#	ARTICLE	IF	CITATIONS
1	Initial Impacts of COVID-19 on Sex Life and Relationship Quality in Steady Relationships in Britain: Findings from a Large, Quasi-representative Survey (Natsal-COVID). <i>Journal of Sex Research</i> , 2023, 60, 1-12.	2.5	13
2	Estimands in cluster-randomized trials: choosing analyses that answer the right question. <i>International Journal of Epidemiology</i> , 2023, 52, 107-118.	1.9	28
3	Risk for development of active tuberculosis in patients with chronic airway disease—a systematic review of evidence. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2022, 116, 390-398.	1.8	3
4	Salivary Testosterone and Sexual Function and Behavior in Men and Women: Findings from the Third British National Survey of Sexual Attitudes and Lifestyles (Natsal-3). <i>Journal of Sex Research</i> , 2022, 59, 135-149.	2.5	4
5	Prevalence and duration of detectable SARS-CoV-2 nucleocapsid antibodies in staff and residents of long-term care facilities over the first year of the pandemic (VIVALDI study): prospective cohort study in England. <i>The Lancet Healthy Longevity</i> , 2022, 3, e13-e21.	4.6	85
6	Effectiveness of conditional cash transfers (Afya credits incentive) to retain women in the continuum of care during pregnancy, birth and the postnatal period in Kenya: a cluster-randomised trial. <i>BMJ Open</i> , 2022, 12, e055921.	1.9	6
7	Initial impacts of the COVID-19 pandemic on sexual and reproductive health service use and unmet need in Britain: findings from a quasi-representative survey (Natsal-COVID). <i>Lancet Public Health</i> , The, 2022, 7, e36-e47.	10.0	39
8	Intimate physical contact between people from different households during the COVID-19 pandemic: a mixed-methods study from a large, quasi-representative survey (Natsal-COVID). <i>BMJ Open</i> , 2022, 12, e055284.	1.9	15
9	Impacts of COVID-19 on sexual behaviour in Britain: findings from a large, quasi-representative survey (Natsal-COVID). <i>Sexually Transmitted Infections</i> , 2022, 98, 469-477.	1.9	34
10	Economic evaluation of a conditional cash transfer to retain women in the continuum of care during pregnancy, birth and the postnatal period in Kenya. <i>PLOS Global Public Health</i> , 2022, 2, e0000128.	1.6	1
11	Comprehensive Anaemia Programme and Personalized Therapies (CAPPT): protocol for a cluster-randomised controlled trial testing the effect women's groups, home counselling and iron supplementation on haemoglobin in pregnancy in southern Nepal. <i>Trials</i> , 2022, 23, 183.	1.6	2
12	A feasibility study evaluating the uptake, effectiveness and acceptability of routine screening of pregnant migrants for latent tuberculosis infection in antenatal care: a research protocol. <i>BMJ Open</i> , 2022, 12, e058734.	1.9	0
13	Severe Acute Respiratory Syndrome Coronavirus 2 Anti-Spike Antibody Levels Following Second Dose of ChAdOx1 nCov-19 or BNT162b2 Vaccine in Residents of Long-term Care Facilities in England (VIVALDI). <i>Journal of Infectious Diseases</i> , 2022, 226, 1877-1881.	4.0	5
14	Protocol for the COG-UK hospital-onset COVID-19 infection (HOCl) multicentre interventional clinical study: evaluating the efficacy of rapid genome sequencing of SARS-CoV-2 in limiting the spread of COVID-19 in UK NHS hospitals. <i>BMJ Open</i> , 2022, 12, e052514.	1.9	12
15	Effectiveness of BNT162b2 and ChAdOx-1 vaccines in residents of long-term care facilities in England using a time-varying proportional hazards model. <i>Age and Ageing</i> , 2022, 51, .	1.6	6
16	Recruitment and implementation challenges were common in stepped-wedge cluster randomized trials: Results from a methodological review. <i>Journal of Clinical Epidemiology</i> , 2022, 148, 93-103.	5.0	6
17	Outcomes of SARS-CoV-2 omicron infection in residents of long-term care facilities in England (VIVALDI): a prospective, cohort study. <i>The Lancet Healthy Longevity</i> , 2022, 3, e347-e355.	4.6	39
