#	ARTICLE	IF	CITATIONS
1	Generic prognostic factors for musculoskeletal pain in primary care: a systematic review. <i>BMJ Open</i> , 2017, 7, e012901.	1.9	132
2	Prognostic Indicators of Low Back Pain in Primary Care: Five-Year Prospective Study. <i>Journal of Pain</i> , 2013, 14, 873-883.	1.4	112
3	Long-term trajectories of back pain: cohort study with 7-year follow-up. <i>BMJ Open</i> , 2013, 3, e003838.	1.9	101
4	Trajectories and predictors of the long-term course of low back pain: cohort study with 5-year follow-up. <i>Pain</i> , 2018, 159, 252-260.	4.2	94
5	The influence of employment social support for risk and prognosis in nonspecific back pain: a systematic review and critical synthesis. <i>International Archives of Occupational and Environmental Health</i> , 2013, 86, 119-137.	2.3	89
6	Conceptual overlap of psychological constructs in low back pain. <i>Pain</i> , 2013, 154, 1783-1791.	4.2	88
7	The Role of Sleep Problems in the Development of Depression in Those with Persistent Pain: A Prospective Cohort Study. <i>Sleep</i> , 2013, 36, 1693-1698.	1.1	63
8	Troubling stoicism: Sociocultural influences and applications to health and illness behaviour. <i>Health (United Kingdom)</i> , 2013, 17, 159-173.	1.5	59
9	Review: The influence of informal social support on risk and prognosis in spinal pain: A systematic review. <i>European Journal of Pain</i> , 2011, 15, 444.e1-14.	2.8	58
10	Pain assessment and pain treatment for community-dwelling people with dementia: A systematic review and narrative synthesis. <i>International Journal of Geriatric Psychiatry</i> , 2019, 34, 807-821.	2.7	49
11	The association of anxiety and depression with future dementia diagnosis: a case-control study in primary care. <i>Family Practice</i> , 2013, 30, 25-30.	1.9	48
12	Keele Aches and Pains Study protocol: validity, acceptability, and feasibility of the Keele STarT MSK tool for subgrouping musculoskeletal patients in primary care. <i>Journal of Pain Research</i> , 2016, Volume 9, 807-818.	2.0	41
13	Effects of workplace, family and cultural influences on low back pain: What opportunities exist to address social factors in general consultations?. <i>Best Practice and Research in Clinical Rheumatology</i> , 2013, 27, 637-648.	3.3	39
14	Can patients with low health literacy be identified from routine primary care health records? A cross-sectional and prospective analysis. <i>BMC Family Practice</i> , 2019, 20, 101.	2.9	39
15	The Project Baseline Health Study: a step towards a broader mission to map human health. <i>Npj Digital Medicine</i> , 2020, 3, 84.	10.9	38
16	Refinement and validation of a tool for stratifying patients with musculoskeletal pain. <i>European Journal of Pain</i> , 2021, 25, 2081-2093.	2.8	36
17	The Role of Relationship Quality and Perceived Partner Responses with Pain and Disability in Those with Back Pain. <i>Pain Medicine</i> , 2012, 13, 204-214.	1.9	30
18	Identifying Treatment Effect Modifiers in the STarT Back Trial: A Secondary Analysis. <i>Journal of Pain</i> , 2017, 18, 54-65.	1.4	29

#	ARTICLE	IF	CITATIONS
19	Measuring Musculoskeletal Pain in Infants, Children, and Adolescents. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2017, 47, 712-730.	3.5	27
20	The pain, depression, disability pathway in those with low back pain: a moderation analysis of health locus of control. <i>Journal of Pain Research</i> , 2017, Volume 10, 2331-2339.	2.0	25
21	Matching treatment options for risk sub-groups in musculoskeletal pain: a consensus groups study. <i>BMC Musculoskeletal Disorders</i> , 2019, 20, 271.	1.9	25
22	Validity of the Visual Trajectories Questionnaire for Pain. <i>Journal of Pain</i> , 2017, 18, 1451-1458.	1.4	24
23	Persistent and Developing Sleep Problems: A Prospective Cohort Study on the Relationship to Poor Outcome in Patients Attending a Pain Clinic with Chronic Low Back Pain. <i>Pain Practice</i> , 2018, 18, 79-86.	1.9	23
24	Are Sleep Problems a Risk Factor for the Onset of Musculoskeletal Pain in Children and Adolescents? A Systematic Review. <i>Sleep</i> , 2017, 40, .	1.1	21
