#	ARTICLE	IF	CITATIONS
1	Quality of life in first episode psychosis: a cluster analytic approach. <i>Quality of Life Research</i> , 2022, 31, 1807-1817.	3.1	5
2	Designing and scaling up integrated youth mental health care. <i>World Psychiatry</i> , 2022, 21, 61-76.	10.4	161
3	Are attitudes in employees of public employment service in line with the principles of individual placement and support? A questionnaire-based survey. <i>Social Policy and Administration</i> , 2022, 56, 681-692.	3.0	3
4	Why is the educational attainment of people with schizophrenia lagging so far behind?. <i>Lancet Psychiatry</i> , 2022, 9, 528-529.	7.4	1
5	Youth-oriented outcomes of education, employment and training interventions for upcoming youth: Protocol for a discrete choice experiment. <i>Microbial Biotechnology</i> , 2021, 15, 942-948.	1.7	4
6	Tobacco smoking in young people seeking treatment for mental ill-health: what are their attitudes, knowledge and behaviours towards quitting?. <i>Irish Journal of Psychological Medicine</i> , 2021, 38, 30-39.	1.0	6
7	International application of standards for health care quality, access and evaluation of services for early intervention in psychotic disorders. <i>Microbial Biotechnology</i> , 2021, 15, 723-730.	1.7	8
8	A certificate in youth psychiatry: meeting the training needs of psychiatrists. <i>Australasian Psychiatry</i> , 2021, 29, 97-100.	0.7	5
9	Setting up an exercise physiology clinic in youth mental health: staff and student perspectives. <i>Advances in Mental Health</i> , 2021, 19, 4-16.	0.7	2
10	Perceived need for neuropsychological assessment according to geographic location: A survey of Australian youth mental health clinicians. <i>Applied Neuropsychology: Child</i> , 2021, 10, 123-132.	1.4	4
11	The youth online training and employment system: Study protocol for a randomized controlled trial of an online vocational intervention for young people with mental ill health. <i>Microbial Biotechnology</i> , 2021, 15, 1602-1611.	1.7	4
12	The utility of a fidelity measure to monitor implementation of new early psychosis services across Australia. <i>Microbial Biotechnology</i> , 2021, 15, 1382-1388.	1.7	3
13	The Horyzons project: a randomized controlled trial of a novel online social therapy to maintain treatment effects from specialist first-episode psychosis services. <i>World Psychiatry</i> , 2021, 20, 233-243.	10.4	62
14	Sedentary behaviour in young people presenting with a first episode of psychosis before and during the covid-19 pandemic restrictions. <i>Schizophrenia Research</i> , 2021, 233, 31-33.	2.0	2
15	Early Intervention and Youth Mental Health: Synergistic Paradigms to Transform Mental Health Outcomes. , 2021, , 929-939.		0
16	Implementing individual placement and support (IPS): the experiences of employment specialists in the early implementation phase of IPS in Northern Norway. The IPSNOR study. <i>BMC Psychiatry</i> , 2021, 21, 632.	2.6	13
17	Getting in Early: Early Intervention Services for Psychosis. , 2020, , 561-588.		0
18	Physical health assistance in early recovery of psychosis: Study protocol for a randomized controlled trial. <i>Microbial Biotechnology</i> , 2020, 14, 587-593.	1.7	6

#	ARTICLE	IF	CITATIONS
19	Thematic analysis of youth mental health providers' perceptions of neuropsychological assessment services. <i>Microbial Biotechnology</i> , 2020, 14, 220-227.	1.7	5
20	A meta-regression of the impact of policy on the efficacy of individual placement and support. <i>Acta Psychiatrica Scandinavica</i> , 2020, 141, 206-220.	4.5	65
21	Discontinuation of antipsychotic medication—time to rethink trial design. <i>Lancet Psychiatry</i> , 2020, 7, 841-842.	7.4	7
22	The value of early intervention in creating the new mental health system: Response to Allison et al. <i>Australian and New Zealand Journal of Psychiatry</i> , 2020, 54, 667-669.	2.3	6
23	Principles for designing the built environment of mental health services. <i>Lancet Psychiatry</i> , 2020, 7, 915-920.	7.4	27
24	Youth access clinics in Gippsland: Barriers and enablers to service accessibility in rural settings. <i>Microbial Biotechnology</i> , 2020, 14, 734-740.	1.7	3
25	Individual Vocational and Educational Support Trial (INVEST) for young people with borderline personality disorder: study protocol for a randomised controlled trial. <i>Trials</i> , 2020, 21, 583.	1.6	10
26	Compensatory Interventions for Cognitive Impairments in Psychosis: A Systematic Review and Meta-Analysis. <i>Schizophrenia Bulletin</i> , 2020, 46, 869-883.	4.3	33
27	Global research priorities for youth mental health. <i>Microbial Biotechnology</i> , 2020, 14, 3-13.	1.7	60
