## Janna Marie Bas-Hoogendam

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/1907934/publications.pdf

Version: 2024-02-01

#	Article	IF	CITATIONS
1	Physiology of repetitive transcranial magnetic stimulation of the human brain. Brain Stimulation, 2010, 3, 95-118.	1.6	527
2	ENIGMA and global neuroscience: A decade of large-scale studies of the brain in health and disease across more than 40 countries. Translational Psychiatry, 2020, 10, 100.	4.8	365
3	Commentary: Gray Matter Structural Alterations in Social Anxiety Disorder: A Voxel-Based Meta-Analysis. Frontiers in Psychiatry, 2019, 10, 1.	2.6	219
4	Functional differences in emotion processing during adolescence and early adulthood. NeuroImage, 2014, 91, 70-76.	4.2	121
5	Transcranial Magnetic Stimulation and Functional MRI Reveal Cortical and Subcortical Interactions during Stop-signal Response Inhibition. Journal of Cognitive Neuroscience, 2013, 25, 157-174.	2.3	108
6	Frontostriatal activity and connectivity increase during proactive inhibition across adolescence and early adulthood. Human Brain Mapping, 2014, 35, 4415-4427.	3.6	96
7	Voxel-based morphometry multi-center mega-analysis of brain structure in social anxiety disorder. Neurolmage: Clinical, 2017, 16, 678-688.	2.7	68
8	Different developmental trajectories for anticipation and receipt of reward during adolescence. Developmental Cognitive Neuroscience, 2013, 6, 113-124.	4.0	63
9	Neurobiological candidate endophenotypes of social anxiety disorder. Neuroscience and Biobehavioral Reviews, 2016, 71, 362-378.	6.1	61
10	Prefrontal lobe dysfunction predicts treatment response in medication-naive first-episode schizophrenia. Schizophrenia Research, 2011, 129, 156-162.	2.0	59
11	<scp>Megaâ€analysis</scp> methods in <scp>ENIGMA</scp> : The experience of the generalized anxiety disorder working group. Human Brain Mapping, 2022, 43, 255-277.	3.6	51
12	Altered neural processing of emotional faces in remitted Cushing's disease. Psychoneuroendocrinology, 2015, 59, 134-146.	2.7	40
13	Subcortical brain volumes, cortical thickness and cortical surface area in families genetically enriched for social anxiety disorder – A multiplex multigenerational neuroimaging study. EBioMedicine, 2018, 36, 410-428.	6.1	39
14	FMRI, Antipsychotics and Schizophrenia. Influence of Different Antipsychotics on BOLD-Signal. Current Pharmaceutical Design, 2010, 16, 2012-2025.	1.9	36
15	Reduced language lateralization in first-episode medication-naive schizophrenia. Schizophrenia Research, 2011, 127, 195-201.	2.0	36
16	<scp>ENIGMAâ€anxiety</scp> working group: Rationale for and organization of <scp>largeâ€scale</scp> neuroimaging studies of anxiety disorders. Human Brain Mapping, 2022, 43, 83-112.	3.6	31
17	How embarrassing! The behavioral and neural correlates of processing social norm violations. PLoS ONE, 2017, 12, e0176326.	2.5	30
18	Cortical and subcortical brain structure in generalized anxiety disorder: findings from 28 research sites in the ENIGMA-Anxiety Working Group. Translational Psychiatry, 2021, 11, 502.	4.8	24

#	Article	IF	CITATIONS
19	F27. Subcortical Volumes in Social Anxiety Disorder: Preliminary Results From Enigma-Anxiety. Biological Psychiatry, 2018, 83, S247-S248.	1.3	18
20	Altered Neurobiological Processing of Unintentional Social Norm Violations: A Multiplex, Multigenerational Functional Magnetic Resonance Imaging Study on Social Anxiety Endophenotypes. Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, 2020, 5, 981-990.	1.5	18
21	Amygdala hyperreactivity to faces conditioned with a social-evaluative meaning– a multiplex, multigenerational fMRI study on social anxiety endophenotypes. NeuroImage: Clinical, 2020, 26, 102247.	2.7	18
22	The <scp>L</scp> eiden <scp>F</scp> amily <scp>L</scp> ab study on <scp>S</scp> ocial <scp>A</scp> nxiety <scp>D</scp> isorder: A multiplex, multigenerational family study on neurocognitive endophenotypes. International Journal of Methods in Psychiatric Research, 2018, 27, e1616.	2.1	17
23	Imaging the socially-anxious brain: recent advances and future prospects. F1000Research, 2020, 9, 230.	1.6	13
24	Not intended, still embarrassed: Social anxiety is related to increased levels of embarrassment in response to unintentional social norm violations. European Psychiatry, 2018, 52, 15-21.	0.2	10
25	Impaired neural habituation to neutral faces in families genetically enriched for social anxiety disorder. Depression and Anxiety, 2019, 36, 1143-1153.	4.1	10
26	Investigating microstructure of white matter tracts as candidate endophenotypes of Social Anxiety Disorder – Findings from the Leiden Family Lab study on Social Anxiety Disorder (LFLSAD). NeuroImage: Clinical, 2020, 28, 102493.	2.7	6
27	Intrinsic functional connectivity in families genetically enriched for social anxiety disorder – an endophenotype study. EBioMedicine, 2021, 69, 103445.	6.1	5
28	Exploring the course of adolescent anxiety and depression: associations with white matter tract microstructure. European Archives of Psychiatry and Clinical Neuroscience, 2022, 272, 849-858.	3.2	4
29	Gray matter matters: The structure of the socially-anxious brain. EBioMedicine, 2020, 59, 102937.	6.1	3
30	P.491 Social conditioning of neutral faces in families genetically enriched for social anxiety disorder. European Neuropsychopharmacology, 2019, 29, S345-S346.	0.7	2
31	Structural Brain Correlates of Childhood Inhibited Temperament: An ENIGMA-Anxiety Mega-analysis. Journal of the American Academy of Child and Adolescent Psychiatry, 2022, 61, 1182-1188.	0.5	2
32	DECREASED LANGUAGE LATERALIZATION IN MEDICATION NAIVE SCHIZOPHRENIA. Schizophrenia Research, 2010, 117, 475-476.	2.0	1
33	16. Sample Size Matters: A Voxel-Based Morphometry Multi-Center Mega-Analysis of Gray Matter Volume in Social Anxiety Disorder. Biological Psychiatry, 2017, 81, S7-S8.	1.3	1
34	Social norm processing as an endophenotype of social anxiety disorder: a family study in two generations. European Neuropsychopharmacology, 2017, 27, S49-S50.	0.7	1
35	ENIGMA Mega-Analysis of Brain Structure in Generalized Anxiety Disorder. Biological Psychiatry, 2020, 87, S386.	1.3	1
36	Alterations in White Matter Integrity as Candidate Endophenotypes of Social Anxiety Disorder: Findings From the Leiden Family Lab on Social Anxiety Disorder (LFLSAD). Biological Psychiatry, 2020, 87, S248.	1.3	1

#	Article	IF	CITATIONS
37	Increased Intrinsic Functional Connectivity in Families Genetically Enriched for Social Anxiety. Biological Psychiatry, 2020, 87, S296-S297.	1.3	1
38	F131. Multimodal Graph Theoretical Brain Networks and the 9-Year Cumulative Disease Load of Depression and Anxiety. Biological Psychiatry, 2019, 85, S264.	1.3	0
39	P.307 Alterations in white matter integrity as candidate endophenotypes of social anxiety disorder: preliminary findings. European Neuropsychopharmacology, 2020, 31, S51-S52.	0.7	Ο
