#	ARTICLE	IF	CITATIONS
1	Eastern Conceptualizations of Happiness: Fundamental Differences with Western Views. <i>Journal of Happiness Studies</i> , 2014, 15, 475-493.	1.9	218
2	Social Participation, Sense of Community and Social Well Being: A Study on American, Italian and Iranian University Students. <i>Social Indicators Research</i> , 2008, 89, 97-112.	1.4	202
3	Aversion to Happiness Across Cultures: A Review of Where and Why People are Averse to Happiness. <i>Journal of Happiness Studies</i> , 2014, 15, 717-735.	1.9	154
4	Revisiting the Empirical Distinction Between Hedonic and Eudaimonic Aspects of Well-Being Using Exploratory Structural Equation Modeling. <i>Journal of Happiness Studies</i> , 2016, 17, 2023-2036.	1.9	123
5	Measurement invariance of the Mental Health Continuum-Short Form (MHC-SF) across three cultural groups. <i>Personality and Individual Differences</i> , 2013, 55, 755-759.	1.6	118
6	Big Five Personality Traits and Self-Esteem as Predictors of Life Satisfaction in Iranian Muslim University Students. <i>Journal of Happiness Studies</i> , 2011, 12, 105-113.	1.9	99
7	Cross-Cultural Validation of Fear of Happiness Scale Across 14 National Groups. <i>Journal of Cross-Cultural Psychology</i> , 2014, 45, 246-264.	1.0	94
8	The influence of fear of happiness beliefs on responses to the satisfaction with life scale. <i>Personality and Individual Differences</i> , 2013, 54, 647-651.	1.6	91
9	A Comparison of Western and Islamic Conceptions of Happiness. <i>Journal of Happiness Studies</i> , 2013, 14, 1857-1874.	1.9	85
10	Gender differences in the predictors of life satisfaction across 150 nations. <i>Personality and Individual Differences</i> , 2018, 135, 312-315.	1.6	84
11	Value priorities as predictors of hedonic and eudaimonic aspects of well-being. <i>Personality and Individual Differences</i> , 2009, 47, 294-298.	1.6	82
12	Investigating the relationships between subjective well-being and psychological well-being over two decades.. <i>Emotion</i> , 2019, 19, 183-187.	1.5	78
13	A Positive Psychology Intervention Program in a Culturally-Diverse University: Boosting Happiness and Reducing Fear. <i>Journal of Happiness Studies</i> , 2019, 20, 1141-1162.	1.9	76
14	The relationship between gender and life satisfaction: analysis across demographic groups and global regions. <i>Archives of Women's Mental Health</i> , 2020, 23, 331-338.	1.2	66
15	Towards a greater global understanding of wellbeing: A proposal for a more inclusive measure. <i>International Journal of Wellbeing</i> , 2020, 10, 1-18.	1.5	65
16	Burnout, depression, efficacy beliefs, and work-related variables among school teachers. <i>International Journal of Educational Research</i> , 2019, 95, 97-108.	1.2	62
17	Optimal human functioning around the world: A new index of eudaimonic well-being in 166 nations. <i>British Journal of Psychology</i> , 2018, 109, 637-655.	1.2	41
18	Investigation of the Contribution of Spirituality and Religiousness to Hedonic and Eudaimonic Well-Being in Iranian Young Adults. <i>Journal of Happiness Studies</i> , 2011, 12, 915-930.	1.9	40

#	ARTICLE	IF	CITATIONS
19	Fragility of Happiness Beliefs Across 15 National Groups. <i>Journal of Happiness Studies</i> , 2015, 16, 1185-1210.	1.9	40
20	Factor structure and criterion validity of original and short versions of the Negative and Positive Affect Scale (NAPAS). <i>Personality and Individual Differences</i> , 2017, 105, 233-237.	1.6	38
21	The Big Five personality domains as predictors of social wellbeing in Iranian university students. <i>Journal of Social and Personal Relationships</i> , 2012, 29, 639-660.	1.4	36
22	Individualism as the moderator of the relationship between hedonism and happiness: A study in 19 nations. <i>Personality and Individual Differences</i> , 2016, 94, 149-152.	1.6	36
23	Levels of Mental Health Continuum and Personality Traits. <i>Social Indicators Research</i> , 2009, 90, 211-224.	1.4	35
24	Religiosity Moderates the Relationship between Income Inequality and Life Satisfaction across the Globe. <i>Social Indicators Research</i> , 2016, 128, 731-750.	1.4	34
25	A New Look at the Factor Structure of the MHC-SF in Iran and the United States Using Exploratory Structural Equation Modeling. <i>Journal of Clinical Psychology</i> , 2016, 72, 701-713.	1.0	34
26	The factor structure of the mental health continuum-short form (MHC-SF) in Serbia: an evaluation using exploratory structural equation modeling. <i>Journal of Mental Health</i> , 2017, 26, 510-515.	1.0	34
27	Lay Conceptions of Happiness: Associations With Reported Well-Being, Personality Traits, and Materialism. <i>Frontiers in Psychology</i> , 2019, 10, 2377.	1.1	34
28	Directionality of the relationship between social well-being and subjective well-being: evidence from a 20-year longitudinal study. <i>Quality of Life Research</i> , 2018, 27, 2137-2145.	1.5	33
29	Reinvestigation of the factor structure of the MHC-SF in the Netherlands: Contributions of exploratory structural equation modeling. <i>Personality and Individual Differences</i> , 2016, 97, 8-12.	1.6	30
30	The Value of Exploratory Structural Equation Modeling in Identifying Factor Overlap in the Mental Health Continuum-Short Form (MHC-SF): A Study with a New Zealand Sample. <i>Journal of Happiness Studies</i> , 2017, 18, 1061-1074.	1.9	30
31	Religiosity's Nomological Network and Temporal Change. <i>European Psychologist</i> , 2020, 25, 26-40.	1.8	30
32	Work's Family Spillover and Subjective Well-Being: The Moderating Role of Coping Strategies. <i>Journal of Happiness Studies</i> , 2020, 21, 2909-2929.	1.9	29
33	The Dual Model of Materialism: Success Versus Happiness Materialism on Present and Future Life Satisfaction. <i>Applied Research in Quality of Life</i> , 2021, 16, 201-220.	1.4	29
34	Fear and fragility of happiness as mediators of the relationship between insecure attachment and subjective well-being. <i>Personality and Individual Differences</i> , 2018, 123, 115-118.	1.6	28
35	Conceptions of happiness and life satisfaction: An exploratory study in 14 national groups. <i>Personality and Individual Differences</i> , 2016, 102, 145-148.	1.6	26
36	Factor structure of mental well-being: Contributions of exploratory structural equation modeling. <i>Personality and Individual Differences</i> , 2016, 102, 107-110.	1.6	25

