love Hurts (in More Ways Than One): Specificity of Psychological Symptoms as Predictors and Consequences of Romantic Activity Among Early Adolescent Girls. <i>Journal of Clinical Psychology</i> , 2012, 68, 373-381.	1.9	32
25	What I like about you: The association between adolescent attachment security and emotional behavior in a relationship promoting context. <i>Journal of Adolescence</i> , 2011, 34, 1017-1024.	2.4	30
26	The perils of murky emotions: Emotion differentiation moderates the prospective relationship between naturalistic stress exposure and adolescent depression.. <i>Emotion</i> , 2020, 20, 927-938.	1.8	28
27	Relational Security Moderates the Effect of Serotonin Transporter Gene Polymorphism (5-HTTLPR) on Stress Generation and Depression among Adolescents. <i>Journal of Abnormal Child Psychology</i> , 2013, 41, 379-388.	3.5	27
28	HPA-axis multilocus genetic variation moderates associations between environmental stress and depressive symptoms among adolescents. <i>Development and Psychopathology</i> , 2019, 31, 1339-1352.	2.3	27
29	Insomnia mediates the longitudinal relationship between anxiety and depressive symptoms in a nationally representative sample of adolescents. <i>Depression and Anxiety</i> , 2018, 35, 583-591.	4.1	25
30	Serotonin transporter gene as a predictor of stress generation in depression.. <i>Journal of Abnormal Psychology</i> , 2012, 121, 810-818.	1.9	24
31	Bidirectional Linkages Between Psychological Symptoms and Sexual Activities Among African American Adolescent Girls in Psychiatric Care. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2012, 41, 811-821.	3.4	16
32	Serotonergic multilocus genetic variation moderates the association between major interpersonal stress and adolescent depressive symptoms: Replication and candidate environment specification. <i>Journal of Psychiatric Research</i> , 2019, 117, 55-61.	3.1	13
33	Negative emotion differentiation through a developmental lens: Associations with parental factors and age in adolescence. <i>Personality and Individual Differences</i> , 2020, 152, 109597.	2.9	13
34	Trait anhedonia is a transdiagnostic correlate of internalizing problems during adolescence. <i>Journal of Research in Personality</i> , 2019, 81, 56-63.	1.7	12
35	Depressive Symptoms and the Anticipation and Experience of Uplifting Events in Everyday Life. <i>Journal of Clinical Psychology</i> , 2017, 73, 1442-1461.	1.9	11
36	Interpersonal childhood adversity and stress generation in adolescence: Moderation by HPA axis multilocus genetic variation. <i>Development and Psychopathology</i> , 2020, 32, 865-878.	2.3	10

#	ARTICLE	IF	CITATIONS
37	Does it help to talk about it? Co-rumination, internalizing symptoms, and committed action during the COVID-19 global pandemic. <i>Journal of Contextual Behavioral Science</i> , 2021, 21, 187-195.	2.6	10
38	Social anxiety and depression: The teenage and early adult years.. , 2011, , 75-91.		8
39	Stress sensitization to depression following childhood adversity: Moderation by HPA axis and serotonergic multilocus profile scores. <i>Development and Psychopathology</i> , 2021, 33, 1264-1278.	2.3	8
40	Examining Linear and Nonlinear Associations Between Negative Emotional Reactivity to Daily Events and Depression Among Adolescents. <i>Clinical Psychological Science</i> , 2022, 10, 675-689.	4.0	7
41	Large Sample Sizes Cannot Compensate for Mismeasured Environments in Gene-by-Environment Research. <i>American Journal of Psychiatry</i> , 2019, 176, 667-668.	7.2	4
42	Genetic moderation of the association between adolescent romantic involvement and depression: Contributions of serotonin transporter gene polymorphism, chronic stress, and family discord. <i>Development and Psychopathology</i> , 2016, 28, 447-457.	2.3	3
43	Oxytocin receptor gene (OXTR) links to marital quality via social support behavior and perceived partner responsiveness.. <i>Journal of Family Psychology</i> , 2019, 33, 44-53.	1.3	3
44	Social Anxiety and Romantic Relationships. , 2015, , 183-199.		2
45	Distinguishing Transdiagnostic versus Disorder-Specific Pathways between Ruminative Brooding and Internalizing Psychopathology in Adolescents: A Latent Variable Modeling Approach. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 1319-1331.	2.3	1
