citing authors

#	ARTICLE	IF	CITATIONS
1	Inherited dreams: A twin study of future orientation and heritability among chinese adolescents. <i>European Journal of Developmental Psychology</i> , 2022, 19, 213-233.	1.8	1
2	Dopaminergic and neurotrophic genetic polymorphisms modulate the implicit genderâ€“science stereotype. <i>PsyCh Journal</i> , 2021, 10, 364-373.	1.1	0
3	Genetic contribution to the phenotypic correlation between trait impulsivity and resting-state functional connectivity of the amygdala and its subregions. <i>NeuroImage</i> , 2019, 201, 115997.	4.2	15
4	The Beijing Twin Study (BeTwiSt): An Update. <i>Twin Research and Human Genetics</i> , 2019, 22, 486-491.	0.6	3
5	Born for fairness: evidence of genetic contribution to a neural basis of fairness intuition. <i>Social Cognitive and Affective Neuroscience</i> , 2019, 14, 539-548.	3.0	4
6	The Hierarchical Organization of the Default, Dorsal Attention and Salience Networks in Adolescents and Young Adults. <i>Cerebral Cortex</i> , 2018, 28, 726-737.	2.9	144
7	Investigating Unique Environmental Influences of Parenting Practices on Youth Anxiety. <i>International Journal of Behavioral Development</i> , 2016, 40, 205-212.	2.4	7
8	The BDNF Val66Met Polymorphism Interacts with Maternal Parenting Influencing Adolescent Depressive Symptoms: Evidence of Differential Susceptibility Model. <i>Journal of Youth and Adolescence</i> , 2016, 45, 471-483.	3.5	18
9	Genetic and environmental contributions to anxiety among Chinese children and adolescents â€“ a multi-informant twin study. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2015, 56, 586-594.	5.2	23
10	Investigating genetic and environmental contributions to adolescent externalizing behavior in a collectivistic culture: a multi-informant twin study. <i>Psychological Medicine</i> , 2015, 45, 1989-1997.	4.5	18
11	BDNF Val66Met, stress, and positive mothering: Differential susceptibility model of adolescent trait anxiety. <i>Journal of Anxiety Disorders</i> , 2015, 34, 68-75.	3.2	11
12	Moderation of Harsh Parenting on Genetic and Environmental Contributions to Child and Adolescent Deviant Peer Affiliation: A Longitudinal Twin Study. <i>Journal of Youth and Adolescence</i> , 2015, 44, 1396-1412.	3.5	12
13	Genetic and Environmental Etiologies of Adolescent Dysfunctional Attitudes: A Twin Study. <i>Twin Research and Human Genetics</i> , 2014, 17, 16-22.	0.6	8
14	A Twin Study of Problematic Internet Use: Its Heritability and Genetic Association With Effortful Control. <i>Twin Research and Human Genetics</i> , 2014, 17, 279-287.	0.6	56
15	Genetic and Environmental Influences on Depressive Symptoms in Chinese Adolescents. <i>Behavior Genetics</i> , 2014, 44, 36-44.	2.1	15
16	Etiological heterogeneity of symptom dimensions of adolescent depression. <i>PsyCh Journal</i> , 2014, 3, 254-263.	1.1	7
17	The interacting effect of the <sc>BDNF</sc> Val66Met polymorphism and stressful life events on adolescent depression is not an artifact of geneâ€“environment correlation: evidence from a longitudinal twin study. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2013, 54, 1066-1073.	5.2	34
18	Genetic and Environmental Influences on Adolescent Rumination and its Association with Depressive Symptoms. <i>Journal of Abnormal Child Psychology</i> , 2013, 41, 1289-1298.	3.5	20

#	ARTICLE	IF	CITATIONS
19	The Beijing Twin Study (BeTwiSt): A Longitudinal Study of Child and Adolescent Development. <i>Twin Research and Human Genetics</i> , 2013, 16, 91-97.	0.6	45
20	Interacting effect of <sc><i>BDNF</i></sc> Val66Met</sc> polymorphism and stressful life events on adolescent depression. <i>Genes, Brain and Behavior</i> , 2012, 11, 958-965.	2.2	41
21	Optimization of Zygosity Determination by Questionnaire and DNA Genotyping in Chinese Adolescent Twins. <i>Twin Research and Human Genetics</i> , 2010, 13, 194-200.	0.6	43
