#	ARTICLE	IF	CITATIONS
1	Incidence of thrombotic complications in critically ill ICU patients with COVID-19. <i>Thrombosis Research</i> , 2020, 191, 145-147.	1.7	3,872
2	Confirmation of the high cumulative incidence of thrombotic complications in critically ill ICU patients with COVID-19: An updated analysis. <i>Thrombosis Research</i> , 2020, 191, 148-150.	1.7	1,357
3	Effectiveness and safety of novel oral anticoagulants as compared with vitamin K antagonists in the treatment of acute symptomatic venous thromboembolism: a systematic review and meta-analysis. <i>Journal of Thrombosis and Haemostasis</i> , 2014, 12, 320-328.	3.8	423
4	The Post-COVID-19 Functional Status scale: a tool to measure functional status over time after COVID-19. <i>European Respiratory Journal</i> , 2020, 56, 2001494.	6.7	368
5	Simplified diagnostic management of suspected pulmonary embolism (the YEARS study): a prospective, multicentre, cohort study. <i>Lancet</i> , The, 2017, 390, 289-297.	13.7	357
6	Incidence of chronic thromboembolic pulmonary hypertension after acute pulmonary embolism: a contemporary view of the published literature. <i>European Respiratory Journal</i> , 2017, 49, 1601792.	6.7	339
7	American Society of Hematology 2021 guidelines on the use of anticoagulation for thromboprophylaxis in patients with COVID-19. <i>Blood Advances</i> , 2021, 5, 872-888.	5.2	310
8	Brain-Type Natriuretic Peptide Levels in the Prediction of Adverse Outcome in Patients with Pulmonary Embolism. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2008, 178, 425-430.	5.6	309
9	The post-PE syndrome: a new concept for chronic complications of pulmonary embolism. <i>Blood Reviews</i> , 2014, 28, 221-226.	5.7	296
10	ERS statement on chronic thromboembolic pulmonary hypertension. <i>European Respiratory Journal</i> , 2021, 57, 2002828.	6.7	287
11	Simplification of the Revised Geneva Score for Assessing Clinical Probability of Pulmonary Embolism. <i>Archives of Internal Medicine</i> , 2008, 168, 2131.	3.8	255
12	Prospective cardiopulmonary screening program to detect chronic thromboembolic pulmonary hypertension in patients after acute pulmonary embolism. <i>Haematologica</i> , 2010, 95, 970-975.	3.5	220
13	Performance of 4 Clinical Decision Rules in the Diagnostic Management of Acute Pulmonary Embolism. <i>Annals of Internal Medicine</i> , 2011, 154, 709.	3.9	211
14	Pulmonary embolism. <i>Nature Reviews Disease Primers</i> , 2018, 4, 18028.	30.5	208
15	Pregnancy-Adapted YEARS Algorithm for Diagnosis of Suspected Pulmonary Embolism. <i>New England Journal of Medicine</i> , 2019, 380, 1139-1149.	27.0	200
16	Trends in mortality related to pulmonary embolism in the European Region, 2000–15: analysis of vital registration data from the WHO Mortality Database. <i>Lancet Respiratory Medicine</i> , the, 2020, 8, 277-287.	10.7	192
17	Prediction of bleeding events in patients with venous thromboembolism on stable anticoagulation treatment. <i>European Respiratory Journal</i> , 2016, 48, 1369-1376.	6.7	159
18	Clinical and computed tomography characteristics of COVID-19 associated acute pulmonary embolism: A different phenotype of thrombotic disease?. <i>Thrombosis Research</i> , 2020, 193, 86-89.	1.7	156

#	ARTICLE	IF	CITATIONS
19	Outpatient versus inpatient treatment in patients with pulmonary embolism: a meta-analysis. European Respiratory Journal, 2013, 42, 134-144.	6.7	152
20	Risk profile and clinical outcome of symptomatic subsegmental acute pulmonary embolism. Blood, 2013, 122, 1144-1149.	1.4	146
21	Diagnostic management of acute deep vein thrombosis and pulmonary embolism. Journal of Thrombosis and Haemostasis, 2013, 11, 412-422.	3.8	140
22	Patient Outcomes after Acute Pulmonary Embolism. American Journal of Respiratory and Critical Care Medicine, 2010, 181, 501-506.	5.6	138
23	Meta-analysis of the efficacy and safety of new oral anticoagulants in patients with cancer-associated acute venous thromboembolism. Journal of Thrombosis and Haemostasis, 2014, 12, 1116-1120.	3.8	137
