#	ARTICLE	IF	CITATIONS
1	Neonatal Therapy Staffing in the United States and Relationships to Neonatal Intensive Care Unit Type and Location, Level of Acuity, and Population Factors. <i>American Journal of Perinatology</i> , 2024, 41, 317-329.	1.4	4
2	Neurodevelopmental Outcomes following Preterm Birth and the Association with Postmenstrual Age at Discharge. <i>American Journal of Perinatology</i> , 2022, , .	1.4	2
3	Health Care Professional Perceptions About a Proposed NICU Intervention: The Importance of Community and Aligning With Everyday Occupations. <i>OTJR Occupation, Participation and Health</i> , 2022, 42, 238-247.	0.8	2
4	Neurobehavior in very preterm infants with low medical risk and full-term infants. <i>Journal of Perinatology</i> , 2022, 42, 1400-1408.	2.0	2
5	Neurobehaviour of very preterm infants at term equivalent age is related to early childhood outcomes. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 1181-1188.	1.5	10
6	Factors related to enrolment in early therapy services following neonatal intensive care unit discharge. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 1468-1474.	1.5	0
7	Applying the RE-AIM framework to evaluate the implementation of the Supporting and Enhancing NICU Sensory Experiences (SENSE) program. <i>BMC Pediatrics</i> , 2021, 21, 137.	1.7	9
8	Randomized clinical trial investigating the effect of consistent, developmentally-appropriate, and evidence-based multisensory exposures in the NICU. <i>Journal of Perinatology</i> , 2021, 41, 2449-2462.	2.0	22
9	Socio-demographic factors related to parent engagement in the NICU and the impact of the SENSE program. <i>Early Human Development</i> , 2021, 163, 105486.	1.8	10
10	Early neurobehavior at 30 weeks postmenstrual age is related to outcome at term equivalent age. <i>Early Human Development</i> , 2020, 146, 105057.	1.8	4
11	Neonatal feeding performance is related to feeding outcomes in childhood. <i>Early Human Development</i> , 2020, 151, 105202.	1.8	6
12	The Baby Bridge program: A sustainable program that can improve therapy service delivery for preterm infants following NICU discharge. <i>PLoS ONE</i> , 2020, 15, e0233411.	2.5	11
13	A pilot study demonstrating the impact of the supporting and enhancing NICU sensory experiences (SENSE) program on the mother and infant. <i>Early Human Development</i> , 2020, 144, 105000.	1.8	34
14	Maternal Milk and Relationships to Early Neurobehavioral Outcome in Preterm Infants. <i>Journal of Perinatal and Neonatal Nursing</i> , 2020, 34, 72-79.	0.7	5
15	Auditory exposure of high-risk infants discharged from the NICU and the impact of social factors. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 2049-2056.	1.5	3
16	Implementation of the Baby Bridge Program Reduces Timing Between NICU Discharge and Therapy Activation. <i>Journal of Early Intervention</i> , 2020, 42, 275-296.	1.6	2
17	Preterm infant feeding performance at term equivalent age differs from that of full-term infants. <i>Journal of Perinatology</i> , 2020, 40, 646-654.	2.0	20
18	Interrater Reliability and Concurrent Validity of the Neonatal Eating Outcome Assessment. <i>American Journal of Occupational Therapy</i> , 2020, 74, 7402205050p1-7402205050p11.	0.3	5

#	ARTICLE	IF	CITATIONS
19	Non-Nutritive Sucking in the Preterm Infant. <i>American Journal of Perinatology</i> , 2019, 36, 268-276.	1.4	27
20	Differences in early auditory exposure across neonatal environments. <i>Early Human Development</i> , 2019, 136, 27-32.	1.8	8
21	Neonatal therapy: A survey of current practice. <i>Journal of Pediatric Rehabilitation Medicine</i> , 2019, 12, 285-294.	0.5	3
22	Supporting and enhancing NICU sensory experiences (SENSE): Defining developmentally-appropriate sensory exposures for high-risk infants. <i>Early Human Development</i> , 2019, 133, 29-35.	1.8	33
23	A Community Hospital NICU Developmental Care Partner Program. <i>Advances in Neonatal Care</i> , 2019, 19, 311-320.	1.1	9
