#	ARTICLE	IF	CITATIONS
1	Does positive affect mediate the association of multimorbidity on depressive symptoms?. Aging and Mental Health, 2022, 26, 65-76.	2.8	5
2	Involuntariness of job changes is related to less satisfaction with occupational development in long-term breast cancer survivors. Journal of Cancer Survivorship, 2022, 16, 397-407.	2.9	5
3	Optimizing Patient Information Material for a New Psycho-Oncological Care Program Using a Participatory Health Research Approach in Germany. International Journal of Environmental Research and Public Health, 2022, 19, 1518.	2.6	3
4	Dualized Labor Market and Polarized Health: A Longitudinal Perspective on the Association between Precarious Employment and Mental and Physical Health in Germany. Journal of Health and Social Behavior, 2022, , 002214652110668.	4.8	4
5	Prevalence and determinants of anxiety and depression in long-term breast cancer survivors. BMC Psychiatry, 2022, 22, 101.	2.6	36
6	Salutogenesis at Work as a Facilitator for Implementation? An Explorative Study on the Relationship of Job Demands, Job Resources and the Work-Related Sense of Coherence within a Complex Healthcare Programme. International Journal of Environmental Research and Public Health, 2022, 19, 1842.	2.6	1
7	Having a Break or Being Imprisoned: Influence of Subjective Interpretations of Quarantine and Isolation on Boredom. International Journal of Environmental Research and Public Health, 2022, 19, 2207.	2.6	3
8	The last year of life for patients dying from cancer vs. non-cancer causes: a retrospective cross-sectional survey of bereaved relatives. Supportive Care in Cancer, 2022, 30, 4971-4979.	2.2	2
9	Variation across operating sites in urinary and sexual outcomes after radical prostatectomy in localized and locally advanced prostate cancer. World Journal of Urology, 2022, 40, 1437-1446.	2.2	7
10	FÄrderung der Gesundheitskompetenz von FÄhrungskrÄften. The Springer Reference Pflege, Gesundheit, 2022, , 1-11.	0.3	2
11	Integrated, cross-sectoral psycho-oncology (isPO): a new form of care for newly diagnosed cancer patients in Germany. BMC Health Services Research, 2022, 22, 543.	2.2	12
12	Conducting a prospective evaluation of the development of a complex psycho-oncological care programme (isPO) in Germany. BMC Health Services Research, 2022, 22, 531.	2.2	4
13	Is the Systemic Agency Capacity of Long-Term Care Organizations Enabling Person-Centered Care during the COVID-19 Pandemic? A Repeated Cross-Sectional Study of Organizational Resilience. International Journal of Environmental Research and Public Health, 2022, 19, 5045.	2.6	0
14	The Role of Psychological Wellbeing in a Cross-Provider Worksite Healthcare Management Program for Employees with Musculoskeletal Disorders. International Journal of Environmental Research and Public Health, 2022, 19, 5452.	2.6	0
15	Dying in hospital in Germany â€“ optimising care in the dying phase: study protocol for a multi-centre bottom-up intervention on ward level. BMC Palliative Care, 2022, 21, 67.	1.8	3
16	â€œI leave that to the case managers.â€“ Healthcare Service Providersâ€™ Perceptions of Organizational Readiness for Change in a Randomized Controlled Trialâ€“A Qualitative Analysis Exploring Implementation Success. International Journal of Environmental Research and Public Health, 2022, 19, 5782.	2.6	1
17	Validation of a patient-reported measure of social support provided by nurses in breast cancer care (SuPP-N): based on a cross-sectional patient survey in 83 German hospitals. BMJ Open, 2022, 12, e054015.	1.9	0
18	Health-related quality of life after 50 years in individuals with thalidomide embryopathy: Evidence from a German cross-sectional survey. Birth Defects Research, 2022, 114, 714-724.	1.5	4

#	ARTICLE	IF	CITATIONS
19	Health literacy, mental disorders and fear of progression and their association with a need for psycho-oncological care over the course of a breast cancer treatment. <i>Psychology, Health and Medicine</i> , 2021, 26, 818-831.	2.4	12
20	General Practitioners' Perspectives on General and Specialized Palliative Home Care in North Rhine, Germany: An Explorative Focus Group Study. <i>American Journal of Hospice and Palliative Medicine</i> , 2021, 38, 32-38.	1.4	10
21	A salutogenic model predicting the need for psycho-oncological care and its utilisation – The role of generalised resistance resources and sense of coherence. <i>European Journal of Cancer Care</i> , 2021, 30, e13335.	1.5	1
22	Mental disorders and utilization of mental health services in newly diagnosed cancer patients: An analysis of German health insurance claims data. <i>Psycho-Oncology</i> , 2021, 30, 312-320.	2.3	7
23	Associations between hospital structures, processes and patient experiences of preparation for discharge in breast cancer centers: A multilevel analysis. <i>Health Care Management Review</i> , 2021, 46, 98-110.	1.4	4
