#	ARTICLE	IF	CITATIONS
1	Adverse events and potentially preventable deaths in Dutch hospitals: results of a retrospective patient record review study. <i>Quality and Safety in Health Care</i> , 2009, 18, 297-302.	2.5	356
2	The psychometric properties of the 'Hospital Survey on Patient Safety Culture' in Dutch hospitals. <i>BMC Health Services Research</i> , 2008, 8, 230.	2.2	170
3	Patient Record Review of the Incidence, Consequences, and Causes of Diagnostic Adverse Events. <i>Archives of Internal Medicine</i> , 2010, 170, 1015.	3.8	136
4	Safety of telephone triage in out-of-hours care: A systematic review. <i>Scandinavian Journal of Primary Health Care</i> , 2011, 29, 198-209.	1.5	130
5	Assessing patient safety culture in hospitals across countries. <i>International Journal for Quality in Health Care</i> , 2013, 25, 213-221.	1.8	113
6	Quality of After-Hours Primary Care in the Netherlands: A Narrative Review. <i>Annals of Internal Medicine</i> , 2011, 155, 108.	3.9	102
7	Measuring patient safety culture: an assessment of the clustering of responses at unit level and hospital level. <i>Quality and Safety in Health Care</i> , 2009, 18, 292-296.	2.5	98
8	The Development and Performance of After-Hours Primary Care in the Netherlands. <i>Annals of Internal Medicine</i> , 2017, 166, 737.	3.9	89
9	To what extent are adverse events found in patient records reported by patients and healthcare professionals via complaints, claims and incident reports?. <i>BMC Health Services Research</i> , 2011, 11, 49.	2.2	82
10	The nature and causes of unintended events reported at ten emergency departments. <i>BMC Emergency Medicine</i> , 2009, 9, 16.	1.9	55
11	Contacts with out-of-hours primary care for nonurgent problems: patients' beliefs or deficiencies in healthcare?. <i>BMC Family Practice</i> , 2015, 16, 157.	2.9	44
12	Exploring the causes of adverse events in hospitals and potential prevention strategies. <i>BMJ Quality and Safety</i> , 2010, 19, e5-e5.	3.7	40
13	Patient safety in out-of-hours primary care: a review of patient records. <i>BMC Health Services Research</i> , 2010, 10, 335.	2.2	35
14	Analysis of unintended events in hospitals: inter-rater reliability of constructing causal trees and classifying root causes. <i>International Journal for Quality in Health Care</i> , 2009, 21, 292-300.	1.8	33
15	Nature, causes and consequences of unintended events in surgical units. <i>British Journal of Surgery</i> , 2010, 97, 1730-1740.	0.3	32
16	Reducing the use of out-of-hours primary care services: A survey among Dutch general practitioners. <i>European Journal of General Practice</i> , 2016, 22, 189-195.	2.0	30
17	Increasing Dutch adolescents' willingness to register their organ donation preference: the effectiveness of an education programme delivered by kidney transplantation patients. <i>European Journal of Public Health</i> , 2006, 16, 106-110.	0.3	29
18	Association between general practice characteristics and use of out-of-hours GP cooperatives. <i>BMC Family Practice</i> , 2015, 16, 52.	2.9	27

#	ARTICLE	IF	CITATIONS
19	Out-of-hours primary care in 26 European countries: an overview of organizational models. <i>Family Practice</i> , 2020, 37, 744-750.	1.9	26
20	Unit-based incident reporting and root cause analysis: variation at three hospital unit types. <i>BMJ Open</i> , 2016, 6, e011277.	1.9	24
21	The psychometric properties of the "safety attitudes questionnaire"™ in out-of-hours primary care services in the Netherlands. <i>PLoS ONE</i> , 2017, 12, e0172390.	2.5	24
22	Patient safety culture in out-of-hours primary care services in the Netherlands: a cross-sectional survey. <i>Scandinavian Journal of Primary Health Care</i> , 2018, 36, 28-35.	1.5	23
23	The role of patient safety culture in the causation of unintended events in hospitals. <i>Journal of Clinical Nursing</i> , 2012, 21, 3392-3401.	3.0	21
24	Telephone triage in general practices: A written case scenario study in the Netherlands. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 28-36.	1.5	21