18	Evaluation of the Growth Assessment Protocol (GAP) for antenatal detection of small for gestational age: The DESiGN cluster randomised trial. <i>PLoS Medicine</i> , 2022, 19, e1004004.	8.4	14

#	ARTICLE	IF	CITATIONS
19	Antibody and cellular immune responses following dual COVID-19 vaccination within infection-naïve residents of long-term care facilities: an observational cohort study. <i>The Lancet Healthy Longevity</i> , 2022, 3, e461-e469.	4.6	17
20	Duration of vaccine effectiveness against SARS-CoV-2 infection, hospitalisation, and death in residents and staff of long-term care facilities in England (VIVALDI): a prospective cohort study. <i>The Lancet Healthy Longevity</i> , 2022, 3, e470-e480.	4.6	22
21	Trends and predictors of linkage to HIV outpatient care following diagnosis in the era of expanded testing in England, Wales and Northern Ireland: Results of a national cohort study. <i>HIV Medicine</i> , 2021, 22, 491-501.	2.2	2
22	Optimal design of cluster randomised trials with continuous recruitment and prospective baseline period. <i>Clinical Trials</i> , 2021, 18, 147-157.	1.6	2
23	Using electronic patient records to assess the effect of a complex antenatal intervention in a cluster randomised controlled trial—data management experience from the DESiGN Trial team. <i>Trials</i> , 2021, 22, 195.	1.6	8
24	Community participatory learning and action cycle groups to reduce type 2 diabetes in Bangladesh (D:Clare trial): study protocol for a stepped-wedge cluster randomised controlled trial. <i>Trials</i> , 2021, 22, 235.	1.6	5
25	Vaccine effectiveness of the first dose of ChAdOx1 nCoV-19 and BNT162b2 against SARS-CoV-2 infection in residents of long-term care facilities in England (VIVALDI): a prospective cohort study. <i>Lancet Infectious Diseases</i> , The, 2021, 21, 1529-1538.	9.1	146
26	Incidence of SARS-CoV-2 infection according to baseline antibody status in staff and residents of 100 long-term care facilities (VIVALDI): a prospective cohort study. <i>The Lancet Healthy Longevity</i> , 2021, 2, e362-e370.	4.6	60
27	Optimal design of cluster randomized trials allowing unequal allocation of clusters and unequal cluster size between arms. <i>Statistics in Medicine</i> , 2021, 40, 5474-5486.	1.6	3
28	Completeness of reporting and risks of overstating impact in cluster randomised trials: a systematic review. <i>The Lancet Global Health</i> , 2021, 9, e1163-e1168.	6.3	6
29	Methodology of Natsal-COVID Wave 1: a large, quasi-representative survey with qualitative follow-up measuring the impact of COVID-19 on sexual and reproductive health in Britain. <i>Wellcome Open Research</i> , 2021, 6, 209.	1.8	12
30	SARS-CoV-2 lineage B.1.1.7 is associated with greater disease severity among hospitalised women but not men: multicentre cohort study. <i>BMJ Open Respiratory Research</i> , 2021, 8, e001029.	3.0	22
31	Profile of humoral and cellular immune responses to single doses of BNT162b2 or ChAdOx1 nCoV-19 vaccines in residents and staff within residential care homes (VIVALDI): an observational study. <i>The Lancet Healthy Longevity</i> , 2021, 2, e544-e553.	4.6	43
32	The Alpha variant was not associated with excess nosocomial SARS-CoV-2 infection in a multi-centre UK hospital study. <i>Journal of Infection</i> , 2021, 83, 693-700.	3.3	11
33	Testing approaches to sharing trial results with participants: The Show RESPECT cluster randomised, factorial, mixed methods trial. <i>PLoS Medicine</i> , 2021, 18, e1003798.	8.4	7
34	Effectiveness of participatory women's groups scaled up by the public health system to improve birth outcomes in Jharkhand, eastern India: a pragmatic cluster non-randomised controlled trial. <i>BMJ Global Health</i> , 2021, 6, e005066.	4.7	9
35	Measuring the impact of COVID-19 on sexual and reproductive health in the UK: web-panel surveys with qualitative follow-up. <i>Lancet</i> , The, 2021, 398, S46.	13.7	0
