#	Article	IF	CITATIONS
1	Risk Factors for Childhood Obesity in the First 1,000 Days. American Journal of Preventive Medicine, 2016, 50, 761-779.	3.0	651
2	Interventions for Childhood Obesity in the First 1,000 Days A Systematic Review. American Journal of Preventive Medicine, 2016, 50, 780-789.	3.0	255
3	Early life risk factors of motor, cognitive and language development: a pooled analysis of studies from low/middle-income countries. BMJ Open, 2019, 9, e026449.	1.9	61
4	Using formative research to design a contextâ€specific behaviour change strategy to improve infant and young child feeding practices and nutrition in <scp>N</scp> epal. Maternal and Child Nutrition, 2015, 11, 882-896.	3.0	39
5	Effect of zinc and multivitamin supplementation on the growth of Tanzanian children aged 6–84 wk: a randomized, placebo-controlled, double-blind trial. American Journal of Clinical Nutrition, 2016, 103, 910-918.	4.7	38
6	The prevalence of anemia and iron deficiency is more common in breastfed infants than their mothers in Bhaktapur, Nepal. European Journal of Clinical Nutrition, 2016, 70, 456-462.	2.9	37
7	Delayed Breastfeeding Initiation Is Associated with Infant Morbidity. Journal of Pediatrics, 2017, 191, 57-62.e2.	1.8	34
8	High Burden of Morbidity and Mortality but Not Growth Failure in Infants Exposed to but Uninfected with Human Immunodeficiency Virus in Tanzania. Journal of Pediatrics, 2017, 180, 191-199.e2.	1.8	23
9	Biomarkers of Systemic Inflammation and Growth in Early Infancy are Associated with Stunting in Young Tanzanian Children. Nutrients, 2018, 10, 1158.	4.1	23
10	The Impact of Integrated Infant and Young Child Feeding and Micronutrient Powder Intervention on Feeding Practices and Anemia in Children Aged 6–23 Months in Madagascar. Nutrients, 2017, 9, 581.	4.1	22
11	Vitamin A Supplementation Was Associated with Reduced Mortality in Patients with Ebola Virus Disease during the West African Outbreak. Journal of Nutrition, 2019, 149, 1757-1765.	2.9	21
12	Iron deficiency is uncommon among lactating women in urban Nepal, despite a high risk of inadequate dietary iron intake. British Journal of Nutrition, 2014, 112, 132-141.	2.3	19
13	Magnitude and determinants of inadequate third-trimester weight gain in rural Bangladesh. PLoS ONE, 2018, 13, e0196190.	2.5	14
14	The effect of daily zinc and/or multivitamin supplements on early childhood development in Tanzania: results from a randomized controlled trial. Maternal and Child Nutrition, 2017, 13, .	3.0	13
15	Infant and Young Child Feeding (IYCF) Practices Improved in 2 Districts in Nepal during the Scale-Up of an Integrated IYCF and Micronutrient Powder Program. Current Developments in Nutrition, 2018, 2, nzy019.	0.3	12
16	Nutritional, Socioeconomic, and Delivery Characteristics Are Associated with Neurodevelopment in Tanzanian Children. Journal of Pediatrics, 2019, 207, 71-79.e8.	1.8	10
17	An integrated infant and young child feeding and smallâ€quantity lipidâ€based nutrient supplementation programme in the <scp>Democratic Republic of Congo</scp> is associated with improvements in breastfeeding and handwashing behaviours but not dietary diversity. Maternal and Child Nutrition, 2019. 15. e12784.	3.0	8
18	Combined infant and young child feeding with small-quantity lipid-based nutrient supplementation is associated with a reduction in anemia but no changes in anthropometric status of young children from Katanga Province of the Democratic Republic of Congo: a quasi-experimental effectiveness study. American Journal of Clinical Nutrition, 2020, 112, 683-694.	4.7	8

#	Article	IF	CITATIONS
19	Changes in growth, anaemia, and iron deficiency among children aged 6–23Âmonths in two districts in Nepal that were part of the postâ€pilot scaleâ€up of an integrated infant and young child feeding and micronutrient powder intervention. Maternal and Child Nutrition, 2019, 15, e12693.	3.0	7
20	Infant Nutritional Status and Markers of Environmental Enteric Dysfunction are Associated with Midchildhood Anthropometry and Blood Pressure in Tanzania. Journal of Pediatrics, 2017, 187, 225-233.e1.	1.8	6
21	Seasonal trends and maternal characteristics as predictors of maternal undernutrition and low birthweight in Eastern Maharashtra, India. Maternal and Child Nutrition, 2021, 17, e13087.	3.0	6
22	Predictors of micronutrient powder ( <scp>MNP</scp> ) knowledge, coverage, and consumption during the scaleâ€up of an integrated infant and young child feeding ( <scp>IYCFâ€MNP</scp> ) programme in <scp>N</scp> epal. Maternal and Child Nutrition, 2019, 15, e12712.	3.0	5
23	Engagement in Agriculture Protects Against Food Insecurity and Malnutrition in Peri-Urban Nepal. Current Developments in Nutrition, 2019, 3, nzy078.	0.3	4
24	Association between multivitamin supplementation and mortality among patients with Ebola virus disease: An international multisite cohort study. African Journal of Emergency Medicine, 2020, 10, 23-29.	1.1	4
25	An Integrated Infant and Young Child Feeding and Small-Quantity Lipid-based Nutrient Supplementation Program Is Associated with Improved Gross Motor and Communication Scores of Children 6-18ÂMonths in the Democratic Republic of Congo. Journal of Pediatrics, 2020, 222, 154-163.	1.8	4
26	Infant nutritional status and markers of environmental enteric dysfunction are associated with midâ€childhood anthropometry and blood pressure in Tanzania. FASEB Journal, 2017, 31, 639.4.	0.5	O