24	Quality of Life in Long-term Survivors of Acute Pulmonary Embolism. Chest, 2010, 138, 1432-1440.	0.8	136
25	Derivation of a clinical prediction score for chronic thromboembolic pulmonary hypertension after acute pulmonary embolism. Journal of Thrombosis and Haemostasis, 2016, 14, 121-128.	3.8	129
26	Comparison of the revised Geneva score with the Wells rule for assessing clinical probability of pulmonary embolism. Journal of Thrombosis and Haemostasis, 2008, 6, 40-44.	3.8	124
27	Wells Rule and D-Dimer Testing to Rule Out Pulmonary Embolism. Annals of Internal Medicine, 2016, 165, 253.	3.9	119
28	Vaccine-induced immune thrombotic thrombocytopenia. Lancet Haematology, the, 2022, 9, e73-e80.	4.6	114
29	Efficacy and Safety of Outpatient Treatment Based on the Hestia Clinical Decision Rule with or without N-Terminal Pro-Brain Natriuretic Peptide Testing in Patients with Acute Pulmonary Embolism. A Randomized Clinical Trial. American Journal of Respiratory and Critical Care Medicine, 2016, 194, 998-1006.	5.6	107
30	Risk of recurrent venous thromboembolism and major hemorrhage in cancer-associated incidental pulmonary embolism among treated and untreated patients: a pooled analysis of 926 patients. Journal of Thrombosis and Haemostasis, 2016, 14, 105-113.	3.8	105
31	Outpatient Pulmonary Rehabilitation in Patients with Long COVID Improves Exercise Capacity, Functional Status, Dyspnea, Fatigue, and Quality of Life. Respiration, 2022, 101, 593-601.	2.6	105
32	Late outcomes of pulmonary embolism: The post-PE syndrome. Thrombosis Research, 2018, 164, 157-162.	1.7	104
33	Quality of life after pulmonary embolism: validation of the PEm-QoL Questionnaire. Journal of Thrombosis and Haemostasis, 2010, 8, 523-532.	3.8	103
34	Age-sex specific pulmonary embolism-related mortality in the USA and Canada, 2000-2018: an analysis of the WHO Mortality Database and of the CDC Multiple Cause of Death database. Lancet Respiratory Medicine, the, 2021, 9, 33-42.	10.7	100
35	Safety of ruling out acute pulmonary embolism by normal computed tomography pulmonary angiography in patients with an indication for computed tomography: systematic review and meta-analysis. Journal of Thrombosis and Haemostasis, 2009, 7, 1491-1498.	3.8	98
36	Incidence of thrombotic complications and overall survival in hospitalized patients with COVID-19 in the second and first wave. Thrombosis Research, 2021, 199, 143-148.	1.7	98

#	ARTICLE	IF	CITATIONS
37	Direct Oral Anticoagulants for the Treatment of Acute Venous Thromboembolism Associated with Cancer: A Systematic Review and Meta-Analysis. <i>Thrombosis and Haemostasis</i> , 2020, 120, 1128-1136.	3.4	93
38	Prevalence and potential determinants of exertional dyspnea after acute pulmonary embolism. <i>Respiratory Medicine</i> , 2010, 104, 1744-1749.	2.9	92
39	Residual venous thrombosis as predictive factor for recurrent venous thromboembolism in patients with proximal deep vein thrombosis: a systematic review. <i>British Journal of Haematology</i> , 2011, 153, 168-178.	2.5	85
40	Elevated d-dimer levels predict recurrence in patients with idiopathic venous thromboembolism: a meta-analysis. <i>Journal of Thrombosis and Haemostasis</i> , 2009, 7, 611-618.	3.8	83
41	Optimal follow-up after acute pulmonary embolism: a position paper of the European Society of Cardiology Working Group on Pulmonary Circulation and Right Ventricular Function, in collaboration with the European Society of Cardiology Working Group on Atherosclerosis and Vascular Biology, endorsed by the European Respiratory Society. <i>European Heart Journal</i> , 2022, 43, 183-189.	2.2	83
42	Predicting anticoagulant-related bleeding in patients with venous thromboembolism: a clinically oriented review. <i>European Respiratory Journal</i> , 2015, 45, 201-210.	6.7	82
43	Magnetic resonance direct thrombus imaging differentiates acute recurrent ipsilateral deep vein thrombosis from residual thrombosis. <i>Blood</i> , 2014, 124, 623-627.	1.4	81