36	Changes in COVID-19 outbreak severity and duration in long-term care facilities following vaccine introduction, England, November 2020 to June 2021. <i>Eurosurveillance</i> , 2021, 26, .	7.0	5

#	ARTICLE	IF	CITATIONS
37	Cluster randomised trials with different numbers of measurements at baseline and endline: Sample size and optimal allocation. <i>Clinical Trials</i> , 2020, 17, 69-76.	1.6	7
38	Discovery and validation of a personalized risk predictor for incident tuberculosis in low transmission settings. <i>Nature Medicine</i> , 2020, 26, 1941-1949.	30.7	58
39	An interactive website for informed contraception choice: randomised evaluation of <i>Contraception Choices</i> . <i>Digital Health</i> , 2020, 6, 205520762093643.	1.8	11
40	Effect of weighting for sampling and non-response on estimates of STI prevalence in the third British National Survey of Sexual Attitudes and Lifestyles (Natsal-3). <i>Sexually Transmitted Infections</i> , 2020, 96, 481-484.	1.9	3
41	An evaluation of whether propensity score adjustment can remove the self-selection bias inherent to web panel surveys addressing sensitive health behaviours. <i>BMC Medical Research Methodology</i> , 2020, 20, 251.	3.1	8
42	Sample size and power calculations for open cohort longitudinal cluster randomized trials. <i>Statistics in Medicine</i> , 2020, 39, 1871-1883.	1.6	24
43	Accelerated partner therapy (APT) partner notification for people with <i>Chlamydia trachomatis</i> : protocol for the Limiting Undetected Sexually Transmitted infections to Reduce Morbidity (LUSTRUM) APT cross-over cluster randomised controlled trial. <i>BMJ Open</i> , 2020, 10, e034806.	1.9	18
44	Handling an uncertain control group event risk in non-inferiority trials: non-inferiority frontiers and the power-stabilising transformation. <i>Trials</i> , 2020, 21, 145.	1.6	16
45	Concise whole blood transcriptional signatures for incipient tuberculosis: a systematic review and patient-level pooled meta-analysis. <i>Lancet Respiratory Medicine</i> , 2020, 8, 395-406.	10.7	128
46	Community youth teams facilitating participatory adolescent groups, youth leadership activities and livelihood promotion to improve school attendance, dietary diversity and mental health among adolescent girls in rural eastern India: protocol for a cluster-randomised controlled trial. <i>Trials</i> , 2020, 21, 52.	1.6	8
47	Study Protocol: Understanding SARS-Cov-2 infection, immunity and its duration in care home residents and staff in England (VIVALDI). <i>Wellcome Open Research</i> , 2020, 5, 232.	1.8	23
48	Patterns of sexualised recreational drug use and its association with risk behaviours and sexual health outcomes in men who have sex with men in London, UK: a comparison of cross-sectional studies conducted in 2013 and 2016. <i>Sexually Transmitted Infections</i> , 2020, 96, 197-203.	1.9	19
49	Study Protocol: Understanding SARS-Cov-2 infection, immunity and its duration in care home residents and staff in England (VIVALDI). <i>Wellcome Open Research</i> , 2020, 5, 232.	1.8	21
50	Imiquimod versus podophyllotoxin, with and without human papillomavirus vaccine, for anogenital warts: the HIPvac factorial RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-86.	2.8	16
51	An interactive website to aid young women's choice of contraception: feasibility and efficacy RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-44.	2.8	3
52	Why Do Men Report More Opposite-Sex Sexual Partners Than Women? Analysis of the Gender Discrepancy in a British National Probability Survey. <i>Journal of Sex Research</i> , 2019, 56, 1-8.	2.5	54
53	A latent variable modelling approach for the pooled analysis of individual participant data on the association between depression and chlamydia infection in adolescence and young adulthood in the UK. <i>Journal of the Royal Statistical Society Series A: Statistics in Society</i> , 2019, 182, 101-130.	1.1	1
