#	ARTICLE	IF	CITATIONS
1	Prehospital continuous positive airway pressure (CPAP) for acute respiratory distress: a randomised controlled trial. <i>Emergency Medicine Journal</i> , 2022, 39, 37-44.	1.0	9
2	The Emerging Drugs Network of Australia: A toxico-surveillance system of illicit and emerging drugs in the emergency department. <i>EMA - Emergency Medicine Australasia</i> , 2022, 34, 58-64.	1.1	14
3	Surveillance for severe influenza and COVID-19 in patients admitted to sentinel Australian hospitals in 2020: the Influenza Complications Alert Network (FluCAN). <i>Communicable Diseases Intelligence (2018)</i> , 2022, 45, .	0.7	2
4	The Monitoring with Advanced Sensors, Transmission and E-Resuscitation in Traumatic Brain Injury (MASTER-TBI) collaborative: bringing data science to the ICU bedside. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2022, 24, 39-42.	0.1	3
5	Young people with prior health service contacts have increased risk of repeated alcohol-related harm hospitalisations. <i>Drug and Alcohol Review</i> , 2022, 41, 1226-1235.	2.1	1
6	Influenza epidemiology in patients admitted to sentinel Australian hospitals in 2019: the Influenza Complications Alert Network FluCAN. <i>Communicable Diseases Intelligence (2018)</i> , 2022, 46, .	0.7	0
7	2.8% is the answer. What is the question and what is the question behind the question?. <i>EMA - Emergency Medicine Australasia</i> , 2022, 34, 310-311.	1.1	0
8	No association between intravenous fluid volume and endothelial glycocalyx shedding in patients undergoing resuscitation for sepsis in the emergency department. <i>Scientific Reports</i> , 2022, 12, .	3.3	4
9	Alcohol-related harm in emergency departments: linking to subsequent hospitalizations to quantify under-reporting of presentations. <i>Addiction</i> , 2021, 116, 1371-1380.	3.3	7
10	Non-linear association between arterial oxygen tension and survival after out-of-hospital cardiac arrest: A multicentre observational study. <i>Resuscitation</i> , 2021, 158, 130-138.	3.0	6
11	Single high-sensitivity troponin levels to assess patients with potential acute coronary syndromes. <i>Heart</i> , 2021, 107, 721-727.	2.9	6
12	Research, kindness and the antifragility of emergency medicine. <i>EMA - Emergency Medicine Australasia</i> , 2021, 33, 385-387.	1.1	3
13	Is a nudge all we need to promote deliberate clinical inertia and thoughtful clinical decision making?. <i>EMA - Emergency Medicine Australasia</i> , 2021, 33, 748-752.	1.1	0
14	Predicting outcome following mild traumatic brain injury: protocol for the longitudinal, prospective, observational Concussion Recovery (CREST) cohort study. <i>BMJ Open</i> , 2021, 11, e046460.	1.9	5
15	Arterial carbon dioxide tension has a non-linear association with survival after out-of-hospital cardiac arrest: A multicentre observational study. <i>Resuscitation</i> , 2021, 162, 82-90.	3.0	5
16	Small nucleolar RNA networks are up-regulated during human anaphylaxis. <i>Clinical and Experimental Allergy</i> , 2021, 51, 1310-1321.	2.9	5
17	The use of computed tomography in the management of injury in tertiary emergency departments in Western Australia: Evidence of over-testing?. <i>Academic Emergency Medicine</i> , 2021, , .	1.8	1
18	Neurological outcome in adult out-of-hospital cardiac arrest – Not all doom and gloom!. <i>Resuscitation</i> , 2021, 167, 227-232.	3.0	5

#	ARTICLE	IF	CITATIONS
19	Effect of age and comorbidity on the ability of quickâ€œSequential Organ Failure Assessment score to predict outcome in emergency department patients with suspected infection. EMA - Emergency Medicine Australasia, 2021, 33, 679-684.	1.1	3
20	When a health policy cuts both ways: Impact of the National Emergency Access Target policy on staff and emergency department performance. EMA - Emergency Medicine Australasia, 2020, 32, 228-239.	1.1	7