28	Evidence-based supported employment for people with psychiatric disabilities in Australia: Progress in the past 15 years.. <i>Psychiatric Rehabilitation Journal</i> , 2020, 43, 32-39.	1.1	11
29	Preliminary psychometric properties of a measure of social inclusion for young adults aged 18 to 25 with serious mental illness.. <i>Psychiatric Rehabilitation Journal</i> , 2020, 43, 156-169.	1.1	6
30	Early Intervention and Youth Mental Health: Synergistic Paradigms to Transform Mental Health Outcomes. , 2020, , 1-11.		0
31	High-risk sexual behaviour in young people with mental health disorders. <i>Microbial Biotechnology</i> , 2019, 13, 867-873.	1.7	17
32	Factors associated with vocational disengagement among young people entering mental health treatment. <i>Microbial Biotechnology</i> , 2019, 13, 961-968.	1.7	7
33	Psychosocial Interventions for Youth Mental Health. , 2019, , 241-260.		3
34	Creating the Best Pathways to Care for First-Episode Psychosis. <i>Psychiatric Services</i> , 2019, 70, 641-641.	2.0	3
35	The Lancet Psychiatry Commission: a blueprint for protecting physical health in people with mental illness. <i>Lancet Psychiatry</i> , 2019, 6, 675-712.	7.4	815
36	Understanding what it means to be socially included for people with a lived experience of mental illness. <i>International Journal of Social Psychiatry</i> , 2019, 65, 413-424.	3.1	19

#	ARTICLE	IF	CITATIONS
37	Developing and testing the F-SIM, a measure of social inclusion for people with mental illness. <i>Psychiatry Research</i> , 2019, 279, 1-8.	3.3	5
38	Group differences in social inclusion between young adults aged 18 to 25 with serious mental illness and same-aged peers from the general community. <i>International Journal of Social Psychiatry</i> , 2019, 65, 631-642.	3.1	5
39	Exploring the use of the Hinting Task in first-episode psychosis. <i>Cognitive Neuropsychiatry</i> , 2019, 24, 65-79.	1.3	10
40	HORIZONS trial: protocol for a randomised controlled trial of a moderated online social therapy to maintain treatment effects from first-episode psychosis services. <i>BMJ Open</i> , 2019, 9, e024104.	1.9	65
41	Vocational engagement among young people entering mental health treatment compared with their general population peers. <i>Microbial Biotechnology</i> , 2019, 13, 692-696.	1.7	5
42	Need for clinical neuropsychological assessment in headspace youth mental health services: A national survey of providers. <i>Australian Journal of Psychology</i> , 2019, 71, 108-116.	2.8	6
43	The social inclusion of young people with serious mental illness: A narrative review of the literature and suggested future directions. <i>Australian and New Zealand Journal of Psychiatry</i> , 2019, 53, 15-26.	2.3	22
44	Rates, determinants and outcomes associated with the use of community treatment orders in young people experiencing first episode psychosis. <i>International Journal of Law and Psychiatry</i> , 2019, 62, 85-89.	0.9	6
45	Can antipsychotic dose reduction lead to better functional recovery in first-episode psychosis? A randomized controlled trial of antipsychotic dose reduction. The reduce trial: Study protocol. <i>Microbial Biotechnology</i> , 2019, 13, 1345-1356.	1.7	19
46	Can youth at high risk of illness progression be identified by measures of rumination and sleep-wake disturbance. <i>Microbial Biotechnology</i> , 2019, 13, 1214-1219.	1.7	7
47	Individual placement and support for vocational recovery in first-episode psychosis: randomised controlled trial. <i>British Journal of Psychiatry</i> , 2019, 214, 76-82.	2.8	65
48	Early psychosis workforce development: Core competencies for mental health professionals working in the early psychosis field. <i>Microbial Biotechnology</i> , 2019, 13, 217-223.	1.7	3
49	Contribution of neurocognition to 18-month employment outcomes in first-episode psychosis. <i>Microbial Biotechnology</i> , 2019, 13, 453-460.	1.7	14
50	Social inclusion and its interrelationships with social cognition and social functioning in first-episode psychosis. <i>Microbial Biotechnology</i> , 2019, 13, 477-487.	1.7	24
51	Perceived stress and psychosis: The effect of perceived stress on psychotic-like experiences in a community sample of adolescents. <i>Microbial Biotechnology</i> , 2019, 13, 1465-1469.	1.7	25
52	Enabling choice, recovery and participation: evidence-based early intervention support for psychosocial disability in the National Disability Insurance Scheme. <i>Australasian Psychiatry</i> , 2018, 26, 578-585.	0.7	8