54	Mortality and recovery following moderate and severe acute malnutrition in children aged 6-18 months in rural Jharkhand and Odisha, eastern India: A cohort study. <i>PLoS Medicine</i> , 2019, 16, e1002934.	8.4	15

#	ARTICLE	IF	CITATIONS
55	Can phenotypic data complement our understanding of antimycobacterial effects for drug combinations?. <i>Journal of Antimicrobial Chemotherapy</i> , 2019, 74, 3530-3536.	3.0	2
56	Stepped wedge trials with continuous recruitment require new ways of thinking. <i>Journal of Clinical Epidemiology</i> , 2019, 116, 161-166.	5.0	21
57	The DESiGN trial (DEtection of Small for Gestational age Neonate), evaluating the effect of the Growth Assessment Protocol (GAP): study protocol for a randomised controlled trial. <i>Trials</i> , 2019, 20, 154.	1.6	16
58	Conditional cash transfers to retain rural Kenyan women in the continuum of care during pregnancy, birth and the postnatal period: protocol for a cluster randomized controlled trial. <i>Trials</i> , 2019, 20, 152.	1.6	7
59	Collecting and exploiting data to understand a nation's sexual health needs: Implications for the British National Surveys of Sexual Attitudes and Lifestyles (Natsal). <i>Sexually Transmitted Infections</i> , 2019, 95, 159-161.	1.9	3
60	Cost-effectiveness of conditional cash transfers to retain women in the continuum of care during pregnancy, birth and the postnatal period: protocol for an economic evaluation of the Afya trial in Kenya. <i>BMJ Open</i> , 2019, 9, e032161.	1.9	4
61	Community interventions to prevent violence against women and girls in informal settlements in Mumbai: the SNEHA-TARA pragmatic cluster randomised controlled trial. <i>Trials</i> , 2019, 20, 743.	1.6	29
62	Sexual mixing in opposite-sex partnerships in Britain and its implications for STI risk: findings from the third National Survey of Sexual Attitudes and Lifestyles (Natsal-3). <i>International Journal of Epidemiology</i> , 2019, 48, 228-242.	1.9	6
63	IMPACT study on intervening with a manualised package to achieve treatment adherence in people with tuberculosis: protocol paper for a mixed-methods study, including a pilot randomised controlled trial. <i>BMJ Open</i> , 2019, 9, e032760.	1.9	7
64	Sexual risk reduction interventions for patients attending sexual health clinics: a mixed-methods feasibility study. <i>Health Technology Assessment</i> , 2019, 23, 1-122.	2.8	10
65	Prospective observational study to evaluate the performance of the BioSure HIV Self-Test in the hands of lay users. <i>Sexually Transmitted Infections</i> , 2018, 94, 169-173.	1.9	10
66	Predictors of CD4 cell recovery following initiation of antiretroviral therapy among HIV-1 positive patients with well-estimated dates of seroconversion. <i>HIV Medicine</i> , 2018, 19, 184-194.	2.2	41
67	Predicting STI Diagnoses Amongst MSM and Young People Attending Sexual Health Clinics in England: Triage Algorithm Development and Validation Using Routine Clinical Data. <i>EClinicalMedicine</i> , 2018, 4-5, 43-51.	7.1	7
68	Human papillomavirus infection: protocol for a randomised controlled trial of imiquimod cream (5%) versus podophyllotoxin cream (0.15%), in combination with quadrivalent human papillomavirus or control vaccination in the treatment and prevention of recurrence of anogenital warts (HIPvac) <small>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 21</small>	3.1	19
69	Reporting of stepped wedge cluster randomised trials: extension of the CONSORT 2010 statement with explanation and elaboration. <i>BMJ: British Medical Journal</i> , 2018, 363, k1614.	2.3	235
70	Reassessing pregnancy intention and its relation to maternal, perinatal and neonatal outcomes in a low-income setting: A cohort study. <i>PLoS ONE</i> , 2018, 13, e0205487.	2.5	19
