| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 1  | Service use, clinical outcomes and user experience associated with urgent care services that use telephone-based digital triage: a systematic review. <i>BMJ Open</i> , 2022, 12, e051569.   | 1.9 | 3         |
| 2  | Patients' experiences of attending emergency departments where primary care services are located: qualitative findings from patient and clinician interviews from a realist evaluation. <i>BMC Emergency Medicine</i> , 2022, 22, 12.  | 1.9 | 4         |
| 3  | The effectiveness of primary care streaming in emergency departments on decision-making and patient flow and safety – A realist evaluation. <i>International Emergency Nursing</i> , 2022, 62, 101155.   | 1.5 | 4         |
| 4  | Factors influencing decisions about whether to participate in health research by people of diverse ethnic and cultural backgrounds: a realist review. <i>BMJ Open</i> , 2022, 12, e058380.   | 1.9 | 1         |
| 5  | Decision-making around admission to intensive care in the UK pre-COVID-19: a multicentre ethnographic study. <i>Anaesthesia</i> , 2021, 76, 489-499.   | 3.8 | 15        |
| 6  | Experiences of healthcare, including palliative care, of children with life-limiting and life-threatening conditions and their families: a longitudinal qualitative investigation. <i>Archives of Disease in Childhood</i> , 2021, 106, 570-576.   | 1.9 | 14        |
| 7  | An evaluation of service user experience, clinical outcomes and service use associated with urgent care services that utilise telephone-based digital triage: a systematic review protocol. <i>Systematic Reviews</i> , 2021, 10, 25.  | 5.3 | 3         |
| 8  | Experiences of general practice of children with complex and palliative care needs and their families: a qualitative study. <i>BMJ Open</i> , 2021, 11, e041476.   | 1.9 | 4         |
| 9  | An evaluation of the experiences of young people in Patient and Public Involvement for palliative care research. <i>Palliative Medicine</i> , 2021, 35, 793-798.   | 3.1 | 2         |
| 10 | The informed consent process in health research with under-served populations: a realist review protocol. <i>Systematic Reviews</i> , 2021, 10, 103.   | 5.3 | 3         |
| 11 | Online and telephone access to general practice: a cross-sectional patient survey. <i>BJGP Open</i> , 2021, 5, BJGPO.2020.0179.  | 1.8 | 13        |
| 12 | The use of simulation in medical student education on the topic of breaking bad news: A systematic review. <i>Patient Education and Counseling</i> , 2021, 104, 2670-2681.   | 2.2 | 16        |
| 13 | Senior clinical and business managers' perspectives on the influence of different funding mechanisms, and barriers and enablers to implementing models of employing General Practitioners in or alongside emergency departments: Qualitative study. <i>Health Policy</i> , 2021, 125, 482-488. | 3.0 | 3         |
| 14 | What makes a 'successful' or 'unsuccessful' discharge letter? Hospital clinician and General Practitioner assessments of the quality of discharge letters. <i>BMC Health Services Research</i> , 2021, 21, 349.  | 2.2 | 12        |
| 15 | Facilitators and barriers to the delivery of palliative care to children with life-limiting and life-threatening conditions: a qualitative study of the experiences and perceptions of healthcare professionals. <i>Archives of Disease in Childhood</i> , 2021, , archdischild-2021-321808.   | 1.9 | 5         |
| 16 | A classification of primary care streaming pathways in UK emergency departments: Findings from a multi-methods study comprising cross-sectional survey; site visits with observations, semi-structured and informal interviews. <i>International Emergency Nursing</i> , 2021, 56, 101000.     | 1.5 | 4         |
| 17 | Identifying safe care processes when GPs work in or alongside emergency departments: a realist evaluation. <i>British Journal of General Practice</i> , 2021, 71, e931-e940.   | 1.4 | 2         |
| 18 | Community end-of-life care during the COVID-19 pandemic: findings of a UK primary care survey. <i>BJGP Open</i> , 2021, 5, BJGPO.2021.0095.  | 1.8 | 39        |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 19 | Feasibility, acceptability and effect of the Mindful Practice curriculum in postgraduate training of general practitioners. BMC Medical Education, 2021, 21, 327.   | 2.4 | 3         |