44	Towards a tailored diagnostic standard for future diagnostic studies in pulmonary embolism: communication from the SSC of the ISTH. <i>Journal of Thrombosis and Haemostasis</i> , 2017, 15, 1040-1043.	3.8	80
45	Construct validity of the Post-COVID-19 Functional Status Scale in adult subjects with COVID-19. <i>Health and Quality of Life Outcomes</i> , 2021, 19, 40.	2.4	79
46	Recovery from COVID-19: a sprint or marathon? 6-month follow-up data from online long COVID-19 support group members. <i>ERJ Open Research</i> , 2021, 7, 00141-2021.	2.6	79
47	Determinants of diagnostic delay in chronic thromboembolic pulmonary hypertension: results from the European CTEPH Registry. <i>European Respiratory Journal</i> , 2018, 52, 1801687.	6.7	78
48	Safety of excluding acute pulmonary embolism based on an unlikely clinical probability by the Wells rule and normal D-dimer concentration: A meta-analysis. <i>Thrombosis Research</i> , 2010, 125, e123-e127.	1.7	77
49	Quality of life after pulmonary embolism as assessed with SF-36 and PEmB-QoL. <i>Thrombosis Research</i> , 2013, 132, 500-505.	1.7	77
50	A simple non-invasive diagnostic algorithm for ruling out chronic thromboembolic pulmonary hypertension in patients after acute pulmonary embolism. <i>Thrombosis Research</i> , 2011, 128, 21-26.	1.7	76
51	Persistent dyspnea complaints at long-term follow-up after an episode of acute pulmonary embolism: Results of a questionnaire. <i>European Journal of Internal Medicine</i> , 2008, 19, 625-629.	2.2	74
52	Studying the post-COVID-19 condition: research challenges, strategies, and importance of Core Outcome Set development. <i>BMC Medicine</i> , 2022, 20, 50.	5.5	72
53	External validation of the VTE-BLEED score for predicting major bleeding in stable anticoagulated patients with venous thromboembolism. <i>Thrombosis and Haemostasis</i> , 2017, 117, 1164-1170.	3.4	71
54	The HAS-BLED Score Identifies Patients with Acute Venous Thromboembolism at High Risk of Major Bleeding Complications during the First Six Months of Anticoagulant Treatment. <i>PLoS ONE</i> , 2015, 10, e0122520.	2.5	69

#	ARTICLE	IF	CITATIONS
55	Chronic thromboembolic pulmonary hypertension and impairment after pulmonary embolism: the FOCUS study. <i>European Heart Journal</i> , 2022, 43, 3387-3398.	2.2	69
56	How I assess and manage the risk of bleeding in patients treated for venous thromboembolism. <i>Blood</i> , 2020, 135, 724-734.	1.4	66
57	Atrial fibrillation and cancer – An unexplored field in cardiovascular oncology. <i>Blood Reviews</i> , 2019, 35, 59-67.	5.7	64
58	Thrombo-Inflammation in Cardiovascular Disease: An Expert Consensus Document from the Third Maastricht Consensus Conference on Thrombosis. <i>Thrombosis and Haemostasis</i> , 2020, 120, 538-564.	3.4	64
59	Triaging acute pulmonary embolism for home treatment by Hestia or simplified PESI criteria: the HOME-PE randomized trial. <i>European Heart Journal</i> , 2021, 42, 3146-3157.	2.2	64
60	Health-related quality of life after pulmonary embolism: a cross-sectional study. <i>BMJ Open</i> , 2016, 6, e013086.	1.9	61
61	Incidence and predictors of contrast-induced nephropathy following CT-angiography for clinically suspected acute pulmonary embolism. <i>Journal of Thrombosis and Haemostasis</i> , 2010, 8, 409-411.	3.8	60
62	One versus two years of elastic compression stockings for prevention of post-thrombotic syndrome (OCTAVIA study): randomised controlled trial. <i>BMJ</i> , The, 2016, 353, i2691.	6.0	60
63	Ultrasound-facilitated, catheter-directed thrombolysis vs anticoagulation alone for acute intermediate-high-risk pulmonary embolism: Rationale and design of the HI-PEITHO study. <i>American Heart Journal</i> , 2022, 251, 43-53.	2.7	59
64	Risk of arterial cardiovascular events in patients after pulmonary embolism. <i>Blood</i> , 2009, 114, 1484-1488.	1.4	58
65	How I diagnose acute pulmonary embolism. <i>Blood</i> , 2013, 121, 4443-4448.	1.4	56
66	Computed tomography pulmonary angiography <i>versus</i> ventilation-perfusion lung scanning for diagnosing pulmonary embolism during pregnancy: a systematic review and meta-analysis. <i>Haematologica</i> , 2019, 104, 176-188.	3.5	56