71	Superiority and non-inferiority: two sides of the same coin?. <i>Trials</i> , 2018, 19, 499.	1.6	38
72	HIV testing history and access to treatment among migrants living with HIV in Europe. <i>Journal of the International AIDS Society</i> , 2018, 21, e25123.	3.0	27

#	ARTICLE	IF	CITATIONS
73	Impact on birth weight and child growth of Participatory Learning and Action women's groups with and without transfers of food or cash during pregnancy: Findings of the low birth weight South Asia cluster-randomised controlled trial (LBWSAT) in Nepal. PLoS ONE, 2018, 13, e0194064.	2.5	52
74	Participatory Women's Groups with Cash Transfers Can Increase Dietary Diversity and Micronutrient Adequacy during Pregnancy, whereas Women's Groups with Food Transfers Can Increase Equity in Intrahousehold Energy Allocation. Journal of Nutrition, 2018, 148, 1472-1483.	2.9	38
75	Linkage to HIV care following diagnosis in the WHO European Region: A systematic review and meta-analysis, 2006-2017. PLoS ONE, 2018, 13, e0192403.	2.5	25
76	Where do we diagnose HIV infection? Monitoring new diagnoses made in nontraditional settings in England, Wales and Northern Ireland. HIV Medicine, 2018, 19, 465-474.	2.2	5
77	Young people, partner abuse and sexual health: indicators of increased risk. Journal of Gender-Based Violence, 2018, 2, 311-338.	1.1	2
78	Defining linkage to care following human immunodeficiency virus (HIV) diagnosis for public health monitoring in Europe. Eurosurveillance, 2018, 23, .	7.0	11
79	Is "Sexual Competence" at First Heterosexual Intercourse Associated With Subsequent Sexual Health Status?. Journal of Sex Research, 2017, 54, 91-104.	2.5	36
80	Mortality and causes of death in people diagnosed with HIV in the era of highly active antiretroviral therapy compared with the general population: an analysis of a national observational cohort. Lancet Public Health, The, 2017, 2, e35-e46.	10.0	268
81	Pregnancy Intention and Pregnancy Outcome: Systematic Review and Meta-Analysis. Maternal and Child Health Journal, 2017, 21, 670-704.	1.5	117
82	Randomized controlled trial of the tolerability and completion of maraviroc compared with Kaletra® in combination with Truvada® for HIV post-exposure prophylaxis (MiPEP Trial). Journal of Antimicrobial Chemotherapy, 2017, 72, 1760-1768.	3.0	8
83	The eSexual Health Clinic system for management, prevention, and control of sexually transmitted infections: exploratory studies in people testing for Chlamydia trachomatis. Lancet Public Health, The, 2017, 2, e182-e190.	10.0	50
84	Ethnic variations in sexual behaviours and sexual health markers: findings from the third British National Survey of Sexual Attitudes and Lifestyles (Natsal-3). Lancet Public Health, The, 2017, 2, e458-e472.	10.0	37
85	Effect of participatory women's groups and counselling through home visits on children's linear growth in rural eastern India (CARING trial): a cluster-randomised controlled trial. The Lancet Global Health, 2017, 5, e1004-e1016.	6.3	85
86	Effect of non-monetary incentives on uptake of couples' counselling and testing among clients attending mobile HIV services in rural Zimbabwe: a cluster-randomised trial. The Lancet Global Health, 2017, 5, e907-e915.	6.3	30
87	The optimal design of stepped wedge trials with equal allocation to sequences and a comparison to other trial designs. Clinical Trials, 2017, 14, 639-647.	1.6	24
88	London Measure of Unplanned Pregnancy: guidance for its use as an outcome measure. Patient Related Outcome Measures, 2017, Volume 8, 43-56.	1.2	55
89	Distribution of Salivary Testosterone in Men and Women in a British General Population-Based Sample: The Third National Survey of Sexual Attitudes and Lifestyles (Natsal-3). Journal of the Endocrine Society, 2017, 1, 14-25.	0.2	23
