#	ARTICLE	IF	CITATIONS
1	Long-Term Clinical Efficacy of Grass-Pollen Immunotherapy. New England Journal of Medicine, 1999, 341, 468-475.	27.0	1,256
2	Grass Pollen Immunotherapy Induces Mucosal and Peripheral IL-10 Responses and Blocking IgG Activity. Journal of Immunology, 2004, 172, 3252-3259.	0.8	496
3	Seasonal allergic rhinitis is associated with a detrimental effect on examination performance in United Kingdom teenagers: Case-control study. Journal of Allergy and Clinical Immunology, 2007, 120, 381-387.	2.9	374
4	Omalizumab for asthma in adults and children. The Cochrane Library, 2014, , CD003559.	2.8	329
5	BSACI guidelines for the management of allergic and non-allergic rhinitis. Clinical and Experimental Allergy, 2008, 38, 19-42.	2.9	291
6	Grass pollen immunotherapy for seasonal rhinitis and asthma: A randomized, controlled trial. Journal of Allergy and Clinical Immunology, 2001, 107, 87-93.	2.9	261
7	BSACI guidelines for the management of chronic urticaria and angioedema. Clinical and Experimental Allergy, 2007, 37, 631-650.	2.9	235
8	Grass Pollen Immunotherapy Induces an Allergen-Specific IgA2 Antibody Response Associated with Mucosal TGF- $\beta$ 2 Expression. Journal of Immunology, 2007, 178, 4658-4666.	0.8	216
9	Grass pollen sublingual immunotherapy for seasonal rhinoconjunctivitis: a randomized controlled trial. Clinical and Experimental Allergy, 2002, 32, 507-514.	2.9	158
10	Anti-IgE for chronic asthma in adults and children. , 2006, , CD003559.		150
11	Grass pollen immunotherapy: efficacy and safety during a 4-year follow-up study. Allergy: European Journal of Allergy and Clinical Immunology, 1995, 50, 405-413.	5.7	143
12	2019 ARIA Care pathways for allergen immunotherapy. Allergy: European Journal of Allergy and Clinical Immunology, 2019, 74, 2087-2102.	5.7	140
13	Grass pollen immunotherapy for hayfever is associated with increases in local nasal but not peripheral Th1:Th2 cytokine ratios. Immunology, 2002, 105, 56-62.	4.4	132
14	Immunotherapy for allergic rhinitis. Clinical and Experimental Allergy, 2011, 41, 1177-1200.	2.9	132
15	MACVIA clinical decision algorithm in adolescents and adults with allergic rhinitis. Journal of Allergy and Clinical Immunology, 2016, 138, 367-374.e2.	2.9	128
16	Grass pollen immunotherapy inhibits seasonal increases in basophils and eosinophils in the nasal epithelium. Clinical and Experimental Allergy, 2001, 31, 1705-1713.	2.9	121
17	Grass pollen immunotherapy: Symptomatic improvement correlates with reductions in eosinophils and IL-5 mRNA expression in the nasal mucosa during the pollen season. Journal of Allergy and Clinical Immunology, 2001, 107, 971-976.	2.9	115
18	International Primary Care Respiratory Group (IPCRG) Guidelines: Management of allergic rhinitis. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2006, 15, 58-70.	2.3	114

#	ARTICLE	IF	CITATIONS
19	IL-13 production by allergen-stimulated T <sub>H</sub> 2 cells is increased in allergic disease and associated with IL-5 but not IFN- $\gamma$ expression. Immunology, 1997, 91, 53-57.	4.4	91
20	Effect of cyclosporin A on the allergen-induced late asthmatic reaction. Thorax, 1997, 52, 447-452.	5.6	75
21	Management of allergic and non-allergic rhinitis: a primary care summary of the BSACI guideline. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2010, 19, 217-222.	2.3	56
22	Patient-reported outcome measures for asthma: a systematic review. Npj Primary Care Respiratory Medicine, 2014, 24, 14020.	2.6	56
23	National survey on the roles and training of primary care respiratory nurses in the UK in 2006: are we making progress?. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2007, 16, 284-290.	2.3	41
24	Poor asthma control? â€” then look up the nose. The importance of co-morbid rhinitis in patients with asthma. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2012, 21, 222-228.	2.3	30
25	Moving towards a Treatable Traits model of care for the management of obstructive airways diseases. Respiratory Medicine, 2021, 187, 106572.	2.9	29