24	Development of the health behaviour scale for cancer patients (HBSCP), analysis of its factorial structure and evaluation of its psychometric properties. <i>European Journal of Cancer Care</i> , 2021, 30, e13386.	1.5	3
25	„...und plötzlich sitze ich auf dem Spielteppich und langweile mich zu Tode“. Eine Soziologie der Langeweile am Beispiel Mutterschaft. <i>Soziale Welt</i> , 2021, 72, 172-205.	0.3	1
26	Zukünftige Gesundheitsrisiken: Was kommt auf die Gesellschaft zu?, 2021, , 43-63.		4
27	Will the demands by the covid-19 pandemic increase the intent to quit the profession of long-term care managers? A repeated cross-sectional study in Germany. <i>Journal of Public Health</i> , 2021, 43, e431-e434.	1.8	17
28	Does social support mediate the effect of multimorbidity on mental wellbeing in the German working population? A longitudinal mediation analysis using structural equation modelling. <i>SSM - Population Health</i> , 2021, 13, 100744.	2.7	7
29	Clinicians' knowledge and attitudes towards patient reported outcomes in colorectal cancer care – insights from qualitative interviews. <i>BMC Health Services Research</i> , 2021, 21, 366.	2.2	10
30	Electronic patient record and its effects on social aspects of interprofessional collaboration and clinical workflows in hospitals (eCoCo): a mixed methods study protocol. <i>BMC Health Services Research</i> , 2021, 21, 377.	2.2	11
31	Is time a healer? Course of demands during the COVID-19 pandemic in long-term care: a repeated cross-sectional survey in Germany. <i>Journal of Public Health</i> , 2021, 43, e435-e437.	1.8	7
32	Individual courses and determinants of fear of cancer recurrence in long-term breast cancer survivors with and without recurrence. <i>Supportive Care in Cancer</i> , 2021, 29, 7647-7657.	2.2	6
33	Last Year of Life Study-Cologne (LYOL-C) (Part II): study protocol of a prospective interventional mixed-methods study in acute hospitals to analyse the implementation of a trigger question and patient question prompt sheets to optimise patient-centred care. <i>BMJ Open</i> , 2021, 11, e048681.	1.9	1
34	Resource dependency and strategy in healthcare organizations during a time of scarce resources: evidence from the metropolitan area of Cologne. <i>Journal of Health Organization and Management</i> , 2021, 35, 211-227.	1.3	7
35	Do trained nurses feel more psychologically safe? – Results from a multi-level modelling approach. <i>Nursing Open</i> , 2021, 8, 3024-3035.	2.4	1
36	Hospital Processes and the Nurse-Patient Interaction in Breast Cancer Care. Findings from a Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 8224.	2.6	4

#	ARTICLE	IF	CITATIONS
37	â€œI must, and I can live with thatâ€: a thematic analysis of patientsâ€™ perspectives on polypharmacy and a digital decision support system for GPs. BMC Family Practice, 2021, 22, 168.	2.9	2
38	Different Approaches for Case-Mix Adjustment of Patient-Reported Outcomes to Compare Healthcare Providersâ€™ Methodological Results of a Systematic Review. Cancers, 2021, 13, 3964.	3.7	9
39	Early Referral to Nephrological Care and the Uptake of Peritoneal Dialysis. An Analysis of German Claims Data. International Journal of Environmental Research and Public Health, 2021, 18, 8359.	2.6	7
40	Participatory Development and Preliminary Psychometric Properties of the User-Friendly Patient Information Material Checklist (UPIM-Check). International Journal of Environmental Research and Public Health, 2021, 18, 8773.	2.6	3
41	Implementation of patient-centred care: which system-level determinants matter from a decision makerâ€™s perspective? Results from a qualitative interview study across various health and social care organisations. BMJ Open, 2021, 11, e050054.	1.9	6
42	How Managers Perceive and (Do Not) Participate in Health Promotion Measuresâ€™ Results from a Cross-Sectional Mixed-Methods Survey in a Large ICT Company. International Journal of Environmental Research and Public Health, 2021, 18, 9708.	2.6	0
43	Effectiveness of the application of an electronic medication management support system in patients with polypharmacy in general practice: a study protocol of cluster-randomised controlled trial (AdAM). BMJ Open, 2021, 11, e048191.	1.9	8
44	A qualitative study of the adoption of Value Stream Mapping in breast cancer centers. European Journal of Oncology Nursing, 2021, 54, 102037.	2.1	1
45	Measuring social capital of hospital management boards in European hospitals: A validation study on psychometric properties of a questionnaire for Chief Executive Officers. BMC Health Services Research, 2021, 21, 1036.	2.2	3
46	Social determinants of the impact of hospital management boards on quality management: a study of 109 European hospitals using a parsonian approach. BMC Health Services Research, 2021, 21, 70.	2.2	6
