#	ARTICLE	IF	CITATIONS
1	Age- and education-specific reference values for the Mini-Mental and Modified Mini-Mental State Examinations derived from a non-demented elderly population. <i>International Journal of Geriatric Psychiatry</i> , 1997, 12, 1008-1018.	2.7	284
2	Reliability of the Revised Functional Autonomy Measurement System (SMAF) for Epidemiological Research. <i>Age and Ageing</i> , 1995, 24, 402-406.	1.6	174
3	Impact of a 12-Month Exercise Program on the Physical and Psychological Health of Osteopenic Women. <i>Journal of the American Geriatrics Society</i> , 1996, 44, 756-762.	2.6	164
4	Refusal and information bias associated with postal questionnaires and face-to-face interviews in very elderly subjects. <i>Journal of Clinical Epidemiology</i> , 1996, 49, 373-381.	5.0	101
5	Assessing the effectiveness of interventions to promote advance directives among older adults: A systematic review and multi-level analysis. <i>Social Science and Medicine</i> , 2008, 67, 1122-1132.	3.8	91
6	Research with decisionally incapacitated older adults: practices of Canadian research ethics boards. <i>IRB: Ethics & Human Research</i> , 2010, 32, 1-8.	0.8	69
7	Advance Directives for Health Care and Research. <i>Alzheimer Disease and Associated Disorders</i> , 2003, 17, 215-222.	1.3	57
8	Correlates of Care Quality in Long-Term Care Facilities: A Multilevel Analysis. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 1999, 54B, P180-P188.	3.9	51
9	Promoting advance planning for health care and research among older adults: A randomized controlled trial. <i>BMC Medical Ethics</i> , 2012, 13, 1.	2.4	47
10	Promoting advance care planning among community-based older adults: A randomized controlled trial. <i>Patient Education and Counseling</i> , 2016, 99, 1785-1795.	2.2	40
11	Knowledge of the legislation governing proxy consent to treatment and research. <i>Journal of Medical Ethics</i> , 2003, 29, 44-50.	1.8	25
12	Comparing the attitudes of four groups of stakeholders from Quebec, Canada, toward extending medical aid in dying to incompetent patients with dementia. <i>International Journal of Geriatric Psychiatry</i> , 2019, 34, 1078-1086.	2.7	23
13	Opinions Regarding Who Should Consent to Research on Behalf of an Older Adult Suffering from Dementia. <i>Dementia</i> , 2003, 2, 49-65.	2.0	21
14	Relationship between Regulatory Status, Quality of Care, and Three-Year Mortality in Canadian Residential Care Facilities: A Longitudinal Study. <i>Health Services Research</i> , 2002, 37, 1181-1196.	2.0	19
15	Are Canadians Providing Advance Directives about Health Care and Research Participation in the Event of Decisional Incapacity?. <i>Canadian Journal of Psychiatry</i> , 2011, 56, 209-218.	1.9	19
16	Further Validation of the QUALCARE Scale. <i>Journal of Elder Abuse and Neglect</i> , 1996, 7, 29-48.	1.1	16
17	Does promoting research advance planning in a general elderly population enhance completion of a research directive and proxies' predictive ability? a randomized controlled trial. <i>AJOB Empirical Bioethics</i> , 2016, 7, 183-192.	1.6	15
18	Are Informal Caregivers of Persons With Dementia Open to Extending Medical Aid in Dying to Incompetent Patients? Findings From a Survey Conducted in Quebec, Canada. <i>Alzheimer Disease and Associated Disorders</i> , 2018, 32, 247-254.	1.3	15

#	ARTICLE	IF	CITATIONS
19	Effects of advance care planning on confidence in surrogates'™ ability to make healthcare decisions consistent with older adults'™ wishes: Findings from a randomized controlled trial. <i>Patient Education and Counseling</i> , 2018, 101, 1256-1261.	2.2	15
20	Using goal attainment scaling to improve the quality of long-term care: a group-randomized trial. <i>International Journal for Quality in Health Care</i> , 2005, 17, 511-519.	1.8	14
21	Comfort with proxy consent to research involving decisionally impaired older adults: do type of proxy and risk-benefit profile matter?. <i>International Psychogeriatrics</i> , 2011, 23, 1479-1488.	1.0	12
22	Nurses' perspectives on whether medical aid in dying should be accessible to incompetent patients with dementia: findings from a survey conducted in Quebec, Canada. <i>Geriatric Nursing</i> , 2018, 39, 393-399.	1.9	12
23	Quebec physicians'™ perspectives on medical aid in dying for incompetent patients with dementia. <i>Canadian Journal of Public Health</i> , 2018, 109, 729-739.	2.3	12
24	Quebec Physicians' Knowledge and Opinions regarding Substitute Consent for Decisionally Incapacitated Older Adults. <i>IRB: Ethics & Human Research</i> , 2004, 26, 12.	0.8	11
25	Comparison of Provincial and Territorial Legislation Governing Substitute Consent for Research. <i>Canadian Journal on Aging</i> , 2005, 24, 237-249.	1.1	11
26	Does regulating private long-term care facilities lead to better care? A study from Quebec, Canada. <i>International Journal for Quality in Health Care</i> , 2014, 26, 330-336.	1.8	11
