| #  | ARTICLE                                                                                                                                                                                                                   | IF  | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Addressing the Lack of Clarity About Administering Surfactant in Preterm Infants With Respiratory Distress Syndrome Treated With Noninvasive Respiratory Support. <i>JAMA Pediatrics</i> , 2022, 176, 121.                | 6.2 | 2         |
| 2  | Delivery room CPAP in improving outcomes of preterm neonates in low-and middle-income countries: A systematic review and network meta-analysis. <i>Resuscitation</i> , 2022, 170, 250-263.                                | 3.0 | 7         |
| 3  | Surfactant therapy in late preterm and term neonates with respiratory distress syndrome: a systematic review and meta-analysis. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2022, 107, 393-397. | 2.8 | 12        |
| 4  | Emerging neuroprotective interventions in periventricular leukomalacia - A systematic review of preclinical studies. <i>Expert Opinion on Investigational Drugs</i> , 2022, 31, 305-330.                                  | 4.1 | 8         |
| 5  | Platelet transfusions in neonatesâ€”Unresolved aspects and future directions. <i>Pediatric Blood and Cancer</i> , 2022, 69, e29608.                                                                                       | 1.5 | 0         |
| 6  | Association Between Hypothyroxinemia and Periventricular Leukomalacia. <i>Indian Journal of Pediatrics</i> , 2022, , 1.                                                                                                   | 0.8 | 0         |
| 7  | Dextrose Gel for Neonates at Risk With Asymptomatic Hypoglycemia: A Randomized Clinical Trial. <i>Pediatrics</i> , 2022, 149, .                                                                                           | 2.1 | 8         |
| 8  | Disposable low-cost cardboard incubator for thermoregulation of stable preterm infant â€” a randomized controlled non-inferiority trial. <i>EClinicalMedicine</i> , 2021, 31, 100664.                                     | 7.1 | 2         |
| 9  | Frequency of ventilator circuit changes to prevent ventilatorâ€”associated pneumonia in neonates and childrenâ€”A systematic review and metaâ€”analysis. <i>Pediatric Pulmonology</i> , 2021, 56, 1357-1365.              | 2.0 | 3         |
| 10 | Complete urorectal septal malformation with left hemimelia in a neonate: an uncommon association. <i>BMJ Case Reports</i> , 2021, 14, e241423.                                                                            | 0.5 | 1         |
| 11 | High versus standard volume enteral feeds to promote growth in preterm or low birth weight infants. <i>The Cochrane Library</i> , 2021, 2021, CD012413.                                                                   | 2.8 | 4         |
| 12 | External iliac artery thrombosis: an unusual complication of femoral venous catheterisation in a neonate. <i>BMJ Case Reports</i> , 2021, 14, e240099.                                                                    | 0.5 | 1         |
| 13 | <i>Candida auris</i> , an emerging pathogen â€” Challenge in the survival of microprimies. <i>Indian Journal of Medical Microbiology</i> , 2021, 39, 367-369.                                                             | 0.8 | 5         |
| 14 | Digital tracheal intubation and finger palpation to confirm endotracheal tube tip position in neonates: A systematic review and metaâ€”analysis. <i>Pediatric Pulmonology</i> , 2021, 56, 2893-2902.                      | 2.0 | 2         |
| 15 | ELBW and ELGAN outcomes in developing nationsâ€”Systematic review and meta-analysis. <i>PLoS ONE</i> , 2021, 16, e0255352.                                                                                                | 2.5 | 16        |
| 16 | Delivery Room Interventions for Hypothermia in Preterm Neonates. <i>JAMA Pediatrics</i> , 2021, 175, e210775.                                                                                                             | 6.2 | 24        |
| 17 | A comparative evaluation and appraisal of 2020 American Heart Association and 2021 European Resuscitation Council neonatal resuscitation guidelines. <i>Resuscitation</i> , 2021, 167, 151-159.                           | 3.0 | 7         |
| 18 | Risk Factors for Periventricular Leukomalacia in Preterm Infants: A Systematic Review, Meta-analysis, and GRADE-Based Assessment of Certainty of Evidence. <i>Pediatric Neurology</i> , 2021, 124, 51-71.                 | 2.1 | 7         |

| #  | ARTICLE                                                                                                                                                                                                                                                | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Does Xpert Carba R Assay Detect Carbapenemase-Producing Organism in Gram-Negative Sepsis in Neonates?. Indian Journal of Medical Microbiology, 2020, 38, 500-501.                                                                                      | 0.8 | 0         |
| 20 | Autologous umbilical cord blood for red cell concentrate transfusion in preterm infants in the era of delayed cord clamping: An uncontrolled clinical trial. Transfusion Medicine, 2020, 30, 391-395.                                                  | 1.1 | 0         |
| 21 | Early fortification of human milk versus late fortification to promote growth in preterm infants. The Cochrane Library, 2020, 2020, CD013392.                                                                                                          | 2.8 | 16        |