25	Long-term trajectories of chronic musculoskeletal pain: a 21-year prospective cohort latent class analysis. <i>Pain</i> , 2021, 162, 1511-1520.	4.2	21
26	Consultation patterns of children and adolescents with knee pain in UK general practice: analysis of medical records. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 239.	1.9	20
27	Exploring the Impact of the First Wave of COVID-19 on Social Work Practice: A Qualitative Study in England, UK. <i>British Journal of Social Work</i> , 2022, 52, 2043-2062.	1.4	20
28	Sleep problems and psychological symptoms as predictors of musculoskeletal conditions in children and adolescents. <i>European Journal of Pain</i> , 2020, 24, 354-363.	2.8	19
29	Chronic pain in families: a cross-sectional study of shared social, behavioural, and environmental influences. <i>Pain</i> , 2018, 159, 41-47.	4.2	16
30	Association of Pain and Depression in Those With Chronic Low Back Pain. <i>Clinical Journal of Pain</i> , 2015, 31, 44-51.	1.9	15
31	Sleep problems increase the risk of musculoskeletal pain in boys but not girls: a prospective cohort study. <i>European Journal of Pediatrics</i> , 2020, 179, 1711-1719.	2.7	14
32	Affective concordance in couples: a cross-sectional analysis of depression and anxiety consultations within a population of 13,507 couples in primary care. <i>BMC Psychiatry</i> , 2017, 17, 190.	2.6	13
33	The Impact of Inadequate Health Literacy in a Population with Musculoskeletal Pain. <i>Health Literacy Research and Practice</i> , 2018, 2, e215-e220.	0.9	12
34	In sickness and in health: A cross-sectional analysis of concordance for musculoskeletal pain in 13,507 couples. <i>European Journal of Pain</i> , 2016, 20, 438-446.	2.8	11
35	The challenge of pain identification, assessment, and management in people with dementia: a qualitative study. <i>BJGP Open</i> , 2020, 4, bjgpopen20X101040.	1.8	11
36	Acceptability of, and preferences for, remote consulting during COVID-19 among older patients with two common long-term musculoskeletal conditions: findings from three qualitative studies and recommendations for practice. <i>BMC Musculoskeletal Disorders</i> , 2022, 23, 312.	1.9	8

#	ARTICLE	IF	CITATIONS
37	The Evidence-Based Development of an Intervention to Improve Clinical Health Literacy Practice. International Journal of Environmental Research and Public Health, 2020, 17, 1513.	2.6	7
38	Are psychological symptoms a risk factor for musculoskeletal pain in adolescents?. European Journal of Pediatrics, 2021, 180, 2173-2183.	2.7	5
39	Child and adolescent musculoskeletal pain (CAM-Pain) feasibility study: testing a method of identifying, recruiting and collecting data from children and adolescents who consult about a musculoskeletal condition in UK general practice. BMJ Open, 2018, 8, e021116.	1.9	4
40	Indicators of dementia disease progression in primary care: An electronic health record cohort study. European Journal of Neurology, 2021, 28, 1499-1510.	3.3	4
41	Comparative differences in musculoskeletal pain consultation and analgesic prescription for people with dementia. Pain, 2021, Publish Ahead of Print, 2613-2620.	4.2	3
42	Chronic widespread pain in children and adolescents presenting in primary care. Pain, 2021, Publish Ahead of Print, .	4.2	3
43	Impact of Pain Intensity on Relationship Quality Between Couples Where One Has Back Pain. Pain Medicine, 2014, 15, 832-841.	1.9	2
44	Markers of dementia-related health in primary care electronic health records. Aging and Mental Health, 2021, 25, 1452-1462.	2.8	2
45	Family-based Interventions Benefit Individuals With Musculoskeletal Pain in the Short-term but not in the Long-Term. Clinical Journal of Pain, 2021, 37, 140-157.	1.9	2
46	OP0314â€¦LONG TERM TRAJECTORIES OF CHRONIC WIDESPREAD PAIN: A 21-YEAR PROSPECTIVE COHORT LATENT CLASS ANALYSIS. , 2019, , .		1
47	Perceptions of risk in people with inflammatory arthritis during the COVID-19 pandemic. Rheumatology Advances in Practice, 2022, 6, .	0.7	1
48	P060â€¦fLiving with rheumatoid arthritis during the coronavirus pandemic: a longitudinal interview study. Rheumatology, 2022, 61, .	1.9	0