26	Standardized training for healthcare professionals and its impact on patients with perennial rhinitis: a multi-centre randomized controlled trial. Clinical and Experimental Allergy, 2007, 37, 90-99.	2.9	26
27	Service evaluation of a UK primary care-based allergy clinic: quality improvement report. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2009, 18, 313-319.	2.3	25
28	Shared decision making or paternalism in nursing consultations? A qualitative study of primary care asthma nursesâ€™ views on sharing decisions with patients regarding inhaler device selection. Health Expectations, 2011, 14, 374-382.	2.6	24
29	The standardized and mini versions of the PAQLQ are valid, reliable, and responsive measurement tools. Journal of Clinical Epidemiology, 2012, 65, 643-650.	5.0	24
30	Assessing the risk of attack in the management of asthma: a review and proposal for revision of the current control-centred paradigm. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2013, 22, 344-352.	2.3	24
31	Self reported rhinitis is a significant problem for patients with asthma. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2005, 14, 83-87.	2.3	21
32	Next-generation care pathways for allergic rhinitis and asthma multimorbidity: a model for multimorbid non-communicable diseasesâ€™ Meeting Report (Part 2). Journal of Thoracic Disease, 2019, 11, 4072-4084.	1.4	15
33	The 'unified airway': the RCPCH care pathway for children with asthma and/or rhinitis. Archives of Disease in Childhood, 2011, 96, i10-i14.	1.9	13
34	Should UK allergy services focus on primary care?. BMJ: British Medical Journal, 2006, 332, 1347-1348.	2.3	7
35	10-minute consultation: Food allergy. BMJ: British Medical Journal, 2002, 325, 1337-1337.	2.3	6
36	Protocol for the adolescent hayfever trial: cluster randomised controlled trial of an educational intervention for healthcare professionals for the management of school-age children with hayfever. Trials, 2010, 11, 84.	1.6	6

#	ARTICLE	IF	CITATIONS
37	10-minute consultation: Rhinitis. BMJ: British Medical Journal, 2002, 324, 403-403.	2.3	5
38	Diagnosing allergy in primary care: are the history and clinical examination sufficient?. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2006, 15, 219-221.	2.3	5
39	Adolescent seasonal allergic rhinitis and the impact of health-care professional training: cluster randomised controlled trial of a complex intervention in primary care. Npj Primary Care Respiratory Medicine, 2014, 24, 14012.	2.6	4
40	FourFold Asthma Study (FAST): a study protocol for a randomised controlled trial evaluating the clinical cost-effectiveness of temporarily quadrupling the dose of inhaled steroid to prevent asthma exacerbations. Trials, 2016, 17, 499.	1.6	4
41	Temporarily quadrupling the dose of inhaled steroid to prevent asthma exacerbations: FAST. Health Technology Assessment, 2018, 22, 1-82.	2.8	4
42	Immunotherapy for Hayfever. , 2000, 78, 199-208.		3
43	Assessment of key influences on asthma inhaler device selection. Nursing Standard (Royal College of) Tj ETQq1 1 0,784314 rgBT /Overd	0,1	0
44	Omalizumab reduces frequency of asthma exacerbations in children. Journal of Pediatrics, 2011, 159, 512-513.	1.8	2
45	Developing and testing of a screening tool to predict people without IgE-mediated allergy: a quantitative analysis of the predictive value of a screening tool. British Journal of General Practice, 2017, 67, e293-e299.	1.4	2
46	Asthma action plans in action; nurses' roles in promoting self-management. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2007, 16, 269-270.	2.3	1
47	Is it unfair to hayfever sufferers to have to sit examinations during periods of high pollen counts?. Expert Review of Respiratory Medicine, 2010, 4, 421-425.	2.5	1
48	211 Grass pollen immunotherapy improves quality of life in seasonal rhinitis and reduces peak seasonal asthma and bronchial hyperresponsiveness. Journal of Allergy and Clinical Immunology, 2000, 105, S68.	2.9	0
49	Management of Allergic Disease. , 0, , 303-328.		0