| 20 | The impact of disasters on contraception in OECD member countries: a scoping review. European Journal of Contraception and Reproductive Health Care, 2021, 26, 429-438.   | 1.5 | 4         |
| 21 | What is realist research, when should we consider it, how and why?. Archives of Disease in Childhood: Education and Practice Edition, 2021, , edpract-2021-322017.  | 0.5 | 0         |
| 22 | Discharge communication study: a realist evaluation of discharge communication experiences of patients, general practitioners and hospital practitioners, alongside a corresponding discharge letter sample. BMJ Open, 2021, 11, e045465. | 1.9 | 3         |
| 23 | Implementing emergency admission risk prediction in general practice: a qualitative study. British Journal of General Practice, 2021, , BJGP.2021.0146.   | 1.4 | 3         |
| 24 | The low carb program for people with type 2 diabetes and pre-diabetes – a mixed methods feasibility study of signposting from general practice. BJGP Open, 2021, , BJGPO.2021.0137.   | 1.8 | 1         |
| 25 | Implementing an intervention to improve decision making around referral and admission to intensive care: Results of feasibility testing in three NHS hospitals. Journal of Evaluation in Clinical Practice, 2020, 26, 56-65.              | 1.8 | 9         |
| 26 | Promoting integrated care in prostate cancer through online prostate cancer-specific holistic needs assessment: a feasibility study in primary care. Supportive Care in Cancer, 2020, 28, 1817-1827.                                      | 2.2 | 13        |
| 27 | Achieving beneficial outcomes for children with life-limiting and life-threatening conditions receiving palliative care and their families: A realist review. Palliative Medicine, 2020, 34, 387-402.                                     | 3.1 | 22        |
| 28 | Translating a walking intervention for health professional delivery within primary care: A mixed-methods treatment fidelity assessment. British Journal of Health Psychology, 2020, 25, 17-38.  | 3.5 | 18        |
| 29 | Emergency department clinical leads' experiences of implementing primary care services where GPs work in or alongside emergency departments in the UK: a qualitative study. BMC Emergency Medicine, 2020, 20, 62.                         | 1.9 | 9         |
| 30 | GP home visits: essential patient care or disposable relic?. British Journal of General Practice, 2020, 70, 306-307.  | 1.4 | 7         |
| 31 | Adult patient perspectives on receiving hospital discharge letters: a corpus analysis of patient interviews. BMC Health Services Research, 2020, 20, 537.   | 2.2 | 2         |
| 32 | Women's experiences of diagnosis and management of polycystic ovary syndrome: a mixed-methods study in general practice. British Journal of General Practice, 2020, 70, e322-e329.  | 1.4 | 23        |
| 33 | GP perspectives on hospital discharge letters: an interview and focus group study. BJGP Open, 2020, 4, bjgpopen20X101031.   | 1.8 | 14        |
| 34 | Burnout, resilience, and perception of mindfulness programmes among GP trainees: a mixed-methods study. BJGP Open, 2020, 4, bjgpopen20X101058.  | 1.8 | 5         |
| 35 | ‘Good care’ throughout the prostate cancer pathway: Perspectives of patients and health professionals. European Journal of Oncology Nursing, 2019, 42, 36-41.   | 2.1 | 6         |
| 36 | Parental experiences of end of life care decision-making for children with life-limiting conditions in the paediatric intensive care unit: a qualitative interview study. BMJ Open, 2019, 9, e028548.                                     | 1.9 | 50        |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Primary palliative care needs urgent attention. <i>BMJ: British Medical Journal</i> , 2019, 365, l1827.  | 2.3 | 23        |
| 38 | The impact of general practitioners working in or alongside emergency departments: a rapid realist review. <i>BMJ Open</i> , 2019, 9, e024501.   | 1.9 | 39        |
| 39 | GP retention in the UK: a worsening crisis. Findings from a cross-sectional survey. <i>BMJ Open</i> , 2019, 9, e026048.  | 1.9 | 64        |
| 40 | “My gut feeling is we could do more...” a qualitative study exploring staff and patient perspectives before and after the implementation of an online prostate cancer-specific holistic needs assessment. <i>BMC Health Services Research</i> , 2019, 19, 115.   | 2.2 | 11        |