#	ARTICLE	IF	CITATIONS
37	Discriminant validity of hedonic, social, and psychological well-being in two Italian samples. <i>Personality and Individual Differences</i> , 2017, 109, 23-27.	1.6	25
38	A multidimensional understanding of prosperity and well-being at country level: Data-driven explorations. <i>PLoS ONE</i> , 2019, 14, e0223221.	1.1	24
39	Differential Relationships of Hedonic and Eudaimonic Well-Being with Self-Control and Long-Term Orientation1. <i>Japanese Psychological Research</i> , 2021, 63, 47-57.	0.4	24
40	Similarities and differences in predictors of life satisfaction across age groups: A 150-country study. <i>Journal of Health Psychology</i> , 2021, 26, 401-411.	1.3	24
41	Mediators of the relationship between externality of happiness and subjective well-being. <i>Personality and Individual Differences</i> , 2017, 119, 147-151.	1.6	23
42	Longitudinal associations between subjective and psychological well-being in Japan: A four-year cross-lagged panel study. <i>Personality and Individual Differences</i> , 2018, 134, 289-292.	1.6	22
43	Optimism as the moderator of the relationship between fragility of happiness beliefs and experienced happiness. <i>Personality and Individual Differences</i> , 2017, 106, 61-63.	1.6	21
44	Cultural religiosity as the moderator of the relationship between affective experience and life satisfaction: A study in 147 countries.. <i>Emotion</i> , 2019, 19, 629-636.	1.5	21
45	Subjective health in relation to hedonic and eudaimonic wellbeing: Evidence from the Gallup World Poll. <i>Journal of Health Psychology</i> , 2021, 26, 438-448.	1.3	20
46	Self-Esteem mediates the relationship between spirituality and subjective well-being in Iran. <i>International Journal of Psychology</i> , 2015, 50, 115-120.	1.7	19
47	Gender Differences in the Relationship Between Domain-Specific and General Life Satisfaction: A Study in Iran and Serbia. <i>Applied Research in Quality of Life</i> , 2017, 12, 185-204.	1.4	19
48	Differences in the endorsement of various conceptions of well-being between two Iranian groups.. <i>Psychology of Religion and Spirituality</i> , 2014, 6, 138-149.	0.9	18
49	The Contribution of Positive and Negative Affect to Life Satisfaction across Age. <i>Applied Research in Quality of Life</i> , 2022, 17, 511-524.	1.4	18
50	The Factor Structure and Measurement Invariance of Positive and Negative Affect. <i>European Journal of Psychological Assessment</i> , 2016, 32, 265-272.	1.7	18
51	Structural and discriminant validity of the tripartite model of mental well-being: differential relationships with the big five traits. <i>Journal of Mental Health</i> , 2019, 28, 168-174.	1.0	18
52	Measurement Invariance of the Scale of Positive and Negative Experience Across 13 Countries. <i>Assessment</i> , 2022, 29, 1507-1521.	1.9	17
53	Four Fundamental Distinctions in Conceptions of Wellbeing Across Cultures. , 2021, , 675-703.		17
54	Income satisfaction is less predictive of life satisfaction in individuals who believe their lives have meaning or purpose: A 94-nation study. <i>Personality and Individual Differences</i> , 2018, 129, 92-94.	1.6	16

#	ARTICLE	IF	CITATIONS
55	National religiosity eases the psychological burden of poverty. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021, 118, .	3.3	16
56	Fragility of happiness moderates the influence of negative predictors of subjective well-Being. <i>Anxiety, Stress and Coping</i> , 2018, 31, 222-227.	1.7	14
57	Predictors of life satisfaction in a large nationally representative Japanese sample. <i>Social Science Research</i> , 2019, 82, 45-58.	1.1	14
58	Investigation of the factor structure of spirituality and religiosity in Iranian Shiite university students. <i>International Journal of Psychology</i> , 2012, 47, 211-221.	1.7	13
59	Factor Structure of Subjective Well-Being in Iran. <i>Journal of Personality Assessment</i> , 2016, 98, 435-443.	1.3	13
60	A two-dimensional conceptual framework for understanding mental well-being. <i>PLoS ONE</i> , 2019, 14, e0214045.	1.1	13
61	Conceptions of Happiness Mediate the Relationship Between the Dark Triad and Well-Being. <i>Frontiers in Psychology</i> , 2021, 12, 643351.	1.1	13
