#	ARTICLE	IF	CITATIONS
1	Alcohol and Breast Cancer. <i>Cancer Nursing</i> , 2022, 45, 87-95.	1.5	3
2	Deconstructing type 2 diabetes self-management of Australian Pacific Islander women: Using a community participatory research and talanoa approach. <i>Health and Social Care in the Community</i> , 2022, 30, 1988-1999.	1.6	7
3	Determining the psychometric properties of the Greene Climacteric Scale (GCS) in women previously treated for breast cancer: A pooled analysis of data from the Women's Wellness after Cancer Programs. <i>Maturitas</i> , 2022, 161, 65-71.	2.4	0
4	Self-efficacy and social support as mediators of mental health among abused women. <i>Australian Journal of Cancer Nursing</i> , 2022, 24, 458-468.	1.6	6
5	The Development of the Women's Wellness Program for Irritable Bowel Syndrome. , 2022, 9, .		0
6	Improving health-related quality of life in women with breast, blood, and gynaecological Cancer with an eHealth-enabled 12-week lifestyle intervention: the women's wellness after Cancer program randomised controlled trial. <i>BMC Cancer</i> , 2022, 22, .	2.6	8
7	International feasibility study for the Women's Wellness with Type 2 Diabetes Programme (WWDP): An eHealth enabled 12-week intervention programme for midlife women with type 2 diabetes. <i>Diabetes Research and Clinical Practice</i> , 2021, 171, 108541.	2.8	5
8	Women's Wellness with Type 2 Diabetes Program (WWDP): Qualitative findings from the UK and Australian feasibility study. <i>Diabetes Research and Clinical Practice</i> , 2021, 172, 108654.	2.8	3
9	Domestic and Family Violence and its Association with Mental Health Among Pregnant Women Attending Antenatal Care in a Tertiary Hospital of Eastern Nepal. <i>Journal of Nepal Health Research Council</i> , 2021, 19, 115-121.	0.8	6
10	Screening for distress in women with gynaecological cancer: Adaptation of the distress thermometer for gynaecological oncology patients. <i>European Journal of Cancer Care</i> , 2021, 30, e13486.	1.5	3
11	260Smoking, body mass index, and risk of vasomotor symptoms: a pooled analysis of eight studies. <i>International Journal of Epidemiology</i> , 2021, 50, .	1.9	0
12	Feasibility of a multiple health behavior change program for premenstrual symptoms in university students: A study protocol. <i>European Journal of Integrative Medicine</i> , 2021, 48, 101399.	1.7	0
13	Physical activity and menopausal symptoms in women who have received menopause-inducing cancer treatments: results from the Women's Wellness After Cancer Program. <i>Menopause</i> , 2021, 28, 142-149.	2.0	1
14	Antenatal-Based Pilot Psychosocial Intervention to Enhance Mental Health of Pregnant Women Experiencing Domestic and Family Violence in Nepal. <i>Journal of Interpersonal Violence</i> , 2020, , 088626052094815.	2.0	10
15	"We don't see because we don't ask": Qualitative exploration of service users' and health professionals' views regarding a psychosocial intervention targeting pregnant women experiencing domestic and family violence. <i>PLoS ONE</i> , 2020, 15, e0230069.	2.5	8
16	Physical activity and cognitive changes in younger women after breast cancer treatment. <i>BMJ Supportive and Palliative Care</i> , 2020, 10, 122-125.	1.6	3
17	Development and Validation of an Information Booklet Aimed at Promoting Mental Health for Pregnant Women with a History of Abuse. <i>Journal of Nepal Health Research Council</i> , 2020, 17, 456-462.	0.8	1
18	Survivorship Care Plans: Health Actions Taken and Satisfaction After Use. <i>Oncology Nursing Forum</i> , 2019, 46, 585-594.	1.2	3

#	ARTICLE	IF	CITATIONS
19	Understanding cancer-related distress and supportive care needs in women with gynaecological cancer: a thematic analysis. <i>Maturitas</i> , 2019, 124, 145.	2.4	1
20	Age at natural menopause and risk of incident cardiovascular disease: a pooled analysis of individual patient data. <i>Lancet Public Health</i> , The, 2019, 4, e553-e564.	10.0	252
21	Interventions for reducing and/or controlling domestic violence among pregnant women in low- and middle-income countries: a systematic review. <i>Systematic Reviews</i> , 2019, 8, 79.	5.3	20
22	Soy intake and vasomotor menopausal symptoms among midlife women: a pooled analysis of five studies from the InterLACE consortium. <i>European Journal of Clinical Nutrition</i> , 2019, 73, 1501-1511.	2.9	4
23	Yoga and acupuncture versus "csham" treatments for menopausal hot flashes: how do they compare?. <i>Menopause</i> , 2019, 26, 337.	2.0	1
24	Promoting healthy lifestyle changes to improve health-related quality of life in women after cancer: results from the Australian women's wellness after cancer program (WWACP). <i>Maturitas</i> , 2019, 124, 149.	2.4	1
25	The Association Between Web-Based or Face-to-Face Lifestyle Interventions on the Perceived Benefits and Barriers to Exercise in Midlife Women: Three-Arm Equivalency Study. <i>Journal of Medical Internet Research</i> , 2019, 21, e10963.	4.3	17
26	Counselling-based psychosocial intervention to improve the mental health of abused pregnant women: a protocol for randomised controlled feasibility trial in a tertiary hospital in eastern Nepal. <i>BMJ Open</i> , 2019, 9, e027436.	1.9	3