27	Improving the Quality of Residential Care Using Goal Attainment Scaling. <i>Journal of the American Medical Directors Association</i> , 2005, 6, 173-180.	2.5	10
28	Reliability of health-related quality-of-life assessments made by older adults and significant others for health states of increasing cognitive impairment. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 4.	2.4	10
29	Surrogate inaccuracy in predicting older adults'™ desire for life-sustaining interventions in the event of decisional incapacity: is it due in part to erroneous quality-of-life assessments?. <i>International Psychogeriatrics</i> , 2017, 29, 1061-1068.	1.0	10
30	Making medical decisions for an incompetent older adult when both a proxy and an advance directive are available: which is more likely to reflect the older adult'™s preferences?. <i>Journal of Medical Ethics</i> , 2018, 44, 498-503.	1.8	10
31	Which Residential Care Facilities Are Delivering Inadequate Care? A Simple Case-Finding Questionnaire. <i>Canadian Journal on Aging</i> , 2001, 20, 339-356.	1.1	9
32	Should Medical Assistance in Dying Be Extended to Incompetent Patients With Dementia? Research Protocol of a Survey Among Four Groups of Stakeholders From Quebec, Canada. <i>JMIR Research Protocols</i> , 2017, 6, e208.	1.0	9
33	Identifying Characteristics of Residential Care Facilities Relevant to the Placement Process of Seniors. <i>Journal of the American Medical Directors Association</i> , 2008, 9, 95-101.	2.5	8
34	The Conduct of Canadian Researchers and Institutional Review Boards regarding Substituted Consent for Research. <i>IRB: Ethics & Human Research</i> , 2004, 26, 1.	0.8	7
35	Substitute Consent for Research Involving the Elderly: A Comparison Between Quebec and France. <i>Journal of Cross-Cultural Gerontology</i> , 2008, 23, 239-253.	1.0	7
36	Substitute consent practices in the face of uncertainty: a survey of Canadian researchers in aging. <i>International Psychogeriatrics</i> , 2013, 25, 1821-1830.	1.0	6

#	ARTICLE	IF	CITATIONS
37	Promoting Advance Directives for Health Care and Research Through a Single or MultiSession Intervention: Does it Affect Completion Rates and Content?. Journal of the American Geriatrics Society, 2016, 64, e81-e83.	2.6	5
38	Advance Directives for Research: How Do They Compare with Surrogates'™ Predictions of Older Adults'™ Preferences?. IRB: Ethics & Human Research, 2018, 40, 11-19.	0.8	5
39	Quality of care in unlicensed homes for the aged in the eastern townships of Quebec. Cmaj, 1999, 160, 1441-5.	2.0	5
40	L'article 21 du Code civil du Qu'bec: ses implications sur la recherche en g'rontologie. Canadian Journal on Aging, 2000, 19, 1-17.	1.1	4
41	Comparing the resident populations of private and public long-term care facilities over a 15-year period: a study from Quebec, Canada. Ageing and Society, 2015, 35, 2039-2052.	1.7	4
42	Physicians'™ Characteristics and Attitudes Towards Medically Assisted Dying for Non-Competent Patients with Dementia. Canadian Journal on Aging, 2022, 41, 135-142.	1.1	4
43	Profile of residents in unlicensed homes for the aged in the eastern townships of Quebec. Cmaj, 1998, 159, 143-8.	2.0	4
44	Quebec physicians' knowledge and opinions regarding substitute consent for decisionally incapacitated older adults. IRB: Ethics & Human Research, 2004, 26, 12-7.	0.8	4
45	Attitudes toward withholding antibiotics from people with dementia lacking decisional capacity: findings from a survey of Canadian stakeholders. BMC Medical Ethics, 2021, 22, 119.	2.4	3
46	Surrogate consent for dementia research: factors influencing five stakeholder groups from the SCORES study. IRB: Ethics & Human Research, 2013, 35, 1-11.	0.8	3
47	La COVID-19 et les soins de fin de vie en centre d'™h'bergement et de soins de longue dur'™e (CHSLD): protocole de recherche de type descriptif-explicatif dans deux r'™gions diff'™ement affect'™es du Qu'bec. Science of Nursing and Health Practices - Science Infirmi'™re Et Pratiques En Sant'™, 0, 4, 1-12.	0.1	2
48	Quebec population highly supportive of extending Medical Aid in Dying to incapacitated persons and people suffering only from a mental illness: Content analysis of attitudes and representations. Ethics, Medicine and Public Health, 2022, 21, 100759.	0.9	2
49	The conduct of Canadian researchers and institutional review boards regarding substituted consent for research. IRB: Ethics & Human Research, 2004, 26, 1-8.	0.8	2
50	Improving the Quality of Residential Care Using Goal Attainment Scaling. Journal of the American Medical Directors Association, 2006, 7, S30-S37.	2.5	1
51	What do people write about after filling out a survey on extending assistance in dying to incompetent patients with dementia?. Alzheimer's and Dementia, 2020, 16, e039132.	0.8	0
52	The Quebec Observatory on End-of-Life Care for People with Dementia: Implementation and Preliminary Findings. Canadian Journal on Aging, 2022, , 1-10.	1.1	0