53	A Comparison of Vocational Engagement Among Young People with Psychosis, Depression and Borderline Personality Pathology. <i>Community Mental Health Journal</i> , 2018, 54, 831-841.	2.0	11
54	Co-morbid depressive disorder is associated with better neurocognitive performance in first episode schizophrenia spectrum. <i>Journal of Affective Disorders</i> , 2018, 229, 498-505.	4.1	10

#	ARTICLE	IF	CITATIONS
55	Development of an implementation guide to facilitate the roll-out of early intervention services for psychosis. <i>Microbial Biotechnology</i> , 2018, 12, 1100-1111.	1.7	10
56	Pilot study of client outcomes from exercise physiology in a youth mental health service. <i>Microbial Biotechnology</i> , 2018, 12, 734-739.	1.7	4
57	Rates and predictors of relapse following discontinuation of antipsychotic medication after a first episode of psychosis. <i>Schizophrenia Research</i> , 2018, 195, 231-236.	2.0	49
58	An examination of sex differences in neurocognition and social cognition in first-episode psychosis. <i>Psychiatry Research</i> , 2018, 259, 36-43.	3.3	17
59	Clinical and demographic predictors of continuing remission or relapse following discontinuation of antipsychotic medication after a first episode of psychosis. A systematic review. <i>Schizophrenia Research</i> , 2018, 197, 9-18.	2.0	51
60	Enhancing social functioning in young people at Ultra High Risk (UHR) for psychosis: A pilot study of a novel strengths and mindfulness-based online social therapy. <i>Schizophrenia Research</i> , 2018, 202, 369-377.	2.0	99
61	An fMRI study of theory of mind in individuals with first episode psychosis. <i>Psychiatry Research - Neuroimaging</i> , 2018, 281, 1-11.	1.8	10
62	Fidelity scales and performance measures to support implementation and quality assurance for first episode psychosis services. <i>Microbial Biotechnology</i> , 2018, 12, 1235-1242.	1.7	35
63	The role of coping in the association between subclinical psychotic experiences and functioning: A within study replication in two independent adolescent samples. <i>Schizophrenia Research</i> , 2018, 201, 91-97.	2.0	11
64	What is social inclusion? A thematic analysis of professional opinion.. <i>Psychiatric Rehabilitation Journal</i> , 2018, 41, 183-195.	1.1	27
65	The contribution of employment duration to 18-month neurocognitive outcomes in first-episode psychosis.. <i>Psychiatric Rehabilitation Journal</i> , 2018, 41, 319-327.	1.1	2
66	Implementation of the Enhanced Moderated Online Social Therapy (MOST+) Model Within a National Youth E-Mental Health Service (eheadspace): Protocol for a Single Group Pilot Study for Help-Seeking Young People. <i>JMIR Research Protocols</i> , 2018, 7, e48.	1.0	14
67	Individual placement and support, supported education in young people with mental illness: an exploratory feasibility study. <i>Microbial Biotechnology</i> , 2017, 11, 526-531.	1.7	27
68	The psychometric validity of the Center for Epidemiological Studies " Depression Scale (CES-D) in first episode schizophrenia spectrum. <i>Psychiatry Research</i> , 2017, 252, 16-22.	3.3	18
69	Sexual functioning and experiences in young people affected by mental health disorders. <i>Psychiatry Research</i> , 2017, 253, 249-255.	3.3	21
70	Improving vocational outcomes in first-episode psychosis by addressing cognitive impairments using Cognitive Adaptation Training. <i>Work</i> , 2017, 56, 581-589.	1.1	13
71	Dose reduction, relapse and functional recovery in first episode psychosis. <i>Australian and New Zealand Journal of Psychiatry</i> , 2017, 51, 638-639.	2.3	2
72	The 2016 RANZCP Guidelines for the Management of Schizophrenia and Related Disorders " what's next?. <i>Australasian Psychiatry</i> , 2017, 25, 600-602.	0.7	6

#	ARTICLE	IF	CITATIONS
73	The effect of comorbid depression on facial and prosody emotion recognition in first-episode schizophrenia spectrum. <i>Journal of Affective Disorders</i> , 2017, 208, 223-229.	4.1	17
74	Substance use in youth at risk for psychosis. <i>Schizophrenia Research</i> , 2017, 181, 23-29.	2.0	41
75	The 2016 Royal Australian and New Zealand College of Psychiatrists guidelines for the management of schizophrenia and related disorders. <i>Medical Journal of Australia</i> , 2017, 206, 501-505.	1.7	22
76	Cognitive clusters in first-episode psychosis: Overlap with healthy controls and relationship to concurrent and prospective symptoms and functioning. <i>Neuropsychology</i> , 2017, 31, 787-797.	1.3	47
77	Supported employment for people with severe mental illness: Systematic review and meta-analysis of the international evidence. <i>British Journal of Psychiatry</i> , 2016, 209, 14-22.	2.8	291