27	The role of sleep difficulties in the vasomotor menopausal symptoms and depressed mood relationships: an international pooled analysis of eight studies in the InterLACE consortium. <i>Psychological Medicine</i> , 2018, 48, 2550-2561.	4.5	27
28	Life stress and symptoms of anxiety and depression in women after cancer: The mediating effect of stress appraisal and coping. <i>Psycho-Oncology</i> , 2018, 27, 1787-1794.	2.3	29
29	Lifestyle interventions for improving health and health behaviours in women with type 2 diabetes: A systematic review of the literature 2011-2017. <i>Maturitas</i> , 2018, 111, 1-14.	2.4	21
30	A cross-cultural comparison of health-related quality of life and its associated factors among older women in Vietnam and Australia. <i>BMC Research Notes</i> , 2018, 11, 174.	1.4	5
31	Examining relationships between socio-demographics and self-efficacy among registered nurses in Australia. <i>Collegian</i> , 2018, 25, 57-63.	1.3	11
32	Relationships between intensity, duration, cumulative dose, and timing of smoking with age at menopause: A pooled analysis of individual data from 17 observational studies. <i>PLoS Medicine</i> , 2018, 15, e1002704.	8.4	81
33	Factors associated with self-management among Vietnamese adults with type 2 diabetes. <i>Nursing Open</i> , 2018, 5, 507-516.	2.4	15
34	Early menarche, nulliparity and the risk for premature and early natural menopause. <i>Human Reproduction</i> , 2017, 32, 679-686.	0.9	122
35	The Women's wellness after cancer program: a multisite, single-blinded, randomised controlled trial protocol. <i>BMC Cancer</i> , 2017, 17, 98.	2.6	22
36	Menopausal symptom clusters and their correlates in women with and without a history of breast cancer: a pooled data analysis from the Women's Wellness Research Program. <i>Menopause</i> , 2017, 24, 624-634.	2.0	17

#	ARTICLE	IF	CITATIONS
37	Exposure to stress across the life course and its association with anxiety and depressive symptoms: Results from the Australian Women's Wellness After Cancer Program (WWACP). <i>Maturitas</i> , 2017, 105, 107-112.	2.4	6
38	Can dance-based aquatic exercise improve functionality in obese women with knee osteoarthritis?. <i>Menopause</i> , 2017, 24, 724-725.	2.0	2
39	The Vietnamese version of the Perceived Stress Scale (PSS-10): Translation equivalence and psychometric properties among older women. <i>BMC Psychiatry</i> , 2017, 17, 53.	2.6	29
40	Vietnamese Version of Diabetes Self-Management Instrument: Development and Psychometric Testing. <i>Research in Nursing and Health</i> , 2017, 40, 177-184.	1.6	6
41	How life stressors influence modifiable lifestyle factors, depressive symptoms, and physical and mental health among Vietnamese older women?. <i>BMC Psychiatry</i> , 2017, 17, 232.	2.6	11
42	Interventions for domestic violence among pregnant women in low- and middle-income countries: a systematic review protocol. <i>Systematic Reviews</i> , 2017, 6, 254.	5.3	4
43	Women's health: local and global matters of great significance. <i>Medical Journal of Australia</i> , 2016, 205, 356-357.	1.7	0
44	Patient reported adherence to hypertension treatment: A revalidation study. <i>European Journal of Cardiovascular Nursing</i> , 2016, 15, 150-156.	0.9	15
45	The InterLACE study: Design, data harmonization and characteristics across 20 studies on women's health. <i>Maturitas</i> , 2016, 92, 176-185.	2.4	34
46	Predictors of mental health in midlife and older Australian women: A multilevel investigation. <i>Health Care for Women International</i> , 2016, 37, 1263-1276.	1.1	7
47	Factors predicting barriers to exercise in midlife Australian women. <i>Maturitas</i> , 2016, 87, 61-66.	2.4	26
48	Measuring acculturative stress with the SAFE: Evidence for longitudinal measurement invariance and associations with life satisfaction. <i>Personality and Individual Differences</i> , 2016, 89, 217-222.	2.9	23
49	The "caring experience": Testing the psychometric properties of the caring efficacy scale. <i>International Journal of Nursing Practice</i> , 2015, 21, 904-912.	1.7	17
50	Predicting intentions and behaviours in populations with or at-risk of diabetes: A systematic review. <i>Preventive Medicine Reports</i> , 2015, 2, 270-282.	1.8	25
51	Decreasing menopausal symptoms in women undertaking a web-based multi-modal lifestyle intervention: The Women's Wellness Program. <i>Maturitas</i> , 2015, 81, 69-75.	2.4	30
52	Translation and psychometric properties of the Chinese version of the Leeds Attitudes to Concordance II scale. <i>BMC Medical Informatics and Decision Making</i> , 2015, 15, 60.	3.0	3
53	Testing the psychometric properties of the Brisbane Practice Environment Measure using exploratory factor analysis and confirmatory factor analysis in an Australian registered nurse population. <i>International Journal of Nursing Practice</i> , 2015, 21, 94-101.	1.7	10
54	Does exercise alleviate menopausal symptoms in women?. <i>Maturitas</i> , 2015, 80, 1-2.	2.4	3