90	Factors Associated With Access to HIV Testing and Primary Care Among Migrants Living in Europe: Cross-Sectional Survey. JMIR Public Health and Surveillance, 2017, 3, e84.	2.6	19

#	ARTICLE	IF	CITATIONS
91	Early virological response to HIV treatment: can we predict who is likely to experience subsequent treatment failure? Results from an observational cohort study, London, UK. <i>Journal of the International AIDS Society</i> , 2017, 20, 21567.	3.0	0
92	Virological efficacy of PI monotherapy for HIV-1 in clinical practice. <i>Journal of Antimicrobial Chemotherapy</i> , 2016, 71, 3228-3234.	3.0	12
93	Protocol of the Low Birth Weight South Asia Trial (LBWSAT), a cluster-randomised controlled trial testing impact on birth weight and infant nutrition of Participatory Learning and Action through women's groups, with and without unconditional transfers of fortified food or cash during pregnancy in Nepal. <i>BMC Pregnancy and Childbirth</i> , 2016, 16, 320.	2.4	32
94	Oral Human Papillomavirus Infection in Men Who Have Sex with Men: A Systematic Review and Meta-Analysis. <i>PLoS ONE</i> , 2016, 11, e0157976.	2.5	47
95	A comparison of multiple-imputation methods for handling missing data in repeated measurements observational studies. <i>Journal of the Royal Statistical Society Series A: Statistics in Society</i> , 2016, 179, 683-706.	1.1	32
96	Men who have sex with men in Great Britain: comparing methods and estimates from probability and convenience sample surveys. <i>Sexually Transmitted Infections</i> , 2016, 92, 455-463.	1.9	80
97	Sexual behaviours, HIV testing, and the proportion of men at risk of transmitting and acquiring HIV in London, UK, 2000-13: a serial cross-sectional study. <i>Lancet HIV</i> , 2016, 3, e431-e440.	4.7	45
98	Salivary Testosterone Levels and Health Status in Men and Women in the British General Population: Findings from the Third National Survey of Sexual Attitudes and Lifestyles (Natsal-3). <i>Journal of Clinical Endocrinology and Metabolism</i> , 2016, 101, 3939-3951.	3.6	28
99	How successful was the English teenage pregnancy strategy? Authors' reply. <i>Lancet</i> , 2016, 388, 2604-2605.	13.7	1
100	Protocol for the economic evaluation of a community-based intervention to improve growth among children under two in rural India (CARING trial): Table A1. <i>BMJ Open</i> , 2016, 6, e012046.	1.9	3
101	Combined models for pre- and post-treatment longitudinal biomarker data: an application to CD4 counts in HIV-patients. <i>BMC Medical Research Methodology</i> , 2016, 16, 121.	3.1	5
102	Changes in conceptions in women younger than 18 years and the circumstances of young mothers in England in 2000-12: an observational study. <i>Lancet</i> , 2016, 388, 586-595.	13.7	43
103	Is chlamydia screening and testing in Britain reaching young adults at risk of infection? Findings from the third National Survey of Sexual Attitudes and Lifestyles (Natsal-3). <i>Sexually Transmitted Infections</i> , 2016, 92, 218-227.	1.9	35
104	Cohort Profile: The Flu Watch Study. <i>International Journal of Epidemiology</i> , 2016, 46, dyv370.	1.9	22
105	Fractional Brownian motion and multivariate models for longitudinal biomedical data, with application to CD4 counts in HIV-positive patients. <i>Statistics in Medicine</i> , 2016, 35, 1514-1532.	1.6	16
106	The 3 in 1 Study: Pooling Self-Taken Pharyngeal, Urethral, and Rectal Samples into a Single Sample for Analysis for Detection of <i>Neisseria gonorrhoeae</i> and <i>Chlamydia trachomatis</i> in Men Who Have Sex with Men. <i>Journal of Clinical Microbiology</i> , 2016, 54, 650-656.	3.9	46
107	Estimating the Prevalence of Sexual Function Problems: The Impact of Morbidity Criteria. <i>Journal of Sex Research</i> , 2016, 53, 955-967.	2.5	93
108	Medicated sex in Britain: evidence from the third National Survey of Sexual Attitudes and Lifestyles. <i>Sexually Transmitted Infections</i> , 2016, 92, 32-38.	1.9	14