21	Towards the Development of an Integrative, Evidence-Based Suite of Indicators for the Prediction of Outcome Following Mild Traumatic Brain Injury: Results from a Pilot Study. Brain Sciences, 2020, 10, 23.	2.3	10
22	A comparison of major trauma patient transport destination in metropolitan Perth, Western Australia. Australasian Emergency Care, 2020, 23, 90-96.	1.5	3
23	Variations in the care of agitated patients in Australia and New Zealand ambulance services. EMA - Emergency Medicine Australasia, 2020, 32, 438-445.	1.1	5
24	Impact of the Four-Hour Rule policy on emergency medical services delays in Australian EDs: a longitudinal cohort study. Emergency Medicine Journal, 2020, 37, emermed-2019-208958.	1.0	1
25	Comparison of illicit drugâ€œrelated presentations to the emergency department: Preâ€œCOVID <i>versus</i> COVID. EMA - Emergency Medicine Australasia, 2020, 32, 901-901.	1.1	5
26	Thrombolysis with alteplase 3â€œ4.5 hours after acute ischaemic stroke: trial reanalysis adjusted for baseline imbalances. BMJ Evidence-Based Medicine, 2020, 26, bmjebm-2020-111517.	3.5	1
27	Snapshot audit of emergency department workplace violence. EMA - Emergency Medicine Australasia, 2020, 32, 529-530.	1.1	1
28	Snapshot audit of illicit drugâ€œrelated presentations. EMA - Emergency Medicine Australasia, 2020, 32, 530-532.	1.1	4
29	The signal is clear: It's noisy in the emergency department. EMA - Emergency Medicine Australasia, 2020, 32, 354-356.	1.1	1
30	Consumer involvement in emergency medicine research: Lessons from engaging sepsis survivors. EMA - Emergency Medicine Australasia, 2020, 32, 515-517.	1.1	0
31	Research capacity of Australian and New Zealand emergency medicine departments. International Journal of Emergency Medicine, 2020, 13, 16.	1.6	2
32	The Australasian Resuscitation In Sepsis Evaluation: Fluids or vasopressors in emergency department sepsis (ARISE FLUIDS), a multiâ€œcentre observational study describing current practice in Australia and New Zealand. EMA - Emergency Medicine Australasia, 2020, 32, 586-598.	1.1	32
33	â€œSorry, what did you say?â€œCommunicating defibrillator retrieval and use in OHCA emergency calls. Resuscitation, 2020, 156, 182-189.	3.0	5
34	Impact of the fourâ€œhour National Emergency Access Target on 30 day mortality, access block and chronic emergency department overcrowding in Australian emergency departments. EMA - Emergency Medicine Australasia, 2019, 31, 58-66.	1.1	25
35	The Australasian Resuscitation In Sepsis Evaluation: FLUID or vasopressors In Emergency Department Sepsis, a multicentre observational study (ARISE FLUIDS observational study): Rationale, methods and analysis plan. EMA - Emergency Medicine Australasia, 2019, 31, 90-96.	1.1	15
36	Perceptions and experiences of emergency department staff during the implementation of the four-hour rule/national emergency access target policy in Australia: a qualitative social dynamic perspective. BMC Health Services Research, 2019, 19, 82.	2.2	14

#	ARTICLE	IF	CITATIONS
37	Mental health patients in emergency departments are suffering: the national failure and shame of the current system. A report on the Australasian College for Emergency Medicine's Mental Health in the Emergency Department Summit. <i>Australasian Psychiatry</i> , 2019, 27, 615-617.	0.7	9
38	Older age is associated with a reduced likelihood of ambulance transport to a trauma centre after major trauma in Perth. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 763-771.	1.1	12
39	Bolus therapy with 3% hypertonic saline or 0.9% saline in emergency department patients with suspected sepsis: A pilot randomised controlled trial. <i>Journal of Critical Care</i> , 2019, 52, 33-39.	2.2	9
40	Direct cost of alcohol-related presentations to Royal Perth Hospital emergency department. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 1045-1052.	1.1	5
41	National Partnership for Maternal Safety: Consensus Bundle on Venous Thromboembolism. <i>Obstetrics and Gynecology</i> , 2019, 134, 1115-1117.	2.4	1