24	Health Care Professionals' Perceptions about Sensory-Based Interventions in the NICU. <i>American Journal of Perinatology</i> , 2019, 36, 1229-1236.	1.4	8
25	Early Feeding Behaviors in Preterm Infants and Their Relationships to Neurobehavior. <i>American Journal of Occupational Therapy</i> , 2019, 73, 7311500021p1-7311500021p1.	0.3	1
26	Maternal mental health during the neonatal period: Relationships to the occupation of parenting. <i>Early Human Development</i> , 2018, 120, 31-39.	1.8	43
27	Pacifier use in newborns: related to socioeconomic status but not to early feeding performance. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 806-810.	1.5	5
28	Parent participation in the neonatal intensive care unit: Predictors and relationships to neurobehavior and developmental outcomes. <i>Early Human Development</i> , 2018, 117, 32-38.	1.8	157
29	Neonatal Eating Outcome Assessment: tool development and inter-rater reliability. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 414-424.	1.5	15
30	Auditory Exposure in the Neonatal Intensive Care Unit: Room Type and Other Predictors. <i>Journal of Pediatrics</i> , 2017, 183, 56-66.e3.	1.8	61
31	Occupational therapy, physical therapy and speech-language pathology in the neonatal intensive care unit: Patterns of therapy usage in a level IV NICU. <i>Research in Developmental Disabilities</i> , 2017, 64, 108-117.	2.2	47
32	Early Therapy Services Following Neonatal Intensive Care Unit Discharge. <i>Physical and Occupational Therapy in Pediatrics</i> , 2017, 37, 414-424.	1.3	13
33	Sensory processing disorder in preterm infants during early childhood and relationships to early neurobehavior. <i>Early Human Development</i> , 2017, 113, 18-22.	1.8	53
34	Head Lag in Infancy: What Is It Telling Us?. <i>American Journal of Occupational Therapy</i> , 2016, 70, 7001220010p1-7001220010p8.	0.3	3
35	Defining the nature and implications of head turn preference in the preterm infant. <i>Early Human Development</i> , 2016, 96, 53-60.	1.8	14
36	Assessment of Autism Symptoms During the Neonatal Period: Is There Early Evidence of Autism Risk?. <i>American Journal of Occupational Therapy</i> , 2015, 69, 6904220010p1-6904220010p11.	0.3	15

#	ARTICLE	IF	CITATIONS
37	Neurodevelopmental Profile, Growth, and Psychosocial Environment of Preterm Infants with Difficult Feeding Behavior at Age 2 Years. <i>Journal of Pediatrics</i> , 2015, 167, 1347-1353.	1.8	23
38	A pilot randomized trial of high-dose caffeine therapy in preterm infants. <i>Pediatric Research</i> , 2015, 78, 198-204.	2.3	93
39	Brain Injury and Development in Preterm Infants Exposed to Fentanyl. <i>Annals of Pharmacotherapy</i> , 2015, 49, 1291-1297.	1.9	79
40	The effects of alternative positioning on preterm infants in the neonatal intensive care unit: A randomized clinical trial. <i>Research in Developmental Disabilities</i> , 2014, 35, 490-497.	2.2	63
41	Neonatal Nurses'™ and Therapists'™ Perceptions of Positioning for Preterm Infants in the Neonatal Intensive Care Unit. <i>Neonatal Network: NN</i> , 2013, 32, 110-116.	0.3	24
42	Psychometrics of the Neonatal Oral Motor Assessment Scale. <i>Developmental Medicine and Child Neurology</i> , 2013, 55, 1115-1120.	2.1	26
43	The single-patient room in the NICU: maternal and family effects. <i>Journal of Perinatology</i> , 2012, 32, 545-551.	2.0	97
44	Direct breast-feeding in the neonatal intensive care unit: is it important?. <i>Journal of Perinatology</i> , 2011, 31, 540-545.	2.0	67
45	Neonatal intensive care unit stress is associated with brain development in preterm infants. <i>Annals of Neurology</i> , 2011, 70, 541-549.	5.3	418
46	Predictors of Breastfeeding and Breastmilk Feeding Among Very Low Birth Weight Infants. <i>Breastfeeding Medicine</i> , 2011, 6, 15-19.	1.7	80
47	Breastfeeding Changes for VLBW Infants in the NICU Following Staff Education. <i>Neonatal Network: NN</i> , 2009, 28, 311-319.	0.3	26
48	Maternal Perceptions About Sensory Interventions in the Neonatal Intensive Care Unit: An Exploratory Qualitative Study. <i>Frontiers in Pediatrics</i> , 0, 10, .	1.9	5