| 22 | 3- $\alpha$ -Methylglutaconic aciduria type <scp>VIII</scp> in an Indian neonate. Birth Defects Research, 2020, 112, 1093-1097.                                                                                                                        | 1.5 | 3         |
| 23 | Continuous infusion versus intermittent bolus doses of fentanyl for analgesia and sedation in neonates: an open-label randomised controlled trial. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2019, 104, fetalneonatal-2018-315345. | 2.8 | 13        |
| 24 | A family with floppy neonates with severe respiratory insufficiency: A lethal phenotype of RFT1-CDG due to a novel mutation. European Journal of Medical Genetics, 2019, 62, 248-253.                                                                  | 1.3 | 3         |
| 25 | Re-feeding versus discarding gastric residuals to improve growth in preterm infants. The Cochrane Library, 2019, 7, CD012940.                                                                                                                          | 2.8 | 3         |
| 26 | Diagnostic Dilemma of an Umbilical Mass in a Newborn Infant - a Twin or a Tumor?. Fetal and Pediatric Pathology, 2019, 40, 1-5.                                                                                                                        | 0.7 | 1         |
| 27 | Routine monitoring of gastric residual for prevention of necrotising enterocolitis in preterm infants. The Cochrane Library, 2019, 7, CD012937.                                                                                                        | 2.8 | 25        |
| 28 | Novel clinical phenotype of generalised lymphatic dysplasia in a neonate: a missed diagnosis. BMJ Case Reports, 2019, 12, e229260.                                                                                                                     | 0.5 | 0         |
| 29 | Research Letters. Indian Pediatrics, 2018, 55, 911-915.                                                                                                                                                                                                | 0.4 | 5         |
| 30 | Cytomegalovirus Enterocolitis in a Term Neonate. Indian Pediatrics, 2018, 55, 163-164.                                                                                                                                                                 | 0.4 | 1         |
| 31 | Standard care with plastic bag or portable thermal nest to prevent hypothermia at birth: a three-armed randomized controlled trial. Journal of Perinatology, 2018, 38, 1324-1330.                                                                      | 2.0 | 7         |
| 32 | Phase Changing Material for Therapeutic Hypothermia in Neonates with Hypoxic Ischemic Encephalopathy - A Multi-centric Study. Indian Pediatrics, 2018, 55, 201-205.                                                                                    | 0.4 | 24        |
| 33 | Cytomegalovirus Enterocolitis in a Term Neonate. Indian Pediatrics, 2018, 55, 163-164.                                                                                                                                                                 | 0.4 | 1         |
| 34 | Continuous Temperature Monitoring Using Bluetooth-enabled Thermometer in Neonates. Indian Pediatrics, 2018, 55, 914-915.                                                                                                                               | 0.4 | 1         |
| 35 | Comparison of Two Low-cost Methods of Cooling Neonates with Hypoxic Ischemic Encephalopathy. Journal of Tropical Pediatrics, 2017, 63, fmw067.                                                                                                         | 1.5 | 13        |
| 36 | High versus standard volume enteral feeds to promote growth in preterm or low birth weight infants. The Cochrane Library, 2017, 9, CD012413.                                                                                                           | 2.8 | 11        |

| #  | ARTICLE                                                                                                                                                        | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Unusual complications of placental chorioangioma: consumption coagulopathy and hypertension in a preterm newborn. BMJ Case Reports, 2016, 2016, bcr2016215734. | 0.5 | 9         |
| 38 | Advantages of being diligent: lessons learnt from umbilical venous catheterisation in neonates. BMJ Case Reports, 2016, 2016, .                                | 0.5 | 3         |
| 39 | Pleural effusion caused by a malpositioned umbilical venous catheter in a neonate. BMJ Case Reports, 2015, 2015, bcr2015212705.                                | 0.5 | 8         |
| 40 | Unusual Presentation of Foreign Body Aspiration as Pleural Effusion in an Infant. Indian Journal of Pediatrics, 2014, 81, 305-305.                             | 0.8 | 1         |
| 41 | Routine monitoring of gastric residual for prevention of necrotising enterocolitis in preterm infants. The Cochrane Library, 0, , .                            | 2.8 | 2         |
| 42 | Re-feeding versus discarding gastric residuals to improve growth in preterm infants. The Cochrane Library, 0, , .                                              | 2.8 | 2         |
| 43 | Early fortification of human milk versus late fortification to promote growth in preterm infants. The Cochrane Library, 0, , .                                 | 2.8 | 8         |
| 44 | Impact of lactation support program on Initiation of Breastfeeding in Term Infants. Asian Pacific Island Nursing Journal, 0, 4, 108-115.                       | 0.5 | 5         |