42	Impact of the Four-Hour Rule/National Emergency Access Target policy implementation on emergency department staff: A qualitative perspective of emergency department management changes. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 362-371.	1.1	4
43	Moving Beyond Diagnostic Accuracy With Systematic Reviews and Meta-analyses. <i>Academic Emergency Medicine</i> , 2019, 26, 580-583.	1.8	0
44	Qualitative analysis of perceptions and experiences of emergency department staff in relation to implementation and outcomes of the Four-Hour Rule/National Emergency Access Target in Australia. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 378-386.	1.1	9
45	Markers Involved in Innate Immunity and Neutrophil Activation are Elevated during Acute Human Anaphylaxis: Validation of a Microarray Study. <i>Journal of Innate Immunity</i> , 2019, 11, 63-73.	3.8	17
46	An early warning system for emerging drugs of concern in the emergency department: Protocol for the Western Australian Illicit Substance Evaluation (WISE) study. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 411-416.	1.1	15
47	Response to Re: Impact of the four-hour National Emergency Access Target on 30 day mortality, access block and chronic emergency department overcrowding in Australian emergency departments. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 147-148.	1.1	4
48	Longer Prehospital Time was not Associated with Mortality in Major Trauma: A Retrospective Cohort Study. <i>Prehospital Emergency Care</i> , 2019, 23, 527-537.	1.8	18
49	Impact of the National Emergency Access Target policy on emergency departments' performance: A time-trend analysis for New South Wales, Australian Capital Territory and Queensland. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 253-261.	1.1	10
50	Near-infrared spectroscopy to predict organ failure and outcome in sepsis: the Assessing Risk in Sepsis using a Tissue Oxygen Saturation (ARISTOS) study. <i>European Journal of Emergency Medicine</i> , 2019, 26, 174-179.	1.1	13
51	Alcohol-related harm in emergency departments: a prospective, multi-centre study. <i>Addiction</i> , 2018, 113, 623-632.	3.3	33
52	Re: Medical student enquiries on the art of clinical inertia. <i>EMA - Emergency Medicine Australasia</i> , 2018, 30, 435-436.	1.1	1
53	Don't just do something, stand there! The value and art of deliberate clinical inertia. <i>EMA - Emergency Medicine Australasia</i> , 2018, 30, 273-278.	1.1	24
54	Reply to: "Cardiac arrest and breathing, why bother?" Because it's too late if we wait for a definitive diagnosis. <i>Resuscitation</i> , 2018, 126, e10-e11.	3.0	1

#	ARTICLE	IF	CITATIONS
55	â€˜What the hell is water?â€™ How to use deliberate clinical inertia in common emergency department situations. EMA - Emergency Medicine Australasia, 2018, 30, 426-430.	1.1	9
56	A pointâ€prevalence survey of alcoholâ€related presentations to Australasian emergency departments. Australian and New Zealand Journal of Public Health, 2018, 42, 218.	1.8	6
57	Patient perspectives on priorities for emergency medicine research: The PERSPEX study. EMA - Emergency Medicine Australasia, 2018, 30, 228-235.	1.1	2
58	Serum mast cell tryptase measurements: Sensitivity and specificity for a diagnosis of anaphylaxis in emergency department patients with shock or hypoxaemia. EMA - Emergency Medicine Australasia, 2018, 30, 366-374.	1.1	28
59	â€˜Weâ€™re going to do CPRâ€™: A linguistic study of the words used to initiate dispatcher-assisted CPR and their association with caller agreement. Resuscitation, 2018, 133, 95-100.	3.0	25
60	Restricted fluid resuscitation in suspected sepsis associated hypotension (REFRESH): a pilot randomised controlled trial. Intensive Care Medicine, 2018, 44, 2070-2078.	8.2	89
61	Direct transport to a PCI-capable hospital is associated with improved survival after adult out-of-hospital cardiac arrest of medical aetiology. Resuscitation, 2018, 128, 76-82.	3.0	28