67	Differential impact of syncope on the prognosis of patients with acute pulmonary embolism: a systematic review and meta-analysis. <i>European Heart Journal</i> , 2018, 39, 4186-4195.	2.2	55
68	Abnormal vaginal bleeding in women of reproductive age treated with edoxaban or warfarin for venous thromboembolism: a post hoc analysis of the Hokusai – VTE study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2018, 125, 1581-1589.	2.3	55
69	Diagnosis of chronic thromboembolic pulmonary hypertension after acute pulmonary embolism. <i>European Respiratory Journal</i> , 2020, 55, 2000189.	6.7	55
70	Usefulness of standard computed tomography pulmonary angiography performed for acute pulmonary embolism for identification of chronic thromboembolic pulmonary hypertension: results of the InShape III study. <i>Journal of Heart and Lung Transplantation</i> , 2019, 38, 731-738.	0.6	54
71	High D-dimer level is associated with increased 15- and 36-months mortality through a more central localization of pulmonary emboli and serious comorbidity. <i>British Journal of Haematology</i> , 2008, 140, 218-222.	2.5	53
72	Performance of five different bleeding-prediction scores in patients with acute pulmonary embolism. <i>Journal of Thrombosis and Thrombolysis</i> , 2016, 41, 312-320.	2.1	53

#	ARTICLE	IF	CITATIONS
73	From thrombosis to fibrosis in chronic thromboembolic pulmonary hypertension. <i>Thrombosis and Haemostasis</i> , 2017, 117, 769-783.	3.4	53
74	American Society of Hematology living guidelines on the use of anticoagulation for thromboprophylaxis in patients with COVID-19: July 2021 update on postdischarge thromboprophylaxis. <i>Blood Advances</i> , 2022, 6, 664-671.	5.2	53
75	D-dimer Testing in Patients with Suspected Pulmonary Embolism and Impaired Renal Function. <i>American Journal of Medicine</i> , 2009, 122, 1050-1053.	1.5	52
76	Measurement of Right and Left Ventricular Function by ECG-Synchronized CT Scanning in Patients With Acute Pulmonary Embolism. <i>Chest</i> , 2011, 140, 1008-1015.	0.8	50
77	External validation of a simple non-invasive algorithm to rule out chronic thromboembolic pulmonary hypertension after acute pulmonary embolism. <i>Thrombosis Research</i> , 2015, 135, 796-801.	1.7	50
78	American Society of Hematology living guidelines on the use of anticoagulation for thromboprophylaxis in patients with COVID-19: May 2021 update on the use of intermediate-intensity anticoagulation in critically ill patients. <i>Blood Advances</i> , 2021, 5, 3951-3959.	5.2	49
79	Risk of thrombotic complications in influenza versus COVID-19 hospitalized patients. <i>Research and Practice in Thrombosis and Haemostasis</i> , 2021, 5, 412-420.	2.3	47
80	To screen or not to screen for chronic thromboembolic pulmonary hypertension after acute pulmonary embolism. <i>Thrombosis Research</i> , 2017, 151, 1-7.	1.7	45
81	Continuation of low-molecular-weight heparin treatment for cancer-related venous thromboembolism: a prospective cohort study in daily clinical practice. <i>Journal of Thrombosis and Haemostasis</i> , 2017, 15, 74-79.	3.8	45
82	Chronic thromboembolic pulmonary hypertension from the perspective of patients with pulmonary embolism. <i>Journal of Thrombosis and Haemostasis</i> , 2018, 16, 1040-1051.	3.8	45
83	Diagnostic management of clinically suspected acute pulmonary embolism. <i>Journal of Thrombosis and Haemostasis</i> , 2009, 7, 312-317.	3.8	44
84	Symptomatic subsegmental pulmonary embolism: to treat or not to treat?. Hematology American Society of Hematology Education Program, 2017, 2017, 237-241.	2.5	44
85	Incomplete echocardiographic recovery at 6 months predicts long-term sequelae after intermediate-risk pulmonary embolism. A post-hoc analysis of the Pulmonary Embolism Thrombolysis (PEITHO) trial. <i>Clinical Research in Cardiology</i> , 2019, 108, 772-778.	3.3	44
86	Measuring functional limitations after venous thromboembolism: Optimization of the Post-VTE Functional Status (PVFS) Scale. <i>Thrombosis Research</i> , 2020, 190, 45-51.	1.7	44