| 41 | Learning from the transfer of a fellowship programme to support primary care workforce needs in the UK: a qualitative study. <i>BMJ Open</i> , 2019, 9, e023384.   | 1.9 | 2         |
| 42 | Improving best practice for patients receiving hospital discharge letters: a realist review. <i>BMJ Open</i> , 2019, 9, e027588.   | 1.9 | 25        |
| 43 | The Discharge Communication Study: research protocol for a mixed methods study to investigate and triangulate discharge communication experiences of patients, GPs, and hospital professionals, alongside a corresponding discharge letter sample. <i>BMC Health Services Research</i> , 2019, 19, 825.            | 2.2 | 6         |
| 44 | Effects and costs of implementing predictive risk stratification in primary care: a randomised stepped wedge trial. <i>BMJ Quality and Safety</i> , 2019, 28, 697-705.   | 3.7 | 28        |
| 45 | Ethics and patient and public involvement with children and young people. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2019, 104, 195-200.  | 0.5 | 24        |
| 46 | Exploring the Perceived Usefulness and Ease of Use of a Personalized Web-Based Resource (Care) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50  | 3.0 | 10        |
| 47 | Developing an intervention around referral and admissions to intensive care: a mixed-methods study. <i>Health Services and Delivery Research</i> , 2019, 7, 1-284.   | 1.4 | 12        |
| 48 | Acupuncture in hospice settings: A qualitative exploration of patients’ experiences. <i>European Journal of Cancer Care</i> , 2018, 27, e12802.  | 1.5 | 8         |
| 49 | Men don't talk about their health, but will they <scp>CHAT</scp>? The potential of online holistic needs assessment in prostate cancer. <i>BJU International</i> , 2018, 121, 494-496.   | 2.5 | 7         |
| 50 | Bullying and negative appearance feedback among adolescents: Is it objective or misperceived weight that matters?. <i>Journal of Adolescence</i> , 2018, 63, 118-128.  | 2.4 | 24        |
| 51 | The journey through care: study protocol for a longitudinal qualitative interview study to investigate the healthcare experiences and preferences of children and young people with life-limiting and life-threatening conditions and their families in the West Midlands, UK. <i>BMJ Open</i> , 2018, 8, e018266. | 1.9 | 3         |
| 52 | Polycystic ovarian syndrome: an under-recognised problem?. <i>British Journal of General Practice</i> , 2018, 68, 244-244.   | 1.4 | 8         |
| 53 | Comparison of an Oral Factor Xa Inhibitor With Low Molecular Weight Heparin in Patients With Cancer With Venous Thromboembolism: Results of a Randomized Trial (SELECT-D). <i>Journal of Clinical Oncology</i> , 2018, 36, 2017-2023.  | 1.6 | 967       |
| 54 | HOspitals and patients WoRking in Unity (<i>HOW R U?</i>): telephone peer support to improve older patients’ quality of life after emergency department discharge in Melbourne, Australia—a multicentre prospective feasibility study. <i>BMJ Open</i> , 2018, 8, e020321.   | 1.9 | 9         |

| 55 | Affective instability in those with and without mental disorders: A case control study. <i>Journal of Affective Disorders</i> , 2018, 241, 492-498.   | 4.1 | 16        |
| 56 | Coproduction of a Theory-Based Digital Resource for Unpaid Carers (The Care Companion): Mixed-Methods Study. <i>JMIR Aging</i> , 2018, 1, e1.   | 3.0 | 10        |
| 57 | Predictive risk stratification model: a randomised stepped-wedge trial in primary care (PRISMATIC). <i>Health Services and Delivery Research</i> , 2018, 6, 1-164.  | 1.4 | 6         |
| 58 | Can a partnership between general practitioners and ambulance services reduce conveyance to emergency care?. <i>Emergency Medicine Journal</i> , 2017, 34, 459-465.   | 1.0 | 23        |
| 59 | Adolescent Desire for Cosmetic Surgery. <i>Plastic and Reconstructive Surgery</i> , 2017, 139, 1109-1118.   | 1.4 | 80        |
| 60 | Palliative care from diagnosis for all ages including children and young people. <i>BMJ: British Medical Journal</i> , 2017, 357, j2465.  | 2.3 | 0         |
| 61 | Paramedic Assessment of Older Adults After Falls, Including Community Care Referral Pathway: Cluster Randomized Trial. <i>Annals of Emergency Medicine</i> , 2017, 70, 495-505.e28.   | 0.6 | 31        |