62	Deliberate clinical inertia: Using metaâ€cognition to improve decisionâ€making. EMA - Emergency Medicine Australasia, 2018, 30, 585-590.	1.1	18
63	Glycocalyx biomarker syndecan-1 is a stronger predictor of respiratory failure in patients with sepsis due to pneumonia, compared to endocan. Journal of Critical Care, 2018, 47, 93-98.	2.2	42
64	â€˜Sheâ€™s sort of breathing â€™: What linguistic factors determine call-taker recognition of agonal breathing in emergency calls for cardiac arrest?. Resuscitation, 2018, 122, 92-98.	3.0	45
65	Impact of the Four-Hour Rule in Western Australian hospitals: Trend analysis of a large record linkage study 2002-2013. PLoS ONE, 2018, 13, e0193902.	2.5	16
66	The probability of probability and research truths. EMA - Emergency Medicine Australasia, 2017, 29, 242-244.	1.1	3
67	Resistin and NGAL are associated with inflammatory response, endothelial activation and clinical outcomes in sepsis. Inflammation Research, 2017, 66, 611-619.	4.0	40
68	â€˜Tell me exactly whatâ€™s happened â€™: When linguistic choices affect the efficiency of emergency calls for cardiac arrest. Resuscitation, 2017, 117, 58-65.	3.0	23
69	Capturing the â€˜artâ€™ of emergency medicine: Does film foster reflection in medical students?. EMA - Emergency Medicine Australasia, 2017, 29, 433-437.	1.1	7
70	The ACEM trainee research requirement is no longer relevant. No. EMA - Emergency Medicine Australasia, 2017, 29, 726-727.	1.1	0
71	Alcoholâ€related presentations to the Royal Perth Hospital Emergency Department: A prospective study. EMA - Emergency Medicine Australasia, 2017, 29, 531-538.	1.1	12
72	The time paradox of emergency medicine: Another inverted U curve. EMA - Emergency Medicine Australasia, 2017, 29, 730-732.	1.1	3

#	ARTICLE	IF	CITATIONS
73	The linguistic and interactional factors impacting recognition and dispatch in emergency calls for out-of-hospital cardiac arrest: a mixed-method linguistic analysis study protocol. <i>BMJ Open</i> , 2017, 7, e016510.	1.9	10
74	Endothelial glycocalyx biomarkers increase in patients with infection during Emergency Department treatment. <i>Journal of Critical Care</i> , 2017, 42, 304-309.	2.2	41
75	Elevation of oxidative stress indicators in a pilot study of plasma following traumatic brain injury. <i>Journal of Clinical Neuroscience</i> , 2017, 35, 104-108.	1.5	21
76	Distinct inflammatory responses differentiate cerebral infarct from transient ischaemic attack. <i>Journal of Clinical Neuroscience</i> , 2017, 35, 97-103.	1.5	8
77	REstricted Fluid RESuscitation in Sepsis-associated Hypotension (REFRESH): study protocol for a pilot randomised controlled trial. <i>Trials</i> , 2017, 18, 399.	1.6	41
78	Australia Day 2016: alcohol-related presentations to emergency departments. <i>Medical Journal of Australia</i> , 2017, 206, 40-40.	1.7	5
79	Perceptions of Australasian emergency department staff of the impact of alcohol-related presentations. <i>Medical Journal of Australia</i> , 2016, 204, 155-155.	1.7	29
80	The inverted U curve and emergency medicine: Overdiagnosis and the law of unintended consequences. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 480-482.	1.1	14
81	Paramedic Checklists do not Accurately Identify Post-ictal or Hypoglycaemic Patients Suitable for Discharge at the Scene. <i>Prehospital and Disaster Medicine</i> , 2016, 31, 282-293.	1.3	7
82	Association between ambulance dispatch priority and patient condition. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 716-724.	1.1	23
83	Impact of population ageing on growing demand for emergency transportation to emergency departments in Western Australia, 2005-2020. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 551-557.	1.1	7
84	Review article: Effectiveness of ultra-brief interventions in the emergency department to reduce alcohol consumption: A systematic review. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 629-640.	1.1	29