87	Management of incidental pulmonary embolism. <i>European Respiratory Journal</i> , 2017, 49, 1700275.	6.7	43
88	Use of clinical prediction rules and D-dimer tests in the diagnostic management of pregnant patients with suspected acute pulmonary embolism. <i>Blood Reviews</i> , 2017, 31, 31-36.	5.7	42
89	Sex-specific differences in chronic thromboembolic pulmonary hypertension. Results from the European CTEPH registry. <i>Journal of Thrombosis and Haemostasis</i> , 2020, 18, 151-161.	3.8	42
90	American Society of Hematology living guidelines on the use of anticoagulation for thromboprophylaxis in patients with COVID-19: January 2022 update on the use of therapeutic-intensity anticoagulation in acutely ill patients. <i>Blood Advances</i> , 2022, 6, 4915-4923.	5.2	42

#	ARTICLE	IF	CITATIONS
91	Current and future perspectives in imaging of venous thromboembolism. <i>Journal of Thrombosis and Haemostasis</i> , 2016, 14, 1696-1710.	3.8	41
92	Oral contraception and menstrual bleeding during treatment of venous thromboembolism: Expert opinion versus current practice. <i>Thrombosis Research</i> , 2017, 153, 101-107.	1.7	41
93	Non-invasive early exclusion of chronic thromboembolic pulmonary hypertension after acute pulmonary embolism: the InShape II study. <i>Thorax</i> , 2021, 76, 1002-1009.	5.6	41
94	The impact of post-pulmonary embolism syndrome and its possible determinants. <i>Thrombosis Research</i> , 2018, 171, 84-91.	1.7	40
95	Predicting Post-Thrombotic Syndrome with Ultrasonographic Follow-Up after Deep Vein Thrombosis: A Systematic Review and Meta-Analysis. <i>Thrombosis and Haemostasis</i> , 2018, 118, 1428-1438.	3.4	39
96	Quality of life and functional limitations after pulmonary embolism and its prognostic relevance. <i>Journal of Thrombosis and Haemostasis</i> , 2019, 17, 1923-1934.	3.8	39
97	Magnetic resonance imaging for diagnosis of recurrent ipsilateral deep vein thrombosis. <i>Blood</i> , 2020, 135, 1377-1385.	1.4	39
98	Cohort Study on the Management of Cancer-Associated Venous Thromboembolism Aimed at the Safety of Stopping Anticoagulant Therapy in Patients Cured of Cancer. <i>Chest</i> , 2016, 149, 1245-1251.	0.8	38
99	Improved identification of thrombolysis candidates amongst intermediate-risk pulmonary embolism patients: implications for future trials. <i>European Respiratory Journal</i> , 2018, 51, 1701775.	6.7	38
100	Less abnormal uterine bleeding with dabigatran than warfarin in women treated for acute venous thromboembolism. <i>Journal of Thrombosis and Haemostasis</i> , 2018, 16, 1775-1778.	3.8	38
101	Impact of Delay in Clinical Presentation on the Diagnostic Management and Prognosis of Patients with Suspected Pulmonary Embolism. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2013, 187, 1369-1373.	5.6	37
102	The original and simplified Wells rules and age-adjusted D-dimer testing to rule out pulmonary embolism: an individual patient data meta-analysis. <i>Journal of Thrombosis and Haemostasis</i> , 2017, 15, 678-684.	3.8	37
103	Comparison of CT assessed right ventricular size and cardiac biomarkers for predicting short-term clinical outcome in normotensive patients suspected of having acute pulmonary embolism. <i>Journal of Thrombosis and Haemostasis</i> , 2010, 8, 853-856.	3.8	36
104	Follow-up after acute Pulmonary Embolism. <i>Hamostaseologie</i> , 2018, 38, 22-32.	1.9	36
105	Measuring functional limitations after venous thromboembolism: A call to action. <i>Thrombosis Research</i> , 2019, 178, 59-62.	1.7	36
106	Idarucizumab for Dabigatran Reversal in the Management of Patients With Gastrointestinal Bleeding. <i>Circulation</i> , 2019, 139, 748-756.	1.6	36
107	Evaluation and management of patients with chronic thromboembolic pulmonary hypertension - consensus statement from the ISHLT. <i>Journal of Heart and Lung Transplantation</i> , 2021, 40, 1301-1326.	0.6	36
108	Current imaging modalities for diagnosing cerebral vein thrombosis – A critical review. <i>Thrombosis Research</i> , 2020, 189, 132-139.	1.7	35