| 62 | Specialist paediatric palliative care services: what are the benefits?. <i>Archives of Disease in Childhood</i> , 2017, 102, 923-929.   | 1.9 | 41        |
| 63 | Extended training to prepare GPs for future workforce needs: a qualitative investigation of a 1-year fellowship in urgent care. <i>British Journal of General Practice</i> , 2017, 67, e659-e667.   | 1.4 | 10        |
| 64 | Improving best practice for patients receiving hospital discharge letters: a realist review protocol. <i>BMJ Open</i> , 2017, 7, e018353.   | 1.9 | 19        |
| 65 | Does psychological functioning mediate the relationship between bullying involvement and weight loss preoccupation in adolescents? A two-stage cross-sectional study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 38.  | 4.6 | 16        |
| 66 | Genomics in general practice: Generation Genome. <i>British Journal of General Practice</i> , 2017, 67, 540-541.  | 1.4 | 6         |
| 67 | Factors influencing career intentions on completion of general practice vocational training in England: a cross-sectional study. <i>BMJ Open</i> , 2017, 7, e017143.  | 1.9 | 28        |
| 68 | Keeping newly qualified GPs in primary care. <i>Practice Management</i> , 2017, 27, 22-24.  | 0.0 | 0         |
| 69 | Integrated Care in Prostate Cancer (ICARE-P): Nonrandomized Controlled Feasibility Study of Online Holistic Needs Assessment, Linking the Patient and the Health Care Team. <i>JMIR Research Protocols</i> , 2017, 6, e147.   | 1.0 | 7         |
| 70 | Support and Assessment for Fall Emergency Referrals (SAFER) 2: a cluster randomised trial and systematic review of clinical effectiveness and cost-effectiveness of new protocols for emergency ambulance paramedics to assess older people following a fall with referral to community-based care when appropriate. <i>Health Technology Assessment</i> , 2017, 21, 1-218. | 2.8 | 38        |
| 71 | The general practitioner workforce crisis in England: a qualitative study of how appraisal and revalidation are contributing to intentions to leave practice. <i>BMC Family Practice</i> , 2016, 17, 84.  | 2.9 | 57        |
| 72 | The threatened self: Considerations of time, place, and uncertainty in advanced illness. <i>British Journal of Health Psychology</i> , 2016, 21, 351-373.   | 3.5 | 23        |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 73 | â€œMy body's falling apart.â€™ Understanding the experiences of patients with advanced multimorbidity to improve care: serial interviews with patients and carers. <i>BMJ Supportive and Palliative Care</i> , 2016, 6, 60-65.                  | 1.6 | 66        |
| 74 | Childhood bullying: implications for general practice. <i>British Journal of General Practice</i> , 2016, 66, 504-505.  | 1.4 | 3         |
| 75 | Providing end-of-life care in general practice: findings of a national GP questionnaire survey. <i>British Journal of General Practice</i> , 2016, 66, e647-e653.   | 1.4 | 74        |
| 76 | Young people who are being bullied â€œ do they want general practice support?. <i>BMC Family Practice</i> , 2016, 17, 116.  | 2.9 | 22        |
| 77 | HOspitals and patients WoRking in Unity (HOW R U?): protocol for a prospective feasibility study of telephone peer support to improve older patients' quality of life after emergency department discharge. <i>BMJ Open</i> , 2016, 6, e013179. | 1.9 | 3         |
| 78 | Is it possible to predict improved diabetes outcomes following diabetes self-management education: a mixed-methods longitudinal design. <i>BMJ Open</i> , 2015, 5, e008781.   | 1.9 | 7         |
| 79 | Retaining the general practitioner workforce in England: what matters to GPs? A cross-sectional study. <i>BMC Family Practice</i> , 2015, 16, 140.  | 2.9 | 56        |
| 80 | Advance Care Planning in palliative care: A qualitative investigation into the perspective of Paediatric Intensive Care Unit staff. <i>Palliative Medicine</i> , 2015, 29, 371-379.   | 3.1 | 44        |
| 81 | The effects of a brief intervention to promote walking on Theory of Planned Behavior constructs: A cluster randomized controlled trial in general practice. <i>Patient Education and Counseling</i> , 2015, 98, 651-659.                        | 2.2 | 22        |
| 82 | Support and Assessment for Fall Emergency Referrals (SAFER 1): Cluster Randomised Trial of Computerised Clinical Decision Support for Paramedics. <i>PLoS ONE</i> , 2014, 9, e106436.   | 2.5 | 38        |