25	Patient and care characteristics of self-referrals treated by the general practitioner cooperative at emergency-care-access-points in the Netherlands. <i>BMC Family Practice</i> , 2017, 18, 62.	2.9	19
26	Patient satisfaction with out-of-hours GP cooperatives: A longitudinal study. <i>Scandinavian Journal of Primary Health Care</i> , 2012, 30, 206-213.	1.5	18
27	Development and testing of the KERNset: an instrument to assess the quality of telephone triage in out-of-hours primary care services. <i>BMC Health Services Research</i> , 2017, 17, 798.	2.2	16
28	Management of sepsis in out-of-hours primary care: a retrospective study of patients admitted to the intensive care unit. <i>BMJ Open</i> , 2018, 8, e022832.	1.9	16
29	Examining differences in out-of-hours primary care use in Belgium and the Netherlands: a cross-sectional study. <i>European Journal of Public Health</i> , 2019, 29, 1018-1024.	0.3	16
30	Nurse telephone triage in Dutch out-of-hours primary care. <i>European Journal of Emergency Medicine</i> , 2012, 19, 309-315.	1.1	15
31	GPs™ experiences with out-of-hours GP cooperatives: A survey study from the Netherlands. <i>European Journal of General Practice</i> , 2014, 20, 196-201.	2.0	14
32	After-hours primary care for people with intellectual disabilities in The Netherlands™ Current arrangements and challenges. <i>Research in Developmental Disabilities</i> , 2016, 59, 1-7.	2.2	13
33	Recognition of sepsis in primary care: a survey among GPs. <i>BJGP Open</i> , 2017, 1, bjgpopen17X100965.	1.8	13
34	Migrants™ motives and expectations for contacting out-of-hours primary care: a survey study. <i>BMC Family Practice</i> , 2017, 18, 92.	2.9	12
35	Availability of Dutch General Practitioners for After-Hours Palliative Care. <i>Journal of Palliative Care</i> , 2018, 33, 182-186.	1.0	9
36	Factors related to out-of-hours help-seeking for acute health problems: a survey study using case scenarios. <i>BMC Public Health</i> , 2019, 19, 33.	2.9	9

#	ARTICLE	IF	CITATIONS
37	Effects of access to radiology in out-of-hours primary care in the Netherlands: a prospective observational study. <i>Family Practice</i> , 2018, 35, 253-258.	1.9	8
38	Examining Causes and Prevention Strategies of Adverse Events in Deceased Hospital Patients: A Retrospective Patient Record Review Study in the Netherlands. <i>Journal of Patient Safety</i> , 2021, 17, 282-289.	1.7	8
39	Help-seeking behaviour outside office hours in Denmark, the Netherlands and Switzerland: a questionnaire study exploring responses to hypothetical cases. <i>BMJ Open</i> , 2018, 8, e019295.	1.9	7
40	A nation-wide transition in patient safety culture: a multilevel analysis on two cross-sectional surveys. <i>International Journal for Quality in Health Care</i> , 2019, 31, 627-632.	1.8	4
41	Substitution of general practitioners by nurse practitioners in out-of-hours primary care home visits: A quasi-experimental study. <i>International Journal of Nursing Studies</i> , 2020, 104, 103445.	5.6	4
42	Development of a clinical prediction rule for sepsis in primary care: protocol for the TeSD-IT study. <i>Diagnostic and Prognostic Research</i> , 2020, 4, 12.	1.8	4
43	Effects of access to radiology in out-of-hours primary care on patient satisfaction and length of stay. <i>European Journal of General Practice</i> , 2021, 27, 221-227.	2.0	4
44	Development and external validation of a new clinical prediction model for early recognition of sepsis in adult patients in primary care: a diagnostic study. <i>British Journal of General Practice</i> , 2022, , BJGP.2021.0520.	1.4	4
45	The Incidence and Nature of Adverse Medical Device Events in Dutch Hospitals. <i>Journal of Patient Safety</i> , 2020, Publish Ahead of Print, e1719-e1725.	1.7	3
46	Reliability and validity of the Netherlands Triage Standard in emergency care settings: a case scenario study. <i>Emergency Medicine Journal</i> , 2022, , emermed-2021-211359.	1.0	2
47	Vital signs of the systemic inflammatory response syndrome in adult patients with acute infections presenting in out-of-hours primary care: A cross-sectional study. <i>European Journal of General Practice</i> , 2021, 27, 83-89.	2.0	0