85	Which patients should be transported to the emergency department? A perpetual prehospital dilemma. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 647-653.	1.1	12
86	Truth, thinking and thrombolysis. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 490-492.	1.1	1
87	The TARGET pain study: Lessons from a painful marathon. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 603-606.	1.1	0
88	Use of serum lactate levels to predict survival for patients with out-of-hospital cardiac arrest: A cohort study. <i>EMA - Emergency Medicine Australasia</i> , 2016, 28, 171-178.	1.1	35
89	Is it Appropriate for Patients to be Discharged at the Scene by Paramedics?. <i>Prehospital Emergency Care</i> , 2016, 20, 539-549.	1.8	40
90	Changes in differential gene expression during a fatal stroke. <i>Journal of Clinical Neuroscience</i> , 2016, 23, 130-134.	1.5	2

#	ARTICLE	IF	CITATIONS
91	RESPECT-ED: Rates of Pulmonary Emboli (PE) and Sub-Segmental PE with Modern Computed Tomographic Pulmonary Angiograms in Emergency Departments: A Multi-Center Observational Study Finds Significant Yield Variation, Uncorrelated with Use or Small PE Rates. PLoS ONE, 2016, 11, e0166483.	2.5	37
92	Changes in differential gene expression during a fatal stroke. Journal of Clinical Neuroscience, 2016, 23, 130-4.	1.5	1
93	Best practice pain management in the emergency department: A cluster randomised, controlled, intervention trial. EMA - Emergency Medicine Australasia, 2015, 27, 549-557.	1.1	27
94	A bolt out of the blue: the night of the blue pills. Medical Journal of Australia, 2015, 202, 543-543.	1.7	5
95	A comparison of multivariate and univariate time series approaches to modelling and forecasting emergency department demand in Western Australia. Journal of Biomedical Informatics, 2015, 57, 62-73.	4.3	89
96	Paramedic Differentiation of Asthma and COPD in the Prehospital Setting Is Difficult. Prehospital Emergency Care, 2015, 19, 535-543.	1.8	16
97	Predicting the number of emergency department presentations in Western Australia: A population-based time series analysis. EMA - Emergency Medicine Australasia, 2015, 27, 16-21.	1.1	22
98	Growth in Western Australian emergency department demand during 2007-2013 is due to people with urgent and complex care needs. EMA - Emergency Medicine Australasia, 2015, 27, 202-209.	1.1	22
99	In reply. Annals of Emergency Medicine, 2015, 65, 124-125.	0.6	1
100	Survey of alcohol-related presentations to Australasian emergency departments. Medical Journal of Australia, 2014, 201, 584-587.	1.7	50
101	Randomized Controlled Trial of Intravenous Antivenom Versus Placebo for Latrodectism: The Second Redback Antivenom Evaluation (RAVE-II) Study. Annals of Emergency Medicine, 2014, 64, 620-628.e2.	0.6	45
102	Trainee perspectives on usefulness of the Trainee Research Requirement. EMA - Emergency Medicine Australasia, 2014, 26, 392-397.	1.1	8
103	Comparison of PIRQ, SOFA, and MEDS Scores for Predicting Mortality in Emergency Department Patients With Severe Sepsis and Septic Shock. Academic Emergency Medicine, 2014, 21, 1257-1263.	1.8	89
104	Challenges in arranging interhospital transfer from a non-tertiary hospital emergency department in the Perth metropolitan area. EMA - Emergency Medicine Australasia, 2014, 26, 567-572.	1.1	14
105	Developing a burn injury severity score (BISS): Adding age and total body surface area burned to the injury severity score (ISS) improves mortality concordance. Burns, 2014, 40, 805-813.	1.9	36
106	Modified TIMI risk score cannot be used to identify low-risk chest pain in the emergency department: a multicentre validation study. Emergency Medicine Journal, 2014, 31, 281-285.	1.0	15
107	Genomic Responses during Acute Human Anaphylaxis Are Characterized by Upregulation of Innate Inflammatory Gene Networks. PLoS ONE, 2014, 9, e101409.	2.5	22
108	Sustained Elevation of Resistin, NGAL and IL-8 Are Associated with Severe Sepsis/Septic Shock in the Emergency Department. PLoS ONE, 2014, 9, e110678.	2.5	83