| 83 | Use of formal advance care planning documents: a national survey of UK Paediatric Intensive Care Units. <i>Archives of Disease in Childhood</i> , 2014, 99, 327-330.  | 1.9 | 22        |
| 84 | Intervening in primary care against childhood bullying: an increasingly pressing public health need. <i>Journal of the Royal Society of Medicine</i> , 2014, 107, 219-223.  | 2.0 | 28        |
| 85 | A study of automated self-assessment in a primary care student health centre setting. <i>Journal of Telemedicine and Telecare</i> , 2014, 20, 123-127.  | 2.7 | 28        |
| 86 | Oral health: a neglected area of routine diabetes care?. <i>British Journal of General Practice</i> , 2014, 64, 103-104.  | 1.4 | 14        |
| 87 | Oral health awareness and care preferences in patients with diabetes: a qualitative study. <i>Family Practice</i> , 2013, 30, 113-118.  | 1.9 | 19        |
| 88 | Advance care planning is everybodyâ€™s business. <i>BMJ</i> , The, 2013, 347, f6748.  | 6.0 | 1         |
| 89 | Coordination of care for individuals with advanced progressive conditions: a multi-site ethnographic and serial interview study. <i>British Journal of General Practice</i> , 2013, 63, e580-e588.  | 1.4 | 51        |
| 90 | Search terms and a validated brief search filter to retrieve publications on health-related values in Medline: a word frequency analysis study. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2012, 19, 479-488.      | 4.4 | 12        |

| #   | ARTICLE  | IF  | CITATIONS |
|-----|--|-----|-----------|
| 91  | Support and assessment for fall emergency referrals (SAFER 2) research protocol: cluster randomised trial of the clinical and cost effectiveness of new protocols for emergency ambulance paramedics to assess and refer to appropriate community-based care. <i>BMJ Open</i> , 2012, 2, e002169.                                      | 1.9 | 21        |
| 92  | Why do organisations engage in HR initiatives? A test case of a health and wellbeing intervention. <i>Employee Relations</i> , 2012, 34, 443-462.  | 2.4 | 5         |
| 93  | New models of follow-up in prostate cancer: a role for information technology?. <i>BJU International</i> , 2012, 110, 1224-1226.   | 2.5 | 1         |
| 94  | Oral health awareness in adult patients with diabetes: a questionnaire study. <i>British Dental Journal</i> , 2011, 211, E12-E12.  | 0.6 | 54        |
| 95  | “It don't make sense to worry too much”: the experience of prostate cancer in African-Caribbean men in the UK. <i>European Journal of Cancer Care</i> , 2011, 20, 62-71.   | 1.5 | 29        |
| 96  | Enhancing delivery of health behaviour change interventions in primary care: A meta-synthesis of views and experiences of primary care nurses. <i>Patient Education and Counseling</i> , 2011, 85, 315-322.  | 2.2 | 40        |
| 97  | Effectiveness and impact of networked communication interventions in young people with mental health conditions: A systematic review. <i>Patient Education and Counseling</i> , 2011, 85, e108-e119.   | 2.2 | 35        |
| 98  | A cluster randomised controlled trial of the efficacy of a brief walking intervention delivered in primary care: Study protocol. <i>BMC Family Practice</i> , 2011, 12, 56.  | 2.9 | 13        |
| 99  | Systematic review of communication technologies to promote access and engagement of young people with diabetes into healthcare. <i>BMC Endocrine Disorders</i> , 2011, 11, 1.  | 2.2 | 70        |
| 100 | Hospital consultants breaking bad news with simulated patients: An analysis of communication using the Roter Interaction Analysis System. <i>Patient Education and Counseling</i> , 2011, 83, 185-194.   | 2.2 | 46        |
| 101 | Support and Assessment for Fall Emergency Referrals (SAFER 1) trial protocol. Computerised on-scene decision support for emergency ambulance staff to assess and plan care for older people who have fallen: evaluation of costs and benefits using a pragmatic cluster randomised trial. <i>BMC Emergency Medicine</i> , 2010, 10, 2. | 1.9 | 27        |
| 102 | Absence management and presenteeism: the pressures on employees to attend work and the impact of attendance on performance. <i>Human Resource Management Journal</i> , 2010, 20, 311-328.  | 5.7 | 107       |
